The educational services of the University are open to all who can benefit from them, without regard to sex, age, racial or ethnic background, religious persuasion, or social or financial position. The president and officers of North Park University reserve the right to change the requirements for admission or graduation announced in this catalog, and to change the arrangement, scheduling, credit, or content of courses, the books used, fees charged, regulations affecting students, and to refuse to admit or readmit and to dismiss any student at any time, should it be deemed to be in the interest of the student or of the University to do so. It is the personal responsibility of each student to acquire an active knowledge of all regulations set forth in this catalog.

INTRODUCTION

In the more than 120 years since our founding, a world-class city has grown up around North Park University. Today we seek students eager to become servant leaders in an increasingly global and urban society. The city of Chicago, with its immense commercial, service, and cultural endowments, has been our address for over a century; today it is our classroom.

Because we cherish our central identity as a residential, liberal arts university, we attempt only what we can do well. Excellence is what we ask of ourselves and what we seek in all of our varied academic and cocurricular programs.

At North Park excellence implies not only a deep tradition in the liberal arts and the Christian faith, but also a spirit of innovation, reaching out to serve and to learn from the dynamic community around us. Centers of cultural studies enrich the life of the campus and connect us to the diverse people of Chicago, whose roots extend around the globe. Graduate and special undergraduate programs enhance the University's resources in the liberal arts, as well as specialized areas such as business, the health sciences, and education.

We are looking for men and women who long to grow in knowledge and faith, and who seek a sense of vocation through leadership and servanthood in a global society.

STATEMENT OF MISSION, VISION, AND ASPIRATION

MISSION

The mission of North Park University is to prepare students for lives of significance and service through education in the liberal arts, professional studies, and theology.

VISION

Our vision, building on our core institutional identity—Christian, urban, and intercultural—is to fashion a university of uncommon character and enduring excellence where faith, learning, and service meet.

ASPIRATION

Formed in faith and driven by Christian mission, North Park University adopts Chicago as classroom to prepare a new generation of global leaders, committed through personal faith and professional expertise to advancing the health and vitality of the world's people and their cities.

ABOUT NORTH PARK

Core Values and Educational Ideals

Core Values

The University's challenging academic programs and supportive learning environment are shaped by our Christian identity, urban location, and intercultural community.

Rooted in the tradition of the Evangelical Covenant Church, North Park nurtures Christian faith while welcoming students from all traditions. By integrating faith with learning, we challenge students to ask life's big questions, and prepare them to lead lives of significance and service.

The city is our classroom, and we take full advantage of the cultural, academic, and professional resources right in our backyard. A North Park education helps students understand the diverse world around them and prepares them to thrive in a global workplace.

North Park is home to students from 42 states and 30 countries, and our campus is located in one of the most diverse zip codes in the country. This unique intercultural environment allows students to serve and learn from the dynamic community around them in ways that enrich the life of the campus.

Educational Ideals

Reflecting the core values which shape our distinctive learning community, students at North Park University experience an education that:

- Is rooted in and committed to the Christian faith and its sacred text, the Bible
- Engages Chicago as a dynamic context for learning and service
- Embraces all people and celebrates the richness of cultural difference
- Affirms learning in all its forms—in the classroom and beyond—as a gift, a joy, and a sacred obligation
- Encourages dialogue as a means of learning where open inquiry, integrity, and civility guide our life together
- Seeks to form and transform the whole student (intellectually, socially, and spiritually)
- Values each student for who he or she is and who they will become

Our Campus: An Urban Oasis

With ample green space along the North Branch of the Chicago River, North Park's campus is located in a park-like setting in a diverse neighborhood of Chicago's Northwest Side. Some of the buildings on campus have been here since our founding, while others were added as the University and its programs grew. Today, our campus includes a state-of-the-art recreation center, an expansive library, and a new center for science and community life. With a traditional undergraduate enrollment in the fall of 2014 of 1,925 students and a total enrollment (including adult, graduate, and Seminary students) of 3,140, North Park offers the advantages of small classes with expert professors who are committed to teaching, not only in their classrooms, but also across campus and in personal conversations. North Park subscribes to the principle that education addresses the whole person. This calls for a genuinely personal commitment from those who teach and those who learn. We hold the conviction that our campus offers the ideal setting for this process.

A Christian Comprehensive University

As a Christian school North Park University seeks to link the intellectual and spiritual development of its students. To support this educational experience, North Park recruits and fosters a highly competent full-time faculty of men and women who are committed Christians. We also seek to embrace the whole Christian church in its various expressions of belief and practice. Thereby, our faculty and staff together reflect the breadth and depth found in the worldwide Christian community and work to relate the enduring values and understandings of the Christian tradition to the academic fields they represent.

Our student body also reflects an array of religious tradition and spiritual commitment. The spirit of North Park's community is one of acceptance; students are admitted without regard to their religious creed and given the freedom to inquire and develop within a community distinctively shaped and defined by the Christian tradition.

North Park also holds that an education should prepare students for significant, morally responsible lives and equip them with the intellectual and social skills necessary to succeed in any vocation or pursuit. To serve this end, the University's undergraduate program is anchored in a general education curriculum that introduces students, usually in their first and second years, to the liberal arts disciplines. Within these areas of study students learn how to research, to reason, to evaluate and value, and to communicate—skills as important as the knowledge learned in these courses. Within this Core Curriculum, breadth of understanding and versatility of response are the underlying objectives; and when combined with advanced study in a major program, often including several courses with a professional or career focus, we believe a general education is an optimal foundation to prepare students for a continually changing society and the career opportunities it develops and offers.

Yet an education at North Park extends beyond the classroom. As students engage the campus community and the city of Chicago, they take part in opportunities to build community, serve, worship, and develop leadership skills. Under the planning and guidance of North Park's Center for Student Engagement and other program centers, a variety of programs and activities are built on the premise that young adults are best served when given the opportunity to make constructive life choices and take advantage of resources offered to them.

Chicago plays a major role throughout a North Park education. Courses in every discipline are enriched by the University's larger Chicago "classroom." Each year hundreds of North Park students volunteer through University Ministries, including the Urban Outreach program. Our Global Partnerships program, as well as options for study abroad, offer students both short- and longer-term opportunities to travel, serve, and learn worldwide.

A Place of Achievement and Preparation

North Park prizes its tradition of high accomplishment by students, faculty, and alumni. Our Honors Congress is designed to bring students and faculty into a learning community that promotes academic excellence, rigorous intellectual development, community involvement, campus and community service, leadership development, and vocational direction. Honors Congress students are assigned mentors to assist them in creating an undergraduate portfolio that will enhance these applications starting in the first year of study. Academic achievement at North Park is also

recognized through numerous scholarship and departmental honors that are awarded annually to students demonstrating excellence in the classroom.

Student achievement is also found in extracurricular activities. North Park is a member of Division III of the National Collegiate Athletic Association and the College Conference of Illinois and Wisconsin (CCIW). The CCIW is recognized as the premier private college conference in the NCAA's Division III, with 46 national championships. North Park teams regularly produce All-American and All-Conference athletes and compete in post-season play. On campus and throughout Chicago, our students also discover or enhance their creative talents with programs in music, theatre, and visual arts, including our Gospel Choir and University Choir, which tour nationally and abroad.

North Park is a place where achievement is encouraged; it is also a place where future achievement is planned. The Office of Career Development and Internships helps students identify and prepare for a vocation they're passionate about with our strategic, four-year Career Advantage program. Career preparation at North Park emphasizes the complementary relationship between a liberal arts foundation and specialized study on an advanced level. Because we are interested in the whole person, we prepare our students not just for making a living, but for leading meaningful and creative lives. At graduation, North Park students are prepared to succeed in a competitive job market or for further study in graduate school.

The Campus

Whether students commute, live on campus in one of our residence halls or University-owned apartments and houses, or are distance learners, studying at North Park allows students to enjoy all the benefits that our campus location has to offer, including the unique experiences that come with our close-knit community. Our campus is a blend of urban life, open spaces, and modern academic resources. Our newest additions include a new science and community life center, a state-of-the-art recreation facility, and an expansive library.

Opened in Fall 2014, the Johnson Center for Science and Community Life is located in the heart of campus, and serves as a hub of student activity. Students learn in its technology-enhanced science and health professions classrooms and laboratories, and connect with resources in academic departments and the Center of Student Engagement. Offices housed within the Johnson Center include Career Development and Internships, University Ministries, International Student Services, and Student Success. Students are also able to recharge and study in the Bickner Bistro, the atrium, lounges, and a prayer room.

Helwig Recreation Center houses a state-of-the-art workout facility; a 200 meter, indoor track; a 35-yard practice turf; a climbing wall; coaches' offices; athletic training facilities; and classroom space. Two short blocks east of the main campus is Holmgren Athletic Complex, including the Ted Hedstrand softball, baseball, soccer, and football fields, designed for both practice and play for recreational and intercollegiate use.

The Paul and Bernice Brandel Library and Learning Center, anchors the southwest corner of the campus north of the river. The library has reciprocal borrowing agreements with many Chicago-area academic libraries, resulting in direct access to millions of books and periodicals. The Archives of North Park University, the Evangelical Covenant Church, and the Swedish-American Historical Society are also located in the library.

ADMISSION, FINANCIAL AID, BILLING

TRADITIONAL UNDERGRADUATE ADMISSION

Introduction

North Park University seeks to enroll students who are likely to succeed in the university setting, and who fit and desire the distinctive educational experience offered by North Park. The greater the academic strength and capabilities of the student, and the more the student understands, respects, and identifies with the mission of the institution, the greater the likelihood of success. North Park University is committed to the premise that as an institution of the Christian community, North Park's student body (as well as the faculty and staff) should reflect the racial and ethnic diversity of the Kingdom of God. Furthermore, North Park University seeks to form a student body that is both national and international in composition. Additionally, North Park University is committed to providing opportunity, structured support, and developmental strategies to select students who have under-developed skills, but who clearly desire to participate in and demonstrate the potential to enrich the life of the campus. Finally, those students who are prepared to embrace the city as a dynamic place for learning are most likely to engage learning at North Park in an active and comprehensive way.

Enrollment Considerations and Expectations

In considering students for admission, the University does not discriminate on the basis of race, creed, national origin, sex, age, disability, or status as a veteran. Recognizing that all education is built upon a set of presuppositions and values, as an intentionally and distinctively Christian institution, North Park University expects its students to be aware of and desire an education that is informed and framed by Biblical perspectives and values. The Christian faith and teaching of the Bible are presented forthrightly for consideration and evaluation by all. At the same time, we welcome and enroll students from other religious traditions, and students without any faith perspective; their perspectives are welcomed and respected, while it is expected that all students respect the fundamental mission and identity of North Park as an intentionally Christian institution.

Model College Preparatory Curriculum

North Park University recommends a well-balanced college preparatory curriculum. This curriculum should include:

- Four years of English including grammar, literature, and composition
- Three years of mathematics including algebra, geometry and calculus
- Three years of science which may include biology, chemistry, physics, and/or physical science
- Three years of history/social studies that include world history, geography, psychology, sociology, philosophy, and/or economics
- Two years of foreign language, minimum, four years recommended, in French, German, Spanish, or other
- Electives that are college preparatory

Application Timetable

Early application and decision tend to indicate an increased likelihood for the success of an individual student at the University. North Park employs a rolling admission policy. Decisions are normally made in ten to fourteen days of a completed file, meaning all required or specifically requested materials have been received by the Admission Office.

Recommended application deadlines

	Fall Semester	Winter Semester
First-year students	April 1	December 15
International students	June 1	October 1
Transfer students	July 1	December 15
Readmission	August 1	December 1
Second bachelor's degree students	July 1	December 15
Non-degree-seeking students	July 1	December 15

Applications received and completed after these dates are considered and acted upon as space is available in the incoming class. Please note that financial aid opportunities are generally most favorable for early applicants.

Acceptance of Admission

Once accepted, a student must decide to accept an admission offer by making a tuition deposit. This signifies your intent to enroll at North Park University. The tuition deposit deadline for the fall semester is May 1. Cancellations after May 1 are not refundable. Failure to make a tuition deposit by the specified deadline may result in the cancellation of a student's acceptance, and admission and elements of the financial aid package may be offered to another student. A housing deposit is required to secure student housing. It is refundable upon conclusion of studies at North Park, less any damage assessments incurred.

First-Year Students

Admission Criteria

In evaluating first-time-to-college students for admission, the University considers a set of indicators that predict the likelihood of success at the college level. These include the following:

- High school GPA
- Test scores: SAT (code: 1556) or ACT (code: 1098)
- Class Rank
- High school attendance record
- Activities and involvements that reflect initiative, leadership, and personal character and values
- Demonstrated interest in North Park University
- Alignment with the mission of the University

Materials Required for Consideration

The following materials must be submitted to North Park University's Office of Undergraduate Admission prior to an admission decision. Credentials submitted in support of an application become the property of North Park University and are not returned.

- Completed application form, including an essay or personal statement (if requested).
- Official high school transcript (final transcript, sometimes called proof of graduation, due upon graduation from high school); homeschooled students are also required to submit a transcript documenting their studies.
- Official notification of standardized test scores from American College Testing program (ACT) and/or Scholastic Aptitude Test (SAT); may be included on high school transcript.
- Personal references/recommendations strengthen an application, North Park requires one academic reference, completed by a high school principal, guidance counselor, or teacher, Another completed by a pastor/youth pastor, coach, mentor, or employer (should not be a family member) is welcome and may strengthen an application.
- Personal interview, as requested.
- Other materials, as requested.
- Application fee.

- Activities and involvements that reflect initiative, leadership, and personal character and values.

Materials Required for Transfer Applicant Consideration

The following materials must be submitted to North Park University's Office of Undergraduate Admission prior to an admission decision. Credentials submitted in support of an application become the property of North Park University and are not returned.

- Completed application form, including an essay or personal statement (if requested).
- Complete official transcripts from each college or university attended.
- Other materials as requested, including high school transcript or ACT/SAT scores.
- Personal interview, as requested.
- Application fee.

Transfer of Credit Earned Prior to Attending North Park University

North Park University accepts all courses offered by any regionally accredited institution as long as the coursework is in some way equivalent to what North Park University offers or is consistent with the liberal arts nature of the University.

Transfer of credit is evaluated chronologically; transfer of credit from a two-year college is limited to 60 semester hours. Credit for work completed beyond this total must be from a bachelor's degree-granting institution. Transfer of credit from a bachelor's degree-granting institution is limited to 90 semester hours.

Courses taken from regionally non-accredited institutions of learning may be considered for transfer credit if they are consonant with the general liberal arts tradition in higher education (i.e., excluding courses in non-accredited institutions of higher education whose content is exclusively vocational or technical, such as bookkeeping, cosmetology, ministry, culinary arts, or engineering technology).

If courses from non-accredited institutions are accepted provisionally, 30 semester hours of work at North Park with a grade of C or better must be completed before the non-accredited transfer work will be credited to the student's record.

Remedial courses, as so labeled by these institutions, are exempt from this policy unless judged by the Office of Student Administrative Services to be equivalent to those offered at North Park and accepted for credit. Transfer students are expected to fulfill the same degree requirements as students starting at North Park. Courses transferred may apply to degree requirements in one of the following categories.

- The fulfillment of Core Curriculum requirements will be assessed by the Office of Student Administrative Services as part of its initial transcript evaluation.
- The fulfillment of requirements in a major will be determined by the major department as part of the major declaration process.
- All other courses will count as electives in fulfillment of the 120 semester hour graduation requirement.

All transferred courses will be recorded with the grade received, but for purposes of the student's grade point average at North Park will be considered a "P" (pass).

Transfer Students

Students who have graduated from high school and studied at another post-secondary institution are welcome to apply to for admission to North Park University as transfer students.

An applicant who has twelve (12) or more transferable hours, based on a transcript evaluation by North Park, will be considered a transfer student. An applicant with less than twelve (12) transferable hours, based on a transcript evaluation by North Park, will be considered a first-year student.

Admission Criteria

In evaluating transfer applications for admission, the University considers a set of indicators that predict the likelihood of success at the University. These include the following:

- Transferable GPA: North Park requires a minimum cumulative GPA of 2.5 (4.0 scale) on 12 or more transferable credit hours, as evaluated by North Park University.
 1. If transferable GPA is under 2.5, an applicant may be asked to provide high school transcripts and ACT/SAT test scores, if graduation from high school is within two years.
 2. Classes that will not transfer include, but are not limited to, the following: nursing courses, athletic training courses, remedial (below 100 level or 1000 level) courses, technical/job training courses, school-specific courses, activity courses, and graduate school classes.
 3. Some programs, such as nursing, athletic training, and education, have additional and higher entrance requirements.
 4. Some courses may be transferable as electives but not count toward general education, program, or major requirements.
- Essay on topics specified on the application form.
- Demonstrated interest in North Park University.
- Alignment with the mission of the University.

Students must submit final, official transcripts from all post-secondary institutions attended. Failure to do so may be grounds for dismissal from the University. Transcripts must have been issued within the last calendar year and must be received by North Park University in a sealed envelope. Until final and official transcripts are received by the Office of Student Administrative Services, all evaluations will be considered provisional.

Courses that are judged non-transferable may be disputed by appeal through the Registrar who, in consultation with the department head in the appropriate field (if applicable), will attempt to reach a satisfactory judgment. Appeals must be made in the first semester of enrollment.

International Students

Students who hold passports from other countries than the United States may apply as international students. Students who hold both an American passport and a passport from another country are considered domestic students.

Admission into the University requires international students to demonstrate:

- Likelihood of academic success
- Ability to pay
- English language proficiency sufficient to undertake undergraduate studies

International students must complete and submit an application form and must also submit the following:

- Financial Resources Statement demonstrating the ability to pay, along with copies of official bank statements
- SAT and ACT scores are helpful but optional (North Park University's SAT code is 1556 and ACT Code is 1098).
- A TOEFL score (North Park University's TOEFL code is 1556); a score of 550 (paper exam) or 68 (internet-based test) is required for admission as an undergraduate student. Students with TOEFL scores below requirements may apply for admission into the English as a Second Language (ESL) program at North Park.
- All students are tested for their English skills during orientation prior to the start of classes. Students who require additional English competency may be required to take one or more ESL courses during their first and/or second semesters of study at North Park. Up to 8 credit hours of ESL courses may be applied as academic credit toward a BA degree.
- Photocopy of current passport and visa (if held)
- Documents, including transcripts and/or government exam scores, should be in English whenever possible. If an adequate translation is not provided, the student may be assessed a translation fee. International student transcripts may be evaluated by an independent company, such as World Education Services (WES), at the expense of the student.

An international student must maintain a full program of studies. Normally, this means a minimum of 12 semester hours per term for undergraduates and 9 credit hours per term for graduate students. Employment is not allowed except by permission from the United States Government. Such employment may not interfere with the student's course of study. The processing of an international student's application usually takes several months.

Complete applications should be filed by June 1 for the fall term, which begins in August, and October 1 for the spring term starting in January.

Non-Degree-Seeking Students (Visiting Students)

Non-degree-seeking students studying during the regular academic year (fall and spring semesters) must complete and submit the appropriate application form available on the North Park University website. Non-degree-seeking students may take up to 30 hours of credit.

Applicants for Readmission

Students who have left the University, or who have been dismissed for disciplinary or academic reasons, may apply for readmission to North Park. Applications for readmission are available through and are submitted to the Division of Student Engagement. Readmission will be based on an application, personal statement, transcripts, and/or other documents to aid in the readmission process.

If students wish to return following dismissal for academic reasons, they must petition the Student Academic Standing Committee (SASC) prior to applying for readmission, at least two months before the beginning of the term in which enrollment is desired. A petition form is available at the Student Administrative Services Office. The committee will evaluate requests for readmission on the basis of the following criteria:

- The student's written petition in which (a) compelling reasons are offered for wishing to return to North Park University; (b) the student's activities or accomplishments during the period of dismissal are described; and (c) there is indication of why academic performance will be better than before the dismissal. (Letters of recommendation from faculty members, including the student's academic advisor, who can attest to the student's likelihood of success at North Park will be considered by the committee in conjunction with the student's statement.)
- Evidence of the student's ability to perform work necessary, within one academic year, to raise his/her GPA to the minimum level required for good standing in his/her classification.

The SASC will evaluate petitions in terms of the criteria listed above and determine, on a case-by-case basis, whether or not to grant readmission.

Students Seeking Second Bachelor's Degree

North Park welcomes students who have completed a bachelor's degree and are seeking a second bachelor's degree. Materials required for consideration include:

- Completed undergraduate application
- Official transcript(s) showing all previous undergraduate or graduate course work

Exchange Students

North Park maintains an active and robust exchange program with a number of partner institutions outside the United States and also participates in the International Student Exchange Program (ISEP). Students who wish to attend North Park University as an exchange student should apply through the international student office at their home school. The International Office at North Park is responsible for processing exchange student applications. Exchange students who wish to continue studies at North Park University must apply for admission as a transfer student.

Traditional Undergraduate Billing and Financial Aid

Billing Policies

1. Tuition, fees, room, and board are billed in advance of each semester and are payable on specified due dates. Due dates are generally several weeks before the start of the semester. Payment may be made by check, e-check, cash, or credit card.
2. Payment plans are available to allow a student to spread annual costs over a semester. Contact the Office of Student Administrative Services at (773)244-5560 for more information.
3. Students with outstanding balances are not allowed to register for a new semester until all amounts from prior semesters are paid in full or satisfactory arrangements are in place (i.e., approved student loan or other financial aid is pending).
4. If payment is not made in full or satisfactory arrangements are not in place by the due date, a late fee will be applied to the student's account.
5. A finance charge of 1.5 percent per month is added to unpaid balances.
6. Student accounts that become delinquent may be submitted to a collection agency. As a part of normal procedures, collection agencies report defaulted accounts to National Credit Bureaus.
7. To reserve an assigned space in University housing, a housing deposit is required of each new student accepted for housing. This is held by Office of Residence Life and Housing as a damage deposit and does not appear as a credit on the bill.

Insurance

All full-time undergraduate students are required to have health insurance coverage and are automatically billed for the individual health insurance fee. Students may elect to refuse the policy and have the charge reversed if they can provide proof of other coverage by a specified due date each term. Married students can enroll for coverage for spouses and children for an additional premium charge.

Tuition and Fees Policies

Students who withdraw prior to the start of a semester, or before the end of the first week of a semester, will not be charged tuition and fees. Students who withdraw after the start of the second week of a semester will be charged tuition and fees based on the following schedule (assuming a 16-week semester):

Withdrawl Before the End of Week Number	Tuition Charge
Two	20%
Three	40%
Four	50%

Enrollment beyond the fourth week of the semester results in the entire charge of tuition and fees for that semester.

Board charges are refundable based on the number of weeks of food service provided. Room charges are refundable as follows:

- 100% refundable up to two weeks prior to the start of the semester

- 100% refundable (minus the residence deposit) after the two week deadline but prior to the start of the semester
- 80% refundable after the start of the semester but before the end of the second week of the semester
- No refund after the end of the second week of the semester

Students who receive federal financial assistance and who withdraw must have a portion of that aid reduced in accordance with federal regulations.

In addition, students who withdraw prior to the end of a semester and who have received a cash disbursement from certain federal assistance programs must undergo a review to determine if a repayment of federal funds is due. First-time students at North Park who receive federal assistance and who withdraw before the end of the term may be subject to additional refunding in accordance with federal regulations.

North Park reserves the right to revise charges and billing policies at any time.

Financial Aid

Application for Financial Aid

New students interested in receiving financial aid should:

- Apply and be accepted for admission to North Park University.
- Complete the Free Application for Federal Student Aid (FAFSA) to be considered for federal or state grants, loans, and/or work study.
- First-year students applying for music, art, journalism, or theatre scholarships should contact the Admissions Office for information.
- Financial aid packages will be sent to a student after they have been admitted, and North Park University has received their completed FAFSA.

Costs and Financial Aid

North Park University offers eligible students federal, state, and institutional financial aid. Federal programs available include the Pell Grant, Supplemental Educational Opportunity Grants, Work-Study, Perkins Loans, Federal Stafford Loans, and Parent (PLUS) Loans. State grants include the Illinois Incentive to Access and the Illinois Monetary Assistance Program. In addition, North Park has a generous institutional assistance program including academic scholarships, music scholarships, art scholarships, theatre scholarships, journalism scholarships, and need-based grants.

For additional information about the music, theatre, journalism, and art scholarships, see the North Park University website. To apply for all other financial aid, students must complete the Free Application for Federal Student Aid (FAFSA, www.fafsa.ed.gov). Once a student has completed the application process and North Park has received the results of the FAFSA, they will be notified of the aid for which they qualify.

The costs below reflect the base cost of North Park before financial aid. Over 90% of students at North Park receive financial aid, which significantly reduces the cost of attendance. For first-time traditional undergraduate students at North Park University for the 2014-2015 academic year, the cost of attending is the following:

Tuition:	\$24,540
Room/Board:	\$8,220 (based on double room in residence hall and 15-meal board plan)
Insurance:	\$1,753
Books:	\$1,000 (estimate)
Personal Expenses	\$2,100 (estimate)

Financial aid may include a combination of scholarships, grants, loans, and/or guaranteed campus employment. The financial aid package will include all aid for which the student qualifies. However, a student may elect to accept any or all of the financial aid offered. If a student, however, feels that their financial situation has changed since initially completing the FAFSA, or if there are extenuating circumstances, the student may appeal their financial aid by completing an appeal form, which is available from the Office of Student Administrative Services. A committee reviews all financial aid appeals and responds to students in writing.

Eligibility Requirements for Federal and State Financial Aid

To be eligible for federal or state financial assistance, a student must:

- Be enrolled at least half-time (6 semester hours or more per semester) as a degree-seeking student. To receive full federal financial aid, a student must be registered for 12 credit hours per semester. To receive full state financial aid, a student must be registered for 15 or more credit hours.
- Be a citizen or eligible non-citizen of the United States of America. Eligible non-citizens are students who are permanent residents and have an I-151 or I-551 (Alien Registration Receipt Card) or who are of refugee status and have an I-94 (Arrival-Departure Record) with appropriate endorsement.
- Not owe a refund or be in default on any federal programs covered under Title IV of the Higher Education act of 1965, as amended.
- Be making satisfactory academic progress toward a degree. North Park's satisfactory academic progress policy is available in the Office of Student Administrative Services and in general follows the academic policies outlined in this catalog.

Eligibility Requirements for Institutional Financial Aid

- Students must be enrolled in 12 or more credit hours per semester to receive institutional financial aid.
- Students who live in campus housing and receive financial aid will have their institutional financial aid reduced if they move out of campus housing. A detailed description of the Financial Aid/Housing Policy can be obtained from the Office of Student Administrative Services.
- Students who receive certain academic scholarships must maintain a specified GPA or their scholarship will be reduced. A detailed copy of the Financial Aid/Scholarship Reduction Policy can be obtained from the Office of Student Administrative Services.

Satisfactory Academic Progress

Criteria

To be eligible for federally and state funded financial aid programs, all student financial aid recipients must meet Satisfactory Academic Progress (SAP) standards. The Standards of Academic Progress are evaluated and students are notified when they don't meet the SAP requirements at the conclusion of each period of enrollment. North Park University evaluates students' SAP both qualitatively and quantitatively by reviewing the following three areas of performance:

Requirements:

1. Grade Point Average. The following minimum grade point average must be maintained:

Hours Earned	Min. GPA
0-29	1.6
30-59	1.8
60+	2.0

2. Pace of Completion: Students must progress toward completion of their declared degree/certificate while maintaining a minimum 67% completion rate. The completion rate is calculated by dividing the cumulative number of credit hours a student has successfully completed by the cumulative number of credit hours a student has attempted.
3. Maximum Time Frame: Students may receive financial aid until they attempt 180 semester hours of credit from North Park and/or transfer schools. This policy will consider all enrollments at North Park and other colleges/universities whether or not financial aid was received. The SAP standards require students pursuing a second bachelor's degree to complete their program within the required 180 semester hours.
4. Attempted Credits:
 - Failures and Incompletes: Failures and incompletes are counted toward hours attempted and will be included in computing GPAs.
 - Withdrawals: If a student has withdrawn from a class (Drop or Withdrawal), it is not included when calculating grade point average. It is included in attempted hours and counted as an attempted hour that was not completed. Thus, it will negatively impact earned credits.
 - Audits: Audited courses are not aid eligible and are not included in any financial aid satisfactory academic progress measurement. All other courses, including pass/fail courses that are passed, will be counted as credits completed.
 - Repeat Classes: Repeat credits are credits awarded when a student repeats a course in order to improve a grade. A student may repeat a class as allowed by the institution. For the first three courses, the new grade can replace the initial grade. For additional courses beyond 3, the grade will be the average of the two grades. All repeated credits are counted as hours attempted and included in the percent of completion and maximum time frame calculations. For an individual course, a student may receive financial aid for only one repeat attempt. NOTE: Title IV eligibility for repeated courses is subject to the July 1, 2011, Program Integrity Regulations.
 - Transfer Credits: When a student transfers into North Park, the credits accepted by North Park are not included in the cumulative North Park GPA. The credits are counted as attempted credits so they are included in the maximum time frame and counted as credits completed. After a student has matriculated to North Park, if he/she takes additional courses at a different university and wishes to transfer those courses to North Park, both grade and hours attempted will be counted in the North Park transcript and SAP calculations.

Procedures:

1. Monitoring SAP
 - The Financial Aid office will monitor SAP at the end of each semester.

- Students who meet all of the SAP requirements are considered to be in Good Standing.
- Students who are determined to be Not in Good Standing will be issued written notification sent to the student's North Park University email account. They will be notified of their standing and placement on: Financial Aid Warning, Financial Aid Suspension, Financial Aid Probation.
- Students will be notified by email to their North Park University email account if they are returned to Good Standing and placed on Financial Aid Reinstatement.
- Some students on Financial Aid Probation may be required to make an Academic Plan. Those plans will be monitored by the Financial Aid Department in consultation with Student Engagement.

2. Warning, Suspension, Appeal, Probation, Reinstatement Status

Warning

- Students who have not met one or more of the SAP standards will be placed on Warning status for the next semester of enrollment. A student remains eligible to receive financial aid while on Warning status. At the end of the semester, the student will again be evaluated for SAP. If he or she has met all of the SAP requirements, they will be removed from Warning and considered in Good Standing. Students who have not met all of the standards will be placed on Suspension.

Suspension

- Students who have not met one or more of the SAP standards after completing a semester on Warning will be placed on Suspension. Without an approved appeal, students who are on Suspension are not eligible for federal/state financial aid for their next period of enrollment. Students who have been placed on Suspension may appeal to have financial aid reinstated.
- Students wishing to be removed from Suspension must complete and submit an Appeal form, available from the Office of Student Administrative Services
- There are 3 possible results from the appeal process: (1) Appeal is denied; (2) Appeal is granted and student is placed on Probation; or (3) Appeal is granted and student is placed on Probation with an Academic Plan.
- If it is determined prior to the probation term that the student will not meet the requirements of SAP in one academic term, the student will be required to have an approved academic plan on file.

Probation/Probation with Academic Plan

- Students placed on Probation and Probation with Academic Plan will be eligible for federal/state financial aid.
- Students will be evaluated at the end of the Probation semester. To continue to receive financial aid in the next semester of enrollment, students will be expected to have met the SAP standards or met the requirements of their Academic Plan.
- Students on Probation with an Academic Plan: If the financial aid committee determines that the student could not meet the SAP standards in one semester while on Probation, the Financial Aid Committee will require the student in consultation with financial aid and Student Development prepare an academic

plan that will enable the student to achieve SAP in a prescribed period of time.

Reinstatement

- Students who have met the SAP standards at the end of their probation period will have their financial aid reinstated and are considered to be in Good Standing.

Appeal Procedure for Students Placed on Suspension:

- For an appeal to be considered, the student must either be able to meet the Standards of Satisfactory Academic Progress by the end of the next period of enrollment; or the student must be placed on an academic plan which, if followed, will ensure that the student will be able to meet SAP at a future date. The Academic Plan will be developed in cooperation with the student, financial aid, and academic services.
- A completed Appeal Form needs to document extenuating circumstances such as death of a relative, illness or injury, or other special circumstances addressing why the student failed to make SAP, and to state what has changed in the student's situation that will allow the student to achieve SAP.
- Appeals are reviewed by the Financial Aid Committee. Students are informed of the decision via email within 7 business days of submitting their appeal. The decision of the Financial Aid Committee is final.

Timetable for Awards

Applications for financial aid, as for admission, are considered on a rolling basis. All applicants for aid whose applications are complete and who have been admitted to the University will be considered and notified.

Since applications for admission and applications for financial aid are two separate procedures, and since notification concerning admission and financial aid awards are made separately, a student will receive notification of admission before the notification of financial aid awards. In some cases, admission may be granted but financial aid denied.

Students should complete the FAFSA after January 1. Accepted incoming students can anticipate receiving their financial aid package after March 1. It is to the new student's advantage to complete application for financial aid (FAFSA) by May 1. An exception to this timetable may be made for the student who first enters in the spring semester. In such cases, action will be taken as soon as the necessary procedures are completed.

Financial aid is renewable annually, subject to demonstration of continued need and satisfactory academic progress. Returning students must reapply annually for financial aid by completing the FAFSA online at www.fafsa.ed.gov. It is recommended that the FAFSA be filed as soon as the student and his or her parent(s) have filed their federal income taxes in the spring.

Return of Funds Policy

Students who receive any federal financial aid and who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60% of a semester will have their financial aid recalculated based on the "Return of Title IV Aid" formula derived from the 2009 Reauthorization of Higher Education Act. There are no refunds for any withdrawals after the 60% point in a semester.

Recalculation is based on the percent of aid a student has earned using the following formula:

Federal Financial Aid is returned to the federal government based on the percent of unearned aid using the following formula:

Percent earned = Number of completed days up to the withdrawal date**
 DIVIDED by the total days in the semester. Aid to be returned = (100% -
 percent earned) TIMES the amount of aid disbursed.

When aid is returned, the student will owe a balance to the University. The student should contact the Office of Student Administrative Services to pay the balance.

Worksheets and examples demonstrating the amount of financial aid retained and the amount returned are available from the Office of Student Administrative Services.

Federal financial aid is returned in accordance with federal regulations.

***Withdrawal date is defined as the actual date the student began the institution's withdrawal process, the student's last date of recorded attendance, or the midpoint of the semester if the student leaves without notifying the institution.*

Veterans' Benefits

North Park is approved by the Department of Veterans Affairs. Applicants who qualify should contact the Office of Student Administrative Services for detailed information.

STUDENT PROGRAMS AND SERVICES

Alumni Relations and Services

The Office of Development and Alumni Relations coordinates opportunities for alumni and friends of the University to visit the campus and share in the growth and development of the campus community. The office coordinates annual events such as Homecoming, reunion weekends, and alumni gatherings, and is instrumental in the production of the *North Parker*, the University's alumni magazine. The North Park University Alumni Board assists in the planning and execution of various alumni events throughout the year.

Athletics

Intercollegiate Athletics

North Park University is a member of Division III of the National Collegiate Athletic Association (NCAA) and the College Conference of Illinois and Wisconsin (CCIW) and adheres to the philosophy and regulations of those bodies. The CCIW is recognized as the premier private college conference in the NCAA Division III with 45 national championships. North Park teams regularly produce All-American and all-conference athletes and compete in post-season play. The University has won five NCAA Division III national championships in men's basketball.

Intercollegiate athletics fulfill several important functions at North Park. It enables individuals to develop a personal self-discipline toward the physical, mental, and emotional aspects of training. It emphasizes the value of teamwork in working toward common goals. In this light, the experiences of team sports are considered an important training area for the teamwork required in the business and professional world.

On the personal level, varsity athletics give individuals the chance to realize their own potential within the framework of a competitive athletics program. On the campus-wide level, intercollegiate athletics have been a major focal point for unifying the campus community.

Men compete in baseball, basketball, cross-country, football, golf, indoor track and field, outdoor track and field, and soccer. Women compete in basketball, cross-country, golf, indoor track and field, outdoor track and field, rowing, soccer, softball, tennis, and volleyball.

Club Sports

The men's power volleyball team is a student-coached, student-operated organization open to any male student. Its aim is to teach volleyball skills and to provide opportunities for competitive volleyball. The team, which operates at the club level, belongs to the Chicago Intercollegiate Volleyball Association and is funded by the participants and the Student Government Association.

Ultimate Frisbee is the most popular club sport at North Park. Men's and women's teams compete on the local, regional, and national levels. The 2012 men's team finished third in the national tournament.

Club sport offerings also include a dance team, step team, and cheerleading team, all of which are open to both women and men.

Intramural Sports

Competition in intramural sports is open to the entire University community. Competition in badminton, basketball, dodgeball, flag football, indoor soccer, and innebandy (a variation of Swedish floor

hockey) is available to both men and women. The coed volleyball program is one of the most popular activities on campus.

Fellowship of Christian Athletes (FCA)

The Athletics Department, along with University Ministries, formed this group to minister to all the undergraduate athletic programs. FCA strives to present to athletes and coaches, and all whom they influence, the challenge and adventure of receiving Jesus Christ as Savior and Lord, serving Him in their relationships and in the fellowship of the church.

Auxiliary Services

Business Office

Located on the third floor of Old Main, the Business Office handles the financial transactions of the institution, including all accounting and the payment of institutional bills. The Business Office can direct students to local banks to set up accounts.

Campus Bookstore

The Campus Bookstore is operated for North Park University by Follett Corporation. The store sells a complete line of textbooks and school supplies, souvenirs, and sportswear. The store also buys used texts at the end of each term. It is located in the lower level of the gymnasium.

Campus Security

The Office of Campus Safety and Security at North Park employs off-duty and retired law enforcement personnel from local and state police agencies to promote safety on the North Park campus. North Park security officers patrol the campus 24 hours a day and have the authority to stop, detain, and question anyone who may have committed or is suspected of committing a criminal offense on campus. Because they are law enforcement personnel, our security officers have the power of arrest. Security officers enforce all rules and regulations of the institution.

Due to their law enforcement training and background, North Park security officers have a close working relationship with state and local law enforcement agencies. These agencies are responsive to North Park's security needs and readily provide additional support when requested.

In addition, the North Park Office of Campus Safety and Security encourages the campus community to report criminal incidents and provides education through crime awareness programs. Campus security also notifies the campus community of any crime patterns that may be occurring, thereby emphasizing prevention.

Human Resources

The Human Resources Office is responsible for the processing of student payroll. The Human Resource staff manages the hiring of new student employees, time entries, and generating student employment payments. Students must fill out the required forms, complete new-hire paperwork, and provide proper identification for employment verification (the most commonly provided are a driver's license and a social security card) to the Payroll Office before they start work on campus or within three days of starting their first on-campus job. Only original identification can be accepted, no photocopies or faxes.

Students cannot work on campus until the required paperwork is submitted in payroll; without it, students will not be paid for prior hours worked. Forms are available on the "My North Park" website or in HR. Students are paid bi-weekly (every other Friday). Students are responsible

for web time entry and work directly with supervisors for their time entry approval.

If interested in employment, students may contact departments directly for employment opportunities. If you have any questions, please contact HR at HR@northpark.edu.

Information Technology

Information Technology provides the IT and media services resources on campus. General overview information is available on the office's website, while other specific technology information is available through the resources listed below.

Knowledgebase and Helpdesk: If you need assistance with an IT issue, please begin by searching the online Knowledgebase (under Information Technology at www.northpark.edu) and then opening a Helpdesk ticket if unable to resolve your issue.

NPYou: Personalized information and settings for your North Park account, email, phone, and storage can be accessed through the NPYou portal.

Library Services

Brandel Library supports and extends the academic instruction of the University, helping students develop skills for lifelong learning with a robust collection and its dedicated librarians. With a current ID card, North Park students can access approximately 235,000 books, 500 periodicals, and 2,000 dvds housed in the Brandel Library, as well as several other university and special library collections in the metropolitan area. The library collection is accessible electronically through our catalog, which links our holdings to those of 76 other academic libraries in Illinois. Specialized and general full-text databases enable students to conduct research from home as well as on campus. The library itself includes individualized and group study spaces, a computer lab, curriculum lab, meeting, and gallery spaces. The F. M. Johnson Archives and Special Collections contain the records of the Evangelical Covenant Church, the University, and the Swedish American Archives of Greater Chicago. Students of church history, Scandinavian studies, and urban studies can enrich their understanding of local history by exposure to this rich collection.

Magnuson Campus Center

Magnuson Campus Center is one of the hubs of student activity. There are several classrooms, seminar rooms, and the campus dining facility where resident students eat their meals.

Magnuson Campus Center is open 24 hours a day, seven days a week, allowing student access to the on-campus Automatic Teller Machine (ATM).

Payroll Office

The Payroll Office is responsible for processing student time cards and generating student paychecks. Students must fill out the required forms and provide proper identification to the Payroll Office to receive student payroll checks.

Physical Plant

The Physical Plant is responsible for the management of property alterations and repairs, cleaning, and maintenance in campus buildings.

Postal Center

All resident and commuter students are assigned mailboxes which are centralized in the Postal Center. All off-campus and inter-campus mail is

placed in student boxes. Students should notify their family and friends of their mailbox numbers.

Student Administrative Services

This one-stop center assists students with all of their administrative needs. With knowledgeable counselors fielding students' specific concerns, this office includes financial aid, student accounts, and records and registration. Here students can find information regarding registration, grades, course information, changes of program, transfer rules, student identification cards, veteran's counseling, graduation requirements, withdrawals, transcripts, and permanent records.

In addition, all student billing and collection of tuition, fees, and room and board charges takes place here. Financial aid counselors can help students identify financing options available for funding their education including year-long payment plan options, as well as resources such as scholarships, grants, loans, and college work-study positions.

Center for Scandinavian Studies

The Center for Scandinavian Studies sponsors cultural events, including public lectures, exhibits, and musical performances; hosts guest professors from Scandinavia; and assists researchers. The center supports the recruitment of students from Scandinavia to pursue degrees at North Park University. The center assists with the administration of student and faculty exchange programs between North Park University and the following schools in Scandinavia: Södra Vätterbygdens Folkhögskola, the University of Jönköping (School of Health Sciences, Jönköping International Business School, and the School of Education and Communication), the University of Tampere (Finland), the University of Bergen (Norway), the University of Iceland (Reykjavik), and Akureyri University (Iceland). The Center for Scandinavian Studies cooperates with Scandinavian-American organizations in Chicago and the United States to bring the resources of contemporary Scandinavia to the campus. In cooperation with the other cultural studies centers and the various departments of the university, the Center for Scandinavian Studies contributes a Scandinavian and Scandinavian-American element to our multicultural learning community.

Musical Groups and Ensembles

Jazz Ensemble (MUS 0700)

A select group of wind, rhythm, and percussion players determined by audition. Repertoire includes music for large jazz groups from the big band era to the present. An on-campus concert is presented each term, with occasional outside performances.

Concert Band (MUS 0725)

Open to all wind and percussion players, performance of wind ensemble music, both original music and transcriptions. Performances include on-campus concerts each term.

University Orchestra (MUS 0750)

Devoted to the study and preparation of orchestral literature from the Baroque era to the present through regular rehearsal and performance. Periodically collaborates with vocalists to present choral and operatic literature and to tour. By audition.

University Choir (MUS 0800)

A select group of experienced choristers, performing in one of two choirs, determined by audition. Emphasis is placed on performance, with major appearances annually on and off campus, with periodic national and foreign tours. The University Choir performs a varied repertoire of sacred and secular music.

Women's Chorale (MUS 0810)

A select group of female singers determined by audition. Emphasis is placed on performance, with major appearances annually on and off campus, and with national and foreign tours periodically. The Women's Chorale performs a varied repertoire of sacred and secular music.

Gospel Choir (MUS 0850)

Open to all singers, the Gospel Choir performs contemporary sacred music from the spiritual and gospel genres. A select ensemble of singers is drawn from the choir by audition for special off-campus performances. Performance opportunities include concerts, chapel services, and worship services at local churches.

Brass Ensemble (MUS 3700)

Open to qualified performers, the Brass Ensemble explores original and transcribed music for brass from all periods. Performances include concerts, chapel services, etc.

Jazz Combo (MUS 3710)

A select group of musicians determined by audition. Jazz music of all eras is studied, with an emphasis on individual improvisation.

Woodwind Ensemble (MUS 3725)

The ensemble provides experience in small groups of mixed and/or similar woodwinds, depending on enrollment. Repertoire will be selected according to available instrumentation. Emphasis on developing chamber music skills including intonation, ensemble, style, and interpretation.

Chamber Music/Strings (MUS 3750)

Small performing groups with two or more participants pursue the study and performance of literature for duos, trios, quartets, etc., with weekly faculty coaching. By audition.

Chamber Singers (MUS 3890)

The Chamber Singers are a small, select group of singers, chosen by audition and performing music from many diverse styles and periods. Winter and spring concerts are presented both on- and off-campus. Major tours every second or third year.

Pep Band

A student-operated group that provides music for athletic events and rallies. The pep band is open to all students by permission of the director.

Student Worship Teams

Teams consisting of students provide leadership for Chapel, Collegelife, and occasional off-campus events in partnership with University Ministries. By audition.

Office of the Provost

Faculty Advising

North Park University places emphasis on the role that faculty advising plays in the educational mission of the institution and in its contribution to the growth and development of each student. Faculty advising at North Park involves much more than course selection. Upon course registration a faculty advisor is assigned and facilitates communication between the student and the University, serving as a coordinator of the learning experience through course/educational planning and academic progress review, and as a referral agent to other campus support services. We're confident that every North Park student can succeed academically, and the faculty advisor will help:

- develop overall academic strategies,

- identify and address academic difficulties, and
- explore and declare a major field of study.

At the end of the first year of study, students are encouraged to declare a major. Once a major is declared, the student is assigned a major faculty advisor who will provide guidance towards completing the North Park requirements and point the student towards career and graduate-school opportunities in the field. If the student is not ready to choose a major, they will remain with the original faculty advisor.

Student Engagement

The Vice President for Student Engagement oversees those campus departments and functions that are most integrally involved in the servicing and retention of students: Career Development and Internships, Counseling Support and Health Services, International and Multicultural Student Services, Residence Life and Housing, Student Activities, Student Enrichment Services and Support, Student Government Association, Student Success, and University Ministries.

Career Development and Internships

From students' first semester through graduation, the Career Development and Internships Office (CDIO) is an integral part of the North Park student experience. CDIO provides professional assessment, resume development, local and national internship opportunities, career counseling, and industry-specific job fairs. Senior staff members also provide coaching and career-mapping tools for graduate students and alumni.

Our program offerings prepare students to compete in a fluctuating job market. To complement North Park's rigorous course offerings, CDIO has developed the Career Advantage program. Career Advantage provides more than 150 hours of professional development experiences, including opportunities to create unique personal brands, develop professional networks, and gain valuable skills in their field of interest.

CDIO also offers a wide range of internship opportunities, connecting students to their disciplines and career interests or stretching them to consider new growth opportunities. Specific academic internships are coordinated with faculty sponsors, allowing students to earn up to four credit hours per semester, and up to eight total credit hours during their time at North Park. Interested undergraduate students must submit an

application to CDIO one semester prior to the intended internship. For more information, contact the Career Development and Internship Office at careers@northpark.edu.

COMPASS

COMPASS is an intensive twelve-day program that helps first-year students prepare for the academic and social challenges of college and adjust to life on campus.

Academics: The COMPASS program guides you through the life-course selection and degree-planning process and introduces you to the support services available at North Park.

Awareness: COMPASS strengthens cultural awareness on campus, promotes the exchange of ideas and experiences, and encourages students to appreciate the cultural tapestry of our world.

Assessment: COMPASS helps you assess your skills, interests, and values.

Counseling Support and Health Services

The Center for Counseling Support and Health Services, located at 3317 West Foster Avenue, provides professional counseling and medical/health services to students who are experiencing a variety of concerns and

problems. Counseling services are provided by a professional therapist on a short-term basis for full-time students. Counseling can help students clarify problems, achieve a better understanding of themselves, and provide an opportunity for desired change. Students needing more intensive long-term therapy typically are referred to a professional outside of North Park University.

Acute medical/health services are available for all full-time students. The Center is staffed by a registered nurse (drop-ins are welcome, appointments are recommended). Health Services is partnered with the Family Practice Center at Swedish Covenant Hospital for physician care. Emergency medical services are available at Swedish Covenant Hospital, which is located a half-mile east of campus. Costs incurred through the use of emergency medical services are not covered by the health services department and should be addressed through the student's insurance provider. Students are to check in at Health Services before going to Swedish Covenant Family Practice (SCFP) except in the event of a follow up appointment.

Every student registered for six or more semester hours must complete a medical history form when entering school. Every student is required by state law to turn in an updated record of his/her immunizations (measles, mumps, rubella, diphtheria, and tetanus) that is certified by a licensed physician or public health official. Exceptions are granted for medical or religious reasons only. The University requires that all full-time students be covered by health and accident insurance. This charge is reflected on the student statement of accounts. If proof of other adequate insurance is submitted, students may be excused from taking the health and accident insurance through the University and the charge will be waived. If the student must take the insurance through the University, he or she needs to sign the required documentation in order to be insured. More information is available online at www.northpark.edu/insurance.

International Student Services

North Park University enrolls approximately 200 international students from more than 40 countries. Because adapting to and studying in a new academic culture can bring particular challenges, North Park has made a commitment to provide needed services for international students in English as a Second Language (ESL), exchange, and degree programs at both the undergraduate and graduate level.

The International Office is located on the first floor of the Johnson Center. Office staff prepare documents for international student visa applications, interface with the U.S. government on all visa-related issues, provide international student orientation at the start of each semester, and maintain non-immigrant student visa records. In addition, the office provides general information and referrals on academic, campus, and cultural resources.

Office of Diversity and Intercultural Programs

The Office of Diversity and Intercultural Programs, located on the first floor of Caroline Hall, seeks to maintain a climate that values diversity through programming, outreach, and support for all members. In an effort to strengthen cultural awareness and diversity, the office supports activities and events on such topics as gender, race, religion, ethnicity, age, and socio-economic status.

The office sponsors numerous events including speakers, workshops and exhibits that address the value of diversity in the context of building community and intercultural competency. In addition, the office is committed to providing quality events to promote diversity beyond food, fashion, and festivals. The office meets this objective by focusing on the critical components of diversity through campus dialogue forums, academic presentations, and diversity-related workshops and seminars.

These events are designed to complement and support the academic mission of the University.

The Collaboratory for Urban and Intercultural Learning works with areas of the University to develop curricular and co-curricular opportunities designed to encourage greater integration of students' in-class and out-of-class experience. Our students are immersed into a space rich with expressions of faith, culture, and knowledge. We offer conferences, leadership forums, cultural events, and community outreach projects that enhance awareness and knowledge in diversity, culture, and communication.

Our programs primarily explore the contemporary urban context, with an effort to include questions regarding justice in the multicultural context and a distinct orientation toward the city of Chicago as a local laboratory. We affirm the University's stance that learning does not occur within a campus vacuum. All of Chicago constitutes an exciting and engaging classroom with thousands of teachers and countless learning peers. In this way, we choose to fully own our pursuit of lives that are significant and of service to others, placing it in concert with the world around us. Areas of study include, but are not limited to:

- Asian and Asian-American Studies
- African-American Studies
- Justice Studies
- Latino-American Studies
- Middle Eastern Studies

Parent and Family Relations

As a function of the Division of Student Engagement, Parent and Family Relations acts as a resource for North Park parents and families to facilitate communication and develop and nurture meaningful, lasting relationships between families and the University. Our office provides helpful information and resources to assist in your role as parent, mentor, and coach for your college-age student. Parent and Family Relations information focuses on the complex role of parenting a college-age student, as it may be different from the one you have been practicing. In preparation for the next step in your student's educational path, we acknowledge the challenge of letting go of your student as they take a big leap toward adulthood. We hope to be partners with you as you focus on the important journey ahead.

Residence Life and Housing

North Park maintains residence halls and apartments on campus that accommodate about 60 percent of the undergraduate student body. All first-year, second-year, and third-year students who are not living with their parents or guardian within 30 miles of campus are required to live on the North Park campus. Residents requesting university housing must complete a North Park University housing application and contract. The contract implies that unless the University is advised differently, the student plans to be a resident for his/her first, second, and third academic years until he/she is released from the housing contract based on the Housing Terms and Conditions. Termination of the contract must be in writing prior to the term in question. Please see the room and board refund schedule for adjustments made to housing charges after the semester is under way.

All student housing is under the direction of the director residence life and housing. The size of our on-campus population is ideal for building relationships and receiving personalized attention from an experienced residence life live-in staff. North Park has five full-time resident directors (RD). Each RD resides in the residence hall and is assisted by trained student resident assistants (RA). The goal for Residence Life and Housing

is to create an environment that allows for personal growth and an atmosphere that enhances the learning process. The Residence Life and Housing staff utilizes educational and social programs to achieve these goals.

All residence halls provide on-site laundry facilities and security, including 24-hour front desk service. Furnishings in the residence halls include beds, desks, chairs, dressers, and mini blinds. Visitation hours are maintained in each living area. All visitors must sign in and out at the front reception desk of each hall. University apartments do not have a desk staff, but are monitored by security. University apartments are furnished with a beds and kitchen appliances.

North Park offers several residence hall and apartment choices for our students, and three different meal plans. Fourth-year students have the first option for university apartments. The Residence Life and Housing office coordinates all meal plan requests and housing applications and contracts.

Student Government

All students enrolled in the traditional undergraduate program who carry 10 or more semester hours of credit are members of Student Government Association (SGA). The duties of SGA are carried out by the executive committee, elected class senators, club representatives, and various committees.

The Executive Committee

The officers of SGA—president, vice president, secretary, chief justice and treasurer—constitute the membership of the executive committee. It is the responsibility of the executive committee to serve as a liaison between students, administrators, and faculty members. The executive committee acts on the senate's behalf in guiding the operations of the student government.

The Senate

The senate is the representative governing body made up of four members of each class and led by the executive committee. The senate exists to contribute to and improve campus life for undergraduate students.

Club Representatives

Each active, SGA-recognized student club contributes to the ongoing work of SGA and sends a representative to regular business meetings to participate in the decision-making process. The following is a list of current clubs on campus and is not comprehensive; students may work with SGA to form new clubs at any time.

- African Student Club
- American Humanics Association
- Athletic Trainers Student Association
- Biblical and Theological Studies Organization
- Black Student Association
- Business Club
- Chemistry Club
- East Asian Student Association
- French and Francophone Cine Club
- History Club
- Latino American Student Organization
- Middle Eastern Student Association
- Queers and Allies

Scandinavian Student Association

Student Nurses Association

Operation and Publications

The following are all funded by SGA and managed by hired student staff.

The North Park Press

The North Park Press is the student run newspaper which can be found in both printed form and online.

Java Haus

Java Haus is North Park's student run coffee shop located in the lower level of Burgh Hall, providing a place to gather with friends over coffee and snacks. Java Haus hosts concerts, open mic nights, and many other events.

Cupola

North Park's yearbook is published annually.

The North Branch

North Park's annual art magazine is published each spring. It is composed of original short stories, essays, poetry, artwork, and photography. Any North Park undergraduate student may submit work for publication.

Student Success

Student Success will monitor and facilitate undergraduate student persistence and success through data collection, campus retention software, and program administration; and offer guidance and attend to the overall well-being of the North Park undergraduate student body. Programs and initiative are designed to support students' success throughout all aspects of the University experience.

Student Enrichment Services and Support

The Office of Student Enrichment Services and Support (OSESS) seeks to enrich the campus community by offering a broad range of programs and initiatives that promote and support student success throughout all aspects of the university experience. Through these programs and services OSESS cultivates life skills and enhances self awareness skills that are critical to graduation, community living and being a lifelong learner. These programs serve to connect students to resources, people, experiences, and opportunities to prepare them to lead lives of significance and service.

Disability Resources

North Park University seeks to provide an environment and community where each person may develop academically, socially, and spiritually. North Park University is committed to full inclusion and participation of people with disabilities in all aspects of university life. As a result, the University is willing to relocate programs, services, and activities to make the event accessible. Please allow at least ten (10) business days for accommodations. Depending on the nature of the program, service, or activity, accommodations may take longer or be able to be coordinated in less time.

If you have questions about accommodations or accessibility to programs, services, or activities offered on campus please contact:

Student Support Specialist
Office of Student Enrichment Services and Support
North Park University
3225 W. Foster Ave.. Box 24
Chicago, IL 60625

(773) 244-8500
 studentenrichment@northpark.edu.

Orientation Program

Entering North Park University is a threshold experience. It is a time of transition, growth, and excitement. At North Park we are committed to helping the new student find the way to the other side of the threshold. Thus we have created Threshold, a program designed with the new student in mind. Threshold includes summer advising opportunities and orientation activities and events prior to the start of school which will familiarize the student with the campus, faculty and staff, the academic programs, and various services.

Writing and Tutoring Services

The Office of Student Enrichment Services and Support offers Group Tutoring (GT) and Supplemental Instruction (SI). Both are academic assistance programs that utilize peer-assisted study sessions. These sessions are regularly scheduled, informal review sessions in which students compare notes, discuss readings, and develop organizational tools. Students will learn how to integrate course content and study skills while working together. The sessions will be facilitated by GT and SI student leaders who have previously done well in the course and as model students.

The Writing Center, located on the second floor of Brandel Library, operates on the principle that every writer needs at least one good reader. Staffed by trained student Writing Advisors, the Writing Center features a flexible program of writing support serving all undergraduate students. Every student in Core Curriculum first-year seminar courses confers with a Writing Advisor on drafts of formal writing assignments before revising and submitting their papers. This arrangement gives students intense, individualized writing advice and helps to streamline the processes of revision and editing. Students at any level of coursework can seek assistance in the Writing Center.

Testing

OSESS coordinates and provides information on the Credit by Examination, Advanced Placement, and CLEP programs. These programs are discussed in more detail in the Academic Policies for Undergraduates section of the catalog.

University Ministries

The department exists to help students integrate their faith with the way they learn, live, and serve. University Ministries strives to foster relationships and shared experiences with the hope of transforming students' lives, so they might commit their lives to making a difference in the world for the glory of God. The staff of University Ministries works with student leaders to create environments and experiences that are conducive to this transformation: personal yet shared, relevant while countercultural, meaningful but challenging. Through communal worship and urban service opportunities, small groups and social justice initiatives, global partnerships and racial reconciliation, University Ministries seeks to live out the Kingdom mission of Jesus: becoming all we were created to be and making a difference in this world. All students in the North Park community are invited to participate in the opportunities provided by University Ministries, regardless of their faith background.

Chapel

Students, faculty, and staff are invited once a week to attend these campus worship services that include music, prayer, and teaching. The campus pastor, members of the community, and speakers from across the country engage our hearts and minds with the truth of scripture and challenge us to live it out in practical ways. A variety of worship styles—from

contemporary to classical, African American to Hispanic, liturgical to free—make each service something unique. Chapel takes place every Wednesday morning at 10:30 in Anderson Chapel.

Collegelife

Not just another service, Collegelife is a communal worship experience designed to help all of us learn and live out what it means to follow Jesus. Through the arts, practical teachings, and the opportunity to respond, our desire is to bring a Christian perspective to the real life issues students face today.

Global Partnerships

Global Partnerships provides students with opportunities for cross-cultural experiences that expand their faith, their views of the world, and their commitment to a lifestyle of justice. Through partnership trips that go out over winter, spring, and summer breaks, students travel all over the world learning, building relationships, and serving. These trips are open to students from all backgrounds, religious traditions, and levels of experience.

University Ministries works with established partner organizations across the country and around the globe. By focusing on the values of education, relationship, and collaboration we seek to encourage global citizenship in our students. In addition to specific partnership opportunities, this program also sponsors various campus initiatives around global social justice. By raising awareness, encouraging advocacy, and hosting events around such issues as AIDS and the environment, this program helps students to learn to pursue a lifestyle of justice.

Prayer Team

The Prayer Team consists of a group of students dedicated to weekly prayer for this campus. The team sponsors many opportunities during the year for students on campus to pray. As well, students can be prayed for in person by a member of the prayer team after collegelife. Prayer requests can be submitted to prayerrequest@northpark.edu.

Sankofa

Sankofa brings together readings, films, class lectures, and conversations with a pilgrimage to major civil rights sites in the southern part of the U.S. focusing on black/white relations. We explore the biblical, theological, sociological, political, cultural, and psychological dimensions of the struggle for racial justice during the Civil Rights era and its contemporary implications. We also seek to provide experiences that lead to personal transformation on the difficult questions of race and justice. Sankofa can also be taken as a two-credit class (AS-2540) during the spring semester pending successful completion of an application and interview process.

Small Groups

We all need places where we can be ourselves, study God's word, serve others, and see where God is at work... one of those places is in a small group. You can join a group based on your interests and on what you would like to study. Our goal for these groups are that they become places where students will grow spiritually and be loved just as they are.

Urban Outreach

North Park's long standing student led service program is comprised of seven different issue-focused teams dedicated to providing meaningful service and volunteer opportunities for the University Community. Our Disability & Elderly, Homelessness & Hunger, Independent, International, and Youth & Child Teams partner with over 20 different social service agencies, schools, and churches to address community needs. Through Urban Outreach, students have an impact on our local

community by tutoring at-risk youth, and providing assistance to the elderly, feeding the hungry and homeless, working with refugees, and much more.

In addition to on-going volunteer opportunities at Urban Outreach sites, we work with faculty on service learning initiatives, host a summer youth day camp, and sponsor various campus-wide projects including the Great Gift Giveaway, neighborhood clean-ups and other activities that engage the campus in serving our city.

Wellness Team

The Wellness Team at North Park University, comprised of representatives from the Division of Student Engagement and other departments on campus, is committed to the care of all students. Its mission is to enhance the educational and personal development of all students by providing a supportive environment when physical, mental, or emotional health issues that impact a student's ability to succeed arise. The Wellness Team makes recommendations after a careful assessment of the affected student's needs, family circumstances, and doctor or therapist recommendations. In limited situations, the Wellness Team may also require a course of action as a condition of continuing enrollment based on campus health and safety concerns.

STUDENT RIGHTS, RESPONSIBILITIES, AND REGULATIONS

Student Rights and Responsibilities

The University community functions with the understanding that the individual is responsible to the community and the community is equally responsible to the individual. The exercise of responsibility is an important part of the development of the full potential of the student as an individual and as a citizen. The University has adopted the following statement formulated by representatives of students, faculty, and administration.

1. No applicant will be denied admission to the University or denied financial aid because of race, sex, age, color, national origin, religious creed, political belief, or disability unrelated to ability.
2. The student has freedom of research, of appropriate classroom discussion, and of the advocacy of alternative opinions to those presented in the classroom. This right does not extend to general or specific threats of violence or harm toward others.
3. The student will be evaluated on knowledge and academic performance for the purpose of granting academic credit. Students will not be evaluated on personal or political beliefs.
4. The teacher-student relationship is confidential and disclosures of a student's personal or political beliefs expressed to the teacher in connection with course work will not be made public without explicit permission of the student.
5. Student's records may be released to persons not associated with the University only on request of the student, through legal proceedings, or as otherwise provided by law.
6. An attempt will be made to inform students of all rules, rates, and regulations deriving from contractual agreements with the University before entering into any such contracts.
7. The rights of individuals to be secure in their person, living quarters, papers, and effects against unreasonable search and seizure is extended to the students in the academic community. This shall not prevent the University from entering residence hall rooms, campus apartments, or houses in accordance with campus rules and regulations.
8. Students will be free from censorship in the publication of their views so long as these are presented in good taste and are not represented as the view of North Park University. Should good taste be questioned, the Vice President of Student Engagement may issue an injunction pending review by the Provost of the University.
9. Student publications will be free from any official action controlling editorial policy as long as publication maintains good taste. Publications shall not bear the name of the University or purport to issue from it without University approval. Should good taste be questioned, the advisor to the publication or the Vice President for Student Engagement may issue an injunction pending review by the Provost of the University.
10. Students are free to form, join, and participate in any campus group for intellectual, religious, social, economic, political, or cultural purposes, but shall not be recognized as an official school organization if the intended purpose of the organization is in direct conflict with the objectives of the University.
11. A student is free, individually or in association with other individuals, to engage in off-campus activities, exercising his/her right as a citizen of the community, state and nation, provided he/she does not in any way claim to represent the University.
12. Students are free to use campus facilities for meetings of officially recognized student organizations, subject to regulations governing the facility.
13. Student groups may invite and hear speakers of their choice on subjects of their choice so long as the boundaries of good taste are observed. The president of the University retains ultimate jurisdiction in the matter of speaker selection.
14. Students will have their views and welfare considered in the formation of University policy, and will be consulted by, or represented on, University committees which affect students as members of the University community.
15. Students are free to assemble, to demonstrate, to communicate, and to protest, recognizing that freedom requires order, discipline, and responsibility and further recognizing the right of faculty and students to pursue their legitimate goals without interference.
16. Students will be exempt from disciplinary action or dismissal from the University except for academic failure, failure to pay a University debt, violation of a University rule or regulation, or violation of local, state, and federal statutes. Rules and regulations shall be readily available in advance of the alleged violation.
17. A student is free to be present on campus and to attend classes pending action on criminal, civil, or disciplinary charges. Exceptions include reasons relating to physical or emotional safety and well-being of students, faculty, staff, other persons, or University property.
18. Every member of the community has the responsibility to conduct him or herself in a manner that does not violate the rights and freedoms of others and has the responsibility to recognize the principles within this statement of standards. It is further recognized that each member of the University community shall have recourse through the proper conduct channels for the preservation of their rights.
19. Students will be held accountable for incidents and happenings that occur in a student's living environment, regardless whether the student was present or not present at the time of the alleged violation(s). Sanctions will be at the discretion of the Hearing Officer.
20. Students will be held accountable for incidents and happenings that occur in a student's presence whether or not the student is participating in the violation(s). Sanctions will be at the discretion of the Hearing Officer.
21. Students will be notified of the alleged conduct charges being made against them and sanctions imposed, if any, given the opportunity for a conduct proceeding appropriate to the nature of the violation of this Student Standards of Conduct, and allowed to provide supportive information that they were not responsible for behavior in question.

Additional Rights, Responsibilities, and Regulations

Academic Dishonesty

Academic dishonesty runs counter to the goals and ideals of every educational institution, will not be tolerated at North Park University, and may result in dismissal from the University. Appropriate designated authorities within the University will judge cases of alleged academic dishonesty according to the principles, policies, and procedures outlined in the student and faculty handbooks. Categories that constitute academic dishonesty are:

1. Cheating on quizzes, tests, and/or examinations. Examples include, but are not limited to, the following:
 - Looking at an examination paper or answer sheet of another student.
 - Obtaining unauthorized information about the test prior to administration of the test.
 - Possessing or distributing a test prior to its administration.
 - Using unauthorized materials or equipment during an examination.
 - Cooperating with any of the above examples.
 - Gaining admission to the University through misrepresentation is unacceptable and may be grounds for expulsion from the University or revocation of any degree.
2. Plagiarism on papers and other assignments.
3. Alteration of academic records.
4. Sabotage, e.g. stealing, destroying, or altering another student's work; hiding or abusing materials to keep others from using them.
5. Substitution, e.g. taking an examination or preparing an assignment for another student.

Please refer to the current North Park University Student Handbook for further information.

Alcohol and Drug Policies

North Park University is covered by the Drug-Free Workplace Act; as such, the alcohol and drug policies will be enforced to protect North Park's status as a responsible source for the award of federal grant monies. This means that we strictly prohibit the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance on North Park property or in conjunction with school sponsored events on or off campus. North Park University is also an alcohol-free (dry) campus, which means that alcohol is not allowed anywhere on campus or in conjunction with school sponsored events. Additionally, North Park does not condone the display of alcoholic containers or advertisements in campus windows, rooms, in campus publications, or on posted communication.

Students in violation of these policies will be disciplined by the Dean of Students or designated staff, up to and including dismissal, depending on the severity of the case. If a student is found in an on-campus situation where alcohol is found and/or being consumed, that person is culpable. All alcohol containers will be confiscated, emptied, and used for evidence. The Residence Life staff (as well as other community members), upon observing consistent behavior patterns of alcohol abuse, will express concern to the Dean of Students who may make referrals. Behavior that is disruptive, or characterized as physically violent, excessively aggressive, or

uncooperative, and is related to the influence of alcohol and/or drugs, is prohibited.

A student's federal financial aid may be affected by violation of federal drug laws according to the Anti-Drug Abuse Act of 1988.

The North Park community is committed to supporting those seeking recovery from chemical dependency and to raising the collective conscience of alcohol and drug use and misuse. We support members of the community in their efforts to pursue treatment for addiction and to maintain drug-free and alcohol-free lifestyles. Questions regarding the Drug-Free Campus Policy Statement should be referred to the Dean of Students.

Automobile Regulations

Students must register their cars with Student Administrative Services and observe regulations regarding insurance, use, and parking of cars as established by the University. All students with vehicles must purchase a student parking permit. First-year students are not encouraged to bring automobiles. Parking facilities are limited and there is the potential for distraction from studies.

Enforcement of Regulations

The institution reserves the right to expell at any time students who, in its judgment, are undesirable and whose continuation in the school is detrimental to themselves or their fellow students. Students who have been suspended or dismissed will receive no refund of monies paid to the school.

Further information regarding student rights and responsibilities, the course of disciplinary action, and the appeal process may be found in the North Park University Student Handbook.

Federal Educational Rights and Privacy Act of 1974

North Park University reserves the right, as allowed under the Federal Educational Rights and Privacy Act of 1974, as amended, to disclose educational records or components thereof without written consent to parents of dependent students as defined according to the Internal Revenue Code of 1954, Section 152 (as amended). All undergraduate students, other than those matriculated in the registered nurse continuation and SAL programs, will be assumed to be "dependent" unless a student notifies Student Administrative Services in writing within 10 calendar days after the commencement of any term that he or she considers himself to be "independent." A certified copy of the parent's most recent Federal Income Tax Form establishing the student's dependent status shall be required before any educational records or components thereof will be released to the parent of a student who has properly notified North Park University of his or her "independent" status.

Note: A student cannot declare himself or herself as "independent" for the purposes of non-disclosure of educational records to parents and still claim to be "dependent" for the purposes of receiving financial aid.

Gambling

In accordance with the laws of the state, the University prohibits gambling in any form on campus.

Grievance

Grievance Procedures

The process for addressing student grievances varies depending on the subject matter of the grievance. However, in all instances, it is important

that grievances be presented promptly. A failure to comply with the timing requirements described in the grievance procedures below is grounds for denial of the grievance.

Academic Grievances

The process outlined below applies to any grievance involving academic issues other than allegations of academic dishonesty. The procedure for addressing allegations of academic dishonesty is set forth in the section on “Academic Integrity”.

Step 1: The grievance shall first be presented to the responsible faculty member for resolution. The grievance should be presented promptly and in no event later than five days after it arises. The grievance may be presented orally. The faculty member should investigate the relevant facts, as needed, and respond promptly.

Step 2 (College of Arts and Sciences only): If the student is not satisfied with the faculty member’s response, the student may appeal to the department chairperson within five days. The appeal may be presented orally or in writing. After consultation with the responsible faculty member, the department chairperson will communicate his/her determination or proposed resolution.

Step 3: If the student is dissatisfied with the response, the student may appeal to the Associate Dean, Division Director, or Dean with responsibility for the class out of which the academic grievance arose. The appeal must be taken no later than five days after the preceding response and shall be in writing. The appeal shall identify the issue, describe the prior steps taken to resolve the grievance, state the responses received at earlier steps, and set forth all the facts supporting the grievance, including any related documentation. The applicable Associate Dean, Division Director, or Dean will conduct any investigation deemed necessary, consult with the responsible faculty member, may request both the student grievant and the faculty member to jointly meet with the Associate Dean, Division Director, or Dean, and will promptly render a decision. In the event of a meeting, the student may request the assistance and presence of another member of the North Park Community.

Step 4: If the student remains dissatisfied with the decision, the student may appeal to the Office of the Provost. The appeal must be taken no later than five days after the decision at Step 3 and shall be in writing. The appeal must summarize the decision at Step 3 and explain why that decision is being challenged. Copies of the step 3 appeal, any written response, and any other related documentation shall be provided. The Office of the Provost shall make a decision based upon the record presented, and any additional investigation the Provost deems appropriate. The decision of the Provost shall be final and binding.

Housing Grievances

The process outlined below applies to any grievance involving the interpretation of residence hall rules or the conduct of another resident or student visitor in the resident hall other than matters which are the subject of student conduct proceedings. Student conduct proceedings are discussed above in the section titled “North Park University Student Standards of Conduct.” At each step of the grievance process, the applicable University official may issue an Incident Report and refer the issue for student conduct proceedings. Such a referral will terminate the grievance process.

Step 1: The grievance shall first be presented to the Resident Assistant for resolution. The grievance should be presented promptly and in no event later than five days after it arises. The grievance may be presented orally. The Resident Assistant should investigate the relevant facts, as needed, and respond promptly.

Step 2: Unless the grievance has resulted in the issuance of an Incident Report, a student who is not satisfied with the Resident Assistant’s response

may appeal to the Resident Director within five days of the Resident Assistant’s response. The appeal shall be in writing, and identify the issue, describe the prior steps taken to resolve the grievance, state the responses received at earlier steps, and set forth all the facts supporting the grievance, including any related documentation. The Resident Director will conduct any investigation deemed necessary, consult with the relevant Resident Assistant, may request the student grievant and the person who is the subject of the grievance, if any, to jointly meet with the Resident Director. In the event of a meeting, both the grievant and any person who is the subject of the grievance may request the assistance and presence of another member of the North Park Community. The Resident Director will promptly render a decision.

Step 3: Unless the Resident Director’s decision results in the issuance of an Incident Report, a student who is not satisfied with the Resident Director’s response may appeal to the Director of Residence Life and Housing. The appeal must be taken no later than five days after the decision at Step 2 and shall be in writing. The appeal must summarize the decision at Step 2 and explain why that decision is being challenged. Copies of the Step 2 appeal, any written response, and any other related documentation shall be provided. The Director of Residence Life and Housing shall make a decision based upon the record presented, and any additional investigation the Director deems appropriate. The decision of the Director of Residence Life and Housing shall be final and binding.

Miscellaneous Grievances

The process outlined below applies to any student grievance involving a matter for which no specific grievance or appeal process is provided, including appeals of decisions that a complaint pursuant to the Policy Against Harassment, Discrimination, or Retaliation is not substantiated prior to a full hearing on the complaint. Grievances challenging decisions or actions by the Vice President for Student Engagement proceed directly to Step 2.

Step 1: The grievance shall be presented, in writing, to the Vice President for Student Engagement or designee. The grievance should be presented promptly and in no event later than five days after it arises. The grievance must summarize the decision, action, or other matter being grieved and explain why it is being challenged. Copies of any related documentation shall be attached. The Vice President for Student Engagement or designee will conduct any investigation deemed necessary and may request the student grievant and the person who is the subject of the grievance, if any, to attend a joint meeting. In the event of a meeting, both the grievant and any person who is the subject of the grievance may request the assistance and presence of another member of the North Park Community. The Vice President for Student Engagement or designee will promptly render a decision.

Step 2: If the student is dissatisfied with the prior decision, the student may appeal to the President of the University. The appeal must be taken no later than five days after the prior decision and shall be in writing. The appeal must summarize the decision, action, or other matter at issue, explain why it is being challenged, and describe any prior steps of the grievance process, including the determination. Copies of any related documentation shall be attached. The President shall determine the appeal based upon the record presented, and any additional investigation the President deems appropriate. The decision of the President shall be final and binding.

Policy Against Discrimination, Harassment, and Retaliation

As a Christian institution of higher learning supporting the mission and embodying the faith heritage of the Evangelical Covenant Church, North Park desires to have a campus community “which truly values people and is characterized by integrity, diversity, collegiality, fairness, compassion and joyful living.” North Park is committed to providing and maintaining a welcoming environment, and will not tolerate discrimination, harassment, retaliation, or any form of intimidation by any person in any form directed against students, faculty or staff of the institution. The institution will take prompt and appropriate action when complaints of discrimination, harassment, or retaliation are registered, including appropriate disciplinary action up to dismissal against the perpetrator, if the complaint is substantiated and such discipline is deemed necessary.

This Policy applies to conduct on campus and at University sponsored events and programs off-campus. However, it also covers other off-premises conduct (e.g., at a private party) if that conduct adversely impacts the ability of a North Park student or employee to enjoy the full benefits of his/her association with North Park.

Enforcement of this Policy will be coordinated by the Director of Human Resources, who shall serve as Equal Opportunity (EO) Coordinator. The EO Coordinator is responsible for seeing that institutional procedures are followed in investigating all allegations or complaints of discrimination, harassment, or retaliation involving faculty, staff, students and campus visitors. The EO Coordinator is also responsible for overseeing the University’s compliance with federal equal opportunity laws such as Title VI, Title VII, and Title IX, and similar state laws.

Discrimination Prohibited

Discrimination is defined as unequal, adverse treatment of an individual because of his or her race, color, national origin, sex, age, disability, veteran’s status, or other protected status, as those terms are defined by applicable local, state, and federal law. For instance, different treatment of two similar individuals with respect to hiring, pay, opportunity for advancement, admission to North Park as a student or educational opportunity after admission constitutes discrimination if the reason for the different treatment is the protected status of one of the individuals. Harassment based on any protected characteristic also constitutes discrimination. Discrimination on the basis of sex is prohibited by Title IX of the Education Amendments of 1972, 34 C.F.R. Part 106, and other laws. State and federal law also prohibit discrimination on the basis of each of the above enumerated characteristics. It is North Park policy to comply with all of these laws. However, as a religious institution, North Park reserves the right to make hiring and employment decisions on the basis of religious beliefs or lifestyle consistent with the religious principles espoused by the Evangelical Covenant Church and as permitted by applicable law.

Retaliation Prohibited

Retaliation is defined as adverse action against an individual who has (1) complained about alleged discrimination, harassment or retaliation, (2) participated as a party or witness in an investigation relating to such allegations, or (3) participated as a party or witness in a court proceeding or administrative investigation relating to such allegations. Retaliation is prohibited by state and federal law and violates North Park Policy.

Harassment Prohibited

North Park strives to be a community in which all persons are treated with respect. Any form of harassment is contrary to this goal. Harassment tends to target one or more personal characteristics of the person(s) being harassed. Oftentimes, it focuses upon readily identifiable attributes such

as race, color, national origin, sex, age, disability, etc. However, it may also focus upon beliefs or perspectives, such as religion, politics, or lifestyle. Harassment, regardless of its nature, involves unwelcome verbal or physical conduct that implicitly or explicitly demeans an individual or group based on such personal characteristics, and:

- affects tangible job or education benefits, or
- interferes unreasonably with the education, work or other institutionally sponsored activity of a student, employee or campus guest, or
- creates an intimidating, hostile, or offensive environment for education, work or other institutionally sponsored activity.

North Park will not permit harassment and considers harassment based on race, color, national origin, religion, sex, age, disability, veteran’s status, or other protected status as those terms are defined by applicable local, state and federal law particularly intolerable. Although North Park does not permit harassment of any person for any reason, this does not imply institutional approval of all beliefs or lifestyles. North Park’s institutional position on these matters is necessarily congruent with our sponsoring denomination, the Evangelical Covenant Church.

Racial and Ethnic Harassment Defined

North Park aspires to be a multi-cultural community of learning. In order to make this goal a reality, we need to develop sensitivity to, and an educated awareness of, each other’s cultures, nationalities and ethnic differences. Demeaning or harassing comments or acts which are racially or ethnically motivated are contrary to the spirit and goals of the North Park community.

Harassment on the basis of race, color or national origin can include verbal or physical behavior that explicitly or implicitly demeans the race, color, or national origin of an individual or individuals. Examples of racist or ethnically insensitive harassing conduct include, but are not limited to:

1. Verbal assaults that demean the color, culture or history of any person or persons, and/or that perpetuate false stereotypes. Examples include name-calling, racial slurs, slang references and ethnic jokes.
2. Nonverbal behavior that demeans the color, culture or history of any person or persons and/or that perpetuates false stereotypes. Such behaviors may include gestures, portrayals, graffiti, or acts of exclusion.
3. Intimidation through threats of force or violence or threats of interference with an individual’s education, work, or other activity.
4. Physical contact or assault because of an individuals’ race, color, or national origin.

Harassment on the Basis of Sex Defined

Harassment on the basis of sex is a violation of Title VII of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972. Harassment on the basis of sex includes (1) verbal or physical behavior that explicitly or implicitly demeans the gender of an individual and (2) sexual harassment. In the employment context, the EEOC, which enforces Title VII, defines sexual harassment as follows:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment when (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment; (2) submission to or rejection of such conduct by an individual is used as the basis of decisions affecting such individuals; or (3) such conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or creating an intimidating, hostile, or offensive environment.

In the education context, sexual harassment may be defined as follows:

Unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature constitute sexual harassment of a student when submission to or rejection of the conduct by an individual is used as the basis of academic decisions affecting the student or the conduct has the purpose or effect of unreasonably interfering with the student's academic performance or creating an intimidating, hostile, or offensive environment.

Sexual harassment can be verbal, visual or physical. It can be overt, as in the suggestion that a person could get a higher grade or a pay raise by submission to sexual advances. The suggestion or advance need not be direct or explicit – it can be implied from conduct and circumstances. Sexual harassment can also consist of persistent, unwanted attempts to change a professional or educational relationship to a personal one, particularly where the attempts involve an abuse of power. The potential for abuse of power is inherent in certain relationships, such as professor and student, or supervisor and subordinate. Members of the North Park community who hold positions of authority should be especially vigilant to this inherent risk in certain relationships and situations. However, harassment among peers is also prohibited.

Harassment on the basis of sex can range in severity from sexist remarks, unwelcome sexual flirtations, and inappropriate put-downs of individuals or classes of people, to serious physical abuses such as sexual assault and rape.

The following list illustrates, but does not exhaust, the possible forms of harassment on the basis of sex. The examples are generally arranged in ascending order of severity.

1. Behavior that draws unwanted attention to the gender or sexual identity of another person, such as whistling, leering, or ogling, in such a way as to create a hostile environment, e.g., through repetition or in combination with other forms of harassment.
2. Communication (verbal or non-verbal) which creates a hostile environment. Examples of such behavior, when repeated or pervasive, include unwelcome compliments about appearance; unwelcome requests for personal relationships (e.g., a date); comments with sexual innuendo, obscene gestures, insulting humor, or jokes; crude language, graphic commentary about an individual's body, sexual prowess, or sexual deficiencies; questions regarding sexual practices; derogatory or demeaning comments about women or men in general, whether sexual or not; displaying objects or pictures which are sexual in nature: sexually-oriented kidding, teasing, or flirting. While a single instance of such communications does not create a hostile environment, repeated communications of this nature can create a hostile environment.
3. Verbal threats, directed at a person individually or as a group member.
4. Unwanted advances including sexual propositions, touching, patting, pinching, caressing, kissing, or brushing against another's body without threat of punishment for non-compliance and without promise of reward for compliance.
5. Unwanted advances including the types of behaviors mentioned above in number 4, whenever they are accompanied by promised rewards or reprisal for lack of cooperation. For example:

- when submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment or education, or
- when submission to or rejection of such conduct by an individual is used as the basis for academic or employment decisions affecting the individual.

6. Nonconsensual sexual activity (e.g., "date rape," sexual activity with someone not capable of consent because of the influence of drugs, alcohol, or other incapacity)

7. Assault, physical violence, or coerced sexual contact (e.g., rape).

Preventive Action

Some instances of perceived harassment (within categories 1 and 2) may be the result of misunderstandings or miscommunications. Sometimes individuals unwittingly make insensitive or careless statements or exhibit behaviors that you may find offensive but that are not intended to give offense. In such circumstances, ongoing problems may be avoided or prevented by early and direct communication with the offending party.

The communication should make clear to the offending party that his/her remarks and/or behaviors are unacceptable to you. Several approaches can be used:

- Verbal Confrontation - Explain why you view the particular comments or behaviors as offensive. Be firm and direct; make it clear that the comments and/or behaviors are to stop.
- Written Communication - Write a letter to the offending party in which you give a detailed description of the unacceptable comments and/or behaviors. Explain how these incidents make you feel. State that you want the comments/behaviors to stop.

If you are not comfortable discussing the matter directly with the offending party (or if direct preventive action is not successful in stopping the offending comment or behavior) you should pursue the alternatives below. You have the right to proceed directly to file a complaint or confer with an advisor without first engaging in direct preventive action. (Note: direct preventive action is not recommended if the behavior in question involves physical contact or threats. Instead, you should proceed to a complaint or at least seek advice from the University.)

Please refer to North Park University's website and Student Handbook for further information regarding the Policy Against Discrimination, Harassment, and Retaliation.

Housing Policies

The educational mission of North Park University is not limited to the classroom. Residence living can be a part of the educational experience by providing challenge, opportunities for growth, and exposure to life situations.

The University is committed to making its housing units safe and healthy places in which to live. In turn, growth and development also depend upon the resident students and their willingness to contribute toward the shared goal of successful residence living.

North Park maintains residence halls and apartments on the campus which accommodate approximately 60 percent of the enrollment. All first, second, and third-year students are required to live in campus housing. Exceptions to this policy apply to students living with their parent/guardian(s) within 30 miles of the campus, those registered for fewer than 12 credit hours, or those 22 years of age prior to September 1 of the academic year. Other exceptions to this policy will be considered upon written petition to the director of residence life and housing.

All housing applicants must complete and sign a University Housing Contract and submit it to the director of residence life and housing. The contract implies that, unless the University is advised differently, the student plans to be a resident for his or her first, second, and third academic years until he or she is released from the housing contract based on the Housing Terms and Conditions. Termination of the contract must be made in writing to the director of residence life and housing prior to the

semester in question. Charges will be applied if the student is in violation and for each semester the student remains in violation of the University Housing Contract.

Please see the room and board refund schedule for adjustments made to housing charges after the semester is under way.

All student housing is under the direction of the director of residence life and housing. A full-time resident director (RD) resides in each living area and is assisted by trained student resident assistants (RAs). The residence life and housing staff provides supervision, advice and referral, programming, minor discipline, and general assistance for our residents.

While the University's residences are safe and well supervised, a student still assumes the normal risk associated with living in residence; that is, possessions can at times be accessible to other resident students and visitors. Students assume full responsibility for their possessions and valuables and should keep rooms and apartments locked if they do not wish others to have access. The university cannot assume responsibility for a student's personal possessions. Visitation hours are maintained at each living area. All visitors deposit their ID and sign in and out at the front reception desk of the individual halls.

Individual Facility Regulations

There are specific regulations that govern comportment, behavior, and procedure in various campus facilities. Students and guests are responsible to inform themselves of these policies and abide by them. Inquiries concerning policies for specific facilities should be addressed to the staff or director of the facility in question.

Right to Know

Students have a right to see graduation rates and crime statistics as required by federal law. Statistics on graduation rates are available from the Office of Student Administrative Services. Crime statistics are published by the security department and are available from the Office of the Vice President for Administration and Finance.

Search and Seizure Policies

Students are subject to search by authorized University personnel when there is probable cause to believe that the student is carrying controlled substances, alcohol, weapons, or stolen property.

The entry or search of living quarters of a student may be conducted by the following people for the purposes and under the following procedures:

- By law enforcement officers in the performance of statutory duties and in accordance with legally defined procedures governing search and seizure.
- By authorized University personnel to ensure that health, fire, and safety regulations are maintained.
- By authorized University personnel or agents to make improvements and repairs and to provide routine maintenance service.
- By authorized University personnel in emergency situations to protect the health and welfare of the student, or to make emergency repairs to prevent damage to the property of the student and the University.
- By authorized University personnel when there is probable cause to believe a violation of University regulations is being committed.

Probable cause means a reasonable group of suspicions supported by circumstances sufficiently strong to warrant a cautious person's belief that a person is committing an illegal act. Authorized University personnel include professional members of the Division of Student Engagement (excluding clerical personnel); University security personnel; the resident

director or resident assistant; the supervisor of the maintenance staff and/or his designated employee; and non-University personnel contracted to perform maintenance or repair services on behalf of the University.

Smoke Free Facilities

North Park University maintains a smoke-free policy in all campus buildings, including residence halls. Residence hall staff are instructed to be vigilant in enforcing the smoke-free policy.

Student Conduct, Community Standards, and Sanctions

The purpose of the Student Standards of Conduct process is to help North Park University students understand and develop respectful and responsible behavior in the context of the campus and surrounding community. North Park University and the Division of Student Engagement is committed to preparing lives of significance and service by assisting students with the following:

- Understanding community responsibilities by fostering empathy for others, their feelings, and their need for conditions
- Enhancing self-awareness by developing the integrity and character of students
- Making intentional life decisions that are conducive to growth development, life-long learning, and spiritual awareness
- Obtaining fundamental skills to serve a student, a friend, and citizen
- Encouraging and enforcing the rights and property of others
- Embracing diversity by preserving respect and dignity of all persons

North Park University assures its students its intentions are uphold accountable for the University Community Standards, and does not intend to take away any student's rights.

Sanctions are intended to deter North Park students from engaging in inappropriate behavior, while both being commensurate with the misconduct and including an educational component. The educational component may be the most appropriate means to addressing code violation(s) within an educational community. Sanctions vary depending upon the severity of the offense, the student's prior conduct record, and the student's current conduct status. Further information regarding student conduct, community standards, and sanctions may be found in the Student Handbook.

UNDERGRADUATE PROGRAMS

Degree Requirements

All students will earn a minimum of 120 semester hours in designated courses to earn a bachelor's degree. Some majors or concentrations may require more hours. In order to earn a degree, all students need the following:

Core Curriculum

The Core Curriculum is foundational for all students and all areas of study and vocation. In its concern with ultimate questions, the development of the person, responsibility to society, and the integration of understanding across disciplinary lines, the program reflects the distinctive values of the Christian liberal arts university. In its concern for basic skills of thinking and communication, the program is directed toward practical success in the wide variety of occupations and roles that our graduates enter. In accordance with the stated mission of North Park, we intend the entire student experience, including both curricular and co-curricular activities to achieve the following learning outcomes.

As a result of successfully completing North Park's Core Curriculum, a student should be able to demonstrate the following elements of learning:

Knowledge of Human Cultures, the Natural World and the Christian Faith

VISION: Understanding and engaging the world through a diversity of means and materials is the mark of a well-formed and versatile mind. Through an introduction to the basic content and methodologies of multiple disciplines, students will study the complexity of human cultures, the natural world, and the foundations of the Christian faith. Students will also learn to appreciate the limitations of knowledge in a given field and hence the interdependence of the disciplines in the search for truth. Ultimately, the pursuit of knowledge can lead to wisdom when it is integrated with well-honed skills and lived moral commitments.

OUTCOMES:

1. Human Culture: Demonstrate knowledge of key facts, concepts, and theories of human cultures, both regional and global, and apply disciplinary methodologies of analysis and research to acquire such knowledge.
2. Natural World: Demonstrate knowledge of key facts, concepts, and theories of the natural world, and apply specific disciplinary methodologies of analysis and research to acquire such knowledge.
3. Christian Faith: Demonstrate knowledge of the Biblical message, Jesus of Nazareth, and a Christian perspective on God, self, and world.

Skills for a Life of Significance and Service

VISION: In academic, vocational, and professional endeavors, knowledge joins practice through the application of the skills. These skills are inextricably linked to one another and cannot be acquired in isolation. Students will practice these skills rigorously and extensively across the curriculum in the context of progressively more challenging problems, projects, and standards of performance. When integrated with a breadth of knowledge and moral commitments, these skills can become enduring habits transferable to the evolving contexts of work and life.

OUTCOMES:

1. Inquiry: Retrieve and interpret information and scholarships in particular contexts to formulate constructive questions.
2. Argumentation: Employ argumentation strategies by constructing, analyzing, and evaluating discursive and quantitative reasoning to form independent judgments.
3. Aesthetics: Appreciate and interpret aesthetic experience through the production or interpretation of material, performative, or literary works.
4. Communication: Demonstrate effective written, oral, and visual communication skills and sensitivities.

Values of Personal Character, Social Responsibility, and Spiritual Identity

VISION: In Christian liberal arts education, learning to take active responsibility for the well-being of one's neighbor and oneself gives moral purpose to studies, vocations, and professions. These responsibilities are deepened through a maturing spiritual identity and broadened through exploring the purposes of human life and the meaning of faith. Through self-reflection and service to others, students will learn what it means to live ethically within and across diverse communities. Students will see the relevance of the values below, by gaining competence in their application within an urban environment. By dialoguing with North Park's core Christian identity, students will consider their own religious identity. Ultimately, when integrated with broad knowledge and habituated skills, these values can become virtues of character for lifelong service and learning.

OUTCOMES:

1. Self-Awareness: Practice introspective and critical self-awareness of one's own assumed beliefs, prejudices, ignorance, and status in society.
2. Human Wellness: Understand human well-being through personal integration of its physical, psychological, and spiritual components.
3. Environmental Stewardship: Demonstrate respect for the natural environment, and appreciate the interconnections between the natural environment and human cultures.
4. Social Justice: Practice social responsibility by demonstrating ethical reasoning and engaging in cooperative action, service learning, or advocacy to serve a communal good.
5. Intercultural Dialogue: Recognize the diversity and commonalities of values across cultures, and practice intercultural dialogue and cooperation.

Integrative and Applied Learning

VISION: A Christian liberal arts education prepares individuals for a life as well as a living in the context of real communities. In preparing students for a life, it assumes that human persons transcend what any single discipline of knowledge or cultural worldview can attain. In preparing students for a living, education recognizes that problems encountered in professional life require creative solutions that draw upon both specialized and broad learning. Students will be expected to integrate and apply what they learn across the curriculum in the service of concrete problems.

OUTCOMES:

1. **Integration:** Integrate the knowledge and methods of multiple disciplines within the general education curriculum to explore significant and enduring questions of human experience.
2. **Application:** Apply broad knowledge and a variety of skills to a complex and concrete problem in the world in light of chosen value commitments.

These outcomes are met through three distinct phases of the Core Curriculum.

Foundations Curriculum

The Foundations Curriculum is organized around basic literacies, skills, and values foundational to a Christian liberal arts education. Faculty advisors should steer students to take most or all of these courses in the first four semesters to give students a broad academic base for their college career. All courses in this category are taught and assessed at the introductory or “1000” level. None of these courses should be taught primarily as the first course in a particular academic discipline.

Exploratory Curriculum

The Exploratory Curriculum is organized around diverse disciplinary knowledge set within the context of application to contemporary life. As a whole, advisors in most programs can encourage students to spread these courses more widely throughout their college career, though some majors may require these be taken early in their student’s career. Though it is advisable to take many of the Foundations courses prior to these Exploratory courses, only the “Christian Life & Thought” distribution category below has a prerequisite in BTS 1850. While all the qualifying

courses under these categories should be accessible to students from a wide array of academic majors, not all courses need be listed at the 1000 level.

Capstone Curriculum

Capstone Curriculum includes a Keystone seminar. This course involves experiential education and the integration of upper level skills and knowledge applied to contemporary social issues.

All graduates must satisfy the listed Core Curriculum requirements. All courses that meet Core Curriculum requirements are found under their respective departmental headings and are indicated by the notation GE after the course title. Students admitted before Fall 2013 should consult prior editions of the University Catalog for General Education requirements. Transfer students should consult the transfer section in this catalog or contact the coordinator of transfer admissions regarding transfer guidelines and Core Curriculum requirements.

The same course cannot be used to fulfill more than one requirement in the Core Curriculum, but courses taken to fulfill individual Core Curriculum requirements may also be used to satisfy major or minor requirements.

A component of writing instruction and practice is a requirement in all courses.

North Park University participates in the Illinois Articulation Initiative. Under this agreement, transfer students who have satisfied the Illinois Core Curriculum through successful and approved coursework at Illinois institutions of higher education will be considered to have completed North Park’s Core Curriculum requirements. The student must, however, additionally complete Core Curriculum requirements for Biblical Studies, Foreign Language and Personal Development. Contact the University’s transfer counselor for more information.

Requirement Area	Required Courses	Minimum Semester Hours	Course Selections

Notes

A student must earn a final grade in Cornerstone seminar of C- or higher in order to take both a qualifying Writing Research and Keystone Seminar course.

Any NPD 2000 course that a student completes can be used for either an Ethical Reasoning or Writing Research requirement. Advisors note that this course from the pre-2013 GE program will be phased out over the next several academic years.

Transfer students who have completed a college level writing composition course with C- or higher will meet the Cornerstone Seminar requirement. If a student has not completed such a course, OSESS will assess the student's writing level through the ACT/SAT subscore in writing, personal statement, etc. Those students needing remedial writing instruction will be required to register for the appropriate classes. Contact OSESS for more details.

Students in the following professional programs are not required to take Keystone Seminar: athletic training, business and economics (BS degrees), education, music (BM and BME degrees), and nursing.

No credit for foreign language level 1010 will be granted to students who have completed more than two years of the same foreign language in high school within the last five years. Students completing the foreign language requirement through examination (including AP and CLEP) can only receive an exemption from the requirement. Credit will not be awarded for 1000-level foreign language courses through examination. Credit by examination may be granted for 2000+ level foreign language courses only if the student is majoring or minoring in the language. International business majors may receive credit for 2000-level courses through examination. Students completing the Advanced Placement (AP) program and submitting passing examination scores can also receive credit for 2000-level foreign language courses regardless of major.

Degrees, Major and Minor Programs

In addition to the Core Curriculum program, every graduate completes a course of study in a specialized or major area.

Degrees

B.A. – Bachelor of Arts

B.M. – Bachelor of Music

B.M.E. – Bachelor of Music Education

B.S. – Bachelor of Science

Majors and Degrees

Students may earn the following degrees in the traditional undergraduate program by choosing a major in:

- Advertising (B.A., B.S.)
- Africana Studies (B.A.)
- Art (B.A.)
- Athletic Training (B.S.)
- Biblical and Theological Studies (B.A.)
- Biology (B.A., B.S.)
- Business and Economics (B.A., B.S.)
- Chemistry (B.A., B.S.)
- Communication Studies (B.A.)
- Criminal Justice (B.A.)
- Early Childhood Education (B.A.)
- Elementary Education (B.A.)
- Engineering (B.A.)
- English (B.A.)
- Environmental Science (B.A., B.S.)
- Exercise Science (B.S.)
- Global Studies (B.A.)
- Health Sciences (B.S.)
- History (B.A.)
- Mathematics (B.A., B.S.)
- Media Studies (B.A.)
- Medical Studies (B.S.)
Post-bachelor's degree only
- Music (B.A., B.M., B.M.E.)
- Nonprofit Management (B.A., B.S.)
- Nursing (B.S.)
- Philosophy (B.A.)
- Physical Education (B.A., B.S.)
- Physics (B.A., B.S.)
- Politics and Government (B.A.)
- Psychology (B.A., B.S.)
- Secondary Education (B.A., B.S.) - second major only
- Scandinavian Studies (B.A.)
- Sociology (B.A.)

- Spanish (B.A.)
- Theatre and Performance Studies (B.A.)
- Youth Ministry (B.A.)

Students in the School of Adult Learning (SAL) program may earn the following degrees by choosing a major in:

- Business Administration (B.A.)
- Church and Ministry Management (B.A.)
- Counseling Psychology (B.A.)
- Criminal Justice (B.A.)
- Nonprofit Management (B.A.)
- Management Information Systems (B.A.)
- Organizational Management and Leadership (B.A.)

The same course cannot be used to fulfill more than one requirement in the Core Curriculum, but courses taken to fulfill individual Core Curriculum requirements may also be used to satisfy major or minor requirements.

Only two courses may be double-counted between two different majors or between a major and a minor.

Major Declaration Process

During the first semester or year, faculty advisors assist students in selecting and declaring a major field of study. A student is then assigned a major advisor by the Office of Student Enrichment Services and Support respective of the department's faculty. If the student is not ready to choose a major, they will remain with their current faculty advisor until they have reached a decision. At that point they will be assigned to a major advisor in the appropriate department. It should be noted that certain programs and majors require a higher grade point average and separate application process and/or additional entrance requirements, such as a GPA of a 'C' average (2.00) in the courses within the major, as a minimum for acceptance.

Individually Constructed Major (ICM)

North Park University's commitment to the liberal arts provides students with a community that encourages a spirit of innovation and supports the desire to learn from a dynamic community around us. As a result, a student may demonstrate depth of learning and scholarship by planning a major involving subject area(s) of interest. An Individually Constructed Major (ICM) allows students significant independence to form a major that corresponds to his/her own interests, as well as an appropriate culmination identifying the associations of disciplines involved. Whenever possible, the work should be creative, original, and scholarly, rather than simply the mastery of the course content of the selected disciplines.

Working with (a) faculty advisor(s), the student develops a statement articulating the justification and appropriateness of the ICM and designs a rational sequence of studies.

The sequence of studies should include:

- A minimum of 36 credits for a B.A. degree and a minimum of 44 credits for a B.S. degree.
- At least four courses at the 3000+ level, one of which must be an independent study, internship, or capstone course that demonstrates integrated work
- At least 20 credits for a B.A. and 28 credits for a B.S. in the ICM must be taken at North Park University.
- Within one academic department, a student may take no more than 24 credits for a B.A. and 32 credits for a B.S.

- A student must receive a C or better in courses for the ICM.

In order for such a program to be approved, the student must:

- Fill out the ICM Proposal Form.
- Obtain the permission of the departments of each named academic area involved. Documentation of permission must be provided, such as a memo or letter.
- Obtain the signature and support of a faculty member who will be responsible for supervising the ICM.

The faculty member supervising the ICM will bring the Proposal Form and supporting documentation to the Curriculum and Instruction Committee (CIC). The proposal will be reviewed by the CIC. Upon the Curriculum and Instruction Committee's approval of the ICM Proposal Form, the CIC presents it to the full faculty for consideration. Full faculty approval is required for the ICM to be approved.

The entire approval process must be completed in the academic year prior to graduation. This includes completion of the ICM Proposal Form, permission of the academic departments, approval of the Curriculum and Instruction Committee and the full faculty. For example, a student graduating in December 2013 or May 2014 must have completed the entire approval process by May 2013.

The student must still complete all the Core Curriculum requirements. If applicable, the following requirements outlined in the catalog may be helpful for students pursuing an ICM.

- Transferring courses taken outside North Park University
- Undergraduate credit for graduate courses
- Graduate courses taken by undergraduate students
- Dual-bachelor's degree

Students pursuing an ICM will be held to the same academic standards as any student at North Park University.

Minor Field

In general, a minor is not required for degree completion. However, the student might find the completion of a minor to be advantageous. In consultation with the major advisor, a supplementary series of courses comprising a minor may be determined from one of the following alternatives:

- Subject Minor: A minor may be chosen from any of the major fields of study previously listed.
- Special Minor: The student may select a cohesive unit of five courses to be approved by the major advisor and the division chairperson of the minor discipline.

Comprehensive Examination

A comprehensive examination may be required in a major field (see individual departmental requirements).

Dual Bachelor's Degree

A student will be simultaneously awarded a bachelor of arts degree and a bachelor of science degree under the following conditions:

- Candidates must meet the 30-hour residency requirement.
- Candidates must complete a minimum of 150 semester hours of course work.
- Candidates must complete all requirements for both degrees.

- No more than two (2) courses may be common to both degrees (excluding Core Curriculum requirements).
- 30 semester hours must be unique to the second degree.
- Core Curriculum courses completed for one degree may be applied toward the second degree.

Grade Point Average

A cumulative grade point average of at least 2.00 (C) in all courses attempted as well as in the major field is required for graduation. Some majors or programs require a higher grade point average in the major field.

Pre-Professional and Professional Programs

Pre-Professional Programs

The University offers pre-professional programs in art therapy, dentistry, law, medicine, pharmacy, occupational therapy, optometry, pharmacy, physical therapy, and veterinary science. These programs are not major areas in the strict sense, but are sequences of courses that will establish an adequate foundation for entry into graduate professional study. Students who are contemplating entry into graduate professional programs in the health and legal fields will understand the increasingly competitive nature of these fields. North Park provides advisory services and foundational courses that enable its graduates to compete very favorably for entry into such graduate programs. Close contact with the student's faculty advisor should be maintained throughout the student's time at North Park.

Professional Programs

The program of studies at North Park permits the student to achieve preparation for entry into a number of careers:

- **Athletic Training:**

The Athletic Training Educational Program (ATEP) prepares students to take the BOC examination. Successful completion of the BOC examination is required in order for the student to work as an entry-level Certified Athletic Trainer. ATEP has a competitive admission process; entrance into North Park does not guarantee entrance into ATEP.

- **Business and Economics:**

North Park University offers a bachelor of science in business and economics which will prepare students for careers in accounting, economics, finance, international business, management, marketing, and sports management. Courses are offered for those preparing for the Illinois examination for Certified Public Accountant. Five-Year Bachelor/M.B.A. Program: With the availability of first- and second-year M.B.A. courses in both evening and Saturday class formats, North Park University students can complete a bachelor's degree in most fields and an M.B.A. degree within five years. Contact the School of Business and Nonprofit Management (SBNM) Admissions Office for further details.

- **Engineering Program**

(North Park/UIC Dual-Degree Program in Engineering):

In collaboration with the University of Illinois Chicago (UIC), a student can, through a five-year coordinated program including summers, earn both a B.S. degree in physics from North Park University and an engineering degree from UIC. In contrast to the three-two program described below, the three years at North Park University are intermixed with the two years at UIC. Thus, students may choose to be in residence at North Park for the entire duration of the program. Additionally, students earn a B.S. in Physics from North

Park rather than a B.A. in Physics. The UIC engineering degree must be in either civil or mechanical engineering. Finally, this program is highly selective: all students admitted to the program are designated “Engineering Fellows” and become part of a cohort that functions as a learning community during their tenure in the program. Through their North Park years, the student acquires a broad background in the liberal arts while at the same time obtaining the fundamental skills in mathematics, physics, chemistry, and computer science; through their UIC years, the student receives the ABET accredited coursework required to receive an ABET accredited engineering degree. All North Park and UIC courses specified as part of the dual degree program must be completed; this includes all North Park Core Curriculum requirements for a baccalaureate degree.

- **(Three-Two Program):**

A student can, through a five-year coordinated program, earn both a B.A. degree in physics from North Park University and an engineering degree from an accredited engineering school. Students spend three years in residence at North Park University followed by two years in residence at the engineering school. Under this program, students may attend any accredited engineering school that they are able to be admitted to; they are not limited to certain “partner” schools. During their North Park years, the student acquires a broad background in the liberal arts while at the same time obtaining the fundamental skills in mathematics, physics, chemistry, and computer science, which are required for engineering. A North Park engineering advisor, knowledgeable about the requirements of engineering schools, is assigned to each student in the program. All North Park Core Curriculum requirements for a baccalaureate degree must be completed, as well as major courses as described by the North Park major department. Certain courses taken at the engineering school will be transferred to North Park to complete any requirements not satisfied during the three years spent in residence.

- **Music:**

The School of Music offers the degree of bachelor of music in applied music. This program prepares students for graduate school, careers in performance, and applied teaching.

- **Nonprofit Management:**

North Park University offers a bachelor of science in nonprofit management which will prepare students for careers across the nonprofit sector. Students completing this B.S. degree will also earn a Nonprofit Leadership Certificate and Certified Nonprofit Professional (CNP) credential through the Nonprofit Leadership Alliance.

- **Nursing:**

The School of Nursing offers a four-year program that leads to a bachelor of science in nursing degree. Successful completion of the program qualifies the graduate to apply for the professional nurse licensing examination, the NCLEX-RN. The undergraduate nursing program has a competitive admission process; entrance into North Park University does not guarantee entrance into the nursing major program.

- **Occupational Therapy (Cooperative Education Program):**

Through affiliation with the occupational therapy program at the School of Medicine at Washington University in St. Louis, Missouri, a student can earn both a baccalaureate degree from North Park and a master of science in occupational therapy from Washington University. The cooperative education program is a five-year program. Students spend three years in residence at North Park, followed by two years in residence at Washington University. During the North Park years, the student acquires a broad background in liberal arts, and fulfills the prerequisites for the occupational therapy program.

All North Park Core Curriculum requirements for a baccalaureate degree must be completed, together with a departmental major (biology, psychology, or a specially designed pre-occupational therapy constructed major are suggested). Certain courses taken at Washington University may be transferred to North Park to complete any requirements not satisfied during the three years spent in residence. A North Park occupational therapy advisor, knowledgeable about current requirements of the program, is assigned to each pre-occupational therapy student.

- **Teacher Education Program**

The professional sequences combine theoretical and practical studies and include clinical experiences in a preschool, elementary, or secondary school. The following programs have been approved by the Illinois State Certification Board and the Illinois State Board of Education:

- Early Childhood Education (major) (infant-grade 3, type 04 certificate)
- Elementary Education (major) (K-9, type 03 certificate)
- Secondary Education (major) (6-12, type 09 certificate): Biology, Chemistry, Economics, English, History, Mathematics, Physics, Political Science
- Special K-12 Certification (K-12, type 10 certificate): Art, French, Music, Physical Education, Spanish

Early Childhood Education

The combination of an early childhood education major, a major area of concentration selected from a list of approved options, and an expanded general education program enables the student to qualify for Illinois certification.

Elementary Education

The combination of an elementary education major, a major area of concentration selected from a list of approved options, and an expanded general education program enables the student to qualify for Illinois certification.

Secondary Education

The combination of a content-area major as a first major, a secondary education major as a second major, and courses for core standards in certain content areas enables the student to qualify for Illinois certification.

Special (K-12) Education in Art, French, Music, Physical Education, and Spanish

An education sequence, together with a teaching major and an expanded general education program, qualifies the graduate for a K-12 certificate.

Residence

All candidates for graduation must take the last 30 semester hours of their degree requirements at North Park University. At least 10 of these must be in the major field.

Second Bachelor's Degree

A student who has previously graduated with a bachelor's degree from North Park may be eligible for a second bachelor's degree if an additional 30 hours are taken beyond the initial degree at North Park and all requirements for the major of the second degree are met. A student who has completed a bachelor's degree from another institution will be treated as a transfer student and must complete all the degree requirements.

ACADEMIC POLICIES FOR UNDERGRADUATES

The policies listed below apply to all undergraduate students unless individual programs specifically indicate an alternate policy. Graduate programs are governed by different policies that are listed in the sections describing each graduate program.

Students are expected to know the policies governing the academic program as published in this catalog and to plan a program of studies that will satisfy the requirements for the degree program in which they have matriculated.

The catalog represents the University's effort to collect in one place the many policies and programs which govern the University's operations, and to that extent should be viewed as authoritative. However, the academic policies and programs of North Park University are continually being reviewed and changed in order to better achieve its educational mission. Therefore, the University reserves the right to revise this catalog from time to time without notice. The catalog is not a contract, and students should use it as an information guide and not as a statement of contractually binding terms. In cases of conflict between the most recent version of the catalog and other policy statements, the University president has discretion to resolve the conflict. Students are responsible for keeping informed of current University policies and meeting all applicable requirements.

Students must meet the degree requirements stated in the catalog under which they are enrolled, provided they maintain continuous enrollment. If a student withdraws from North Park, the graduation requirements in the catalog under which enrollment is resumed will apply. Transfer students must meet the requirements of the class with which they graduate.

Academic Leave or Withdrawal

Leave of Absence

Students may interrupt their education at North Park University for a period of no more than two consecutive terms by filing a leave of absence form with the Student Administrative Services. The catalog requirements under which a student initially entered the University will continue to apply to students who either maintain continuous enrollment or who file for a leave of absence. Students who are absent for a period longer than two semesters must apply for readmission through the Office of Student Enrichment Services and Support. The catalog under which a student is readmitted to the University will govern the graduation requirements for that student.

Withdrawal

Any student finding it necessary to withdraw from the University must complete the withdrawal process. The withdrawal form is available at the Office of Student Administrative Services and must be signed by various college officials. The completed, signed withdrawal form should be returned to Student Administrative Services. Students withdrawing after the fourth week will have W (withdrawal) grades recorded for their courses. Students may be involuntarily withdrawn from the institution if they are determined by University officials to be a danger to themselves or others, or if their behavior or actions are incongruent with the values and mission of the institution. Students may be responsible for tuition, fees, and charges up to the point of withdrawal.

Students who wish to return to North Park should follow the applicant process for readmission found in the Admission, Financial Aid and Billing section of the catalog.

Medical Withdrawal

Students may be granted a medical withdrawal from the University due to medical/psychological reasons through the Division for Student Engagement. The date of the withdrawal will be set by the Vice President or his or her designee. Medical withdrawals require appropriate medical documentation by a licensed health care practitioner or treatment facility. Medical withdrawals can be arranged in advance for the following semester.

The Vice President for Student Engagement or his or her designee will outline expectations regarding a student's time away from North Park University. If circumstances change during the medical withdrawal, modification of these expectations might occur. Students taking a medical withdrawal agree to the directives and recommendations for determining readmission eligibility set out by the Vice President for Student Engagement, his or her designee, and/or the Wellness Team, including any requirement for additional medical documentation at the time of the request for medical clearance. In some cases, continued treatment for a period of time may be required as a condition of readmission.

Clearance must be granted by the Division of Student Engagement prior to any action taken on a readmission application submitted by a student who withdrew for medical/psychological reasons. The Vice President for Student Engagement or his or her designee will determine readiness to return to academic studies, sufficient health stability, and grant clearance based on, but not limited to, the following:

- Review of medical documentation
- Written statement(s) from a licensed health care practitioner or treatment facility concerning (1) the student's health status, (2) ability to succeed as a student, or (3) directive(s) compliance

Clearance to reapply does not guarantee readmission. Students should not seek medical clearance until their health is stable. Subsequent requests for medical withdrawals for the same condition are reviewed with stricter standards and greater scrutiny.

Academic Load

The unit of credit is the semester hour. One hour of classroom instruction and two hours of outside preparation for 15 weeks equals one semester hour of credit. The normal academic load per term is 16 semester hours. Students may take up to 20 semester hours per term. By policy of the University faculty, a student seeking to register for more than 20 hours must have at least a 2.5 grade point average. Petitions for exception must be presented to the registrar. North Park reserves the right to restrict a student's program if employment or other conditions involve a risk to the student's health or scholarship.

Athletic Eligibility

The rules for athletic eligibility conform to the standards of the College Conference of Illinois and Wisconsin (CCIW), of which North Park is a member. A student must be full-time, in good standing, and have passed a minimum of 12 semester hours the previous term.

Auditors

Students with a minimum GPA of 2.0 who are carrying a full academic program will be allowed to audit one course per term for an additional fee (see yearly fee schedule). Other auditors, except those listed below, will be charged full tuition. Auditors may, in addition, be charged a fee for the use of equipment.

Students taking a course for credit will have priority over an auditor in admission into a class. The authority to decide if a class will have auditors and, if so, how many and the extent to which auditors are to participate is vested in the respective instructor. Students may not receive credit by examination in a course that they have audited.

Alumni of North Park and senior citizens are eligible to audit a class for a fee and are subject to the conditions in the paragraph above. (An alumnus is defined as one who has attended any North Park school for at least one academic year, exclusive of currently enrolled students.) In addition to alumni and senior citizens, visitors from the community desiring to audit courses may do so for a fee and are subject to the conditions applying to other auditors.

Certificates, Diplomas, and Transcripts

A student's legal name will appear on all certificates, diplomas, and transcripts issued by the institution. Titles such as Mr., Ms., Dr., Rev., etc. will not be included unless this is part of a student's legal name. A name can only be changed within the institutional database upon presentation of legal documentation of the name change. A name cannot be changed once a student has graduated from the institution or has been absent for longer than one calendar year.

Class Attendance

Students are expected to be prompt and regular in attendance at all scheduled classes. Attendance requirements are set by individual instructors. Illness is generally the only acceptable excuse for absence from classes. Arrangements must be made with the instructor concerning short-term illness. In case of longer illness, the student should notify the Division of Student Engagement.

Concurrent Registration

A student must obtain the approval of the faculty advisor and Student Administrative Services to enroll concurrently in either correspondence courses or in classes at another institution. Forms are available in the Office of Student Administrative Services.

Dean's List

The Dean's List ranks students according to academic achievement after issuance of grades each term. The requirements for students attaining this distinction will be:

- Earning at least 12 semester hours credit other than P.
- Achieving a GPA of 3.50 or better for the term.
- Completing all courses taken during the term (i.e., no student with an incomplete for the term may qualify).

Degree Posting Date

A student's graduation will be posted in the term in which degree requirements, including submission of supporting documentation, have been met. Although course work may have been completed in a prior term, the degree will be awarded only for the term in which all academic and administrative requirements have been fulfilled.

Eligibility for Extracurricular Participation

Any student participating in such extracurricular activities as musical groups, varsity athletics, gospel teams, drama and forensics, publications, cheerleading, team management, and the holding of office and committee chairpersonships in student groups must be a full-time student in good academic standing during the participating term of the school year or in the previous spring term if participation is during the summer.

Examinations and Re-examinations

Regular examinations are given on announced dates throughout the term at the discretion of the instructor. A student who is absent from an examination may take a make-up examination only upon the approval of the instructor. A student should arrange in advance with the instructor to take a make-up examination. Fourth-year students who will have completed all degree requirements for the May commencement and whose course grade is B or better at the time of final examinations may be excused from the spring term finals at the discretion of the instructor.

Grades

Grades are issued at the end of each term. Report cards are available online through the student's secured Web Advisor account. A student copy is available from Student Administrative Services.

Final responsibility for evaluating student achievement and assigning course grades rests with the course instructor. However, a student has the right to appeal a grade assignment without jeopardy and will be protected from arbitrary or unjustifiable grading practice.

The following grades are used at North Park. The corresponding grade point is:

Grade	Grade Point
A	4.00
A -	3.67
B+	3.34
B	3.00
B-	2.67
C+	2.34
C	2.00
C -	1.67
D+	1.34
D	1.00
D-	0.67
F	0.00
AU (Audit)	0.00
DR (Administrative Drop)	0.00
DW (Dropped without permission)	0.00
I (Incomplete)	0.00
NG (No grade)	0.00
NS (Not submitted)	0.00
P (Pass)	0.00
W (Withdrawal)	0.00

Grade Definition

- Administrative Drop (DR): Student withdrew from course with permission of university administration. Credits are not calculated in GPA.
- Audit (AU): See Audit entry in this section.
- Dropped Without Permission (DW): Student was registered for the course but failed to attend. Course calculated in GPA as a failure of credits.
- Incomplete (I): See Incomplete Grades entry in this section.
- No Grade (NG): See Incomplete Grades entry in this section.
- Not Submitted (NS): Instructor has not provided a grade.
- Pass (P): See Pass/Fail entry in this section.
- Withdrawal (W): See Registration: Course Drop entry in this section.

Graduate Courses Taken by Undergraduate Students

An undergraduate student may enroll in a graduate course only if:

- The student is a senior.
- The department chair of the student's major approves.
- The graduate program director approves.
- The request is submitted with the form provided by Student Administrative Services.

Graduate Credit For 5000-Level Work Taken As An Undergraduate

An undergraduate student who is within 16 semester hours of the bachelor's degree and has a cumulative GPA of at least 3.0 may request to enroll in and reserve for graduate credit a limited amount of work at the 5000 level during the last semester as a senior. The appropriate form may be obtained from Student Administrative Services. This form verifies that the units being reserved are not needed to fulfill any requirements for the bachelor's degree.

Students may take up to 6 semester hours of credit in a graduate program prior to completing their undergraduate degree.

Undergraduate Credit For A Graduate Course

In some cases, an undergraduate student may receive special permission from a graduate program to enroll in and receive undergraduate credit for graduate courses (numbered 5000 and above.) Such permission will not be granted unless the student has reached senior class standing with an overall GPA of 3.0, has a 3.0 GPA in all courses attempted, or is a foreign exchange student with equivalent standing.

Students may take up to 6 semester hours of credit in a graduate program prior to completing their undergraduate degree.

Graduation Honors

The faculty selects students of outstanding scholarship and merit for graduation honors. For the purposes of graduation honors, all courses attempted for the North Park degree will be used in calculating a cumulative GPA. The academic record of transfer students will consist of those courses completed at North Park University and those transfer courses submitted to the University by the time of the official graduation audit. The requirements for graduation with honors are as follows:

Category	Cumulative GPA
Cum laude	3.50
Magna cum laude	3.70
Summa cum laude	3.90

Upon completion of all requirements, honors will be listed in the student's permanent record and he or she will receive a diploma that bears appropriate recognition of achievement.

Incomplete Grades

Incomplete (I)

A student will receive an Incomplete (I) when course work cannot be completed by the end of the semester due to illness and/or unforeseeable circumstances and the instructor believes the reason to be valid. A grade of Incomplete should not be awarded because of neglect on the part of the student. Students have one term in which to finish courses graded with an Incomplete. An Incomplete is computed as a failure until it is changed by the instructor of the course. Change of grade forms must be received by Student Administrative Services no later than the due date of grades for the subsequent regular term (Fall or Spring). Upon receipt of the change of grade, the student's transcript will reflect both the Incomplete grade and final grade (e.g., IB+). Grades of I which are not completed in one term will be changed to a letter grade of F.

No Grade (NG)

A student will receive a No Grade (NG) when coursework cannot be completed by the end of a semester in courses such as Student Teaching (EDUC 4100, EDUC 4110, or EDUC 4120), Athletic Training Practicum, Internship (4970), or Independent Study (4910). The completion deadline for the coursework is determined by the instructor in the course. The grade of NG will not affect the student's grade point average.

Pass/Fail

A student who has completed 30 semester hours may take up to 16 semester hours on a Pass/Fail basis, not to exceed one per term. A grade of Pass is equivalent to at least a C and will be recorded as Pass on the transcript. A grade of either D or F will be recorded as such on the transcript.

Registration on a Pass/Fail basis is subject to the following restrictions:

- The student must have a cumulative GPA of 2.0 or higher.
- The courses taken Pass/Fail must not fulfill G.E. requirements or those of a major field, including supporting courses for the major.
- Not more than one course in a department may be taken Pass/Fail.
- Application to take a course on a Pass/Fail basis (or to withdraw an accepted application) must be made to the registrar before the end of the fourth week of classes.
- Application must have the approval of the student's advisor and, for courses in the education sequence, of an education advisor.

Registration

All students are expected to register during the regular registration period. Advance registration for the fall term begins in mid-March and for the spring term in late October. Specific dates will be published in the academic calendar. Students are required to meet financial obligations and be in proper academic standing in order to register for the future term. Students are strongly encouraged to discuss their academic plan with their faculty advisor prior to registering for classes. Students may register

by using WebAdvisor or contacting the Office of Student Administrative Services.

Registration in certain courses may require a prerequisite. Enrollment in courses with a prerequisites are restricted to students who have taken certain other courses, who have attained a particular class standing, who have obtained the consent of the instructor, or who are pursuing a particular major or majors. These prerequisites are listed in the course description.

Course Add

Course additions may be made before the beginning of each term and through the first week of class. Admission into full semester class will not be permitted after the first week of the term. Admission into quad A and quad B classes will not be permitted after the first week of the class. A late registration and/or a change in registration fee may be assessed according to the fee schedule published separately. Attendance in class without registration for the course will not be permitted. No credit will be granted if the student has not registered for the class at the appropriate time.

Course Drop

Courses may be dropped before the beginning of each term and through the first week of class. After the first week of class, students must submit an instructor-signed course drop form to withdraw from a course. A drop from a course will count from the date that formal written notice has been filed with the Office of Student Administrative Services. Mere absence from class or notice to the instructor does not constitute a drop. A grade of DW (dropped without permission) will be assigned to unauthorized drops and a grade point of zero applied.

Students may drop a course based on the table below.

Course Length	Drop without an assigned grade*	Drop with an assigned grade of W**
16 week	End of 4th week	5th–12th week
7 ½ week	End of 4th week	5th–6th week
9 week (summer term)	End of 4th week	5th–7th week
4 ½ week (summer term)	End of 2nd week	End of 3rd week
3 week (May mini term)	End of 1st week	End of 2nd week

* Course will not appear on student's transcript.

** Course is listed on student's transcript but is not used in the calculation of the student's GPA.

The last day to drop a course depends on the length of the course. The table above identifies the final week that a course may be dropped based on its length.

After these dates, students will be assigned grades that are used in the calculation of their GPA.

Repetition of Courses

A student has the option of repeating any course, either by examination, if appropriate and approved by the department, or by re-registering under the following stipulations:

- A course may be repeated by examination following the usual rules for credit-by-examination or department policy in the discipline concerned. The CLEP examination may not be used for the purpose of gaining credit in a failed class.
- Permission to repeat a course must be obtained from the Office of Student Administrative Services before registration. Courses repeated

without permission will be averaged with the grade received in the previous attempt.

- All grades will remain on a student's transcript.
- Three courses with a grade of D or F may be repeated with only the latest grade, higher or lower, counting in each course. Students wishing to repeat more than three courses with a grade of D or F may do so with the repeated grade averaged.
- Classes with grades higher than D that are repeated will have the repeated grade averaged.
- Transfer coursework used to repeat a North Park course will be averaged with the original grade earned at North Park University. Students may petition the Repetition of Courses policies by written appeal to the Student Academic Standing Committee.

Student Academic Standing Committee

The Student Academic Standing Committee is comprised of members of the institution's faculty, administration, and academic support staff. The committee makes all decisions relative to academic standing and appeals to academic policy.

Student Classification and Academic Standing

Student Classification

The academic records of all undergraduate students are reviewed at the end of the fall and spring semesters. Students who do not meet the minimum academic standards are reviewed by the Student Academic Standing Committee. Academic performance will be evaluated on the basis of the number of credit hours attempted at North Park University and all credit hours transferred into North Park University from other institutions.

Academic standing categories may or may not meet federal requirements for maintaining satisfactory academic progress. Students that participate in varsity athletics must also meet the eligibility rules of the College Conference of Illinois and Wisconsin (CCIW).

Good Standing

A student is considered in good academic standing when their cumulative grade point average (GPA) is at, or above, the following minimum standards on a four-point scale:

Credit Hours Attempted	Cumulative Grade Point Average
<30	1.60
30 < 60	1.80
60 < 90	2.00
90+	2.00

Academic Warning

A student in good standing will receive an academic warning at the end of any semester in which their grade point average falls below a 2.0.

Academic Probation and Dismissal

Immediate Dismissal Rule (Dean's Rule)

Any student who receives a term GPA of 0.40 or below may be immediately dismissed from the institution.

- **Probation Status 1**

A student is placed on Probation Status 1 when their cumulative GPA falls below the minimum standard for good academic standing. Students remain on Probation Status 1 for one semester. These students are required to establish an Academic Support Contract with the Office of Student Enrichment Services and Support by the end of the fourth week of the term. Failure to establish a contract, or failure to comply with the terms agreed upon in the contract, may result in the loss of all financial assistance. Students who improve their cumulative GPA above the minimum standards at the end of the term will be removed from probationary standing. Students who improve their cumulative GPA by receiving a term GPA of 2.00 or above, but who fail to raise their cumulative GPA above the minimum standard will be placed on Probation Status 2. Students who receive a term GPA below 2.00, regardless of whether or not this improves their cumulative GPA, will be placed on Probation Status 3.

- **Probation Status 2**

Probation Status 2 identifies those students who are improving their academic performance. Students in this category can remain at Status 2 until such time as they raise their cumulative GPA above the minimum standards. This assumes the student's term GPAs are at 2.00 or above. These students are required to establish an Academic Support Contract with the Office of Student Enrichment Services and Support by the end of the fourth week of the term. Failure to establish a contract, or failure to comply with the terms agreed upon in the contract, may result in the loss of all financial assistance. Students on Probation Status 2 who receive a term GPA of below 2.00 will be placed on Probation Status 3.

- **Probation Status 3**

Students can remain on Probation Status 3 for one semester. These students are required to establish an Academic Support Contract with the Office of Student Enrichment Services and Support by the end of the fourth week of the term. Failure to establish a contract, or failure to comply with the terms agreed upon in the contract, may result in the dismissal of the student from the institution. Students who improve their cumulative GPA to the minimum standard at the end of the term will be removed from probationary standing. Students who improve their cumulative GPA by receiving a term GPA of 2.00 or above, but who fail to raise their cumulative G.P.A. above the minimum standard, will be placed on Probation Status 2. Students who receive a term GPA below 2.00, regardless of whether or not this improves their cumulative GPA, will be dismissed from the institution and may be placed on Probation Status 4.

- **Probation Status 4**

Probation Status 4 identifies those students who have been dismissed from the institution but who are allowed to continue at the institution under special circumstances established by the Student Academic Standing Committee. Students may remain in this category for one semester. These students are required to establish an Academic Support Contract with the Office of Student Enrichment Services and Support by the end of the fourth week of the term. Failure to establish a contract, or failure to comply with the terms agreed upon in the contract, will result in the dismissal of the student from the institution. Students who improve their cumulative GPA to the minimum standard at the end of the term may be removed from probationary standing. Students who improve their cumulative GPA by receiving a term GPA of 2.00 or above, but who fail to raise their cumulative GPA above the minimum standard, may be placed on Probation Status 2. Students who receive a term GPA below 2.00, regardless of whether or not this improves their cumulative GPA, will be dismissed from the institution.

Testing and Placement Credit

Advanced Placement

Many high school graduates have completed college-level courses in high school and have taken Advanced Placement examinations of the College Board (CB). North Park recognizes such programs and encourages superior high school students to seek college credit through these examinations and thereby accelerate their progress toward degrees. The University may grant credit where a grade of 3, 4, or 5 has been earned on the CB Advanced Placement examination. Credit received under the Advanced Placement program may be applied toward North Park graduation requirements. No tuition charge is made for these credits. Students who wish to obtain such credit should have their examination scores forwarded to the Office of Student Enrichment Services and Support.

College Credit While Still in High School

Some high schools have developed relationships with colleges or universities that allow college credit to meet high school graduation requirements. Students wishing to enter North Park with such credit may apply for admission as a first year student or as a transfer student under the following respective policy stipulations. Students must choose between being a first year or transfer student prior to an admission decision.

Enter as a First-Year Student

- The subject matter and course level conform to North Park's policy for any college course.
- The college credit is granted by a regionally accredited college or university.
- The credit is recorded on an official college or university transcript.
- If transferable, the final courses up to the last 16 college credit hours will be evaluated and accepted as college-level transfer credit, according to our guidelines and policies.

For purposes of admission and financial aid, including academic scholarships, the student will be considered a first-year student at the University regardless of the amount of credit transferred.

Enter as a Transfer Student

- The subject matter and course level conform to North Park's policy for any college course.
- The college credit is granted by a regionally accredited college or university.
- The credit is recorded on an official college or university transcript.
- If transferable, all college credit hours will be evaluated and accepted as college level transfer credit, according to our guidelines and policies.

For purposes of admission and financial aid, including academic scholarships, the student will be considered a transfer student at the university regardless of the amount of credit transferred.

College Level Examination Program

North Park University may grant credit for university-level knowledge as demonstrated by passing grades on the exams offered by the College Level Examination Program (CLEP). Credit received under the CLEP program may be applied toward North Park's graduation requirements. A fee per credit hour will be assessed in order that the credits posts to the student's transcript. Students who wish to obtain such credit should have their examination scores forwarded to the Office of Student Enrichment

Services and Support. CLEP scores will be reviewed according to the guidelines:

A student is not eligible to receive credit-by-examination in any course that he or she has previously audited or taken for credit.

Credit will post to a student's transcript once the student has officially enrolled at North Park University and has paid the fee per credit hour.

North Park University must receive an official copy of the CLEP score in order to process and post the credit. A student may earn a maximum of 30 credits.

Examination For Placement or Credit

Credit by examination is available to any student by petition and upon departmental approval. A student qualifies to receive credit upon the receipt of a grade of B or better in the subject examination; however, a grade of P will be recorded in the student's transcript. A student may not receive credit by examination in a previously audited course.

Petitions for credit by examination must be presented to the department chairperson before a test is taken. Repeat times vary according to discipline. Information and petition forms are available through the Office of Student Enrichment Services and Support. The student is responsible for any applicable fees.

Foreign Language Examination

If you already speak a language other than English you may fulfill—or be exempt from—the foreign language requirement based on this experience and your native (or primary) language. Use the rules below to help you determine how you can prove proficiency.

Rule 1: Native Language is English

If English is the primary language spoken in your home country and the primary language of instruction in high school or beyond, you have two basic options to fulfill the foreign language requirement.

1. Take coursework at North Park to complete proficiency to the 1020 level of another language.
2. If you already know a language other than English, you may take a challenge exam to prove proficiency in that language.
 - If that language is offered at North Park, please contact the Modern Language department to arrange for a challenge exam. These exams are free of charge and are offered prior to the beginning of each semester.
 - If the language you know is not offered at North Park you can arrange to be tested by a qualified person at another four-year university. You may not use a community college, community center, church, or relative to administer a proficiency test, and you are responsible for any fees related to taking the test or having the results posted to North Park. Please contact Student Enrichment Services and Support for further information.

Rule 2: Native Language Other Than English

If English wasn't the primary language of your home country, and wasn't the primary language of instruction in high school or beyond, you must show proficiency in the English language to fulfill the GE foreign language requirement. You can do this in one of three ways:

1. Complete all required English as a Second Language (ESL) coursework
2. Testing out of the ESL program by taking a proficiency exam
3. By otherwise being exempted from taking the ESL placement test

Contact Dennis Bricault in the Department of Modern Languages for more information about the ESL program and placement test.

Important Notes

If you are from a country with a primary language other than English, but English was the primary language of instruction in your high school or beyond, you should follow the guidelines for Rule 2 above, and contact Dennis Bricault with any questions.

Your fulfillment of the foreign language requirement will be posted to your academic record following your successful completion of one semester at North Park.

North Park does not award academic credit for testing out of the 1010/1020 level of any language.

Students majoring in a language, international business, or global studies may be eligible to receive academic credit for language proficiency beyond the 1020 level, and will be charged a fee per credit hour granted as well as a posting fee for these academic credits. Please contact Student Enrichment Services and Support for further information.

International Baccalaureate Program

North Park University recognizes the rigor of the International Baccalaureate program and may grant academic credit for scores of 5, 6, and 7 on the Higher Level examinations. The specific amount of credit and course equivalencies to be awarded for each Higher Level pass is determined through evaluation by the appropriate academic department. Credit received under the International Baccalaureate program may be applied toward North Park graduation requirements. No tuition charge is made for these credits.

Students who wish to obtain such credit should have their examination scores forwarded to the Office of Student Enrichment Services and Support. Credit will post to the student's transcript after the student has enrolled at North Park University. A maximum of 30 semester hours may be awarded.

Transferring Courses Taken Outside North Park University

Students pursuing a degree from North Park University are expected to complete their course work at North Park University. Under exceptional circumstances, it may be necessary for students to include course work from other institutions. When this is necessary, students, to be assured of the acceptance of the course work, must secure prior approval of outside courses. To be approved, courses must be offered by an accredited four-year college or university (or a two-year community or junior college, if the student has completed less than 60 semester hours of academic credit). The course itself must be an academic course (rather than technical or vocational) and must be approved for elective credit or for application toward the fulfillment of general education or departmental requirements. An approval form is available from Student Administrative Services and must be signed by the student's academic advisor, the department chair of the department in which the course is offered (or the most appropriate division chair), and the Registrar. All transferred courses will be recorded with the grade received and will be included in a student's grade point average at North Park.

Value of Courses

The curriculum is based on a schedule of two semesters per academic year. Most courses are valued at two or four semester hours but the value of each is indicated in the section of this catalog describing the courses of instruction.

Visiting Students

A Visiting Student is one who is authorized by the Office of Admission to register for a course or courses for college credit but has not been fully accepted for a degree at North Park University. Visiting Students interested in taking classes must submit a Visiting Student Application as well as a statement of good standing from the school or university last attended. Credits earned as a Visiting Student are transferable to other universities or may later be applied to a North Park degree.

A Visiting Student may earn up to 30 semester hours with that status. Thereafter, the student must apply for full admission to the University before being allowed to register for additional courses. The application procedure for moving from the status of Visiting Student to a fully admitted student is the same as for other students. The same criteria are used by the University in approving applications for admission of a Visiting Student as would apply for any other application for admission. The Visiting Student is expected to meet the degree requirements that are in effect at the time of application for degree status.

ADDITIONAL EDUCATIONAL OPPORTUNITIES

Honors Program

Honors Congress

The North Park University Honors Congress brings together students of high academic ability with faculty in a learning community designed to promote academic excellence, rigorous intellectual development, community involvement, service to others, and vocational direction.

Honors in the Academic Major

During the junior and senior years, students will take honors courses provided they meet the requirements in the individual majors. Major professors will serve as guides to Honors Congress members and specifics are determined by the individual departments.

Graduate School Application

The Office of Career Development and Internships and individual school deans work with the Director of the Honors Congress to run seminars and plan events to consider graduate education. Vocational exploration undertaken in the first two years becomes actual planning in the second two years of university study.

National Fellowship Awards

Honors Congress students are encouraged to apply for awards and fellowships both in their individual disciplines and in competitive national applications to serve and learn beyond the undergraduate years.

Rewards of the Honors Congress

The Honors Congress at North Park University provides opportunity for students of promise to excel during their first two years of undergraduate study. If you are highly motivated, and if you are ready to be challenged and to challenge yourself this program may be for you. We strive to take the words of Jesus—"To whom much is given much will be required"—and give them special life during your NPU experience. Our philosophy is simply this: the Honors Congress gives students of high intellectual ability an array of learning experiences from which to choose, places them side-

by-side faculty mentors who care, and offers guidance and encouragement along the way.

Departmental Honors Program

The Departmental Honors program is designed to challenge North Park's most talented and motivated students to achieve at the highest level in their major fields. The requirements of this program are:

- A minimum overall GPA of 3.5 and a minimum major GPA of 3.7 for admission and retention in the program
- A minimum of 45 and a maximum of 90 semester hours earned at the time of admission into the program
- A grade of A or B in 3-8 semester hours of Departmental Honors (DH) 4000, which requires a paper or project at honors level
- Presentation of the DH 4000 paper or project at a Spring Honors Symposium
- Departmental approval

DH 4000 is listed in each major department with the course number 4000 and the prefix of the department, i.e., HIST 4000. For a course description of DH 4000, see the Departmental Honors section of the catalog and/or the individual department listings.

For additional requirements specific to a particular major, see departmental descriptions. Applications for admission may be obtained from the department chair.

Internship Program

For North Park University interns, Chicago is an occupational laboratory.

The city's lively business community and extensive cultural resources offer opportunities for students in all areas of study to work in jobs appropriate to their disciplines and career interests. Internships may also be arranged throughout the United States and overseas.

Students interested in an internship must submit an application to the Career Development & Internships Office in the semester prior to them wishing to do an internship. Acceptance into the program is determined by the Internship Committee, and approval is based on: (1) attainment of third-year or fourth-year status (including at least 30 semester hours earned at North Park University); (2) a major GPA of 2.5 or more (some departments have more rigorous requirements; please refer to individual department entries); and (3) results of interviews with the the Career Development staff and faculty sponsor. A faculty sponsor helps the intern identify activities, learning goals, and projects to be performed, and evaluates and grades the intern. Grading is done on a pass/fail basis. No more than 8 semester hours of internship may be applied toward graduation. Tuition is charged as for any other course.

The internship program is designed to help students (1) recognize and appreciate the relevance and value of a liberal arts education for career preparation; (2) combine classroom studies with direct involvement in a potential life-long occupation; (3) have a better idea of their strengths, weaknesses, and future needs in terms of knowledge and skills; (4) clarify vocational goals; and (5) make potential contacts for future employment.

Nonprofit Leadership Certificate

North Park University is pleased to offer a nationally recognized Nonprofit Leadership Certificate through an affiliation with American Humanics, a 60-year-old national alliance of colleges and universities, national nonprofit partners, and collaborating professional associations.

Designed to provide excellent preparation for entry-level careers in nonprofit organizations, this baccalaureate level certificate is intended to accompany any major and can also be applied toward a concentration in Nonprofit Management within the Bachelor of Science in Business and Economics degree program. To obtain the certificate, students must meet five program requirements, including fulfillment of a 300-hour internship in a nonprofit organization.

Program Requirements

These requirements are designed with one thing in mind: to prepare North Park University students for employment in the nonprofit sector. All requirements must be fulfilled in order to meet the nationally specified level of competency required by American Humanics. Each student must meet with the Axelson Center for Nonprofit Management to register in the program.

Two Core Courses

NONP 2710: Introduction to Nonprofit Leadership and Management

NONP 4700: Advanced Nonprofit Management and Leadership

Three Electives

One course in Child and Youth/Human Development:

- PSYC 1000: Introduction to Psychology (4 semester hours)
- SOC 1910: Introduction to Sociology (4 semester hours)
- YM 1510: Introduction to Youth Ministry (4 semester hours)

One course in Communication Studies:

- COMM 1910: Public Speaking (4 semester hours)
- COMM 2010: Introduction to Communication Studies (4 semester hours)
- COMM 2030: Interpersonal Communication (4 semester hours)
- BSE 2540 and BSE 3510: Business Communication and Public Relations (4 semester hours total)

One course in Financial Management:

- SBNM 5350: Nonprofit Financial Management (graduate level course: 2 semester hours)

Undergraduate students must be a senior and have a GPA of 3.0 or higher to take graduate-level courses. Alternative courses might be accepted on an individual basis. See the Campus Program Director for more information.

One nonprofit management internship – BSE 4970 (1-4 semester hours)

A minimum of 300 hours: equivalent to two semesters of 10 hours per week, one semester of 20 hours per week, one summer of 25 to 30 hours per week or some combination of these options. Internships must be pre-approved by the Campus Program Director.

Active membership in the American Humanics Association (AHA) for at least two semesters

Attendance at one national American Humanics Management Institute (AHMI)

Study Abroad and Off-Campus Programs

North Park students have access to more than 150 international universities or study abroad programs in more than 40 countries through North Park's International Office. We are proud to offer academic options for most majors and minors on six of the seven continents. North Park

students are encouraged to check with the International Office early in their academic careers to learn about study abroad options, program requirements, and costs. The International Office is located in Caroline Hall.

Sweden Exchange Program

Since 1976 North Park has maintained an exchange program with Södra Vätterbygdens Folkhögskola (SVF) in Jönköping, Sweden. This school operates under the auspices of our sister Church, Svenska Missionförbundet (the Swedish Mission Covenant), and an extremely close, cooperative relationship results from common values and concerns. North Park students with one year of college-level Swedish may apply to study in Sweden for the Fall semester with a cohort of other students and a North Park faculty member. Swedish students from SVF are in residence on the North Park campus during the Spring semester, so that friendships begun with the American students abroad may continue.

Winter term in Ecuador

In 1984, North Park initiated a Spanish language and culture program in Morelia, Mexico. The program moved to Cuenca, Ecuador in 2011, but maintains the same high level of academic rigor and community involvement. Students live with host families and enjoy high quality instruction in small and highly interactive classes. Service projects in the region allow students to connect to the local community, and on select weekends, the cohort of North Park students and a North Park faculty member participate in excursions throughout the country. Students with one and a half years of college Spanish or the equivalent are invited to apply for this eight week program which runs each spring. Students may apply to remain through the end of the spring term.

Bilateral Reciprocal Exchange Programs

North Park has exchange agreements with 11 universities around the world. North Park and its partners are able to send students to each others' institutions for a semester or year of exchange studies. Universidad del Salvador offers regular university courses taught in Spanish for advanced speakers. All other exchange sites offer regular university courses taught in English and/or foreign language instruction. North Park's exchange partners are:

- International University of Moscow (Russia)
- Jönköping International Business School (Sweden)
- Sungkyunkwan University (South Korea)
- Universidad del Salvador (Argentina)
- University of Akureyri (Iceland)
- University of Bergen (Norway)
- University of Iceland (Iceland)
- University of Jönköping School of Health Sciences (Sweden)
- University of Jönköping School of Education and Communication (Sweden)
- University of Tampere (Finland)

International Student Exchange Program

The International Student Exchange Program (ISEP) enables students to study independently at any of 150+ universities around the world. The language of instruction and available courses varies by host institution. North Park has been a member of ISEP since 2005 and has sent students abroad to locations as diverse as Austria, China, Costa Rica, France, Ghana, India, Mexico, Northern Ireland, and United Arab

Emirates. As an ISEP member, North Park also receives international exchange student from throughout the ISEP network.

Council for Christian Colleges and Universities Programs

The Council for Christian Colleges and Universities runs 11 semester programs. Four “culture shaping” programs give students the opportunity to incorporate their faith with popular culture and public life issues in the US while seven “culture crossing” programs take students outside of the US to help them better understand the role of faith in the global community. North Park students will study with other students from CCCU member schools. The CCCU program offerings are:

- American Studies Program (Washington, DC)
- Australia Studies Program (Sydney, Australia)
- China Studies Program (Xiamen, China)
- Contemporary Music Center (Martha's Vineyard, MA)
- India Studies Program (Coimbatore, India)
- Latin American Studies Program (San Jose, Costa Rica)
- Los Angeles Film Studies Center (Los Angeles, CA)
- Middle East Studies Program (Cairo, Egypt)
- Scholars' Semester in Oxford (Oxford, England)
- Uganda Studies Program (Kampala, Uganda)
- Washington Journalism Center (Washington, DC)

Short Term Academic Study Tours

Academic departments at North Park periodically offer short term travel opportunities during school breaks. These programs may be connected to credit-bearing semester length courses or function as standalone tours. Recent academic study tours have taken North Park students and faculty members to China, Costa Rica, Egypt, Ethiopia, France, Greece, and Thailand.

Accreditation

North Park University is accredited by The Higher Learning Commission and is a member of the North Central Association. The Commission is recognized by the U.S. Department of Education and the Council for Higher Education Accreditation which is responsible for ensuring accrediting bodies and institutions uphold and meet established standards of quality.

The Higher Learning Commission accredits degree-granting institutions located in the nineteen states of the North Central region.

North Park University was first accredited in 1926 by The Higher Learning Commission and is a member of the North Central Association (NCA). The Higher Learning Commission evaluates and accredits the entire institution as a whole.

The North Central Association, located at 30 North LaSalle St., Suite 2400, Chicago, IL 60602-2504, can be reached at (800)-621-7440: www.ncahigherlearningcommission.org

UNDERGRADUATE MAJORS AND COURSES (TRADITIONAL)

Academic Services (ACSR)

Snezek (director), Accult, Higgins, Konecky, Price, Tessler

Skill Development Courses

The University offers a number of courses designed to assist students who have deficiencies in specific academic skills. The courses may not be used to fulfill general education or major/minor requirements.

WRIT 1000 Fundamentals of Composition	4 sh*
MATH 1005 Practical Math for College	4 sh*
MATH 1010 Intermediate Algebra	4 sh*
ACSR 1005 Foundations for Academic Success.....	2 sh
ACSR 1010 Critical Reading Skills.....	2 sh

*These courses do not count toward the 120sh graduation requirement but can count towards full-time enrollment status.

1005 Foundations for Academic Success (2 sh)

An introduction to skills and strategies essential to success at the university level. Topics range from time management to critical thinking skills. Students will explore these topics through lectures, small groups, individual appointments and practical application. Special restrictions: enrollment by instructor permission, limited to first year students.

1010 Critical Reading Skills (2 sh)

The course is designed to provide instruction and practice in reading skills essential for academic success in college. The course is intended to meet the needs of the beginning college student and is organized to accommodate students with a wide range of reading abilities. While credit for this course applies toward graduation, the course may not be used to fulfill general education or major/minor requirements. Special restrictions: enrollment by placement.

1020 Topics in Skills Development (1-4 sh)

Specific instruction and practice in study/learning skills and approaches essential for academic success in college. Lecture, small group/individual tutorial format. Topics vary by term. While credit for this course applies toward graduation, the course may not be used to fulfill general education or major/minor requirements. Special restrictions: enrollment by placement or by action of the Student Academic Standing Committee.

1030 Career Planning (2 sh)

Students will explore decision making, goal setting, and values clarification and investigate options in majors and careers. Consideration will be given to the transition from the academic arena to the world of work.

4920 Study Abroad Program (4-16 sh)

Study Abroad Placement Holder

4970 Internship Planning (1-4 sh)

Please refer to Internship section of catalog for internship requirements and guidelines.

Advertising (ADV)

The advertising major at North Park is an interdisciplinary major which integrates the resources of three departments: School of Business and Nonprofit Management, Communication Arts, and Art. Students in this major will take courses from each of these departments as core requirements. The purpose of this program is to broadly prepare students for a career in advertising and communication. The Bachelor of Art program is designed to give each student an interactive understanding and synthesis of the three areas that contribute to the field. Students desiring more in-depth knowledge of a particular advertising specialty are advised to take additional course work as follows: creative design or audio and video production interest (BS in Advertising); account management interest (additional BSE courses and marketing courses), marketing research or consumer behavior interest (additional marketing and psychology courses). The Bachelor of Science program is recommended for students desiring a creative career in advertising. In BA and BS programs, students will be exposed to the ethical issues that are encountered in the field and are expected to develop the value sensitivity that will help them make responsible value judgments about advertising and the broader communications arena.

For admittance into the major, an overall GPA of 2.5 and a C- or better in BSE 2610 is required. A GPA of 2.5 in the major courses is required for graduation from the university with this major. Students dropping below 2.5 in the major are required to meet with their advisor to develop a plan to repeat courses to bring up their GPA before taking additional courses. The dean of the School of Business and Nonprofit Management must approve the plan. Students failing to complete their plan successfully are subject to dismissal from the major.

Notes and Restrictions

Students are required to complete an internship (BSE 4970) or to provide documentation of other work experience.

See appropriate sections of the catalog for course descriptions.

Africana Studies (AS)

Simms

Africana Studies is an interdisciplinary program designed to apply the scholarly approach of a number of traditional disciplines, such as sociology, theology, and history, to a consideration of the Black experience. The program seeks to nurture the student's intellectual, social, and political development through an examination of the rich and multifaceted cultures, literatures, religions, and histories of Blacks in Africa and the African Diaspora. This approach emphasizes both the political struggle of Black people and their contribution to Western civilization.

Major requirements for the B.A. degree in Africana Studies

Required semester hours

36 sh

Prerequisite

AS 2500

Required core courses

AS 3010, 3020, 4970, SOC 2090 or SOC 2100; one course from AS 3030 or AS 3040

Electives

3 courses from the following: AS 2220, 2840, 3910, 3920; HIST 3210, 3220, 3230, 3240, 3250, 3260, 3290

Prerequisite

AS 2500

Required core courses

AS 3010, 3020, SOC 2090 or SOC 2100

Electives

AS 2220, 2840, 3030, 3040, 3910, 3920, HIST 3210, 3220

Notes and restrictions

1. Students must complete a form listing the courses they have taken to complete the minor, to be obtained from the department and on the department website.
2. Students must turn in a simple portfolio to the chair of the department containing the following:
 - A statement of their specific goals upon entering the program
 - A self-assessment of the achievement of those goals-including what educational experiences most enhanced their learning, curricular and extracurricular.
 - Two samples of student work from each course: completed: projects, essays or exams.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

2220 **The Struggle for Freedom: Black Leaders of the Twentieth Century (4 sh)**

Examines the philosophies and strategies of Black leaders in the struggle for freedom during the 1900s in the history of Africa and the United States. Focuses on key figures from the continent such as Kwame Nkrumah and Jomo Kenyatta, revolutionaries who fought against European colonialism, and preeminent African-American leaders such as Ida B. Wells and W.E.B. DuBois, organizers of protest against White American racism.

2500 **Introduction to Africana Studies (4 sh) GE**

Utilizing the disciplines of history, sociology, and anthropology, this course presents, discusses, and analyzes the African-American experience from pre-slavery West Africa to contemporary U.S., with particular emphasis on current cultural, theological, social, economic, and political issues that exist within the African-American community. Cross-listed with SOC 2500.

2540 **The Sankofa Experience (2 sh)**

Creates more meaningful and sensitive relationships and more intelligent and sincere communication between students of varying ethnic backgrounds. Features a 60-hour bus tour through several southern states with stops at sites relevant to the Civil Rights movement of the 1960s. Includes pre-trip lectures and films on such topics as racism and prejudice. Assigns each student a partner of a different ethnic background with whom to discuss and experience cultural diversity before, after, and during the trip.

2730 **Speaking Truth to Power: The Politics of Mexicans in America (4 sh)**

Surveys Mexican history from Pre-Columbian Period to the present and emphasizes Mexican American politics. Employs Marxian and Gramscian theory in examining the political influence of such organizations as the League of United Latin American Citizens and the protest rhetoric of Chicano leaders like Cesar Chavez. Examines selected points of common political interests shared by Mexican- and African-Americans. Cross-listed with LAS 2730.

2840 **African-American Church History and Religious Thought (4 sh)**

Studies the religious thought of African-Americans, employing as a frame of reference the Black Christian church from its beginning during slavery to its maturity in the present day. Includes the ideas of a variety of spiritual leaders such as Jupiter Hammon, David Walker, Marcus Garvey, Father Divine, John Perkins, James Cone, and E.V. Hill. Examines the influence of slavery, emancipation, migration, and White racism on the development of African-American religion. Cross-listed with BTS 2840.

2950 **Rap Music in Urban America: An Introduction to the Politics of Black and Latino Culture (4 sh)**

The class employs Marxism and Gramscian theory in interpreting rap music specifically and hip hop culture generally as forms of resistance to the oppressive ideas and discriminatory policies of U.S. society. It offers a critical examination of Latino and Black political rappers viewing them as socially conscious activists committed to the uplift of their respective communities. Cross-listed with LAS 2950.

3010 **African-American History to 1865 (4 sh)**

Explores the history of African-Americans beginning with African origins and continuing through the Civil War. Focuses on Black religion, identity formation, participation in plantation society, and contribution to American culture. Emphasizes African-American self-expression through a reading of primary sources, especially slave narratives.

3020 African-American History from 1865 to Present (4 sh)

Explores the history of African-Americans from the end of the Civil War to the present. Investigates Black identity formation, migration and urbanization, leadership production, protest strategies, and recent political movements. Gives attention to the writings of African-American authors, especially those of the Harlem Renaissance and the Civil Rights Movement.

3030 Civil Rights Movement 1954-1970's (4 sh)

Emphasizes the period from 1954 through the 1970s as a time of social turmoil and change in American society, during which African-Americans insisted on inclusion in the nation's mainstream and power in their own right. Employs social movement theory in examining the history, progress, and effects of the Civil Rights Movement in general and in studying such organizations as the NAACP and such leaders as Martin Luther King in particular. Cross-listed with SOC 2530.

3040 The Literature of the Black Diaspora (4 sh)

Traces the literary history of Black people beginning with the hieroglyphics of Ancient Egypt and concluding with works by such modern writers as Toni Morrison and Alice Walker. Emphasizes the literature production of African, African-American, and Caribbean authors in exploring the dynamics of the Black Diasporic experience. Uses techniques of literary analysis in examining representative poems, novels, plays, autobiographies, tracts and essays. Highlights the contribution of history to interpreting the work of Black artists. Prerequisite: ENG 1750.

3910 Topics in Africana Studies (2-4 sh)

Focused examination of a particular theme within the sociopolitical framework of the Black experience. Possible subjects include in-depth studies examining the lives of such artists as Nikki Giovanni and historical analyses of such topics as the pro-slavery ideology of the antebellum South. Student must have consent of the instructor and chairperson of the division.

3920 Francophone Literature (4 sh)

Exploration of major regions of the Francophone world: Africa and the Caribbean; their culture, political, economic, and social problems, religion, etc. Quebec may be included if taught in French. Prerequisite: FREN 3010.

4910 Independent Study in Africana Studies (2-4 sh)**4970 Internship in Africana Studies (1-4 sh)**

Please refer to the Internship Section of the catalog for internship requirements and guidelines.

Arabic (ARAB)

Minor requirements in Arabic

Required semester hours

20 sh

Required core courses

ARAB 1010, 1020, 2010, 2020, 3910

GE Designates a course that fulfills all or part of General Education (G.E.) requirements; see the General Education Program section of the catalog for more information.

1010 **Conversational Arabic I (4 sh)** GE

This course is designed for students with little or no previous experience with the Arabic language and will introduce the basic elements of modern standard colloquial Arabic through written and oral usage. Emphasis will be placed upon sound recognition, keys to listening, writing, and building a basic vocabulary selected from ordinary situations in everyday life. A significant cultural component of the course will introduce students to general concepts of life in the Arab world including field trips to Arab neighborhoods in Chicago. No credit for ARAB 1010 will be granted to students who have completed more than two years of high school Arabic within the last five years.

1020 **Conversational Arabic II (4 sh)** GE

This course is designed for students with little or no previous experience with the Arabic language and will introduce the basic elements of modern standard colloquial Arabic through written and oral usage. Emphasis will be placed upon sound recognition, keys to listening, writing, and building a basic vocabulary selected from ordinary situations in everyday life. A significant cultural component of the course will introduce students to general concepts of life in the Arab world including field trips to Arab neighborhoods in Chicago.

2010 **Intermediate Arabic I (4 sh)**

This course builds upon the basic foundation of Arabic grammar, conversation, and vocabulary through written, oral, and experiential usage. The Arabic vocabulary will be expanded as students are introduced to topics of increasing depth and complexity in a variety of concrete life situations. Reading selections will be provided from literature (including the Arabic Bible and Quʾran), culture, and the media. Students will thereby be enabled to expand their oral and reading skills. Prerequisite: ARAB 1020.

2020 **Intermediate Arabic II (4 sh)**

Continuation of ARAB 2010 that builds upon the basic foundation of Arabic grammar, conversation, and vocabulary through written, oral, and experiential usage. The Arabic vocabulary will be expanded as students are introduced to topics of increasing depth and complexity in a variety of concrete life situations. Reading selections will be provided from literature (including the Arabic Bible and Quʾran), culture, and the media. Students will thereby be enabled to expand their oral and reading skills. Prerequisite: ARAB 2010.

3910 **Topics in Arabic (1-4 sh)**

This course allows students to build upon previous studies of Arabic grammar, conversation, and vocabulary through written, oral, and experiential usage.

Art (ART)

VanderBrug (chair), Lowly, Okore

The North Park University art major provides students with opportunities for vocational discernment and personal development within the visual arts. Students choose one of three possible areas of concentration; Fine Arts, Graphic Design, or Curatorial Studies. (Pre-Art Therapy is a pre-professional area of study and thus does not require an Art major. Use the academic planning guide from the Pre-Professional webpage of the North Park website along with your faculty advisor to plan your needed courses. Recommended majors for Pre-Art Therapy are Art and/or Psychology.)

The Art program fosters a broad, deep, and critical engagement with visual culture, exposing students to art from many different periods and places. Students are instructed in the conceptualization and production of visual art in a wide range of new and traditional media and are introduced to standards of professional practice in applied and fine art. The major is energetically engaged with the urban context, offering multiple internship opportunities and a wide range of gallery and museum field experiences. The department encourages students in their visual and spiritual development and promotes a visual culture/faith dialogue. Finally, the department serves art students and the general campus community by prominently exhibiting art in a wide variety of styles and media produced by students and art professionals.

Major requirements for the B.A. degree in Art

Required semester hours

36 sh

Required core courses

Fine Arts: ART 1030, 1040, 1100, 2100 or 3100 (4 sh), 2020, 2030, 2040 or 2050, 2060, 4010, 4011; Art History Requirement: ART 2017 or 2018; Two of the following: ART 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017 or 2018; Electives (6 sh): Art History beyond the 6 sh requirement or ART 2080, 2081, 3020, 3030, 3040, 3060, 3061, 3081, 3082, 3910, 4020, 4060, 4910, 4970.

Graphic Design: ART 1030, 1040, 1100, 2020, 2040 or 2050, 2060, 2080, 2081, 3081, 3082, 4010, 4011, and 4970 (taken for 4 sh); Art History Requirement: ART 2017 or 2018; and one additional course selected from the following: ART 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017 or 2018; Electives (4 sh): Art History or Art Studio beyond the above requirements.

Curatorial Studies: ART 1030, 1040, 1100, 4010, 4011, and 4970 (taken for 4 sh); Art History Requirement: ART 2017 or 2018; and five additional courses selected from the following: ART 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017 or 2018; Electives (10 sh): Any Art History beyond the 10 sh requirement or ART 2020, 2030, 2040 or 2050, 2060

Notes and restrictions

Participation in Fourth-Year Show/Curatorial Project required for concentrations in Fine Arts, Graphic Design, and Curatorial Studies.

The Art Department believes significant enrichment occurs in concentrations when students also study in related disciplines. We therefore require all Art majors to meet the core requirements specific to their concentrations. Students obtaining a secondary teaching certificate are exempt from the core requirements.

Fine Arts Concentration (12 sh)

Communications/History (4 sh): COMM 2140 or any 4 sh in History

English (4 sh): One from ENG 2020, 2030, 2040, 2050

Philosophy (4 sh): PHIL 3515

Graphic Design Concentration (12 sh)

Communications: COMM 2150, 3100, 3480

Business and Economics: BSE 2211, 2610, 3510

Curatorial Studies Concentration (12 sh)

Philosophy (4 sh): PHIL 3515

History (8 sh): one HIST 2000 or 3000 level, and HIST 4010

Honors

The Art Department offers an honors program in selected studio areas and art history. For admission into the program, students must have completed all courses offered within the intended area of focus, including independent study in some areas. Approval of the division chairperson is also required. For graduation with Departmental Honors in Art, students must complete 4-8 sh of ART 4000, which can be spread over several semesters. The honors project must be presented to the Faculty of the Art Department as well as at the Spring Honors Symposium. For general Departmental Honors requirements and ART 4000 course description, see appropriate sections of this catalog.

Teacher Certification Candidates

See Education entry in this section.

Minor requirements in Art

Required semester hours

20 sh

Required core courses

ART 1030, 1040, 1100

Art History Requirement: ART 2017 or 2018; One of the following: ART 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017 or 2018 if not taken to meet the above art history requirement

Electives

10 sh in art

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1030 Two Dimensional Design (2 sh)

Introduction and application of the elements of visual language. Studies in shape, color, line, texture, and value as they relate to two-dimensional art.

1040 Three Dimensional Design (2 sh)

Elements of visual language as they apply to three-dimensional art. Projects based on the study of volume, space, line, color, and texture.

1100 Drawing I (2 sh) GE

Line, tone, and composition in relation to a variety of subjects, such as still-life, architecture, figure, and landscape. Media will include pencil, ink, charcoal, Conte crayon, ink wash, etc.

2010 History of African/Oceanic Art (2 sh) GE

Study of the art produced on the continent of Africa and in the southeastern Pacific. Analysis of social practices and religious traditions as they affect the art of the regions.

- 2011 History of Art of the Americas (2 sh) GE**
Study of the art produced in North, Central and South America. Analysis of indigenous religious traditions and social structures and the way they have shaped the visual arts in the Americas. The art will be studied before contact with European civilization and after conquest and colonization.
- 2012 History of Asian Art (2 sh) GE**
Study of art from the continent of Asia. Analysis of Asian religious and cultural traditions and the way they have shaped Asian art from pre-history to the present.
- 2013 History of Classical Western Art (2 sh) GE**
Study of Grecian and Roman art from B.C.E. 800 to C.E. 500. Architecture, sculpture, painting and ceramics will be some of the art forms studied. Attention will be given to how the art produced by these two societies is similar and how it diverges.
- 2014 History of Early Christian, Byzantine and Medieval Art (2 sh) GE**
Early Christian, Byzantine and Medieval art which was produced from about 300 C.E. to 1300 C.E. will be studied. The course will trace the development of Christian art from its origins in Roman art and culture to its full flowering in the Byzantine and Gothic styles.
- 2015 History of Renaissance and Baroque Art (2 sh) GE**
Study of art produced in Europe between the years of 1400 C.E. and 1700 C.E. The course will study painting, sculpture and architecture and will analyze the roles of the Reformation and the counter-Reformation as they impacted European Art.
- 2016 History of Nineteenth Century Art (2 sh) GE**
Study of art produced primarily in Europe and America in the nineteenth century. The course will study painting, photography, architecture and sculpture and will include major movements such as Romanticism, Realism and Impressionism.
- 2017 History of Early Modern Art (2 sh) GE**
The art of the first half of the 20th century produced primarily in Europe and America. All forms of modern visual expression will be included but the primary focus will be upon the arts of painting, photography, sculpture and architecture.
- 2018 History of Contemporary Art (2 sh) GE**
The art of the second half of the 20th century and the art of the 21st century. The course will study all forms of visual expression including new media as well as covering art theory. A substantial portion of the course will focus on the art produced in America but art from around the world will also be studied.
- 2020 Painting I (2 sh)**
Development of technical and conceptual skills involved in painting. Both direct and indirect techniques are stressed in oils and acrylics. Prerequisite: ART 1030, 1100.
- 2030 Sculptural Practices I (4 sh)**
Investigation of media, tools and techniques employed in ceramics, sculpture and other 3 dimensional forms of visual expression. Materials used may include stoneware clay, plaster, stone, wood, fabric, metals and found objects. Techniques employed may include the ceramic techniques of hand building and wheel throwing and the sculpture techniques of modeling, carving, welding, assemblage and installation. Prerequisite: ART 1040.
- 2040 Printmaking: Relief (2 sh)**
This course is an exploration of relief woodcuts and linoleum block printing. Various approaches to relief, along with both the history and theory of the techniques are investigated. Prerequisite: ART 1030, 1100.
- 2050 Printmaking: Intaglio (2 sh)**
This course explores a variety of intaglio printing processes such as etching, engraving, drypoint, and aquatint. Students create plates with metal and plastic using traditional and contemporary techniques in black and white as well as color. Prerequisite: ART 1030, 1100.
- 2060 Photography I (2 sh)**
Basic techniques of black and white photography. Includes an introduction to camera mechanics, processing techniques, and photographic criticism. Prerequisite: ART 1030.
- 2080 Introduction to Graphic Design (2 sh)**
This course is an introduction to the basic principles of visual communication, including an introduction to problem-solving strategies, symbolic association, and the problem of effective communication in a global culture. Students will explore the relationships between form and content, word and image, and practice the selection, organization and presentation of information in the form of text and images. Prerequisite: ART 1030.
- 2081 Advanced Graphic Design Advertising Design II (2 sh)**
This course considers advanced concepts in visual communication, including an introduction to user-based design theory. Students will explore the world of print media through a series of case studies, and practice single page compositions, multi-page compositions, and the integration of form, image, and text. Lab. Prerequisite: ART 2080.
- 2100 Drawing II (2 or 4 sh)**
Continuation of Drawing I with the human form as subject matter. Drawing in various media directly from the figure. Prerequisite: ART 1100.
- 3020 Painting II (2 or 4 sh)**
Intermediate study of painting in both oils and acrylics. Study of the history of painting included. Prerequisite: ART 2020.
- 3030 Sculptural Practices II (2 or 4 sh)**
Intermediate study of spatial arts. Prerequisite: ART 2030.
- 3040 Intermediate Printmaking (2 or 4 sh)**
Intermediate study of printmaking. Prerequisite: ART 2040, 2050.
- 3060 Photography II (2 or 4 sh)**
Intermediate studies in photographic arts. Includes black and white, color, digital, and alternative processes, as well as photographic theory and criticism. Prerequisite: ART 2060.
- 3061 Documentary Photography (4 sh)**
Introduction to the practice, history and critical theory of documentary image-making. Academic and studio projects will investigate aesthetic, socio-political, and ethical aspects of documentary photography. Prerequisite: ART 2060.
- 3081 Digital Illustration Lab Advertising Design III (2 sh)**
This class familiarizes students with the vocabulary, tools, and methods of vector-based drawing and reinforces ties to traditional media. Advanced concept in illustration software programs. Prerequisite: ART 1030, 1100.
- 3082 Digital Imaging Lab (2 sh)**
This class familiarizes students with the vocabulary, tools and methods of raster-based drawing and photo editing, and reinforces ties to traditional media. Advanced concepts in photo editing programs. Prerequisite: ART 1100, 2080.

3100 Drawing III (2 or 4 sh) GE

Advanced study of figure drawing. This is a studio course that incorporates discussion of assigned readings and investigates the conceptual aspects of drawing. The course includes the use of the computer. Prerequisite: ART 1100.

3260 Methods in Art for Elementary Teachers (1 sh)

This course will consist of methods of teaching art in the elementary school. Emphasis will be placed on both the theoretical and the practical information and skills essential for the teaching of art. Prerequisite: EDUC 2130, 2140, 2145, 2155.

3390 Methods and Materials for Teaching Art K (2 sh)

Lesson planning, methods, and material selection for teaching art in the elementary school. Integration with the program of regular classroom teacher as well as planning for an entire art curriculum for elementary students. Prerequisite: EDUC 2130, 2140, 2145, 2155.

3910 Topics in Art (2 or 4 sh)

Investigation of a selected subject in art.

4000 Departmental Honors in Art (4 or 8 sh)

A special directed study course for the qualified student in either a studio or art history subject.

4010 Fourth-Year Seminar in Art I (2 sh)

This course provides a culminating experience for the art major. It will help art students prepare for a professional life by supporting and directing the development of a focused fourth-year project. The course will deal with such topics as preparations for professional shows, integration of theory and practice, integration of art historical precedent, organizing and mounting art exhibitions, and development of a professional portfolio.

4011 Fourth-Year Seminar in Art II (2 sh)

A continuation of the fourth-year seminar. Prerequisite: ART 4010.

4020 Advanced Painting (2 or 4 sh)

Advanced study of painting. Prerequisite: ART 3020.

4030 Sculptural Practices III (2 or 4 sh)

Advanced study of sculpture. Prerequisite: ART 3030.

4050 Advanced Printmaking III (2 or 4 sh)

Advanced study of printmaking. Prerequisite: ART 3040.

4060 Photography III (2 or 4 sh)

Advanced study of photography. Prerequisite: ART 3060.

4910 Independent Study in Art (1–4 sh)

The fourth-year students majoring in art may do additional work in history of art or in one of the applied fields.

4970 Internship in Art (1–4 sh)

An apprentice experience in the professional world of art. The University has a working arrangement with several design studios, offices, and advertising agencies. Please refer to the Internship Section of the catalog for further internship requirements and guidelines.

Biblical and Theological Studies (BTS)

Johnson (chair), Nassif, Veeneman, Willits

The mission of the Department of Biblical and Theological studies within the General Education curriculum is to enable students to fashion lives of significance and service by providing them with the opportunity to develop intellectually, spiritually, and socially through their experience of a biblical and theological program. Such an experience occurs in the contexts of (1) an international student body and Faculty, (2) a culturally-diverse urban setting, (3) a vibrant dialogue about Christianity, faith, and culture, and (4) a school committed to a broad evangelical Christian tradition.

The Faculty of the Department of Biblical and Theological studies is committed to providing its majors with an opportunity to develop a life of significance and service by learning about God, the Bible, and its interpretive issues, as well as the various historic Christian and religious traditions. In such an experience, the student is engaged to become responsible enough to integrate one's personal faith collegially into the larger scope of a liberal arts education as well as the various opportunities afforded by University ministries. Thus, the Department is committed to students developing abilities in (1) Biblical, historical, and theological interpretation, (2) critical thinking, and (3) the responsibility of knowledge and faith for shaping behavior. The Department is committed to a rigorous assessment of its students and the expected outcomes of its program, through regular observation, evaluation, and feedback.

Major requirements for the B.A. in Biblical and Theological Studies

Required semester hours

36 sh

Required core courses

BTS 2500, 2600, 2640, 2650, 2700, 4010

Electives

12sh from BTS 2110, 2120, 2130, 2210, 2260, 3250 with at least one course from each the Old Testament and New Testament

Notes and restrictions

Up to four hours of coursework in the major may apply to the General Education requirement in Biblical and Theological Studies. GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; BTS 1850 is the prerequisite for each course.

Minor requirements in Biblical and Theological Studies

Required semester hours

Five courses above BTS 1850

Required core courses

Two biblical studies courses

Two theological studies courses

One elective

Notes and restrictions

Up to four hours of coursework in the minor may apply to the General Education requirement in Biblical and Theological Studies.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1850 **Introduction to the Bible (4 sh)** GE

An introductory survey of the history and theology of the biblical narrative as it informs Christian faith today. Particular emphasis on the theological unity of the Bible's message.

2110 **The Pentateuch (4 sh)** GE

The focus of this course is the story of biblical Israel as depicted in the first five books of the Bible, or the Pentateuch. The course will follow closely the concern of the Pentateuch for faith, particularly in relation to the covenant at Mount Sinai and the revelation of the law. Biblical Emphasis-Old Testament. Prerequisite: BTS 1850.

2120 **Old Testament Prophets (4 sh)** GE

A historical study of the Hebrew prophets within the economic, political, and social conditions of their time. The significance of the prophetic message for the Hebrew and Christian faiths. Biblical Emphasis - Old Testament. Prerequisite: BTS 1850.

2130 **Old Testament Poetry and Wisdom Literature (4 sh)** GE

A survey of the third major division of the Hebrew canon of the Bible, the Writings or Kethubim. The Writings are a miscellaneous collection of books important in understanding the history, faith, and practice of ancient Israel and early Judaism. This in turn is important for understanding the New Testament and the early Church. This course examines the different books of the Writings in their final, canonical form, with attention given to the various theological motifs. Different literary genres present in the collection are studied. The canonical role of the Writings as a collection is also examined. Biblical Emphasis-Old Testament. Prerequisite: BTS 1850.

2210 **Jesus of Nazareth (4 sh)** GE

The life and teachings of Jesus studied with reference to current research. Explores the quest for the historical Jesus, the historicity of the gospels, and the method and message of Jesus' teachings. Biblical Emphasis-New Testament. Prerequisite: BTS 1850.

2260 **Paul (4 sh)** GE

A reconstruction of the life and letters of the Apostle Paul with reference to current research. Emphasis on Paul's theology of the church (ethics, mission, spirituality) and its practical importance for today. Biblical Emphasis-New Testament. Prerequisite: BTS 1850.

2310 **The Historical Geography of Biblical Israel (4 sh)**

An intensive study of the geography, archeology, and history of ancient Israel as it informs the biblical story. In addition, modern dilemmas of politics, history, and faith in the Middle East will be examined. This course is limited to students who will travel to Israel for further study. Biblical Emphasis-Old Testament. Prerequisite: BTS 1850.

2500 **Introduction to Theology (4 sh)** GE

A study of the major theological doctrines of the Christian faith, with emphasis on their integration into personal belief. Theological Emphasis. Prerequisite: BTS 1850.

2510 **Christian Ethics (4 sh)** GE

A study of the moral implications of the Christian faith, with emphasis on their integration into personal belief. Theological Emphasis. Prerequisite: BTS 1850.

2520 **Christian Spirituality (4 sh)** GE

An examination of the nature of Christian spirituality with emphasis on spiritual development and maturity. Relevant literature of a variety of approaches to spirituality will be introduced and evaluated. Theological Emphasis. Prerequisite: BTS 1850.

2530 C.S. Lewis (4 sh)

A study of the life and thought of C.S. Lewis. Emphasis will be given to his religious ideas, his understanding of Christian doctrine, and his methods of commending the Christian faith by reason and imagination. Prerequisite: BTS 1850.

2600 History of the Church (4 sh) GE

The origin and development of Christianity in the world. Traces the institutional and doctrinal developments within the church from the post-apostolic period to the modern era. Theological Emphasis. Prerequisite: BTS 1850.

2640 The Western Theological Tradition (4 sh) GE

A survey of the great Christian thinkers of the West from beginnings to post-modernity. Focus will be placed on distinctly Western forms of Christian thought in the Roman Catholic and Protestant traditions, with some attention to the Anabaptist and Evangelical Covenant communities, as well as to emerging feminist and underrepresented theologies.

2650 The Eastern Theological Tradition (4 sh) GE

A survey of the great Christian thinkers of the Eastern (Orthodox) tradition from beginnings to the post-communist era. Focus will be placed on the development of classical Christian faith in the Church Fathers and Ecumenical Councils from the 2nd through 14th centuries, with some attention to contemporary Orthodox thought in the West, including its feminist voices.

2700 World Religions (4 sh) GE

Study of the common features and distinctive motifs that characterize some of the main religious traditions: Hinduism, Buddhism, Islam, and others. Emphasis on development of a methodology for reading and interpreting the world's scriptures. Discussion of the relation of Christian to non-Christian religions. Theological Emphasis. Prerequisite: BTS 1850.

2840 African-American Church History and Religious Thought (4 sh)

Studies the religious thought of African-Americans employing as a frame of reference the Black Christian church from its beginning during slavery to its maturity in the present day. Includes the ideas of a variety of spiritual leaders such as Jupiter Hammon, David Walker, Marcus Garvey, Father Divine, John Perkins, James Cone, and E.V. Hill. Examines the influence of slavery, emancipation, migration, and White racism on the development of African-American religion. Cross-listed with AS 2840.

3150 The Book of Psalms (4 sh)

This course examines the characteristics of Hebrew poetry in order to study the book of Psalms according to literary types. The Psalter in its final form is studied as a coherent whole in terms of its collection and arrangement, and its varied teachings on faith and practice. Selected individual Psalms are studied in detail through exegesis of the English Bible. Biblical Emphasis-Old Testament. Prerequisite: BTS 1850.

3240 Luke and Acts (4 sh)

A literary and exegetical study of Luke and Acts, with special attention to historical setting, ecclesiastical purpose, and theology. Biblical Emphasis-New Testament Prerequisite: BTS 1850.

3250 John (4 sh) GE

A theological and exegetical study of the texts of the Fourth Gospel and the Epistles of John. Special emphasis on the unique contribution of John to biblical theology (especially Christology, eschatology, and pneumatology). Biblical Emphasis-New Testament Prerequisite: BTS 1850.

3410 Women, The Bible, and The Church (4 sh) GE

A study of the Old and New Testament texts that bear on the roles and status of women. This course reflects on a wide range of historical and theological perspectives relevant to the issues of women, the Bible, and the church. Biblical Emphasis-Old and New Testament. Prerequisite: BTS 1850.

3510 Modern Theologians (4 sh)

Exploration of recent trends in the thinking of biblical and systematic theologians. Relevance of theology to modern issues. Theological Emphasis. Prerequisite: BTS 1850.

3550 Philosophy of Religion (4 sh)

A seminar course on selected problems and topics in the area of philosophy of religion, e.g., the phenomenology of religious experience, the truth of religious belief, the existence and attributes of God. Theological Emphasis. Prerequisite: BTS 1850.

3660 Spiritual Journey (1 sh)

This course, typically offered in the fall semester, is an introduction to foundational biblical themes and understandings of Christian spiritual formation with an emphasis on Christian faith as a journey. This course will seek to integrate the individual and communal elements of spiritual formation, and the personal and public character of the Christian life with an understanding of the student's personal formation journey. The intent of the course is practical, experiential and formational. Included in the course will be both a teaching component and formation sessions facilitated by a formation leader. Prerequisite: permission of the instructor. Music in Worship students only.

3661 Spiritual Practices (1 sh)

This course, typically offered in the spring semester, introduces students to a variety of classical and contemporary spiritual practices that are meant to invite the student into a deeper sense of God's presence in their interior lives and in the world around them. The biblical and historical contexts for spiritual practices will be explored and discussed in and out of class session. Spiritual practices will include, but are not limited to, biblical prayer, centering prayer, hospitality, praying and working for justice, self-examination and discernment. The intent of the course is practical, experiential and formational. Included in the course will be both teaching component and formation group sessions facilitated by a formation leader. Prerequisite: permission of the instructor. Music in Worship students only.

3670 Foundations of Christian Worship (3 sh)

This course introduces students to the interdisciplinary field known as liturgical studies. The course explores the history of Christian worship, liturgical theology, the place of ritual in the life of faith, as well as the application of a praxis-theory-praxis model to the worship concerns of pastoral ministry.

3680 Foundations of Worship Arts (3 sh)

This course will consider the use of the arts in worship using historical examples and liturgical theology paradigms. It will provide a background on each of the worship arts; music, drama, dance, visual arts, media and architecture/environment. Each art form will be reviewed with suggestions for resources, opportunities to plan and use the different art forms and frameworks for working together in teams and supervising the worship arts. Criteria for theological, liturgical, and aesthetic assessment will be included. The relationship between pastors, worship leaders and worship arts coordinators and the pastoral aspects of leading worship arts teams will all be considered. The course also includes a significant worship

team planning and worship leading components applied in the context of the seminary chapel.

3910 Topics in Biblical and Theological Studies (4 sh)

An intensive investigation of a selected topic in biblical studies, theology, world religions, or philosophical theology. Extensive reading and research expected. Seminar format. Prerequisite: BTS 1850.

3920 Advanced Topics in Biblical and Theological Studies (1-4 sh)

This is a topics course allowing the BTS department to grant credit for selected courses taken at North Park Theological Seminary.

4010 Fourth-Year Seminar in Biblical and Theological Studies (4 sh)

Limited to fourth-year students majoring in biblical and theological studies, this seminar concentrates on critical reading, writing, and discussion skills. Topics of study will change annually but in each case will explore current research and writing in biblical and theological studies.

4910 Independent Study in Biblical and Theological Studies (1-4 sh)

Intensive independent study of a topic chosen in consultation with an instructor in the Department of Biblical and Theological Studies. Student must have consent of instructor and division chairperson.

4970 Internship in Biblical and Theological Studies (1-4 sh)

Please refer to Internship section of the catalog for internship requirements and guidelines.

Biology (BIOL)

Bjorkman, Cammarata, Choi, Lin, J. Nelson, Rholl, Schau (chair), Vick

The objectives of the Department of Biology are to provide students with:

- An understanding of living matter in its relation to the inorganic and organic world, and in the variety of forms in which it is manifested,
- An awareness of the complexity of the interactions between organisms and between the living and non-living worlds,
- A sense of the continuity of life,
- An appreciation of what the scientific method can achieve in biology,
- A knowledge of the structure and function of the human body, and
- Understanding of the human role in Christian stewardship of the environment.

A student who successfully meets these objectives will be prepared to:

- Enter graduate or professional programs in biology or the health care professions
- Prepare for teaching biology in secondary or middle schools and to
- Enter careers related to the biological sciences

Major requirements for the B.A. degree in Biology

Required semester hours

36 sh

Prerequisites and supporting courses

CHEM 1150 and 1160; CHEM 2310 or 1021 and 1031

Required core courses

1. The four Introductory Biology courses: 12 sh (BIOL1250, 1260, 1270, 1280).
2. BIOL 3210 or BIOL 3230
3. One of BIOL 3150, 3180 or 3190
4. Upper Division Biology credit 16 sh (courses numbered 2100 or above), 6 upper division courses that could include up to 4 sh of internship and/or independent study
5. No more than a total of 8 sh of the BIOL 2100 or BIOL 4020 can apply to the major.
6. Pass BIOL 4901 - Comprehensive Exam

Notes and restrictions

Biology majors must take a biology comprehensive exam and receive a minimum passing grade during the last year prior to graduation.

Honors

To be accepted into the Biology Honors Program:

1. The applicant must have received credit for three biology courses above BIOL 1280.
2. The applicant must have received credit for one year of General Chemistry.

To complete the Biology Honors program students must:

1. Complete 44 sh of biology, which should include BIOL 1250, 1260, 1270, 1280 or BIOL 1270, 1280, 1350, 1360 and 4 sh of BIOL 4020 (seminar) or the Biology 2100 series (2100-2170), BIOL 2950, and BIOL 4000.

- A maximum of 4 sh of BIOL 4000 credit can be counted toward the major.

2. Complete the following supporting courses: one year of Organic Chemistry and one semester of Calculus or Statistics.
3. A Biology GPA of 3.50.
4. Completion of 4sh of Directed Research (BIOL 4930) or an internship with a research component.
5. Take the Biology Comprehensive Exam and receive a passing grade at or above the 75th percentile. For general Departmental Honors requirements and BIOL 4000 course description, see appropriate sections of this catalog.

Major requirements for the B.S. degree in Biology

Required semester hours

44 sh

Prerequisites and supporting courses

CHEM 1150, 1160, 2310

Required core courses

1. The four introductory Biology courses: 12 sh (BIOL 1250, 1260, 1270, 1280).
2. BIOL 3210 or BIOL 3230
3. One of BIOL 3150, 3180 or 3190
4. Upper division Biology credit: 24 sh (courses numbered 2100 or above). Eight upper division courses must include 4 sh of internship and/or directed research or honors research.
5. No more than a total of 8 sh of the BIOL 2100 or BIOL 4020 can apply to the major.
6. Pass BIOL 4901 - Comprehensive Exam

Notes and restrictions

Biology majors must take a biology comprehensive exam and receive a minimum passing grade during their last year prior to graduation.

Honors

To be accepted into the Biology Honors program:

1. The applicant must have received credit for three biology courses above BIOL 1280.
2. The applicant must have received credit for one year of General Chemistry.

To complete the Biology Honors program students must:

1. Complete 44 sh of biology, which should include BIOL 1250, 1260, 1270, 1280, and 4 sh of BIOL 4020 (seminar) or the Biology 2100 series (2100-2170), BIOL 2950, and BIOL 4000.
 - A maximum of 4 sh of BIOL 4000 credit can be counted toward the major.
2. Complete the following supporting courses: 1 year of Organic Chemistry and one semester of Calculus or Statistics.
3. A Biology GPA of 3.50
4. Completion of 4 sh of Directed Research (BIOL 4930) or an internship with a research component.

5. Take the Biology Comprehensive Exam and receive a passing grade of at or above the 75th percentile. For general Departmental Honors requirements and BIOL 4000 course description, see appropriate sections of this catalog.

Major requirements for the B.A. degree in Environmental Science

Required semester hours

36 sh

Prerequisites and supporting courses

CHEM 1150, 1160, 2310 or 1021 and 1031, 2510

NPD 2000 Environmental Ethics, BIOL 4950 or equivalent

Required core courses

1. Four Introductory Biology courses: 10 sh (BIOL 1180, 1260, 1270, 1280).
2. 4 sh (BIOL 3180)
3. Upper Division Biology credit 22 sh from the following courses: BIOL 2110, 2115, 2120, 2125, 2130, 2155, 2160, 3150, 3170, 3190, 3200, 3790, 3890, 4950, PHYS 1070
4. Pass BIOL 4901 - Comprehensive Exam

Notes and restrictions

Biology majors must take a biology comprehensive exam and receive a minimum passing grade during the last year prior to graduation.

Major requirements for the B.S. degree in Environmental Science

Required semester hours

44 sh

Prerequisites and supporting courses

CHEM 1150, 1160, 2310, 2510

NPD 2000 Environmental Ethics, BIOL 4950 or equivalent

Required core courses

1. Four Introductory Biology courses: 10 sh (BIOL 1180, 1260, 1270, 1280).
2. 4 sh (BIOL 3180)
3. Upper Division Biology credit 30 sh
 - 4 sh BIOL 4930 or 4970
 - 26 sh from BIOL 2110, 2115, 2120, 2125, 2130, 2160, 3150, 3170, 3190, 3200, 3790, 3890, 4950, PHYS 1070
4. Pass BIOL 4901 - Comprehensive Exam

Notes and restrictions

Biology majors must take a biology comprehensive exam and receive a minimum passing grade during the last year prior to graduation.

Minor requirements in Biology

Required semester hours

26 sh

Required core courses

Required courses:

1. The four introductory Biology courses: 12 sh
2. Upper division Biology credit: 14 sh

A minimum of 8 sh must be chosen from 4 sh Biology courses numbered 2000 or above.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1160 Microbes and Society (2 sh) GE

This course will focus on the importance of microbes in our world. Their role in disease, decomposition, biotechnology and products for health will be emphasized. The laboratory will concentrate on microbial identification, role in food production and spoilage, and problem solving ability.

1180 Introduction to Environmental Science (2 sh) GE

Survey of fundamental ecological principles supporting human society. Examination of the effect human beings have on the earth's support system and the other living things with which humans share the earth. The role of values and ethical implications of environmental decision-making. Field trips to a variety of urban support systems: water purification, waste treatment, solid waste management. Lab included.

1250 Introduction to Human Anatomy (4 sh) GE

Includes structure and organization of human organ systems emphasizing skeletal, muscular, digestive, circulatory, respiratory, nervous, and urogenital systems. Lab included. It is recommended that the student complete one year of high school laboratory science.

1260 Introduction to Cell Biology (4 sh) GE

Includes cell systems, cell cycles, cell function, energy relationships and metabolic systems, biological control systems, protein synthesis, genetics. Lab included. It is recommended that the student complete one year of high school laboratory science.

1270 Introduction to Zoology (2 sh) GE

Survey of selected invertebrate and vertebrate types. Relationships of organisms with each other and with their environment. Lab included. Prerequisite: BIOL 1250 or 1260.

1280 Introduction to Botany (2 sh)

Survey of the plant kingdom from algae to the flowering plants. Basic life processes including photo responses, cellular and plant systems development, reproductive cycles, flowering and fruiting responses. Environmental succession and plant climax communities. Lab included. Prerequisite: BIOL 1250 or 1260.

2100 Topics in Biology (2 sh)

Selected topics in biology offered on a rotating basis. Example topics: Phylogenetic Theory, Topics in Physiology, Endocrinology, Virology, Medical Parasitology, Advanced Human Anatomy. Lab included with some topics. Some topics will have prerequisites (see annual class schedule).

2110 Economic Botany (2 sh) GE

Influence of plants on human, economic, social, and political history, and the plants people have chosen to protect and cultivate. Numerous field trips include plant production facilities, bakery, commercial greenhouse, apple orchard, farm, and meetings with

resource persons working with cultivated plants. Two one night fieldtrips and weekly lab included.

2115 Prairie and Ranch Resources (2 sh) GE

A two week summer field based course taking place on the prairies of central South Dakota. Factors forming and affecting native tall and mid-grass prairie will be examined. The impact of modern row crop and grazing animal agriculture upon prairie resources will be evaluated. Each student will participate in a field ecology assessment of water quality, prairie dog colony, or nesting bird habitat quality. A course trip fee over and above tuition will be assessed. Instructor consent is required.

2120 Ecology of the Boreal Forest (2 sh) GE

A two week summer wilderness canoe trip to the Canadian Province of Ontario and its Woodland Caribou Provincial Park. Students will fly by floatplane to an interior lake and wilderness camp and canoe 8 days and travel over 40 miles to be picked up by vehicle at the conclusion of the trip. Forces of fire ecology, environmental factors, indigenous culture, park management, and the impact of modern culture upon the Boreal Forest will be examined and experienced. A course trip fee of \$1500 will be assessed. Students need a valid passport. Trip runs from August 14th through August 28th. Instructor consent required.

2125 Tropical Ecology of Costa Rica (2 sh) GE

Field based course examining the forces affecting living species in Costa Rica. After a series of weekly on campus meetings to review basic ecology and human culture of Costa Rica, students will travel during spring break for an 8 day field trip to Costa Rica. Traveling by motor coach and boat the course will examine high altitude volcanic effects, mountain tropical forest habitat, and low-land tropical forest along the Pacific Ocean in southwest Costa Rica. A course trip fee over and above tuition will be assessed, a valid passport required. Instructor consent is required.

2130 Ecology of Iceland (2 sh) GE

A field based course exploring the forces affecting living species in Iceland. This course is offered during the summer session [May term]. An initial series of on-campus sessions provides preparation for a two week trip to Iceland. The trip will explore areas including the geothermal areas, glaciers, and coastal regions of Iceland. Travel by motor coach will follow the ring road, visiting all major regions of the island. Emphasis will be given to factors such as physical factors of the environment and island biogeography. Expected elements include a whale watching expedition and a visit to a puffin breeding colony. Environmental issues including international fishing, impact of geothermal and hydroelectric energy development, and population genetics will be discussed as they relate to Icelandic and global concerns. A course trip fee over and above tuition will be assessed. Student will need a valid passport. The course may be offered in conjunction with a 2 sh Topics in Physics course. Instructor consent is required.

2155 Culture and Ecology of Asia (4 sh) GE

The course is designed to provide students an experiential learning opportunity about the ecology and culture and their interaction in a selected country of Asia. Special focus will be placed on how culture developed in adaptation to the local ecosystem and the environmental issues that the local population currently faces. Interaction with local scholars, experts, and students will provide perspectives. Participation in a trip to a designated country before the semester is required. During the trip, students are required to participate in observation, discussions and related activities.

2910 Microbiology (4 sh)

Selected aspects of morphology, classification, physiology, cultivation, and staining of microorganisms; relation of microorganisms to sanitation, agriculture, and industry. Disease production by microorganisms and the role of the immune system in resistance mechanisms. Lab included. Prerequisite: BIOL 1260.

2930 Advanced Human Physiology (4 sh)

Structure and function of the circulatory, respiratory, endocrine, muscular, digestive, excretory, and reproductive systems of the body. Lab included. Prerequisite: BIOL 1250.

2950 Medical Parasitology (2 sh)

This course emphasizes the geography, life cycles, clinical presentations and impact of parasitic diseases on global health. Protozoans, nematodes, trematodes, cestodes and arthropods will be covered. Students should have completed human anatomy and microbiology prior to this course. Prerequisite: BIOL 1250, 2910.

3010 Ethics in Biology (2 sh) GE

This course will focus on how we make ethical decisions in the field of biology. It will be team taught by members of the biology department, and topics will focus on the areas of expertise of instructors (e.g. genetic technologies, medical research/treatment, stewardship of environmental resources, etc.). Coursework will rely on discussion and reflection on these topics using several fields of ethical thought learned in the beginning of the course. A science background is not required, but such knowledge will be helpful for in-depth analysis. Literature research and analysis of a real-world situation will culminate in a final paper and presentation. Prerequisite: Successful completion of Cornerstone Seminar and a WI designated courses, and instructor's consent (Consent based on academic qualifications, applicability, graduation needs, etc.).

3140 Histology (4 sh)

Micro-anatomy of vertebrate tissues with emphasis on mammals. Lab included. Prerequisite: BIOL 1250, 1260.

3150 Biodiversity and Evolution (4 sh)

This course examines the efforts to understand biological origins and diversity. Patterns and principles of biodiversity and the significance of diversity will be considered. Emphasis will be placed on the principles and process of evolution rather than on the products of evolution. The class will include lecture, discussion, and workshop elements. Prerequisite: BIOL 1250, 1260.

3160 Exercise Physiology (4 sh)

Study of human anatomy and physiology with emphasis on neuromuscular and cardiorespiratory systems, stressing the effects of exercise on those systems. Lab included. Cross-listed with EXS 3160. Prerequisite: BIOL 1250.

3170 Native Wildflowers, Trees and Shrubs of The Great Lakes Region (4 sh)

A survey of the native spring wildflowers, common trees and shrubs of the Great Lakes Region. Particular attention will be given to the use of taxonomic keys and field guides in field identification as well as information on the general ecology of each species. Weekly field trips to local and regional forest preserves, natural areas and a weekend field trip to Southern Illinois will be required. Lab included. Prerequisite: BIOL 1280.

3180 Ecology (4 sh)

Study of living and non-living factors in biotic communities and their interaction in controlling the structure and development of

various ecosystems. Principles of succession, population dynamics, and conservation. Lab included. Prerequisite: BIOL 1270, 1280.

3190 Ethology (Animal Behavior) (4 sh)

An introduction to the study of ethology (animal behavior) with emphasis on the development of behavioral patterns, orientation, maintenance behavior, and social behavior. Three supplemental field trips per term. Lab included. Prerequisite: BIOL 1250, 1270.

3200 Natural History of the Vertebrates (4 sh)

This course will focus on the identification, habitat and natural history, and life history of vertebrates. Biodiversity and Strategies for survival are central themes. Fish, amphibians, reptiles, birds and mammals will be included with an emphasis on the vertebrates of North America.

3210 Genetics (4 sh)

An introduction to Mendelian and non-Mendelian inheritance patterns as well as molecular genetics and biotechnology. The laboratory includes fruit fly genetics and standard DNA cloning techniques. Prerequisite: BIOL 1260.

3230 Molecular Biology (4 sh)

A study of genes and gene regulation of living matter at the molecular level. Particular attention will be given to modern biotechnology, genomics, and gene functions. Prerequisite: BIOL 1260, 2910.

3510 Embryology (4 sh)

Germ cell formation, fertilization, cleavage, gastrulation, and organogenesis in vertebrates. Extra-embryonic membranes and their functions. Study of the frog, the chick, and the pig. Lab included. Prerequisite: BIOL 1250, 1260, 1270.

3530 Neuroscience Systems (4 sh)

Topics included but not limited to neuroanatomy of the central and peripheral nervous systems, and the neural networks of motor/sensory pathways, special senses, movement, language, emotion, and memory. Relevant diseases and conditions corresponding to the topics covered will also be discussed. Laboratory included during the lecture meeting times. Prerequisite: BIOL 1250, 2930

3610 Medical Microbiology (2 sh)

Identification of pathogenic organisms. A study of infectious diseases caused by these organisms. A study of the major antimicrobial agents used for the treatment of the common microbial diseases. Interpretation of laboratory tests used to identify pathogenic organisms. Lab included. Prerequisite: BIOL 1250, 1260, 2910.

3620 Immunology (2 sh)

A detailed study of the immune system, stressing its role in protecting humans from the pathogenic microbes. The problems associated with hypersensitivity, immunodeficiency, and autoimmunity will be covered. The basis of clinically important immunological tests used in the diagnosis of infectious diseases will be presented. Lab included. Prerequisite: BIOL 1250, 1260, 2910.

3790 Advanced Topics in Botany (3 or 4 sh)

Advanced topics in botany, taught at the Morton Arboretum through the ACCA Botany Consortium. Topics include medical botany, plant-soil associations, fungi, horticulture, woody plants of the Western Great Lakes Region and plant-animal associations. Students must provide their own transportation to the Arboretum. Lab included. Prerequisite: BIOL 1280.

3890 Marine and Aquatic Biology (4 sh)

Advanced topics in marine and aquatic biology. May include extended field trips using the research facilities of the Shedd Aquarium. Topics with field trips may have enrollment restrictions and require special application and approval. Extended field trips will incur additional expense. Topics may include: introduction to marine biology, and field research in Bahamian reptiles. Some topics may require additional prerequisites or instructor approval. Repeatable. Taught at Shedd Aquarium. Lab included. Prerequisite: BIOL 1270, 1280.

4000 Departmental Honors in Biology (4 sh)

Honors Independent Study in Biology. Lab included.

4020 ACCA Seminar (1 sh)

Discussion of current topics in selected areas of biological research. Held at various ACCA (Associated Colleges of the Chicago Area) Institutions. These seminars are coordinated by professors from member schools and utilize research specialists from the Chicago area as speakers. Student must be of third or fourth year standing.

4901 Biology Comprehensive Exam (0 sh)

Comprehensive examination of major requirements.

4930 Directed Research in Biology (2-4 sh)

This course is open to Biology majors with at least a GPA of 2.5 in at least 20 semester hours of Biology taken at North Park. Students will work under the direction of a faculty mentor on a novel research project. Permission of the faculty mentor and the departmental chairman is required prior to enrollment in this course. A maximum of 4 sh may be taken.

4950 AuSable Institute of Environmental Studies (4-8 sh)

Courses and field work at the Au Sable Institute in Michigan. Course topics include Land Resources, Natural Resources, Ethnobotany and Ecological Agriculture, Field Botany, Animal Ecology, Water Resources, Aquatic Biology, and Ecology of the Indian Tropics. Lab included. Departmental approval required.

4970 Internship in Biology (1-4 sh)

On-site apprenticeship in area business or organization. A maximum of 4 semester hours of credit can count toward the major. The student must have completed at least 16 sh of credit in biology and have a GPA of at least 3.00 in Biology. Departmental approval required. Please refer to the internship section for additional requirements. Lab included with some topics.

Business and Economics (BSE)

Lindahl (dean), Born, Farruggia, Fitzgerald, Gavor, Hicks, Hubbard, Kamienski, Marsh, Schilling, Sundholm,

The School of Business and Nonprofit Management offers a single major (Business and Economics) with several relevant concentrations (Accounting, Economics, Finance, International Business, Management, Marketing, and Sports Management).

The courses required for the Bachelor of Arts provide the core for the Bachelor of Science, which also requires the selection of one or more concentrations.

Students planning an advanced career in business or management are strongly encouraged to complete the Bachelor of Science program, including an internship experience in their field of interest.

Students intending to sit for the CPA exam should consider North Park's BS/MBA option for completing the 150-semester hour requirement for the exam (see School of Business and Nonprofit Management graduate program description for more information).

Students preparing for graduate school are encouraged to complete the Bachelor of Science with a concentration in the particular area for which they seek the graduate degree.

For admittance into the major, an overall GPA of 2.50 is required. A GPA of 2.50 is also required for the four business courses to be taken prior to application to the major (BSE 2110, 2211, 2310, 2610). Additionally, students must earn a minimum grade of C- in each of these four courses.

Students transferring courses into the major from outside North Park must still take at least one half of the required courses in their degree program at North Park. For example, students earning a Bachelor of Arts degree must take 20 semester hours in the major at North Park. Students need not retake a similar course at North Park to fulfill the requirement, but may take any courses with a BSE designation.

Students are also required to have a minimum grade of C- in any major course beyond the initial four courses. A GPA of 2.50 in the major courses is required for graduation from the university with this major. Students dropping below 2.50 in the major are required to meet with their advisor to develop a plan to repeat courses to bring up their GPA before taking additional courses. The dean of the School of Business and Nonprofit Management must approve the plan. Students failing to complete their plan successfully are subject to dismissal from the major.

Students begin their program with macroeconomics in order to gain an understanding of the context of business and economics and complete their program with comprehensive courses in leadership/management and strategic management.

Guiding Principles:

- To prepare students for service and significance in the fields of business and nonprofit management.
- To develop intellectual curiosity.
- To enable students to make ethical decisions.
- To develop analytical and quantitative skills.
- To develop learning disciplines and critical thinking skills
- To develop written and oral communications skills.
- To prepare students for life-long learning.

Major requirements for the B.A. degree in Business and Economics

Required semester hours

40 sh

Prerequisites and supporting courses

COMM 1910, PHIL 2530, STAT 1490

Required core courses

BSE 2110, 2120, 2211, 2212, 2310, 2510, 2520, 2540, 2610, 3520, 4520, NONP 2710

Notes and restrictions

Students are strongly encouraged to complete an internship (BSE 4970).

Major requirements for the B.S. degree in Business and Economics (with a concentration in Accounting)

Required semester hours

68 sh

Prerequisites and supporting courses

COMM 1910, PHIL 2530, STAT 1490

Required core courses

BSE 2110, 2120, 2211, 2212, 2310, 2510, 2520, 2540, 2610, 3110, 3120, 3130, 3150, 3160, 3170, 3520, 4520, NONP 2710, SBNM 5120, 5121, 5130

Notes and restrictions

Students planning to take the CPA exam are required to complete 150 sh and are encouraged to the B.S./M.B.A. program. Students are required to complete an internship (BSE 4970) or to provide documentation of other work experience.

5000 level courses are from the graduate program, requiring 3.0 GPA and senior status.

Major requirements for the B.S. degree in Business and Economics (with a concentration in Economics)

Required semester hours

56 sh

Prerequisites and supporting courses

COMM 1910, MATH 1510, PHIL 2530, STAT 1490

Required core courses

BSE 2110, 2120, 2211, 2212, 2310, 2510, 2520, 2540, 2610, 3210, 3220, 3250, 3520, 4520, NONP 2710, SBNM 5211, 5220, 5230

Notes and restrictions

Students planning to pursue graduate study in economics are advised to consult with their advisor and to plan additional courses in computer science, math, and statistics. Students are required to complete an internship (BSE 4970) or to provide documentation of other work experience.

5000 level courses are from the graduate program, requiring 3.0 GPA and senior status.

Major requirements for the B.S. degree in Business and Economics (with a concentration in Finance)

Required semester hours

66 sh

Prerequisites and supporting courses

COMM 1910, MATH 1510, PHIL 2530, STAT 1490

Required core courses

BSE 2110, 2120, 2211, 2212, 2310, 2510, 2520, 2540, 2610, 3110, 3210, 3220, 3310, 3330, 3350, 3520, 4520, NONP 2710

Notes and restrictions

Students are required to complete an internship (BSE 4970) or to provide documentation of other work experience.

Major requirements for the B.S. degree in Business and Economics (with a concentration in International Business)

Required semester hours

52 sh

Prerequisites and supporting courses

COMM 1910, PHIL 2530, STAT 1490,

Foreign Study Experience (4-6 sh)

The equivalent of 2 years of college foreign language (either course-work or placement test)

Two of the following: POGO 2200, 2300, 3210, 3370, 3390, SOC 2500, 3300, 3610, 3800, SPAN 2130

Required core courses

BSE 2110, 2120, 2211, 2212, 2310, 2510, 2520, 2540, 2610, 3130, 3330, 3520, 3650, 4520, NONP 2710, SBNM 5211

Notes and restrictions

Upon acceptance into the concentration, students will meet with their advisor to set up plans for the international study abroad. An international internship is the recommended experience. This is defined as working, studying, or interning in a foreign setting. Students are required to complete an internship (BSE 4970) or to provide documentation of other work experience.

5000 level courses are from the graduate program, requiring 3.0 GPA and senior status.

Major requirements for the B.S. degree in Business and Economics (with a concentration in Management)

Required semester hours

54 sh

Prerequisites and supporting courses

COMM 1910, PHIL 2530, STAT 1490

Two from the following: SOC 1910, 2150, 3010, 3080, PSYC 1000, 2200, 3100, 3200

Required core courses

BSE 2110, 2120, 2211, 2212, 2310, 2510, 2520, 2540, 2610, 3510, 3520, 3530, 4520, NONP 2710

SBNM 5010, 5030, 5041 (from the graduate program, requiring a 3.0 GPA and senior status)

Notes and restrictions

Students are required to complete an internship (BSE 4970) or to provide documentation of other work experience.

Major requirements for the B.S. degree in Business and Economics (with a concentration in Marketing)

Required semester hours

60 sh

Prerequisites and supporting courses

COMM 1910, PHIL 2530, STAT 1490

Required core courses

BSE 2110, 2120, 2211, 2212, 2310, 2510, 2520, 2540, 2610, 3520, 3610, 3620, 3630, 3640, 3650, 4520, NONP 2710

Select two from the following: BSE 3510, 3622 or SBNM 5520 (from the graduate program, requiring a 3.0 GPA and senior status)

Notes and restrictions

Students are required to complete an internship (BSE 4970) or to provide documentation of other work experience.

Major requirements for the B.S. degree in Business and Economics (with a concentration in Sports Management)

Required semester hours

52 sh

Prerequisites and supporting courses

COMM 1910, EXS 1400, PHIL 2530, STAT 1490

One from the following: EXS 1610, 2290, or 2950

Required core courses

BSE 2110, 2120, 2211, 2212, 2310, 2510, 2520, 2540, 2610, 2810, 3520, 3830, 3840, 4520, NONP 2710 Notes and restrictions

Students are required to complete an internship (BSE 4970) or to provide documentation of other work experience.

Minor Requirements in Business and Economics

22 sh

Required core courses

BSE 2110, 2211, 2310, 2610, 3520, NONP 2710

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

2110 Financial Accounting (4 sh)

A study of generally accepted accounting principles and techniques for measurement and reporting of financial information in a balance sheet, income statement and statement of cash flows. It includes an introduction to analysis and interpretation of financial data for decision-making purposes. Optional Co-requisite: BSE 2211.

2120 Managerial Accounting (2 sh)

A study of managerial accounting concepts relevant to decision-making. Topics include cost accounting systems, the nature of costs, standard costs, and budgeting. Prerequisite: BSE 2110.

2211 Principles of Macroeconomics (4 sh) GE

An introduction to basic economic concepts and models. An aggregate and analytical view of economic analysis focusing on national income, employment, the price level, and economic growth. The theory of income determination, fiscal policy, monetary policy, and the international economy. Current issues and policies in macroeconomics including studies on labor force and job structure. Historical review and development of economic doctrines. Co-requisite: BSE 2110.

2212 Principles of Microeconomics (4 sh)

Development of the fundamental analytical tools of microeconomics analysis. Presentation of the concepts of the market, consumer behavior and the behavior of the firm. The theory of production and cost, market structures, and distribution theory. Current issues and policies related to exchange and resource allocation, decisions on choice and income distribution in markets. Historical perspectives on income distribution, and industry structure. Prerequisite: BSE 2211.

2310 Foundations of Finance (4 sh)

An introduction to finance. The study includes a discussion of basic concepts, including accounting statements, security markets, interest rates, taxes, risk analysis, time value of money, and the basics of security valuation. It includes how financial managers can help maximize their firm's values by improving decisions in such areas as capital budgeting, choice of capital structure, and working capital management. Prerequisite: BSE 2110.

2510 Operations Management and Information Technology (4 sh)

This course uses the scientific method to find and solve problems in the operations of a for-profit or nonprofit organization. Mathematical models are used to measure and analyze problems dealing with efficiency. Topics include: 1) statistics 2) forecasting 3) linear programming 4) project management and 5) quality. This quantitative course helps the student to become an agent for change within our society's global or local organizations. Prerequisite: BSE 2211, STAT 1490.

2520 Business Law (2 sh)

The legal process surrounding civil dispute resolution, including intentional torts, negligence, and ethical standards. Introduction to contracts, mutual assent, contractual capacity, and Uniform Commercial Code. Will also focus on the relationship of principal and agent; duties, rights, and liabilities of partnerships; the nature, formation, and powers of corporations. Prerequisite: BSE 2211.

2540 Business Communication (2 sh)

This course emphasizes the importance of communicating in the workplace. Emphasis will be placed on multiple modes of communication; written, oral, non-verbal, and other visual modes. The processes of imparting and receiving information will be explored. Business writing, personal interviewing, resume writing, the use of visual aids, and professional presentation methods are practiced. Ethical behavior in communications is examined. Prerequisite: BSE 2211.

2610 Foundations of Marketing (4 sh) GE

An introduction to the marketing function in private and public organizations, designed to provide students with an overview of marketing concepts, tools, and methods of analysis. The course takes a practical, managerial approach to managing the marketing process. Steps in the marketing process, including market research, segmentation, targeting, positioning, the four P's (product, place, price, promotion) are explored, along with concepts of customer value and satisfaction, competitive analysis, brand strategy, consumer behavior, advertising, and the impact of the internet on marketing strategy and implementation. Concurrent enrollment in BSE 2211 is an option. Prerequisite: BSE 2211.

2810 Introduction to Sports Management (4 sh)

This course introduces and discusses the meaning of sport management in terms of its scope, principles, issues and future trends. In addition, the course examines the job responsibilities and competencies required of sport managers in a variety of sports or sports-related organizations in a hope to have the student become acquainted with the role of sport administrators as well as the career opportunities within the industry. Finally, the course provides the student with an overview of the different issues sports managers will be faced with such as: consumer behavior, public relations, budgeting, facility and event management. Prerequisite: BSE 2211; may take concurrently.

3110 Intermediate Accounting I (4 sh)

Application of accounting theory and concepts to financial accounting. Focuses on the conceptual framework underlying financial accounting, measurement and recognition of assets and liabilities. Prerequisite: BSE 2110.

3120 Intermediate Accounting II (4 sh)

A continuation of the application of accounting theory to financial accounting. Topics include the complexities involved in revenue recognition, including accounting for leases, income taxes, pensions and accounting changes and errors. Prerequisite: BSE 3110.

3130 International Accounting (2 sh)

Description of differences in national financial reporting regimes in various developed and emerging economies and the current state of international accounting standards. Topics will include accounting problems related to multi-national business such as foreign currency translation. Course is offered every other year. Prerequisite: BSE 2110.

3150 Individual Tax Accounting (2 sh)

A study of the political, economic and social influences on federal income tax legislation. The course covers decisions related to individual taxation, including income, deductions, property transactions and employee tax issues. Prerequisite: BSE 2110.

3160 Auditing (4 sh)

A study of generally accepted auditing standards, audit procedures, internal control procedures, professional ethics, auditors' legal

responsibility, working papers, and report writing. Course is offered every other year. Prerequisite: BSE 3120.

3170 Advanced Accounting Topics (4 sh)

A study of special accounting topics including consolidations and mergers, governmental and nonprofit accounting. Course is offered every other year. Prerequisite: BSE 3120.

3210 Intermediate Microeconomics (4 sh)

Intermediate microeconomics focusing on resource allocation and price determination in markets. Analyzes consumers and business firms as decision-making units. Emphasis on mathematical methods including calculus and optimization techniques. Applications of contemporary economic analysis related to business decisions. Prerequisite: BSE 2212, MATH 1510, STAT 1490.

3220 Intermediate Macroeconomics (4 sh)

The analysis of the aggregate economy. Presentation of national income accounting and the theory of income determination. Macroeconomics model building using IS and LM, theories of investment, growth, and the international economy. Economic fluctuations, monetary theory and policy, and fiscal policy. Mathematical applications and analysis of current data. Application and analysis for business decision-making. Prerequisite: BSE 2212, STAT 1490, MATH 1510.

3250 Development of Economic Thought (4 sh)

Presents the development of economic analysis. Relates economic conditions and the role of economic thought in historical context. Evaluates schools of economic thought, Mercantilism, Physiocracy, Classicism, and Keynesianism. Primary sources are used to present significant writers, such as Adam Smith, David Ricardo, J.S. Mill, and J.M. Keynes. Current writers and topics of debate including unemployment, labor markets, inflation, income, and economic growth are analyzed. A service learning project is included which provides the basis for application of economic concepts to solving contemporary problems. This project also provides the opportunity for research and data collection. Prerequisite: BSE 2212.

3310 Investments and Portfolio Management (4 sh)

This course is about investing in securities. It is aimed at providing a comprehensive introduction to the areas of investments and portfolio management. It approaches investing as a rational decision-making process in which the investor attempts to select a package or portfolio of securities that meets a predetermined set of goals. These investor goals are expressed in terms of return and the degree of uncertainty about the return or risk. More return is desirable; more risk is undesirable. Prerequisite: BSE 2310.

3330 International Finance (4 sh)

In this course we are concerned with financial management in an international setting. We are living in a highly globalized and integrated world economy. American consumers routinely purchase from foreign companies. People from around the world, in turn, purchase American-made products. In the financial markets, there have been developments that allow for integration. This allows investors to diversify their portfolios internationally. This global shift is in marked contrast to twenty years ago. The students of today must understand international finance to compete in the marketplace. Prerequisite: BSE 2310.

3350 Advanced Finance (4 sh)

This course covers advanced topics necessary for corporate financial management. Topics will include capital budgeting, capital structure decisions, initial public and follow-on equity offerings, dividend payout policy, corporate governance structure, and

mergers and acquisitions. Students will calculate firm valuations using multiple approaches. Skill development will include the construction of pro-forma excel models to be used in strategic decision-making. Prerequisite: BSE 2310.

3510 Public Relations & Corporate Communication (2 sh)

This course covers public relations and corporate communications strategies. Topics include agency management, crisis strategies, personnel strategies, branding, and ethics. Analysis and writing of print, electronic and oral messages to achieve organizational objectives i.e., writing backgrounders, boiler plates, fact sheets, press releases, speeches, newsletters, brochures, feature stories, annual reports and into bytes. Prerequisite: BSE 2610.

3520 Principles of Management and Leadership (4 sh) GE

The roles of change leadership, managing people and strategic thinking are examined from the perspective of Whole Systems Theory. Particular attention is paid to issues of gender and cultural diversity, the ethics of power and political influence, the use of teams as an organizational unit, the necessity of excellence in staffing, and the appropriate posture toward employment termination. Students must be of Junior or Senior status. Prerequisite: BSE 2110, 2211, 2610; BSE 2310 or NONP 3300.

3530 Small Business Management and Entrepreneurship (4 sh)

Application of management concepts and techniques to the small firm. Special attention will be given to the particular nature, opportunities, needs, and problems of small manufacturing, wholesale, retail, and service firms. Topics include comparison of similarities, differences, and relations between small and large firms; the role/skills of the entrepreneur, the impact of small firms on the economy; intrapreneurship in larger firms, evaluation of business ideas and target markets; issues and methods of starting a small firm; risk and venture management for small firms, and venture financing. The course culminates with the oral and written presentation of a business plan for a new or existing small business. Students must be of Junior or Senior status. Prerequisite: BSE 2110, 2310, 2610.

3610 Marketing Research and Consumer Behavior (4 sh)

An introduction to marketing research strategies and consumer behavior models. Students identify consumer needs and desires. Qualitative research techniques: research design, sampling, statistical analysis, focus group interviews, demographic analysis, sensory and perpetual analysis, attitude analysis, and psychographics are investigated. Prerequisite: BSE 2610, STAT 1490.

3620 Integrated Marketing Communication Strategy (4 sh)

An analysis of marketing communication with an emphasis on business communication. Marketing decisions concerning message design, target markets, and media audiences. Evaluation of media vehicles, perceptual, social, cultural, and technological determinants of message and writing form, style, and content. Prerequisite: BSE 2610.

3624 Integrated Marketing Communication Execution (4 sh)

Advanced study of the creative advertising process, both theoretical and practical. The development of creative strategies for products and services, demonstration of copy platforms, review of various execution approaches, and instruction in writing skills needed for the development of headlines, subhead, body copy and scripts. Advertisements, including rough layouts and storyboards, are crafted. Students develop and prepare creative portfolios in preparation for entering the creative areas of the advertising industry. Prerequisite: ART 2080, BSE 2610, BSE 3620.

3630 Marketing Channels and Supply Chain Management (2 sh)

An analysis of marketing channels as systems of interrelated and interdependent organizations engaged in marketing goods and services to industrial, institutional, or household consumers. Behavioral dimensions of channel relations such as communication procedures, roles of channel members, and conflicts within the distribution network are discussed. Construction of effective and efficient distribution networks of manufacturers, wholesalers, retailers, transportation, and Internet based firms are emphasized. In particular, this course focuses on retail management and Internet marketing management. Prerequisite: BSE 2610.

3640 Brand Management and New Product Development (4 sh)

Students develop and evaluate a marketing plan for a product or service. Identifying markets, estimating demand, determining budgets, and evaluating the effectiveness of programs are emphasized. Creating product concepts; managing products through the product life cycle; understanding portfolio analysis; developing policies for pricing, advertising, sales marketing channels, and customer relations are discussed. Prerequisite: BSE 3610, 3620, 3630.

3650 International Marketing (2 sh)

Challenges facing companies that enter and operate in foreign markets. International marketing objectives, strategies, and policies are investigated, with an emphasis on foreign market selection. Corporate adaptation of products, distribution channels, and communications to fit each foreign market is addressed. Prerequisite: BSE 2610.

3830 Sports Finance and Operations (4 sh)

This course is designed to inform and educate the student on issues within finance, accounting and risk management applied to managers of sports organizations. Included are forms of ownership, taxation, financial analysis, fund-raising, licensing and current legal issues. Prerequisite BSE 2110, 2120, 2310, 2510, 2520, 2810.

3840 Sports Marketing and Sales (4 sh)

This course focuses on the strategic role of marketing programs and sales techniques in generating sports business revenue. Through application of specific marketing tools and frameworks, students will gain skills necessary to: identify revenue-generating opportunities, develop criteria to compare and analyze alternatives and lastly, make strategically sound business decision in the sports business context. Prerequisite: BSE 2610.

3910 Topics in Business and Nonprofit Management (2 or 4 sh)

An intensive investigation of a selected topic in business, economics or nonprofit management. Extensive reading and research expected. Seminar format. Prerequisite: BSE 2211.

3920 Advanced Topics in Business (1-4 sh)

This is a topics course allowing the School of Business to grant undergraduate credit for selected graduate courses taken through SBNM.

4520 Strategic Management (4 sh)

This is the capstone course of the undergraduate business curriculum. As such it will synthesize the various disciplines of management and address the overall determination of strategic direction for the business organization. The student will begin by investigating the basics of human behavior in organizations and apply this theory to the organizational decision making process. Emphasis will be on the five steps of strategic management; mission determination, environmental analysis, organizational analysis, strategy selection and organizational implementation. Students will

have an opportunity to participate in a computer simulation of a business organization, which requires them to synthesize the various disciplines they have studied throughout their undergraduate curriculum. Prerequisite: BSE 2110, 2120, 2211, 2212, 2310, 2540, 2610, 3520. Co-requisite: BSE 2510, 2520, PHIL 2530.

4910 Independent Study in Business and Economics (1-4 sh)**4970 Internship in Business and Economics (1-8 sh)**

The Internship Program provides an opportunity for students to gain hands-on experience and to explore career options in their chosen field. The student earns a minimum of 1 semester hour for their internships. A maximum of 8 semester hours may apply toward graduation. The internship program is open to any North Park student who has completed at least one full year of study at North Park, has third- or fourth-year status and has a minimum GPA of 2.5 in their major. In addition, the student must apply and be accepted by a faculty sponsor and the Internship Committee. The faculty sponsor will monitor the student's progress throughout the internship, including meeting periodically with the student and maintaining contact with the site supervisor. During the course of the internship, interns must fulfill certain requirements. Interns will keep a daily journal of their activities throughout the internship. The faculty sponsor and the site supervisor may, at their discretion, assign certain reading materials to the intern. In addition, the faculty sponsor may assign a final paper. Finally, the intern must work for a minimum of 15 hours per week for one semester. Tuition is charged at the same rate as for other courses, based on the number of semester hours the student is requesting. Grading for all internships is Pass/Fail. Prerequisite: BSE 2110, 2211, 2310, 2540, 2610.

4971 Documented Work Experience (0 sh)

Chemistry (CHEM)

Rienstra-Kiracofe (chair), Larraza, Vazquez

The mission of the chemistry department is to prepare students for lives of service to God and significance in the world through the knowledge and skilled practice of chemistry. Chemistry students will develop an appreciation for the role chemistry plays in the world and will be prepared for careers as responsible citizens in chemical industry, health sciences, education, or governmental service either immediately upon graduation at North Park University or after further study in graduate or professional school programs.

Core Values of the Chemistry Department at North Park University

- Our chemistry students are knowledgeable: Each chemistry major will master fundamental chemistry concepts in the areas of general chemistry, organic chemistry, analytical chemistry, and physical chemistry.
- Our chemistry students are skilled: Each chemistry major will master fundamental laboratory skills, including observation, analysis, and manipulation of chemical reactions and processes in the general chemistry, organic chemistry, analytical chemistry, and physical chemistry settings.
- Our chemistry students are citizens: Each chemistry major understands the critical role chemistry plays by: serving to protect the world's environment, improving the quality of human health, and furthering technological advances by discovering new uses for chemicals and their reactions.
- Our chemistry students are responsible chemists: Each chemistry major understands the importance of participating in the greater scientific community of chemists and contributing to this community through teaching, conferences, research, and publication.

Major requirements for the B.A. degree in Chemistry

Required semester hours

34 sh

Prerequisites and supporting courses

MATH 1150 required. PHYS 1210 and 1220 or PHYS 1110 and 1120 and/or MATH 1510 and 1520 are recommended.

Required core courses

CHEM 1150, 1160, 2310, 2320, 2410, 3010, 4020

Electives

8 additional semester hours in Chemistry numbered 2000 and above and 4 additional hours in Chemistry number 3000 and above.

Honors

For Departmental Honors in Chemistry students are required to take CHEM 4000 (4 sh) in addition to the requirements listed above. For general Departmental Honors requirements and CHEM 4000 course description, see appropriate sections of this catalog.

Major requirements for the B.S. degree in Chemistry

Required semester hours

38 sh

Prerequisites and supporting courses

PHYS 1210 and 1220 or 1110 and 1120; MATH 1510 and MATH 1520.

Required core courses

CHEM 1150, 1160, 2310, 2320, 2410, 3010, 3250, 3260, 4020.

Electives

8 additional semester hours in Chemistry numbered 2000 and above.

Honors

For Departmental Honors in Chemistry students are required to take CHEM 4000 (4 sh) in addition to the requirements listed above. For general Departmental Honors requirements and CHEM 4000 course description, see appropriate sections of this catalog.

Minor requirements in Chemistry

Required semester hours

24 sh

Required core courses

CHEM 1150, 1160, 2310, and 2320.

Electives

8 semester hours numbered 2000 or higher

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1011 Survey of Chemistry (2 sh) GE

Basic laws and concepts of chemistry, applications are directed primarily to inorganic compounds. Designed for non-physical science majors. Does not fulfill chemistry requirements for biology majors or the prerequisites for medical schools. Four hours lecture and two hours laboratory per week.

1021 Survey of Organic Chemistry (2 sh) GE

A survey of the major functional classes of organic compounds including structure, nomenclature, properties, and reactions. Includes an introduction to the classes of natural products. Four hours lecture and two hours laboratory per week. Student must have completed one year of high school general chemistry. Prerequisite: CHEM 1011 or one year of high school general chemistry.

1031 Survey of Biochemistry (2 sh)

A survey of chemistry of cellular compounds. Introduction to the different classes of biochemicals. Introduction to bioenergetics and enzymology and to the major pathways of cellular chemical events. Four hours lecture and two hours laboratory per week. Prerequisite: CHEM 1021.

1150 General Chemistry I (4 sh) GE

A presentation of the basic laws of chemistry with emphasis on stoichiometry, atomic and electronic structure, bonding, and the states of matter (gas, liquid, solid, and solution). Properties and reactions of some elements and simple compounds are used to exemplify the principles. Chemistry I and II form a year's sequential study of the principles of chemistry with applications describing elements and compounds and their reactions. This sequence meets the needs of students majoring in the physical and biological sciences. Four hours lecture and two hours laboratory per week. Prerequisite: MATH 1005 or higher.

1160 General Chemistry II (4 sh)

Continuation of Chemistry I with emphasis on the energy changes associated with transformations of matter, kinetics of reactions, and the equilibrium considerations associated with reactions. General reactions of metals and non-metals and their compounds are also considered (includes an introduction to coordination compounds). Four hours lecture and two hours laboratory per week. Prerequisite: CHEM 1150 and MATH 1010 or higher.

2160 Inorganic Chemistry (4 sh)

A study of the periodic trends and relationships of the elements and their compounds. Discussion of the atomic and molecular structures, and how these give rise to the periodic relationships. Four hours lecture and three hours laboratory per week. Prerequisite: CHEM 1160.

2310 Organic Chemistry I (4 sh)

The chemistry of carbon compounds. Properties, synthesis, and reactions of saturated, unsaturated, and aromatic hydrocarbons, with emphasis on modern theoretical, mechanistic interpretations. Introduction to oxygen containing compounds. Four hours lecture and three hours laboratory per week. Prerequisite: CHEM 1160.

2320 Organic Chemistry II (4 sh)

Continuation of organic Chemistry I, emphasizing carbonyl and nitrogen containing compounds. Determination of molecular structure via IR, UV, NMR, and mass spectral methods. Introduction to the structure and properties of natural products and biomolecules. Four hours lecture and three hours laboratory per week. Prerequisite: CHEM 2310.

2410 Analytical Chemistry (4 sh)

A study of equilibrium with special emphasis on acid-base, oxidation-reduction, and heterogeneous ionic equilibria. The laboratory is aimed primarily at developing quantitative, laboratory skill. Three hours lecture and six hours laboratory per week. Prerequisite: CHEM 1160.

2510 Introductory Environmental Chemistry (4 sh) GE

A survey of the chemistry of the earth's environment, including atmospheric chemistry, pollution and the greenhouse effect, renewable energy, hazardous and nuclear waste and water pollution. The ethical and moral responsibilities of humans to the environment are also discussed. Four hours lecture and two hours laboratory per week. Prerequisite: CHEM 1160. Co-requisite: CHEM 1031 or 2310.

3010 Chemistry Ethics, Skills & Professional Practices (2 sh) GE

A seminar designed to help students acquire: 1) essential chemistry information technology skills, including use of electronic databases and mastery of chemistry-related software; 2) an understanding of how chemistry research is funded, conducted, and published; and 3) an appreciation of the ethics, responsibilities, and expectations of professional chemists in a global society.

3250 Physical Chemistry: Thermodynamics and Kinetics (4 sh) GE

Kinetic theory of gases and the elements of thermodynamics applied to physical and chemical systems, including solutions and reactions. Fundamentals of reactions kinetics, including the study of catalysis, reaction mechanisms, and transition state theory applied to unimolecular and bimolecular reactions. Four hours lecture and three hours laboratory per week. Prerequisite: CHEM 1160 and MATH 1520.

3260 Physical Chemistry: Quantum Chemistry and Spectroscopy (4 sh) GE

A study of the fundamentals of quantum mechanics applied to atoms and molecules. Applications to spectroscopy, including the study of lasers. Four hours lecture and three hours laboratory per week. Prerequisite: CHEM 1160 and MATH 1520.

3330 Biochemistry (4 sh)

A study of the chemistry of biological compounds. Structure and properties of all classes of biomolecules. Interaction of biomolecules via catabolic generation of phosphate bond energy, and the utilization of this energy in biosynthesis. Four hours lecture and three hours laboratory per week. Prerequisite: CHEM 2320.

3910 Topics in Chemistry (2-4 sh)

A study of selected topics in chemistry. Format may be an in-depth study of a selected area of chemistry or coursework off campus through Associated Colleges of Chicago Area (ACCA) chemistry cooperative courses. Laboratory work may be included, depending on topic. Student must be advanced standing in the department or have consent of instructor.

4000 Departmental Honors in Chemistry (4 sh)

Honors study in chemistry. Students will complete a special project consisting of either 4 sh advanced research extending a previous CHEM 4930 project or 4 sh of an unique departmental service project that promotes chemistry to the North Park campus or local community. Requires submission of a formal, oral report at the annual North Park Undergraduate Research Symposium and/or a local or national chemistry conference. Prerequisite: A 3.50 grade point average and departmental approval. Prerequisite: CHEM 2320, 2410.

4020 Chemistry Seminar Series (0 sh)

A series of seminars by chemical professionals, faculty, and students participating in undergraduate research. Provides students with exposure to current research topics in chemistry. One hour biweekly seminar, repeatable. Pass/fail. Cannot be used as a major elective course. Prerequisite: CHEM 1160.

4930 Directed Research (2-4 sh)

An introduction to chemical research. Student will work under the direction of a faculty mentor on a novel research project. Permission of the faculty mentor is required prior to enrollment in this course. Course may be repeated.

4970 Internship in Chemistry (1-4 sh)

An on-site experience in industry. Recommended for BS Chemistry students interested in obtaining placement in the field after graduation.

Chinese (CHIN)

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1010 **Basic Chinese I (4 sh)** GE

Introduction to elementary Mandarin Chinese pronunciation, grammar, and culture, along with an introduction to pinyin and a few Chinese characters. Topics include greetings, numbers, time, and several useful phrases. Particular emphasis on speaking and listening. The course is intended for students with no prior knowledge of Mandarin. No credit for CHIN 1010 will be granted to students who have completed more than two years of high school Chinese within the last five years.

1020 **Basic Chinese II (4 sh)** GE

Continuation of CHIN 1010. Introduction to elementary Mandarin Chinese pronunciation, grammar, and culture, along with an introduction to pinyin and a few Chinese characters. Topics include weather, shopping, and dining. Particular emphasis on speaking and listening. Prerequisite: CHIN 1010.

Communication Arts (COMM)

Hostetter(chair), Bergman, Haefner, C. Peterson, Trujillo

Communication Studies Major:

The purpose of the Communication Studies major is to enable students to learn the theory, analysis and practice of human communication in a variety of contexts. A major in Communication Studies develops an understanding of interpersonal, intercultural, and group relationships; the role of media in society; the spiritual roots of communication; and the role of communication in conflict and social transformation. Students develop skills in critical analysis, effective writing, speaking, and relationship building.

Students prepare for a variety of careers, including journalism, public relations, business and nonprofit management, law, event planning, social services, and human resources. Students are encouraged to enhance their preparation through one of the many internship possibilities offered in Chicago.

Major requirements for the B.A. in Communication Studies

Required semester hours

36 sh

Required core courses

1910, 2010, 2030, 2150, 2350, 2810, 2070 or 2080 and 2085, 3490, 3910, 4010 (2 times).

Notes and restrictions

To be accepted into the major and to enroll in courses beyond the introductory level, students must pass COMM 2010 - Introduction to Communication Theory with a grade of C or better.

General Education

COMM 2350 - Intercultural Communication fulfills the General Education requirement in Culture and Society. Students are encouraged to register for COMM 2140, 2240, or 2250 to fulfill the the General Education requirement in Art & Aesthetic Interpretation. See the General Education Program section of the catalog for more information.

Honors

For Departmental Honors in Communication Studies, the prospective student's proposal must be submitted by May 1 of the student's third year, with the work commencing in the fall semester of the fourth year. Students should enroll in COMM 4000 for 8 sh: 4 sh fall semester and 4 sh spring semester. For general Departmental Honors requirements and description of COMM 4000, see appropriate sections of this catalog.

Special programs

Internships: Outstanding internships are available every year in nonprofit organizations, public relations, and other areas. Students are urged to arrange an internship with the department and the Career Planning Office.

International Communication: Students can participate in a number of study abroad options. Please contact the Office of International Student Services.

Minor requirements in Communication Studies

Required semester hours

20 sh

Required core courses

COMM 2010

Electives

16 sh of electives, including at least 8 sh at the 3000 level

Notes and Restrictions

- Students must submit to the department a list of courses taken to complete the minor.
- Students completing a minor in Communication Studies must turn in a portfolio to the chair of the department containing the following:
 1. A statement of their specific goals upon entering the program
 2. A self-assessment of the achievement of those goals-including what educational experiences most enhanced their learning, curricular and extracurricular.
 3. Two samples of student work from each course: completed: projects essays or exams.

Media Studies Major:

The Media Studies major provides students with opportunities to learn the theory, analysis and practice of media. Students develop media literacy in preparation for careers as professional communicators and lifelong media consumers. Students work with Chicago-area professionals to learn digital audio and video production to prepare for work in documentary, feature film, journalistic and social media. Campus publications offer journalistic experience and the Los Angeles Film Studies Center offers filmmaking opportunities. As a major media environment, Chicago offers students outstanding internships in media production.

Major requirements for the B.A. in Media Studies

Required semester hours

36 sh

Required core courses

2150, 2250; either 1910, 2140 or 2240; 3100, 3450, 3480, 4010 (2 times).

Elective courses

16 sh of writing and production courses including a minimum of 2 hours of production courses from 2155, 2175, 2355 and 3355; and a minimum of 4 hours in writing from 3310, 3320, 3321, 3330, 3331.

Notes and restrictions

To be accepted into the major and to enroll in courses beyond the introductory level, students must pass COMM 2150 - Introduction to Media Theory with a grade of C or better.

General Education

COMM 2250 - Film Studies fulfills the General Education requirement in Art & Aesthetic Interpretation. Students are encouraged to register for COMM 2350 to fulfill the the General Education requirement in Culture & Society. See the General Education Program section of the catalog for more information.

Honors

For Departmental Honors in Media Studies, the prospective student's proposal must be submitted by May 1 of the student's third year, with the work commencing in the fall semester of the fourth year. Students should enroll in COMM 4000 for 8 sh: 4 sh fall semester and 4 sh spring semester. For general Departmental Honors requirements and description of COMM 4000, see appropriate sections of this catalog.

Special programs

Internships: Outstanding internships are available every year in media studies related fields. Students are urged to arrange an internship with the department and the Career Planning Office.

Los Angeles Film Center: Offered through the Coalition for Christian Colleges and Universities, the LAFSC is located in Hollywood, Calif., and offers a one-semester program for upper-division students who are interested in the mainstream Hollywood film industry. The program includes 10 sh of course work and 6 sh of internship. Students must apply both to North Park and LAFSC. See the department chair for further information.

Minor requirements in Media Studies

Required semester hours

20 sh

Required core courses

COMM 2150

Electives

16 sh of electives, including at least 8 sh at the 3000 level

Notes and Restrictions

- Students must submit to the department a list of courses taken to complete the minor.
- Students completing a minor in Media Studies must turn in a portfolio to the chair of the department containing the following:
 1. A statement of their specific goals upon entering the program
 2. A self-assessment of the achievement of those goals-including what educational experiences most enhanced their learning, curricular and extracurricular.
 3. Two samples of student work from each course: completed projects essays or exams.

Theatre & Performance Studies Major:

The North Park University Theatre & Performance Studies major provides students with opportunities to learn the theory, analysis, and practice of two theatre and performance models: the Chicago urban storefront model and performance studies for social change.

The storefront model prepares students to be effective theatre artists in small and unique spaces. Performance studies encompasses the performance of literature, storytelling and performance for conflict transformation and social change - from the local, Chicago scene to global contexts. Together, these models lay the groundwork for an art and faith dialogue in an environment that urges students to live lives of significance and service.

On campus, students will be engaged in all aspects of performing, directing, writing, designing and building. In the Chicago area, one of the most dynamic theatre and performance arenas in the country, students will be expected to enhance their preparation through one of many internship possibilities.

Major requirements for the B.A. in Theatre & Performance Studies

Required semester hours

36 sh

Required core courses

1610, 2140, 2240, 2330, 2340, 3320, 3410, 3430, 3910, and 4010 (2 times); one from 2310, 2320, 3230 or 3240

Notes and restrictions

To be accepted into the major and to enroll in courses beyond the introductory level, students must pass COMM 2140 - Introduction to Theatre with a grade of C or better.

General Education

COMM 2140 - Introduction to Theatre and COMM 2240 - Introduction to Performance Studies fulfills the General Education requirement in Art & Aesthetic Interpretation. Students are encouraged to register for COMM 2350 to fulfill the the General Education requirement in Culture & Society. See the General Education Program section of the catalog for more information.

Honors

For Departmental Honors in Theatre & Performance Studies, the prospective student's proposal must be submitted by May 1 of the student's third year, with the work commencing in the fall semester of the fourth year. Students should enroll in COMM 4000 for 8 sh: 4 sh fall semester and 4 sh spring semester. For general Departmental Honors requirements and description of COMM 4000, see appropriate sections of this catalog.

Special programs

Internships: Outstanding internships are available every year in theatre and performance related fields. Students are urged to arrange an internship with the department and the Career Planning Office.

Minor requirements in Theatre & Performance Studies

Required semester hours

20 sh

Required core courses

COMM 2140, 2240

Electives

12 sh of electives, including at least 8 sh at the 3000 level

Notes and Restrictions

- Students must submit to the department a list of courses taken to complete the minor.
- Students completing a minor in Theatre & Performance Studies must turn in a portfolio to the chair of the department containing the following:
 1. A statement of their specific goals upon entering the program
 2. A self-assessment of the achievement of those goals-including what educational experiences most enhanced their learning, curricular and extracurricular.
 3. Two samples of student work from each course: completed projects essays or exams.

1610 Theatre Production (2 sh)

TPS - An introduction to principles and skills for designing stage scenery, costume and lighting.

1910 Public Speaking (4 sh)

CS - An introduction to the theory and practice of public speaking. Topics include types of speeches, types and uses of source material, organization, performance, and speech criticism.

2010 Introduction to Communication Theory (4 sh) GE

CS - Introduction to theories of verbal and nonverbal human communication. Topics include intra- and interpersonal communication, communication in small groups, in organizations, and at the levels of public and mass communication. Required for admission to the Communication Studies concentration, and a prerequisite for most upper-level courses in that concentration.

2030 Interpersonal Communication (4 sh) GE

CS - The theory, analysis, and practice of communication in the development, maintenance, and decay of interpersonal relationships. Topics include verbal and nonverbal communication, perceptual accuracy, and effective listening. Prerequisite: COMM 2010.

2070 Group Communication (4 sh) GE

CS - An investigation of the principles and methods of small group communication, emphasizing decision making, problem solving, group structure, leadership, group dynamics, and effective group process. Prerequisite: COMM 2010.

2080 Communicating Friendship (2 sh)

The purpose of this course is to provide students with greater understanding of the relationship between communication and friendship. Topics will include uncertainty reduction, interpersonal attraction, self-disclosure, conflict, and the centrality of friendships in our lives across time.

2085 Family Communication (2 sh)

The purpose of this course is to provide students with greater understanding of the communication process in the family setting. Topics to be addressed include dating, marriage, childrearing, conflict, divorce, remarriage, single parenting, and communication across the lifespan of the family.

2110 Performance of Literature (2 sh)

An introduction to presentational approaches to interpreting texts through performance, with an emphasis on the analysis and staging of fiction.

2130 Storytelling (2 sh)

An introduction to storytelling as a crucial way of knowing, and as a central means of creating personal and social realities. Emphasis on the solo performance of folktales, everyday stories, personal narratives, and ethnographic stories from various cultural groups in Chicago.

2140 Introduction to Theatre (4 sh) GE

TPS - An introduction to theater as an art form with an emphasis on acting, directing, play analysis, and the collaborative process of theater production. Required for admission to the Theatre and Performance Studies concentration, and a prerequisite for most upper level courses in that concentration.

2150 Introduction to Media Theory (4 sh)

CS, MDIA - A study of the history of the various media of mass communications. The course includes the development of print, radio, television, film, and internet. Required for admission to the Media Studies major, and prerequisite for most upper-level courses in the major.

2155 Audio Production I (2 sh)

MDIA - The course will teach the basic skills for producing, recording, and editing a variety of material (music, voice) using a Pro Tools digital audio workstation. The course also covers basic principles of acoustics, and the basic laws of physics that affect sound. Prerequisite: COMM 2150.

2175 Audio Production II (2 sh)

MDIA - Advanced projects in audio production. Prerequisite: COMM 2150, 2155.

2240 Introduction to Performance Studies (4 sh) GE

TPS - This course is an introduction to the field of performance studies. The course will include aesthetic performances (literature, theatre, art, dance, and visual media), ethnographic performances (personal narratives and narratives of others), and other cultural sources. We will explore the relationship of performance studies to related fields, while placing an emphasis on performance and social change. We will attend live performances in Chicago.

2250 Film Studies (4 sh) GE

MDIA - An introduction to film as art, business, and cultural force. It examines the Hollywood paradigm as the dominant form of storytelling in Western movies; explores the artistic elements involved in filmmaking; and examines major cultural issues reflected in film narratives. Students attend a major international film festival in Chicago.

2310 Theater Design: Lighting & Sound (2 sh)

An introduction to principles and skills for lighting and sound design. Take COMM-1610;

2320 Theatre Design: Scenic & Costume (2 sh)

An introduction to principles and skills for scenic and costume design. Prerequisite: COMM 1610.

2330 Acting I (4 sh)

TPS - Establishes the foundation of acting technique through the genre of realism. Prerequisite: COMM 2140.

2340 Directing I (4 sh)

TPS - Introduction to staging a play. Students conceive, workshop, and execute a short one-act play. Prerequisite: COMM 2140.

2350 Intercultural Communication (4 sh) GE

CS - An introduction to major topics, major theories and direct experience of inter-cultural communication. Through readings, discussion, exercises and field trips, students prepare for encounters with different cultures.

2355 Video Production 1 (Field Production) (4 sh)

MDIA - The production of documentary film using techniques of field production and linear video editing. Prerequisite: COMM 2155.

2650 Scandinavian Film (2 sh)

A survey of films from Denmark, Norway and Sweden, with a critical analysis of actors and directors, narrative style, structure and content, social context and history. COMM 2250 is strongly recommended.

2750 Latin America on Film (2 sh)

A study of recent films about Latin American experience, the influence from and resistance to the Hollywood model of filmmaking by Latin American directors, and other critical issues concerning cultural diversity, national identity, class, gender, religion, and politics. Films will be shown with original languages and English subtitles. COMM 2250 is strongly recommended.

2810 Critical Reading, Writing and Analysis (4 sh) GE

CS - A writing course providing a review of writing basics, such as sentence structure and grammar, and emphasizing critical thinking and analysis. Prerequisite: COMM 2010.

3090 Shakespeare (4 sh)

TPS - A study of Shakespearean drama, including selected comedies, tragedies, and romances. Cross-listed with ENG 3090.

3100 Foundations of Media Industries (2 sh) GE

MDIA - This course addresses the development of major U.S. media industries, including newspapers, magazines, radio, television, the Internet, and social media. It focuses on the impact of media innovations on culture, and the ways established media adapt to innovations. Prerequisite: COMM 2150.

3200 Ibsen & Strindberg (4 sh) GE

TPS - Analysis of representative plays of Scandinavia's two internationally significant dramatists. Cross-listed with SCAN 3200.

3230 Acting II: Special Topics (2 sh)

TPS - Extends acting techniques learned in Acting I with a focus on Shakespeare and other classical styles improvisation, and stage combat. May be repeated for credit. Prerequisite: COMM 2140, 2330.

3240 Storefront Theatre Practicum: Special Topics (0-2 sh)

TPS - Extends skills developed in other courses in the Theatre and Performance Studies curriculum and develops material for the One-Act Festival. May be repeated for 0, 1 or 2 credits. Prerequisite: consent of instructor.

3310 Media Writing (4 sh)

MDIA - The study and practice of writing in various television and video formats, including news, commercials, public service announcements, and documentary scripts. Emphasis on journalistic writing for televisual media. Prerequisite: COMM 2150.

3320 Dramatic Writing I (4 sh) GE

MDIA, TPS - The study and practice of dramatic writing for theater and film. Focus on the writer's process, character development, story structure, and the completion of a one-act play or a short screenplay. Cross-listed with ENG 3320. Prerequisite: COMM 2140, 2150 or 2250.

3321 Dramatic Writing II (4 sh) GE

MDIA, TPS - Advanced study in writing the full-length stage play or full-length screenplay. Prerequisite: COMM 2140, 2150 or 2250.

3330 Journalism (4 sh) GE

MDIA - The study and practice of various forms of journalistic writing. Prerequisite: COMM 2010 or 2150.

3331 Multi-Media Journalism (4 sh) GE

MDIA - A laboratory-oriented newspaper reporting and editing course that utilizes the student newspaper (both print and online editions) as a hands-on learning environment for print, broadcast and web-based platforms. Students will be assigned specific stories and will write for the paper while also shooting and editing stories for the paper's website and creating a news blog. Field trips and outside speakers will provide direct exposure to the profession. Prerequisite: COMM 2010 or 2150 and 3330.

3355 Video Production II (New Media) (4 sh)

MDIA - Develops skills in the production of digital media for the internet and other new media. Prerequisite: COMM 2150, 2355.

3410 World Theater and Drama I (4 sh) GE

TPS - A study of the religious, political, and cultural sources of theatre; how theatre practice and dramatic literature developed in the Western tradition from the ancient Greeks through the medieval Christian, Renaissance and Neo-Classical periods, with a brief introduction to Asian and African performance traditions. Will attend performances in the Chicago area. Prerequisite: COMM 2140.

3430 World Theater and Drama II (4 sh) GE

TPS - A study of plays, theatrical practice, and theory from the nineteenth century to the present. Special emphasis on contemporary issues, postmodern and post-colonial forms, performance art and the theatricalization of news, politics, and other aspects of contemporary culture. Will attend performances in the Chicago area. Prerequisite: COMM 2140.

3450 Media and Society (4 sh)

MDIA - A study of the interaction of mass communication and society. Emphasis on critical and cultural theory, the interplay of programming, business, politics and other aspects of American culture. May include field trips to television stations. Prerequisite: COMM 2150.

3480 Media Ethics (2 sh)

MDIA - Using case studies, this course explores a range of ethical issues confronted by media practitioners. A moral reasoning process is used to evaluate conflicting values, apply ethical theories, and evaluate to whom ethical loyalty is due. Prerequisite: COMM 2150.

3490 Rhetorical Theory and Analysis (4 sh) GE

CS - An introduction to the theory and practice of rhetorical criticism, from classical to contemporary perspectives, including the analysis of a variety of contemporary public discourses. Prerequisite: COMM 2010. Strongly recommend: COMM 1910.

3510 Inside Hollywood (1-10 sh)

Los Angeles Film Studies Center. Offered through the Christian College Coalition, the LAFSC is located in Hollywood, CA, and offers a one-semester program for upper-division students who are interested in the work and workings of the mainstream Hollywood film industry.

3520 Screenwriting (3 sh)**3530 Faith, Film and Culture (3 or 4 sh)****3540 Intro to Filmmaking (3 sh)****3545 Hollywood Production Workshop (3 or 4 sh)****3550 International Communication (4 sh)**

MDIA - An examination of international mass media, including concentration of ownership, internationalization, diversification, New World Information Order, satellites, shortwave radio, film, and television. Prerequisite: COMM 2010, 2150 or consent of instructor.

3910 Topics (4 sh) GE

Advanced seminars which examine broad issues in communication, media and performance studies. Recent Topics courses include: International Conflict Transformation, Political Communication, Intercultural Theatre and Film and Social Movements. Students

will be expected to synthesize and extend their earlier work in this department. Prerequisite: COMM 2010, 2140 or 2150.

4000 Departmental Honors Communication Arts (4 sh)

CS, TPS - Honors students will write a major paper and/or produce a project at the honors level and make an oral presentation of the project at a Spring Honors Symposium.

4010 Professional Seminar (0 sh)

Occasional gatherings, approximately four each semester, will enable students to complete departmental portfolios, and develop plans for post-graduate professional or educational work. Open to all students in the department. All upper-level students in the department must register for two semesters.

4910 Independent Study in Communication Arts (1-4 sh)

Available to majors who seek to enhance course offerings with an in-depth study of a selected topic. Independent studies usually do not substitute for major requirements or departmental course offerings, but do count toward the total hours needed to graduate.

4970 Internship in Communication Arts (1-4 sh)

Students are urged to take advantage of outstanding Chicago-area internships to develop skills, academic and professional interests. Internships may not substitute for major requirements or departmental course but do count toward the total hours needed to graduate. Please refer to the Internship section of the catalog for internship requirements and guidelines.

Computer Science and Information Systems (CSIS)

Minor requirements in Information Technology

Required semester hours

20 sh

Prerequisites and supporting courses

MATH 1410

Required core courses

CSIS 1210, 1220, 2230, 3310, 3410

1010 Introduction to Personal Computing and the Internet (4 sh)

An introduction to computing concepts, to how computers work, and to the use of Windows 7 and Office 2010, including a laboratory component. Video documentaries about the beginning history of computing devices, the development of the personal computer, and the creation of the Internet. Ethical and moral issues relating to individual, commercial, and social effects of computers and networks

1210 Computing Science I (4 sh)

Top-down structured design and programming in a high level language such as Python. Topics including arithmetic, control structures, strings, functions, arrays, input/output, and introduction to objects. Prerequisite: CSIS 1010 or Consent of Instructor.

1220 Computing Science II (4 sh)

Introduction to the elements of computing processors: bits, bytes, memory, arithmetic, digital logic, and the components that comprise a central processing unit. Programming in the machine language and assembly language using the fundamental control structures. Prerequisite: CSIS 1210.

2230 Object Oriented Programming (4 sh)

Continuation of CSIS 1220. Object-oriented design and programming in Java, covering objects, classes, methods, inheritance, polymorphism, and dynamic binding, with emphasis on practical applications of these concepts. Graphic user interface class libraries. Ethical issues in information technology. Prerequisite: CSIS 1220. Co-requisite: MATH 1410.

3120 Computer Architecture (4 sh)

Digital logic and digital systems. Machine level representation of data and assembly level machine organization. Memory system organization and architecture. Interfacing and communication. Functional organization and performance enhancements. Multiprocessing and alternative architectures. Prerequisite: CSIS 1220.

3250 Data Structures and Algorithms (4 sh)

Fundamental programming constructs and data structures. Algorithms and problem solving. Recursion. Event-driven programming. Basic algorithm analysis. Software design. Using APIs. Software tools and environments. Software requirements and specifications. Prerequisite: CSIS 2230.

3310 Data Communications, Networks and the Internet (4 sh)

Introduction to network technologies and software, as well as to the Internet and the World Wide Web. Fundamentals of data, signals, and media. LAN basics, internetworking, software and support systems. Intranets and the Internet. Network design, management and security. Prerequisite: CSIS 1220.

3410 Databases and Information (4 sh)

Introduction to database design and management. Information collection and retrieval. SQL and the relational model. Normalization issues. Logical design and physical design. Distributed databases and the Internet. Such application packages as Access and Oracle. Prerequisite: CSIS 1220.

3510 Operating Systems Programming (4 sh)

Introduction to systems-level programming in a variety of environments such as Unix/Linux and Windows. Scripting languages. Prerequisite: CSIS 1220.

3910 Topics in Computer Science (4 sh)

An in-depth treatment of selected computer science or information system topics. Consent of instructor required.

4910 Independent Study in Computer Science and Information Systems (1-4 sh)

4970 Internship in Computer Science and Information Systems (1-4 sh)

Please refer to the appropriate section in the catalog for internship requirements and guidelines.

Conflict Transformation Studies (CTS)

R. Hostetter (co-director), M. Trujillo (co-director)

In fulfillment of the university's mission and vision, the mission of the Conflict Transformation Studies major (CTS) is to prepare students for nonviolent peacebuilding and conflict transformation in local, national, and international contexts. Students will develop interdisciplinary skills for analyzing the root causes of particular conflicts; integrate theory and practice, including spiritual resources, for conflict transformation; and seek to understand the root causes of protracted conflicts, and to work for their transformation through sustainable justice, peace and reconciliation processes (conflict transformation). Students majoring in Conflict Transformation Studies may consider careers in community organization, mediation, teaching, international mission work, community activism/organizing, interfaith dialogue facilitation, and youth ministry; in fields such as restorative justice, violence reduction, community arts programming, negotiation, labor relations, not-for-profit leadership, UN and other nongovernmental peacebuilding, human rights, government agencies, environmental advocacy, peace and conflict research, and graduate work. The program welcomes students from all backgrounds to examine the theory, analysis, history, religions, and cultures involved in generating both conflict and transformational peacebuilding. The program is built on a "flexible structure," which includes choosing supporting courses in the Core Curriculum Program, completing a core of five courses for all majors and minors, and creating an interdisciplinary concentration which connects core courses to the student's interest in a particular discipline, topic, type of activity, or career goals.

Major requirements for the B.A. degree in Conflict Transformation Studies

Required semester hours

36

Supporting courses: Students will choose three of the following courses to meet Core Curriculum requirements, a minimum of 12 hours:

1. COMM 2350 Intercultural Communication (4)
2. One BTS course (4) focused on social justice and conflict transformation:
3. BTS 2120 Old Testament Prophets; BTS 2700 World Religions; or BTS 3910 Political Theologies.
4. One Keystone course (4) focused on social justice issues, peacebuilding, or other other courses related to conflict analysis and conflict transformation. See a CTS advisor for a current list of Keystone courses related to the CTS major.

Required core courses (24 sh):

CTS 3000, 3100, 3200, 3300, 3400, 4000, 4970

Electives

(12 sh): see Concentration (below)

Notes and restrictions:

- Concentration and Capstone Project: In consultation with an advisor in this major, students will design a capstone project which includes:
A written application for the major and a plan for the Concentration (12 sh), Internship (2-4 sh), and Capstone (2 sh). Concentrations may be focused around a type of conflict or conflict transformation, a particular conflict, a region, and/or other appropriate topics, such as: urban conflict transformation, restorative justice, the arts and

conflict transformation, human rights, international conflict, conflict and environmental studies, racial justice, women and peacebuilding, economic justice, and more. For students with a double major, no more than eight hours may be cross-listed. Eight of the 12 hours must be at the 3000 level.

Minor requirements in Conflict Transformation Studies

CTS 3000, 3100, 3200, 3300, 3400

3000 Introduction to Conflict Transformation (4 sh)

This is an introduction to the practice and philosophy of nonviolent conflict transformation. The course assumes that conflict is a normal part of our daily lives, with both constructive and destructive potential. Students will learn introductory skills in conflict analysis and conflict transformation, including theories, methods, and practices for conflict transformation and peacebuilding; examine their own approaches to conflict; meet North Park faculty and others working in the broad field of conflict transformation; and develop a deeper understanding of the role of the arts and spirituality for conflict transformation, including the interplay of justice, truth, forgiveness, and peacebuilding.

3100 Conflict and Community (4 sh)

This course is designed to integrate various definitions of peace and community into a practical outcome. Students will identify their own approaches to conflict, assess their strengths and needed areas of growth, and apply learned strategies to ending violence in Chicago. Specifically, students will be involved in all areas of planning, development, and production of a major community conference during the spring semester. Areas of collaboration with community organizations will include fundraising, public relations, community outreach, conference logistics, and facilitation.

3200 Mediation (4 sh)

This course provides students with both theoretical and practical knowledge of mediation. Through case studies and other readings, experiential exercises, guest presentations, and lectures, students will be introduced to the practice of mediation in interpersonal, intercultural, and organizational contexts. Students will also examine issues of ethical relevance to the practice of mediation. Upon completion of this course, students will have the skills to conduct mediations. However, this course is not designed to certify participants for specialized mediation services such as court-mandated mediation or arbitration.

3300 Performance and Social Change (4 sh)

The goals of this course are: to develop skills, competencies, and points of view needed to create ethnographic performances—through engagement with theory, research, field work, empathy, advocacy for social justice, and writing for performance; to learn several models for connecting performance and social change; and to develop and present a performance for social change. Recent research topics have included immigration experiences and peacemakers in Chicago.

3400 International Conflict Transformation (4 sh)

An introduction to the theory, analysis, and practice of nonviolent, international conflict transformation through one or more international case studies. This course will enable students to develop a wide range of skills for analyzing specific international conflicts, to understand the role of non-government mediators in international conflict transformation, and to explore their own possible calling to conflict transformation. Theory and analysis will be drawn from the

fields of peace and conflict studies, global studies, communications, cultural studies, religious studies, the arts, and media studies. The course includes guest presentations, role plays, and field trips. The course may involve an international trip to one or more conflict zones.

3910 Topics in Conflict Transformation (1-4 sh)

Variable credit may be given for short-term seminars, study trips, service-learning and experimental courses.

3920 Topics in Graduate Studies Topics in Conflict Transformation (1-4 sh)

Undergraduate registration for graduate courses in other North Park programs, such as the School of Business and Nonprofit Management and North Park Theological Seminary.

4000 Conflict Transformation Capstone (2 sh)

Students will synthesize their coursework and practical experience, and complete their Concentration and Capstone project. Research projects may vary widely in topic and form, and may include research papers, performances, original art work, ethnographic work, advocacy work, international research, or some combination. At the end of the semester, students will present their research to each other and invited guests. Students will also write a reflective essay, summarizing and analyzing what they have learned and how they plan to pursue this work after graduation.

4970 Internship in Conflict Transformation (1-4 sh)

Working with an advisor from the CTS program, students will complete 2 sh (or more) credits of internship experience. Students will be expected to integrate CTS theory and practice, including: description of concrete experience; reflection on the experience; generalizations about the experience; connections to the student's concentration; how the experience has affected the student; and how the internship has promoted conflict transformation in a particular arena or context. Internships will be arranged with organizations such as World Relief (Chicago), Chicago Coalition for the Homeless, Refugee One, Albany Park Neighborhood Council, Albany Park Theatre Project, Interfaith Youth Corp, Parliament of the World's Religions, World Vision, Chicago Center for Conflict Resolution, Community Renewal Society, Eighth Day Center for Justice, and many others.

5000 Introduction to Conflict Transformation (4 sh)

An introduction to conflict studies and the philosophy and practice of conflict transformation, this course begins with the premise that conflict is part of our daily lives—an important dynamic in personal growth and social transformation, as well a source of alienation, violence and war. The course examines major sources of conflict, introduces a range of conflict management and conflict transformation processes, including active listening and communication, storytelling, mediation, negotiation, role playing and forgiveness, helps students assess their own approach to conflict, and offers resources for faith-based approaches to conflict transformation. Required for admission to the CTS Certificate Program and upper-level CTS courses.

Core Curriculum (CORE)

The North Park Dialogue program is built around some of the most powerful and compelling questions that humankind has ever faced. “Who am I?” and “Why should I be ethical?” are the centerpieces of the first- and second-year Dialogue courses. In the third year, students join the rest of the North Park community as they explore topics such as “Who is my neighbor?”, “Who is God?”, and “What is truth?”

Reflecting on these questions, which have formed the cornerstone of philosophical, theological, and ethical inquiry for centuries, North Park students not only become an active part of scholarly tradition, they also develop key critical thinking skills and insights necessary for successful and meaningful lives. Through opportunities to respond in writing and discussion, to the important issues at the heart of the curriculum, students explore their own beliefs, deepen their own commitments, and find new ways of expressing ideas and thoughts to others.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1000 **Cornerstone Seminar (4 sh)** GE

The First-Year Seminar is an interdisciplinary seminar focused on the classic philosophical question, Who am I?. Students gain an introduction to the educational experience at North Park and sharpen skills of oral and written communication. Grade of C- require to complete course. Prerequisite: WRIT 1000 with a minimum grade of C- or registration by placement.

3000 **Keystone Seminar (4 sh)** GE

In the Capstone Seminar students join the entire campus community in examining one of several annual theme questions. These interdisciplinary seminars allow students to integrate their own intellectual interests into their understanding of the world and their place in it. Note: While these courses may be cross listed in a major department students must register for CORE 3000 to meet the requirement. A student may not receive credit for Keystone Seminar and credit in the major.

Departmental Honors Program

The Departmental Honors program is designed to challenge North Park's most talented and motivated students to achieve at the highest level in their major fields. The requirements of this program are:

- A minimum overall GPA of 3.5 and a minimum major GPA of 3.7 for admission and retention in the program.
- A minimum of 45 and a maximum of 90 semester hours earned at the time of admission into the program.
- A grade of A or B in 3-8 semester hours of DH 4000, which requires a paper or project at honors level.
- Presentation of the DH 4000 paper or project at a Spring Honors Symposium.
- Departmental approval.

For additional requirements, specific to a particular major, see departmental descriptions. Applications for admission may be obtained from the department chair.

Each department that offers an honors option will list a course with its own prefix and the catalog number 4000.

Education (EDUC)

Nelson (dean), Balodimas-Bartolomei, Johnson, Laukaitis, Levandowski, Maduram, Majerczyk, Pryor, Zervas

The North Park University School of Education prepares competent, respectful, and reflective professionals who are dedicated to serving diverse learning communities.

The strategic location of North Park University permits the students to complete clinical experience in public, private, urban, and suburban schools.

The following programs received continued approval of the Illinois State Educator Preparation and Licensure Board and the Illinois State Board of Education (ISBE): Early Childhood; Elementary; Secondary Education: Biology, Chemistry, Economics, English, History, Mathematics, Political Science and Physics; Special K-12: Art, French, Music, Physical Education, and Spanish. The Illinois State Board of Education determines the rules and requirements for educator licensure in Illinois. In order to ensure that candidates meet all state requirements at the time they complete the program and apply for a Professional Educator License, The School of Education reserves the right to modify the course of study for the approved licensure programs outlined in the university catalog.

Early Childhood/Elementary Education Majors

Full admission into the early childhood and elementary education majors is based on:

- Formal application to the School of Education when enrolled in EDUC 2120
- An overall GPA of 2.5
- Completion of Professional Term A
- Positive recommendations from School of Education Faculty
- Approval by the Teacher Education Screening Committee
- Meeting the Illinois test of basic skills requirement (passing the Test of Academic Proficiency or using the ACT or SAT in lieu of the TAP)
- Completion of TB clearance
- Successful results of criminal background check

Candidates are required to pass the the Illinois Test of Basic Skills or its equivalent prior to full admission into the Teacher Education Program. The Content Area Test must be passed prior to student teaching. An Assessment of Professional Teaching (APT) test must be passed prior to receiving a teaching license.

Once admitted to the Teacher Education Program, candidates also meet benchmark assessments at key transition points. Candidates meet the benchmarks for dispositions during Professional Terms A, B, C, and D. Candidates meet the benchmarks for their portfolio assessment in Professional Terms B, C, and D. These benchmark assessments are described fully in the School of Education's Teacher Education Handbook. Students are expected to complete all course requirements including field clinical experiences.

International students may major in either Early Childhood or Elementary Education. In order to complete the requirements for the Teacher Education Program and graduation, all candidates must have a social security number in order to register for state tests and to complete the licensure process.

All professional education and content-area coursework that forms part of an application for licensure, endorsement, or approval that is received by

ISBE on or after February 1, 2012, must have been passed with a grade no lower than C or equivalent in order to be counted toward fulfillment of the applicable requirements.

If a student requests teacher licensure after graduation, he/she will need to either retake Practicum C: Mini Teaching or Practicum D: Student Teaching after the 2 state exams are passed successfully. (Passing of the Illinois test of basic skills or its equivalent is required for Mini-Teaching and the Early Childhood/Elementary Content Area Test is required for Student Teaching).

Early Childhood Licensure Program

This program is designed for students who are planning to teach children from birth through the early primary grades leading to an Illinois Professional Educator license in the state of Illinois. In addition to the early childhood major, an expanded general education package and one 18 semester hour "endorsement" or one 28 semester hour concentration is required.

The curriculum is sequenced in four professional terms:

Professional Term A: EDUC 2120, 2130, 2140, 2145

Professional Term B: EDUC 2300, 3340, 3345, 3370, 3430, and 3510

Professional Term C: Preschool: EDUC 3180, 3330, 3360, 3520 (1 sh Preschool; 1 sh Elementary), and 3930

Professional Term D: EDUC 3130, 4100 (4 sh), 4110 (4 sh), and 4600

Elementary Education Certification Program

This program is designed for students who are planning to teach children in self-contained, early primary grades through intermediate grades and to obtain an Illinois Professional Educator License.

The curriculum sequence is sequenced in four professional terms:

Professional Term A: EDUC 2120, 2130, 2140, 2145

Professional Term B: EDUC 3011, 3260, 3270, 3340, 3345, 3370, 3430 and 3510

Professional Term C: EDUC 3230, 3240, 3280, 3310, 3380 and 3520

Professional Term D: EDUC 3130, 4110 (8 sh) and 4600

General Education Courses For Early Childhood and Elementary Education Majors

Students are advised to consult with their Education advisor to identify the classes that most appropriately helps address State Standards.

Math 1030 is a required course for all Early Childhood and Elementary Education Majors. This fulfills the Mathematics General Education requirement.

The equivalent of two semester hours of written communication is integrated across North Park Dialogue 1 and 2.

Academic Area Of Concentration

In addition to requirements in education, students must complete an 18 semester hour area of concentration from the categories listed below or a student may complete a second major, following the major requirements contained elsewhere in this catalog. Students are advised to work with department and education advisors in selecting appropriate courses.

1. Art
2. English

- Literature
 - Writing
3. Foreign Language
 - French – Consult both the Education and the Departmental advisor for appropriate coursework.
 - Spanish – Consult both the Education and the Departmental advisor for appropriate coursework.
 - Swedish – Consult both the Education and the Departmental advisor for appropriate coursework.
 4. Mathematics
 5. Music
 6. Philosophy
 7. Sciences
 - Biology
 - Chemistry
 - Physics
 8. Social Science
 - Economics
 - History
 - Political Science
 - Psychology
 - Sociology
 9. Theater

Honors in Early Childhood Education and Elementary Education

For Departmental Honors in Early Education or Elementary Education, 8 sh of EDUC 4000 are required in addition to the hours stated for certification. Students must apply for admission into the program during the first semester of their third year. For honors in these majors, students must present their papers or project to the faculty of the Education department. For general departmental honors requirements and description of EDUC 4000, Departmental honors in Education (1-4 sh), see later pages in this section.

Optional Bilingual Education Endorsement:

EDUC 3540, 3602, 3604, 3605, 3606, and 3607.

Candidates seeking the Bilingual Education endorsement need to pass the appropriate ISBE language proficiency test.

Optional English as a Second Language (ESL) Endorsement:

EDUC 3540, 3601, 3602, 3603, 3604, and 3605.

Optional Combined Bilingual/English as a Second Language (ESL) Endorsement:

EDUC 3540, 3601, 3602, 3603, 3604, 3605, 3606 and 3607

Candidates seeking the Bilingual Education Endorsement need to pass the appropriate ISBE language proficiency test.

Optional Learning Behavioral Specialist I Endorsement:

EDUC 3430, 3431, 3436, and 3437

Candidates seeking the LBS1 Endorsement need to pass the appropriate ISBE content area tests.

Secondary Education Major Program

The secondary education major is a second major only. No student may graduate from North Park University with secondary education as his or her only major.

The secondary education major leads to teacher licensure. In order to be licensed for secondary education in Illinois, a candidate must complete a state approved program in a specific content area. Currently, North Park's approved programs in the content areas noted below are the equivalent of the North Park departmental major (with certain additional courses for core standards and some exceptions as noted in the university catalog) combined with School of Education courses for the secondary education major.

A secondary education major without a content-area major would not lead to state licensure. As a result, students may not graduate from North Park with secondary education as their only major.

Full admission into the secondary education major is based on:

- Formal application to the School of Education when enrolled in EDUC 2120
- An overall GPA of 2.5
- Completion of Professional Term A
- Acceptance into appropriate major
- Positive recommendations from School of Education Faculty
- Approval by the Teacher Education Screening Committee
- Meeting the Illinois test of basic skills requirement (passing the Test of Academic Proficiency or using the ACT or SAT in lieu of the TAP)
- Completion of TB clearance
- Successful results of criminal background check

Candidates are required to pass the Illinois Test of Basic Skills or its equivalent prior to full admission into the Teacher Education Program. The Content Area Test must be passed prior to student teaching. An Assessment of Professional Teaching (APT) test must be passed prior to receiving a teaching license.

Once admitted to the Teacher Education Program, candidates also meet benchmark assessments at key transition points. Candidates meet the benchmarks for dispositions during Professional Terms A, B, C, and D. Candidates meet the benchmarks for their portfolio assessment in Professional Terms B, C, and D. These benchmark assessments are described fully in the School of Education's Teacher Education Handbook. Students are expected to complete all course requirements including field and clinical experiences.

All professional education and content-area coursework that forms part of an application for licensure, endorsement, or approval that is received by ISBE on or after February 1, 2012, must have been passed with a grade no lower than C or equivalent in order to be counted toward fulfillment of the applicable requirements.

Secondary Teaching Licensure Program

The secondary education major leading to teacher licensure is designed for students who are planning to teach in secondary schools and obtain an Illinois Professional Educator License.

The curriculum is sequenced in four professional terms:

Professional Term A: EDUC 2120, 2130, 2140, 2145

Professional Term B: EDUC 3011, 3430, 3160 and 3510

Professional Term C: EDUC 3130 and 3520

Select one course based on Major:

EDUC 3310: English and Foreign Language Majors only

EDUC 3315: All majors except English and Foreign Language

Select one course based on Major:

EDUC 3230: Science Major

EDUC 3240: Social Studies Major

EDUC 3355: English Major

EDUC 3380: Math Major

Professional Term D: EDUC 3407, 4120, and 4600

Content Area Majors

(36 semester hours or more)

The Illinois State Board of Licensure has approved the following programs at North Park University; State Content Area Tests are given to verify the appropriate level of mastery of the State Standards. The State Standards for each area can be found on the Illinois State Board of Education website (www.isbe.net) See individual departments for additional requirements such as comprehensive examinations.

1. Biology
2. Business and Economics: Economics
3. Chemistry
4. English
5. History
6. Mathematics
7. Physics
8. Politics and Government

Optional Bilingual Education Endorsement:

EDUC 3540, 3602, 3603, 3604, 3606, and 3607.

Candidates seeking the Bilingual Education endorsement need to pass the appropriate ISBE language proficiency test.

Optional English as a Second Language (ESL) Endorsement:

EDUC 3540, 3601, 3602, 3603, 3604, and 3605

Optional Combined Bilingual/English as a Second Language (ESL) Endorsement:

EDUC 3540, 3601, 3602, 3603, 3604, 3605, 3606 and 3607

Candidates seeking the Bilingual Education Endorsement need to pass the appropriate ISBE language proficiency test.

Optional Learning Behavioral Specialist I Endorsement:

EDUC 3430, 3431, 3436, and 3437

Candidates seeking the LBS1 Endorsement need to pass the appropriate ISBE content area tests.

Special K-12 Programs (Art, French, Music, Physical Education, and Spanish only)

The Special K-12 licensure program is not a second major. Candidates wishing to teach these subject areas will complete a content area major and a licensure program.

Formal Admission into the Special K-12 sequence is based on:

- Formal application to the School of Education office when enrolled in EDUC 2120
- An overall GPA of 2.5
- Completion of Professional Term A
- Declaration of an appropriate content area major
- Positive recommendations from School of Education Faculty
- Approval by the Teacher Education Screening Committee
- Meeting the Illinois test of basic skills requirement (passing the Test of Academic Proficiency or using the ACT or SAT in lieu of the TAP)
- Completion of TB clearance
- Successful results of criminal background check

Candidates are required to pass the Illinois Test of Basic Skills or its equivalent prior to full admission into the Teacher Education Program. The Content Area Test must be passed prior to student teaching. An Assessment of Professional Teaching (APT) test must be passed prior to receiving a teaching license.

Once admitted to the Teacher Education Program, candidates also meet benchmark assessments at key transition points. Candidates meet the benchmarks for dispositions during Professional Terms A, B, C, and D. Candidates meet the benchmarks for their portfolio assessment in Professional Terms B, C, and D. These benchmark assessments are described fully in the School of Education's Teacher Education Handbook. Students are expected to complete all course requirements including field and clinical experiences.

All professional education and content-area coursework that forms part of an application for licensure, endorsement, or approval that is received by ISBE on or after February 1, 2012, must have been passed with a grade no lower than C or equivalent in order to be counted toward fulfillment of the applicable requirements.

The Special K-12 program is designed for students who are planning to teach the subjects of Art, French, Music, Physical Education, or Spanish at the elementary, middle grades, or high school levels.

Summary of requirements in the major, including prerequisites.

The curriculum is sequenced in four professional terms:

Professional Term A: EDUC 2120, 2130, 2140, 2145

Professional Term B: EDUC 3011, 3170, 3510 and 3430

Art majors only: EDUC 3390

Foreign Language majors only: EDUC 3290

Professional Term C: EDUC 3310 or 3315, 3407, 3520

Select one course based on Major:

EDUC 3310: Foreign Language major

EDUC 3315: Art, Music and Physical Education major

Professional Term D: EDUC 3130, 4110/4120, 4600

2120 Introduction to Teaching: Professional Responsibilities (2 sh) GE

This course is an introduction to the teaching profession. Topics covered include historical, philosophical, contemporary, and ethical perspectives on education as well as social and cultural expectations in teaching. In this introductory course, students are informed on the appropriate role of technology; state and national standards; policies governing education at the national, state, and local level; and careers and organizations related to teaching and education. This course also introduces students to state licensure requirements.

2130 Educational Psychology (2 sh)

Study of the psychological aspects of human behavior and development applied to teaching and learning processes, including learning theories, motivation, and classroom management. Prerequisite: EDUC 2140.

2140 Curriculum: Planning & Preparation (2 sh)

Basic principles of curriculum including, planning, organizing and developing lesson plans in relation to the individual learner, the school, and the society are discussed. Historical developments and recent innovations in school curriculum, lesson planning and preparation and instructional delivery will be analyzed. Emphasis is on planning and preparation of lesson plans according to the School of Education lesson plan template aligned with the Danielson Domains, edTPA, Illinois Learning Standards and Common Core Standards. Needs of multi-cultural and special needs students are addressed. Electronic professional portfolios will be developed. Prerequisite EDUC 2120.

2145 Instruction and Assessment (2 sh) GE

This course introduces students to research-based instructional strategies along with basic principles and practices of classroom assessment. Special attention will be given to differentiated instruction, maximizing student engagement and learning, formative and summative assessment practices, and the use of data in classroom decision-making. Prerequisite: EDUC 2130.

2155 Technology with Teaching (2 sh)

Integration of current methods in instructional technology into the K-12 classroom, including multimedia presentations, Internet navigation and production, basic computer maintenance, and the critical evaluation of educational software. Needs of diverse learning styles of students are addressed.

2300 Infant and Child Development (2 sh)

Intensive study of developmental theory and research related to physical, cognitive, psychosocial and faith development in infants and children. An experiential learning component is included. Prerequisite: PSYC 1000.

3011 Middle School and Adolescent Development (3 sh)

A study of the physical, intellectual, emotional, and social development of the young adolescent. Examination of developmental issues that impact the middle school, its philosophy, and its practices which are responsive to the adolescent, both cognitively and affectively. Prerequisite: EDUC 2145.

3130 Multicultural Education Practices: Challenges for the Diverse Classroom (2 sh) GE

This course examines diversity in the classroom with attention to the linguistic, cultural, academic and cognitive dimensions of student development and learning. This course will also examine the instructional planning, instructional strategies and culturally responsive practices for diverse learners. Consideration will be given to the ways racial-ethnic segregation, ESL, bilingual, bicultural and special education programs have impacted schools and their communities. Prerequisite: EDUC 2145;

3160 Instruction in Secondary Schools (2 sh)

Basic principles of instruction for middle and high schools including analysis of teaching and learning experiences, organization for instruction, and assessment of students work. This course is part of Professional Term B. Prerequisite: EDUC 2145.

3170 Instruction in Special K-12 Programs (2 sh)

Basic principle of instruction. Preparing for teaching experiences, organizing for instruction, and working in a teacher aiding situation. This course is part of Professional Term B. Prerequisite: EDUC 2145.

3180 Language Development in Early Childhood (2 sh)

Methods of dealing with the development of language in young children. The emphasis is on speaking and listening skills, and preparation for reading and writing skills. Prerequisite: EDUC 2145.

3230 Methods and Techniques of Teaching Science in Grades 5-9 (1 sh)

Methods of teaching science at the elementary and middle school levels. The emphasis of the course is on relating the knowledge and skills of science to initiating inquiry into the learning activities. Prerequisite: EDUC 2145.

3240 Methods and Techniques of Teaching Social Studies in Grades 5-9 (1 sh)

Methods and techniques of teaching social studies at the elementary and middle school levels. The emphasis of the course is on relating the knowledge, skills, values, attitudes, and social participation to the social science discipline. Prerequisite: EDUC 2145.

3260 Methods in Art for Elementary Teachers (1 sh)

This course will consist of methods of teaching art in the elementary school. Emphasis will be placed on both the theoretical and the practical information and skills essential for the teaching of art. Prerequisite: EDUC 2145.

3270 Method in Music Education for Elementary Teachers (1 sh)

Methods and techniques of teaching music by the classroom teacher at all levels in the elementary school. Special emphasis will be placed on current music educational trends. Prerequisite: EDUC 2145.

3280 Methods of Teaching Physical Education and Health for K-8 Teachers (1 sh)

A presentation of the current trends in elementary physical education and health; human body systems and promotion of social, emotional, physical, mental and environmental health; theories and principles of health promotion and disease prevention; methodology, class organization, basic movement principles, and identifying teaching resources for physical education. Prerequisite: EDUC 2145.

3290 Methods in Foreign Language K-8 (2 sh)

Lesson planning, methods, and material selection for teaching foreign language in the elementary school. Integration with the

program of regular classroom teachers as well as planning for an entire foreign language curriculum for elementary students. Prerequisite: EDUC 2145.

3307 Materials and Methods for Elementary and Middle School Music Education (2 sh)

An analytic overview of public school music texts, audio-visual material and computer technologies including multi-cultural resources and their applications. An investigation into the means of integrating the music unit into the host school as well as building community relations with the music unit. Introduction to the building, marketing, and defense of the arts in education. Prerequisite: EDUC 2145.

3310 Methods of Teaching Reading and Language Arts in Grades 5-9 (2 sh)

An analysis of the materials and the methodologies used in writing, reading and language arts including children's literature. A review of theories, research, and the differentiated instructional needs of struggling and special education students. Emphasis on the learner in grades 5 through 9. Prerequisite: EDUC 3510.

3311 Middle School Curriculum and Instruction (2 sh)

Emphasis on the middle school classroom and its structure (curriculum and instruction) of the young adolescent. Examination of curriculum development, teaching and instructional strategies, support of students as changing young people, parent and community development, service learning, advisor-advisee programs, block scheduling, learning communities, homework and assessment, exploratories, teaming, reading and writing across the curriculum, and other current middle school issues that impact curriculum and instruction for the 10 to 15 year old. Pedagogy is based on middle school philosophy, curriculum, instruction, and instructional models for designing and teaching developmentally appropriate programs including content area reading instruction. Prerequisite: EDUC 2145.

3315 Methods of Teaching Content Reading and Writing for Grades 5-9 (2 sh)

The purpose of this course is to extend your knowledge of reading/writing, instructional strategies, methodology, and assessment procedures used in grades 5-9. We will explore the following content areas: evaluation of instructional materials, comprehension instruction, learning vocabulary, reading and writing across the curriculum, assessment of student progress, diversity in the classroom, and current approaches to content reading and writing. Prerequisite: EDUC 3510.

3330 Principles and Practices of Play and Language in Early Childhood Education (2 sh)

Methods and techniques of teaching socialization, art, music, and physical education to the young child along with the materials available and appropriate for the infant and young child. Prerequisite: EDUC 2145.

3340 Methods in Science K-4 (1 sh)

Methods and techniques of teaching science in grades K-4. Emphasis is on concept development and discovery approach. Prerequisite: EDUC 2145.

3345 Methods of Reading, Language Arts, and Social Studies K-4 (4 sh)

Emphasis on theory, methodology, strategies, and principles of instruction related to reading, language arts, and social science in grades Kindergarten through grade four. Prerequisite: EDUC 2145.

3355 Grammar and Writing Pedagogy (2 sh)

Intended for English majors in the secondary education sequence, and candidates for elementary education, this course will review grammar basics and will study methods of teaching writing. Student must have completed foundational course in composition or the equivalent. Prerequisite: EDUC 2145.

3360 Instruction in Early Childhood (2 sh)

Methods and techniques of teaching mathematical, social, and scientific concepts to young children. The relation of learning theories to the selection process. Diagnostic and evaluation techniques and procedures. Prerequisite: EDUC-3510.

3370 Methods in Mathematics K-4 (2 sh)

Methods and techniques of teaching mathematics in grades K-4. Emphasis is on NCTM Teaching Standards for concept development, problem-solving, critical thinking ability, and use of manipulatives. Student must have successful score on the mathematics area test. Prerequisite: EDUC 2145.

3380 Methods in Mathematics Grades 5-9 (2 or 3 sh)

Methods and techniques of teaching mathematics in the intermediate and middle school grades. Emphasis is on NCTM Teaching Standards for algorithms for the basic operations as well as developing problem solving and critical thinking abilities. Prerequisite: EDUC 2145.

3390 Methods and Materials for Teaching Art K-8 (2 sh)

Lesson planning, methods, and material selection for teaching art in the elementary school. Integration with the program of regular classroom teacher as well as planning for an entire art curriculum for elementary students. Prerequisite: EDUC 2145.

3407 Content-Area Methods of Teaching in the Middle and Secondary School (2 sh)

Specific methods and materials for teaching middle and secondary school subjects: topics and problems of general concern to 6-12 teachers; selection and use of instructional media. Basic principles of instruction, preparing for teaching experiences and organizing for instruction. Regular and special populations are included. Music education majors must register for MUS 3408 and 3409 in place of this course. Prerequisite: EDUC 3510; EDUC 3160 or 3170.

3430 Survey of Teaching Exceptional Learners (3 sh)

Survey of characteristics of learners with physical, mental, emotional or learning disabilities. Implications for the school situation.

3431 Characteristics of Special Needs Students (3 sh)

An introduction to the characteristics of students with specific learning disabilities, emotional disturbance, intellectual disability, autism, traumatic brain injury, and orthopedic or other health impairments and implications of these characteristics in the educational setting and throughout the life-span. The provisions of the Individuals with Disabilities Education Act (IDEA) for these learners are explored as well as the definitions of the disabilities, etiologies, preventions, and interventions. Issues related to the identification, screening, labeling, and placement of culturally and linguistically diverse students in Special Education will also be presented. Attention to past, present, and future issues and trends in the field are given. Early childhood through high school student populations are included. Leads to cross-categorical approval for early childhood, elementary, secondary and K-12 certificates when combined with EDUC 3430, 3436 and 3437. Prerequisite: EDUC 2145.

3436 Psychological and Educational Assessment for Special Populations (3 sh)

An examination of assessment and evaluation instruments appropriate for use with special populations. Standardized, aptitude, achievement, diagnostic, and criterion reference tests will be analyzed. Validity, reliability, norming, and standard scores will be examined. Prerequisite: EDUC 2145.

3437 Methods of Teaching Students with Special Needs (3 sh)

An introduction to the philosophies and theories underlying the variations in educational programming for students with specific learning disabilities, emotional disturbance, intellectual disability, autism, traumatic brain injury, and orthopedic or other health impairments. Educational approaches and best practices used by teachers to design curriculum, and instruct and assess students with disabilities will be presented. Prerequisite: EDUC 2145.

3510 Practicum B: Teacher Aiding (0 sh)

Observation and teacher aiding to total a minimum of 40 hours; to be taken as a part of Professional Term B. Early childhood candidates will participate in an infant toddler program for 20 hours and will complete the remainder of time in grades K-3 in a practicum. Elementary candidates may select 1-3, 4-5, or 6-8 for this experience, with the remaining levels taken in 3520 or 4110. Secondary candidates may select 6-8 or 9-12 for this experience. A variety of urban, suburban, public, and private schools need to be selected across practicum settings. Teacher aides meet periodically with faculty observers to share and reflect on the experience. In addition to the 40 hour requirement in a regular education setting, a 10 hour experience in a special education setting is required. Prerequisite: EDUC 2145; Full Admission into the Teacher Education Program.

3520 Practicum C: Mini-Teaching (1 or 2 sh)

Mini-Teachers meet periodically regularly with School of Education faculty to share and reflect on the experience and prepare for the EdTPA. There will be a minimum of 35 hours of mini-teaching in a local school in connection with methods courses. The student must meet the required grade point average and have a receipt by the School of Education of meeting the Illinois basic skills requirement. Early Childhood candidates take this practicum twice, once at the preschool level and once at the Kindergarten level. To be taken as part of Professional Term C. Prerequisite: EDUC-3510.

3540 ESL Practicum (0 or 1 sh)

The purpose of this course is to observe and assist a teacher in an ESL school setting for a minimum total of 100 clock hours. The requirements for this course may also be met through certification of three months of teaching experience with ESL students. Only those who have verification by a principal or other administrators of three months of teaching ESL students prior to entering the program may take this for no credit. To be taken at the end of the five-course ESL course sequence.

3601 Introduction to Linguistics (3 sh)

Introduction to the basic principles of linguistics, the study of human language. Origins of language; what it means to know a language; comparisons of the difficulty levels of different languages; how children acquire language and common threads that may connect languages will be explored.

3602 Sociolinguistics and Cross Cultural Differences (4 sh)

Exploration of various aspects of the relationship between language and society. Culture, sex differences, communities, dialects, and speech will be examined.

3603 Theoretical Foundations of Teaching ESL and Foreign Languages (3 sh)

Philosophical and theoretical considerations for teaching a second language. An explanation of theories as well as comparisons among the different theories of teaching a second language will be explored. The student will build a personal framework for teaching a second language. Kindergarten through high school student populations will be the focus of attention including design and sequencing of ESL courses.

3604 Assessment of ESL and Foreign Language Students (4 sh)

Assessment techniques of ESL students. Different types of assessment instruments, the theoretical viewpoints of these instruments, and testing procedures in general will be discussed. Assessment of all levels of proficiency and grade levels will be considered. Co-requisite: EDUC 3540.

3605 Method and Materials for Teaching ESL and Foreign Languages (4 sh)

Introduction to the various methods of teaching a second language in K-12 based on the philosophies and theories that were presented in 3603. Strategies used when working with ESL or second language students and exposure to the issues of multicultural diversity and socioeconomic diversity.

3606 Foundations of Bilingual Education (3 sh)

This course provides the current research and theories forming the foundation of bilingual education. It examines and reviews the historical, legal, philosophical, theoretical, pedagogical and political issues concerning bilingual education programs in the United States. It also analyzes the linguistic, psychological, social, and cultural underpinnings of current practices in the field and cultivates multicultural perspectives.

3607 Methods and Materials for Teaching Bilingual Students (3 sh)

This course introduces various models, philosophies and theoretical underpinnings of bilingual education for language minority students. It provides and prepares the participants with the theoretical basis, methods and techniques needed for effective teaching in bilingual/bicultural classrooms.

3650 Coaching for Transformation (4 sh)

This course is designed to provide Teacher Leader candidates an introduction to the role of instructional coaches as agents of change for teaching and learning. Candidates will examine various coaching models and the role of the teacher leader in collaboration with the building principal in establishing a school culture that focuses on student learning. Coaching strategies and competencies will allow the teacher leader candidate to develop the necessary skills to provide professional development to meet teaching and learning needs of the school.

3910 Topics in Education (1-4 sh)

Intensive examination of a selected theme.

3915 Academic Odyssey to Greece: Applying Classical Ideals to the Arts and Education (1-4 sh)

The Academic Odyssey to Greece is a short term study abroad program offered through the school of education to all students at North Park University. It focuses on comparing classical Greek ideals to current day themes and enables students to learn how the birthplace of democracy shaped the way we see and experience the world and ourselves. By incorporating both scholarly/didactic approaches to learning with experiential approaches (excursions, field trips), this program investigates a wide spectrum of disciplines in the arts and sciences and provides students with the opportunity

to develop an appreciation and understanding of the Greek people and country within a lived experience.

3930 Parent Child Community Relationships (2 sh)

Exploration of the role families and community services play in the education of young children. Teacher candidates will identify social, economic and cultural trends that impact families of young children and will develop strategies to communicate with families to disseminate information regarding school and community services.

4000 Departmental Honors in Education (1-4 sh)

A project in a school setting emanating from a proposal that has been approved by the education department.

4100 Student Teaching Early Childhood (4 sh)

Supervised observation and teaching in an appropriate educational facility. Early Childhood teacher candidates must complete five weeks each in 4100 and 4110. The candidate must meet the required grade and GPA requirement, pass the state content-area test, and be fully admitted into the Teacher Education program prior to beginning student teaching. Prerequisite: EDUC 3360, 3520;

4110 Student Teaching Elementary Education (4, 6 or 8 sh)

Supervised observation and teaching in the elementary school. Early Childhood teacher candidates must also complete five weeks in grades 1-3 (4sh). Elementary Education teacher candidates must complete ten weeks in grades 2-4 (8 sh). K-12 majors must complete eight weeks in grades 1-8 (6 sh) and eight weeks in EDUC 4120, grades 6-12 (6 sh). The candidate must meet the required grade and GPA requirement, pass the state content-area test, and be fully admitted into the Teacher Education program prior to beginning student teaching. Prerequisite: (Early Childhood) EDUC 3180, 3520; (Elementary) EDUC 3345, 3520; (K-12) EDUC 3407, 3520. Co-requisite: EDUC-4600.

4120 Student Teaching Secondary (6 or 8 sh)

Supervised observation and teaching in the secondary school. Secondary Education teacher candidates must complete 10 weeks (8 sh) in grades 6-12. K-12 teacher candidates must complete eight weeks in EDUC 4110, grades 1-8 (6 sh) and eight weeks in EDUC 4120, grades 6-12 (6 sh). The candidate must meet the required grade and GPA requirement, pass the state content-area test, and be fully admitted into the Teacher Education program prior to beginning student teaching. Prerequisite: (Secondary and K-12) EDUC-3470, 3520. Co-requisite: EDUC 4600.

4130 Student Teaching (8 sh)

Supervised observation and teaching in a school and grade level appropriate to the program and licensure endorsement sought by the candidate. The candidates will complete one 60 day (approximately 12 week) student teaching clinical experience. The candidate must meet the required grade and GPA requirement, pass the state content-area test, and be fully admitted into the Teacher Education Program prior to beginning student teaching. Prerequisite: EDUC 3520; Additionally, EDUC 3360 for Early Childhood candidates; EDUC 3345 for Elementary candidates; EDUC 3407 for Secondary and K-12 candidates

4600 Educational Philosophy Capstone: Seminar for Student Teachers (2 or 4 sh)

As the capstone course in the teacher education program, this course enables students to create personal syntheses of their educational experiences as university students and as future educators. Students will develop their own philosophy of teaching. Students will assemble professional portfolios and prepare for

teacher certification. Part of Professional Term D. Co-requisite: EDUC 4100, 4110, or 4120.

4970 Internship in Education (1-4 sh)

An assignment outside a school setting in a business or not-for-profit institution in which education is the primary goal. Please refer to the Internship section of the catalog for internship requirements and guidelines.

English (ENG)

Arnesen (chair), Acosta, Dooley, Odelius

The Department of English seeks to prepare students for meaningful lives of significance and service through the study of literature and creative writing. Students consider literary representation in a wide range of cultural, historical, and interpretive contexts. In so doing students confront fundamental questions of meaning, and acquire skills of persuasion, analysis, and interpretation, as well as the virtues of imaginative and reflective thinking and a heightened awareness of self and other.

Major requirements for the B.A. in English

Required semester hours

36 sh

Prerequisites and supporting courses

The general education first-year dialogue course or its equivalent.

Required core courses

Literature: 2010; 2020; 2030; 2040; one from Group A: ENG 3090, 3170, 3190; one from Group B: ENG 3240, 3250; one from Group C: ENG 3260, 3270, 3280; 4010; and an elective course from the 3000 level.

Creative Writing: either 2010 or 2020; 2030; 2040; 2050; three courses from 3320, 3350, 3360, 3390; 4020; and an elective literature course from the 3000 level.

Notes and Restrictions

Students who pursue a double major in Communication Arts may double-count no more than 8 hours of cross-listed courses.

In support of their study of literature and/or writing, English majors are required to complete at least one course in each of the following Humanities departments: Art, History, and Philosophy. Students are encouraged to consult their advisor for suggestions about particular courses. Students with a double major or those obtaining a secondary teaching certificate are exempt from the Humanities core requirements.

Additional requirements:

All students take a comprehensive examination and submit a final project in the spring semester prior to graduation. See the department faculty for more information on these requirements.

Honors

For Departmental Honors in English, the applicant must submit a proposal for study by the second semester of her or his third year (or equivalent). Work commences at the beginning of the fourth year. Students shall enroll in ENG 4000 for eight semester hours: four in the first semester of the fourth year, and four in the second semester of the fourth year. Only four semester hours may be included in the total course requirements for the major. For general Departmental Honors requirements and a course description of ENG 4000, see the appropriate sections of this catalog.

Minor requirements in English

Required semester hours

20 sh in courses numbered 2000 or 3000 ranges

Required core courses

The general education requirement in first-year dialogue or its equivalent.

Electives

Any English courses in the 2000 or 3000 ranges totaling 20 sh.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1750 **Studies In Literature (2 sh)** GE

Reading and analysis of the major forms of literary expression. This course is designed to introduce students to the impact of literature on culture, and introduces methods of critical reading as applied to significant texts of world literature of various historical periods. Some sections may be topically focused on a subject pertaining to one of North Park's distinctive strengths (Christian, urban, or inter-national/multicultural); such sections are designated in the schedule of classes.

2010 **British Literature I (4 sh)** GE

A survey of British literature from Beowulf to Puritan period. Individual works will be studied in relation to literary traditions, cultural contexts, methodology and literary theory.

2020 **British Literature II (4 sh)** GE

A survey of British literature from the Restoration of Charles II to the modern period. Individual works will be studied in relation to literary traditions, cultural contexts, methodology and literary theory.

2030 **American Literature (4 sh)** GE

Study of selected North American writers and their works from the seventeenth to the twentieth century. Individual works will be studied in relation to literary traditions, cultural contexts, methodology and literary theory.

2040 **World Literature in English (4 sh)**

Study of selected writers from various nations outside the United States and the United Kingdom. Individual works will be studied in relation to literary traditions, cultural contexts, methodology and literary theory.

2050 **Introduction to Creative Writing (4 sh)** GE

The study and practice of the major forms of creative writing. The course will be taught as a seminar, emphasizing the study of model texts and the development of students' work.

3090 **Shakespeare (4 sh)**

A study of Shakespearean drama, including selected comedies, tragedies, and romances. Cross-listed with COMM 3090.

3170 **English Romanticism (4 sh)**

Intensive study of selected writers and works of English Romanticism in light of their cultural contexts. Prerequisite: ENG 2020.

3190 **Victorian England (4 sh)**

Intensive study of selected writers and works of Victorian England in light of their cultural contexts. Prerequisite: ENG 2020.

3240 **Modern Literature (4 sh)**

A study of poetry, fiction, and drama from 1900 to 1950 with emphasis on innovative styles and techniques. Prerequisite: ENG 2020, 2030, or 2040.

3250 **Postmodern Literature (4 sh)**

A study of literary genres and theory from 1950 to the present with emphasis on fiction. Prerequisite: ENG 2030 or 2040.

3260 Postcolonial Literature (4 sh)

Selected readings in postcolonial literature and theory emphasizing cultural contexts. Prerequisite: ENG 2020 or 2040.

3270 Gender and Literature (4 sh)

Selected readings in literature and theory that addresses gender issues. Prerequisite: ENG 2010, 2020. You must also take one of the following: ENG 2030 or 2040.

3280 Race and Literature (4 sh)

Selected readings in literature and theory that addresses race issues. Prerequisite: ENG 2010, 2020. You must also take one of the following: ENG 2030 or 2040.

3320 Dramatic Writing (4 sh)

The study and practice of dramatic writing for theater, television, and film. Focus on the writer's process, character development, story structure, and the completion of a one-act play or a short screenplay. Offered alternative years. Cross-listed with COMM-3320. Prerequisite: ENG 1750 or COMM 2140.

3340 Grammar and Writing Pedagogy (2 sh)

Intended for English majors in the secondary education sequence, this course will review grammar basics and will study methods of teaching writing. Prerequisite: NPD 1000.

3350 Writing Fiction (4 sh)

The study and practice of fiction writing. The course will be taught as a work-shop, emphasizing development of students' work.

3360 Writing Poetry (4 sh)

The study and practice of poetry writing. The course will be taught as a workshop, emphasizing development of students' poetic form and technique.

3390 Writing Creative Non-Fiction (4 sh) GE

The study and practice of creative non-fiction writing. The course will be taught as a workshop, emphasizing development of students' work.

3910 Topics in English (4 sh)

Intensive study of selected literary topics of interest to students and faculty, for example: Christianity and the Novel, Latina Literature, Film and Fiction, and others.

4000 Departmental Honors in English (4 sh)

Honors independent study in English.

4010 Senior Seminar in English (4 sh)

Concentrated study in areas of literature of special interest to students and faculty, intended as a capstone course for the major. (Seminars that may be offered include: Asian-American Literature; Central American Writers; Christianity, Literature and Culture; Film and Literature; The Renaissance Epic; The Rise of the Novel; Russian Writers.) Prerequisite: Two English Courses in 3000 level.

4020 Senior Seminar in Creative Writing (4 sh)

Concentrated study in areas of literature and creative writing of special interest to students and faculty, intended as a capstone course majors who have selected the writing emphasis. Prerequisite: Two English Courses in 3000 level.

4910 Independent Study in English (2-4 sh)

Advanced level of study of topics not covered in the regular English department curriculum. Prerequisite: Completion of at least 20 hours in the English department.

4970 Internship in English (4 sh)

Please refer to the appropriate section in the catalog for internship requirements and guidelines.

English as a Second Language (ESL)

The English as a Second Language coursework provides international students a fundamental grounding in spoken and written English to prepare them for the demands of mainstream academic coursework. Students will also be helped in their understanding of American culture.

Notes and restrictions

Open only to students for whom English is a second language. Three levels are offered: low-intermediate, high-intermediate, and advanced. Placement is by testing and/or departmental recommendation. Previous study of English is assumed. A total of 8 semester hours is applicable towards graduation and fulfills the foreign language requirement.

0800 Speaking/Listening (0 sh)

0810 Reading/Vocabulary (0 sh)

0820 American Culture (0 sh)

0850 Am Studies Seminars (0 sh)

Co-requisite: ESL 0830, 0840 (required).

0900 Low-Intermediate Speaking and Listening (4 sh)

Provides students with intensive practice in speaking and understanding American English. Particular attention is given to developing fluency, refining language skills, and building vocabulary. Recommended TOEFL score 133-153 on the computer-based version or 450-475 on the paper-and-pencil version. Co-requisite: ESL 0910, 0920.

0910 Low-Intermediate Reading and Writing (4 sh)

Provides students with intensive practice in reading and writing academic English. Particular attention is given to extensive and intensive reading, the composing process, and proofreading. Co-requisite: ESL 0900, 0920.

0920 Low-Intermediate Structure (4 sh)

Provides students with a review of basic sentence patterns and verb tenses. Attention will be given to parts of speech and written production. Co-requisite: ESL 0900, 0910.

0930 High-Intermediate Speaking and Listening (4 sh)

Provides students with intensive practice in speaking and understanding American English. Particular attention is given to discussions, projects, refining language skills, and building vocabulary. Recommended TOEFL score 153-173 on the computer-based version or 475-500 on the paper-and-pencil version. Co-requisite: ESL 0940, 0950.

0940 High-Intermediate Reading and Writing (4 sh)

Provides students with intensive practice in reading and writing academic English. Attention is given to more difficult extensive and intensive reading. Different types of compositions (e.g., narrative, descriptive) are examined, and proofreading skills are honed. Co-requisite: ESL 0930, 0950.

0950 High-Intermediate Structure (4 sh)

Provides students with a review of compound tenses, the passive voice, and more complex structures. Co-requisite: ESL 0930, 0940.

0990 Academic and Cross-Cultural Transition (0 sh)

Provides students with an introduction to life in an American academic setting. Cultural, cross-cultural, and academic themes

will be discussed and guest lecturers will be invited. Co-requisite: Enrollment in any ESL class.

1000 English Language Clinic (1-4 sh)

Provides students with an opportunity to receive additional, personalized attention in English as needed. Co-requisite: ESL 0960, 0970, or 0980.

1010 Advanced Speaking and Listening (4 sh)

Provides students with intensive practice in topic control and participation in various discussion formats (e.g., debates, presentations). Students become familiar with lecture and seminar-styles of teaching. Recommended TOEFL score 173 or higher on the computer-based version or 500 or higher on the paper-and-pencil version. Co-requisite: ESL 1020, 1030.

1020 Advanced Reading and Writing (4 sh)

Provides students with intensive practice in reading and writing academic English. Students read short stories and essays. Different types of compositions (e.g., narrative, descriptive) are examined, and the students are exposed to different formats of research projects. Co-requisite: ESL 1010, 1030.

1030 Advanced Structure (4 sh)

Provides students with a comprehensive review of complex sentence structure. Proofreading forms an important part of the course. Co-requisite: ESL 1010, 1020.

Exercise and Sport (EXS)

Potteiger (chair), Anderson, Born, Hjelm, Lundgren, Quinn

The mission of the Department of Exercise and Sport is to develop well-educated, competent, reflective and respectful leaders in the fields of human movement and health dedicated to serving diverse populations and committed to lifelong learning. Its programs seek to prepare leaders in education, health, athletics, and recreation by developing a thorough understanding of that body of knowledge related to human movement and its scientific foundations. The department offers three majors: physical education, exercise science, and athletic training.

Physical Education Major:

The Physical Education curriculum is designed to prepare students for teaching careers. Students may qualify for K-12 or secondary teaching certificates. Students who do not seek teacher certification may concentrate on a non-school curriculum.

Major requirements for the B.A. degree in Physical Education

Required semester hours

36 sh

Prerequisites and supporting courses

BIOL 1250; STAT 1490

Required core courses

EXS 1500, 1600, 2700, 3010, 3130 or 3140, 3160, 3700

Electives

Any EXS courses or others approved by advisor (10 sh)

Major requirements for the B.S. in Physical Education

Required semester hours

41 sh

Prerequisites and supporting courses

BIOL 1250; STAT 1490

Required core courses

EXS 1500, 1600, 2700, 2800, 3000, 3010, 3130, 3140, 3160, 3700, and one course from EXS 4970, EDUC 4110, EDUC 4120

Electives

Any EXS courses

Notes and restrictions

Recommended Supporting Courses: EXS 2500, 3190;

Students seeking teaching certification must complete the education sequence.

Exercise Science Major:

The Exercise Science curriculum prepares students for careers as physical fitness specialists. Graduates are prepared to enter the field as personal trainers, group fitness leaders, and fitness consultants, as well as do graduate work in exercise-related fields.

Major requirements for the B.S. in Exercise Science

Required semester hours

42 sh

Prerequisites and supporting courses

BIOL 1250; STAT 1490

Required core courses

EXS 1400, 1600, 2500, 3010, 3160, 3180, 3190, 3500, 3700, 3800, 4010

Electives

EXS 1610, 2950, 4910, 4970, other courses as approved by advisor (4 sh)

Notes and restrictions

A comprehensive exam is required. Students interested in pursuing graduate work should take BIOL 2930. Courses in Business, Marketing and Communications are recommended.

Honors

No requirements beyond the University guidelines

Athletic Training Educational Program

The Athletic Training Educational Program prepares students to sit for the Board of Certification (BOC) national examination. Successful completion of the BOC examination is required in order for the student to work as an entry-level Certified Athletic Trainer. Students will typically take this exam during their last semester at North Park. The Athletic Training Education Program (ATEP) has a competitive admission process. Entrance into North Park does not guarantee entrance into the Athletic Training Educational Program (ATEP). Application to the ATEP is made during the spring semester of the student's first year. Interested students will receive an application packet during the first week of EXS 1610. Students will be informed of their status in early April. The entire application packet is maintained in the program director's office and can be accessed upon request at any time. Transfer students should contact the Athletic Training Program Director. If accepted into the formal ATEP, transfer students will have to successfully complete all 52 required credits for the major at North Park.

Application requirements for Athletic Training Educational Program include:

- A completed application form
- Verification by an appropriate health care provider that the student is in good health and has had necessary immunizations
- Verification that student can meet technical standards
- Two letters of recommendation
- A passing score on the ATEP entrance examination
- The completion of 50 observation hours in one of the NPU athletic training rooms
- Completed selected clinical proficiencies
- A transcript showing the successful completion of the following courses taken at North Park with a GPA of 2.50 or better and a 2.67 (B-) or better in EXS 1610:

1. EXS 1000 Personal Health
2. EXS 1600 First Aid and CPR
3. EXS 1610 Introduction to Athletic Training
4. BIOL 1250 Introduction to Human Anatomy

- A transcript from North Park showing a cumulative GPA of 2.50 or better
- Completion of a formal interview with the selection committee

Notes:

- Deficiencies in one area can be offset by exceptional marks in another
- Fulfilling these requirements does not guarantee entrance into the ATEP since an 8:1 student to Certified Athletic Trainer ratio must be maintained to satisfy accreditation requirements

Major requirements for the B.S. degree in Athletic Training**Required semester hours**

52 sh

Prerequisites and supporting courses

BIOL 1250, EXS 1000, 1600, 1610 (10 sh)

Required core courses

BIOL 2930, EXS 2100, 2110, 2300, 2350, 2400, , 2950, 3010, 3070, 3100, 3110, 3160, 3180, 3300, 3400, 4100, 4110, 4300, 4400 (50 sh)

Notes and restrictions

See admissions policy to enter major; Students must supply their own transportation for off-campus clinical rotations; Additional expense for athletic training attire and/or equipment. A clinical experience with North Park football or an acceptable equipment intensive sport at another affiliated site is required for each Athletic Training student. This may necessitate fall athletes staying for an extra semester to fulfill the clinical portion of the curriculum. A criminal background check may be required.; Student must adhere to the Athletic Training Policies and Procedures Manual kept on file in the Athletic Training Room.; Students may be required to be a student member of the NATA.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1000 Personal Health (2 sh) GE

A study of physical and psychological well-being, including exercise and nutrition.

1400 Foundations of Exercise Science (4 sh)

An overview of health/fitness professions and content areas including exercise physiology, biomechanics, and exercise programming. Career paths and professional ethics are also presented. This also offers the basic knowledge and skills required to work as a Personal Trainer.

1500 Foundations of Exercise and Sport (4 sh)

An introductory course giving an overview of physical education including history and principles and a study of organization, administration and assessment in physical education exercise science, and sport. Includes the development of a philosophy of physical education.

1600 First Aid/CPR (2 sh)

Study of immediate care of the injured or ill. Based on American Red Cross standards. Certification in First Aid, CPR, and AED available.

1610 Introduction to Athletic Training (2 sh)

Introduction to the care and rehabilitation of athletic injuries with emphasis on current methods of athletic training.

2100 Practicum I (2 sh)

A course designed to formally structure a minimum of 150 clock hours of clinical experience 150 (time by arrangement) 150 specific to the first semester of enrollment in the Athletic Training Educational Program (ATEP). Includes observation, fieldwork and practical experience in the North Park University athletic training room. All will be under the direct supervision of a Certified Athletic Trainer (ATC). Emphasis is athletic training room operations and procedures. Student must have formal acceptance into the ATEP. Prerequisite: EXS 1000, 1600, 1610, BIOL 1250. Co-requisite: EXS 2300, 2350.

2110 Practicum II (2 sh)

A course designed to formally structure a minimum of 150 clock hours of clinical experience 150 (time by arrangement) 150 specific to the second semester of enrollment in the Athletic Training Educational Program (ATEP). Includes observation, fieldwork and practical experience in the North Park University athletic training room. All will be under the direct supervision of a Certified Athletic Trainer (ATC). Emphasis is on lower extremity injury evaluation and lower body taping/splinting. Prerequisite: EXS 2100, 2300, 2350. Co-requisite EXS-2400.

2210 Coaching Basketball (2 sh)

The theory, methods, and techniques of coaching basketball are taught including conditioning, selecting personnel, drills, scouting, rules, and team strategy.

2220 Coaching Track and Field (2 sh)

The theory, methods, and techniques of coaching track and field are taught, including conditioning, coaching the specific events, rules, and meet organization.

2230 Coaching Football (2 sh)

The theory, methods, and techniques of coaching football are taught, including preseason conditioning, selecting personnel, drills, scouting, rules, and strategy.

2250 Coaching Baseball and Softball (2 sh)

The theory, methods, and techniques of coaching baseball and softball are taught with emphasis on preseason conditioning, individual skills, team strategy, and rules.

2260 Coaching Volleyball (2 sh)

The theory, methods, and techniques of coaching volleyball are taught with emphasis on preseason conditioning, individual skills, team strategy, and rules.

2270 Coaching Soccer (2 sh)

The theory, methods and techniques of coaching soccer are taught with emphasis on pre-season conditioning, individual skills, team strategy, and rules.

2290 Coaching Principles and Administration (2 sh)

This course will focus on examining theoretical and applied concepts of sports coaching, including administrative coaching duties. Emphasis will be placed on coaching at a secondary or college level. The goal of the class will be for students to improve their own coaching practices through research, reflection and observation.

2300 Orthopedic Assessment I (4 sh)

A comprehensive study of the lower extremities including the foot, ankle, knee, thigh, hip, pelvis, and spine. Injuries will be discussed from the following viewpoints: 1) prevention, 2) etiology and

mechanism of injury, 3) pathology, 4) recognition and evaluation techniques, and 5) treatment. Student must have formal acceptance into ATEP. Prerequisite: EXS 1000, 1600, 1610, BIOL 1250. Co-requisite: EXS 2100, 2350.

2350 Prevention and Care of Athletic Injuries (2 sh)

A study of preventative measures and acute care techniques used in athletic training. Concepts, applications, and procedures used in taping, equipment fitting, and splinting will be emphasized. This course also includes environmental conditions and strength conditioning concepts. Student must have formal acceptance into ATEP. Prerequisite: EXS 1010, 1600, 1610, BIOL 1250. Co-requisite: EXS 2100, 2300.

2400 Orthopedic Assessment II (4 sh)

A comprehensive study of the upper extremities including the shoulder, upper arm, elbow, forearm, wrist, hand, thumb, fingers, spine, thorax, abdomen, head, and face. This course also includes general medical conditions, skin infections, and common viruses. Injuries will be discussed from the following viewpoints: 1) prevention, 2) etiology and mechanism of injury, 3) pathology, 4) recognition and evaluation techniques, and 5) treatment. Prerequisite: EXS 2100, 2300. Co-requisite: EXS 2110.

2500 Health and Behavior (4 sh) GE

Study of the dimensions of health and selected health topics with emphasis on how one's behavior affects health. Prerequisite: EXS 1000.

2700 Movement Experiences for Elementary School Age Children (4 sh)

Introduction to designing physical education programs for regular and special populations in elementary schools. Emphasis is on application of curricular models to programming of physical education activities in order to accomplish desired outcomes. A focus on tumbling, appropriate apparatus stunts and rhythmic activities based upon movement analysis and an exploratory approach.

2800 Physical Education Curriculum: 6-12 (4 sh)

Introduction to designing physical education programs for regular and special populations in the secondary schools. Emphasis is on application of curricular models to programming of physical education activities in order to accomplish desired outcomes within an established philosophical framework.

2950 Sport Psychology (2 sh)

Develop an understanding of the principles of motivation, the importance of leadership and communication skills, and the different psychological skills athletes can use to improve performance.

3000 Methods of Teaching Aquatic Skills (2 sh)

Instruction and practice for teaching basic swimming skills and American Red Cross water safety courses. Emphasis on the various educational methods and approaches applicable to swimming and water safety instruction, as well as on health and safety precautions and guidelines. American Red Cross certification as Water Safety Instructor is available. Prerequisite: EXS 1600, 2800.

3010 Biomechanics (4 sh)

Systematic analysis of human movement. The integrated study of applied anatomy and applied mechanics to the analysis of movement. Movement terminology as well as muscular system function in sport will be studied. Prerequisite: BIOL 1250.

3070 Introduction to Evidence Based Practice (2 sh)

This course is designed to introduce allied health students to concepts related to evidence-based practice. Specifically, students

will develop the skills necessary to identify relevant research and critically appraise the literature as to its quality and applicability to clinical practice. Students will gain an understanding of the research process as well as recognize the importance of assessing clinical outcomes.

3100 Practicum III (2 sh)

A course designed to formally structure a minimum of 150 clock hours of clinical experience 150 (time by arrangement) 150 specific to the third semester of enrollment in the Athletic Training Educational Program (ATEP). Includes observation, field-work and practical experience in the North Park University athletic training room. All will be under the direct supervision of a Certified Athletic Trainer (ATC). Emphasis is on upper extremity injury evaluation and upper extremity taping/splinting. Prerequisite: EXS 2110, 2400. Co-requisite: EXS 3300 (required).

3110 Practicum IV (2 sh)

A course designed to formally structure a minimum of 150 hours of clinical experience (time by arrangement)- specific to the fourth semester of enrollment in the Athletic Training Educational Program (ATEP). Includes observation, fieldwork and practical experience in an affiliate sports medicine clinic. All will be under the direct supervision of a Certified Athletic Trainer (ATC) and/or Physical Therapist (PT). Emphasis is on therapeutic exercise and general medical conditions. Prerequisite: EXS 3100, 3300. Co-requisite: EXS 3400 (required).

3120 Principles and Practice of Physical Education for Children and Adolescents (2 sh)

Study of child growth and development, motor learning, and movement experiences, including teaching of elementary and middle school games, as well as evaluation procedures with regular and special education students. Cross-listed with EDUC 3120. Co-requisite: EDUC 3520.

3130 Individual and Dual Sports (4 sh)

Instruction and practice for teaching basic motor skills related to individual and dual activities to regular and special populations with specific study of rules and equipment required. Prerequisite: EXS 1500, 2800, 3010, or EDUC 2140.

3140 Team Sports (4 sh)

Instruction and practice for teaching basic motor skills related to team sports to regular and special populations and specific study of the rules and equipment required. Prerequisite: EXS 1500, 2800, 3010, or EDUC 2140.

3160 Exercise Physiology (4 sh) GE

Study of human physiology with emphasis on the acute and chronic effects of exercise upon the muscular and cardiorespiratory systems. Lecture and lab required. Cross-listed with BIOL 3160. Prerequisite: BIOL 1250.

3180 Nutrition (2 sh)

This course will introduce students to an evidence-based review of the direct effects of diet on health and physical activity. Specific topics addressed include nutrient metabolism, body composition management, hydration, health effects, supplement and food ethics.

3190 Health Promotion (4 sh)

Study of health issues as they relate to fitness professionals. Topics of study include weight management, stress management, and substance abuse. Counseling skills, screening instruments, and referral procedures will also be covered. Co-requisite or Prerequisite: EXS 2500.

3300 Therapeutic Exercise (4 sh)

A study of the theory and application of exercise rehabilitation techniques on athletic injuries. Emphasis will be placed on scientific/physiological rationales, selection criteria, indications/contraindications, and clinical application. Prerequisite: EXS 2110, 2400. Co-requisite: EXS 3100 (required).

3400 Therapeutic Modalities (4 sh)

Classroom and clinical experience stressing the proper use of therapeutic modalities in the rehabilitation of athletic injuries. Indications and contraindications are stressed with laser/light therapy, ultrasound, electrical muscle stimulation, cryotherapy, thermotherapy, diathermy, massage, and cervical, lumbar traction. Prerequisite: EXS 2300, 2400.

3500 Health Appraisal and Fitness Testing (4 sh)

Knowledge and skills necessary to obtain health appraisals and conduct physical fitness assessments for diverse populations. Interpretation of results and application to fitness activities is also emphasized. Co-requisite or Prerequisite: 3160.

3700 Exercise Programming and Leadership (4 sh)

Class planning and exercise prescription based on test and appraisal results. Teaching group exercise classes and use of exercise equipment is also emphasized. Co-requisite or Prerequisite: EXS 3010, 3160.

3800 Conditioning for Health and Performance (2 sh)

Classroom education and practical experience using advanced techniques of conditioning. Includes theory and practice of a variety of conditioning models, exercises, and equipment. Prerequisite: EXS 3700.

3910 Topics in Exercise and Sport (1-4 sh)

Concentrated study in areas of special interest to students and faculty. Consent of Instructor required. Prerequisite: Two Exercise and Sport Courses.

4000 Departmental Honors in Exercise and Sport (1-4 sh)

Consent of instructor required.

4010 Seminar in Exercise Science (4 sh)

This course examines principles and practices of program organization and administration, including equipment design and purchase, marketing and promotion strategies, and legal issues. Guidelines of professional organizations and government agencies will be studied, compared, and applied to diverse populations. Co-requisite or Prerequisite: EXS 3700.

4100 Practicum V (2 sh)

A course designed to formally structure a minimum of 150 hours of clinical experience (time by arrangement)- specific to the fifth semester of enrollment in the Athletic Training Educational Program (ATEP). Includes observation, field-work and practical experience in either an affiliate college/university athletic training room or in an affiliate high school athletic training room. All will be under the direct supervision of a Certified Athletic Trainer (ATC). Emphasis is on the integration of therapeutic modalities. Prerequisite: EXS 3110, 3400. Co-requisite: EXS 4300.

4110 Practicum VI (2 sh)

A course designed to formally structure a minimum of 150 hours of clinical experience (time by arrangement)- specific to the sixth semester of enrollment in the Athletic Training Educational Program (ATEP). Includes observation, fieldwork and practical experience in either an affiliate college/university athletic training room or in an affiliate high school athletic training room. All will be under the

direct supervision of a Certified Athletic Trainer (ATC). Emphasis will be on integration of therapeutic exercise and modalities. Prerequisite: EXS 4100, 4300. Co-requisite: EXS 4400.

4300 Athletic Training Administration (2 sh)

Designed to give an understanding of the planning, coordinating, and supervision of all administrative components of an athletic training program in a clinical, high school, collegiate, professional, or industrial setting. Emphasis will be placed on facility organization and design, budgeting, legal liability, day-to-day scheduling, personnel management, and record keeping. Prerequisite: EXS 2400, 3110. Co-requisite: EXS 4100.

4400 Senior Seminar (2 sh)

This is the last course in the athletic training sequence. The focus is on pharmacology, general medical conditions, preparation for the NATA certification exam, and professional development. Prerequisite: EXS 4100, 4300. Co-requisite: EXS 4110.

4910 Independent Study in Exercise and Sport (1-4 sh)

Consent of instructor and chairperson of division required.

4970 Internship in Exercise and Sport (1-4 sh)

Please refer to internship requirements and guidelines in another section of this catalog. Prerequisite: Completion of at least 30 hours in the Exercise and Sport department.

French (FREN)

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1010 **Introduction to French I (4 sh)** GE

Introduction to contemporary French language and French and Francophone cultures through real-world learning materials relating to everyday events. Students will learn to identify, describe, and characterize people, object, places, and events; give information and instructions; issue simple commands and requests. Taught in French. Notez bien: No credit for FREN 1010 will be granted to students who have had more than two years of high school French within the last five years.

1020 **Introduction to French II (4 sh)** GE

Companion course to FREN 1010. Students will learn to speak and write in French about past and future events; tell a story (narrate and describe using the *passé composé* and the *imparfait*); and promise, predict, and propose simple hypotheses and conjectures. Taught in French. Prerequisite: FREN 1010.

2010 **Intermediate French I (4 sh)**

Intermediate course for students striving for fluency. Students will develop active vocabulary, reinforce mastery of basic grammar, deal with more complex structures (verbal phrases, subordinate clauses), and use some patterns of indirect speech (e.g., repeating or relaying messages, giving reports, summarizing). Taught in French. Prerequisite: FREN 1020.

2020 **Intermediate French II (4 sh)**

Companion course to FREN 2010. Students will solidify and further expand their listening and reading comprehension, and will produce a more sophisticated level of spoken and written discourse emphasizing subjective expression. Concepts covered: issuing indirect commands and requests; giving opinions; making proposals; building arguments; defending and critiquing ideas. Taught in French. Prerequisite: FREN 2010.

2040 **French Phonetics and Pronunciation (2 sh)**

Phonetics and pronunciation is a practical course that aims to help majors improve their pronunciation and learn how to teach pronunciation to others. It also includes the theoretical treatment of phonetics: specifically articulatory phonetics, phonology, linguistics structures, and intonation that will be language specific. Prerequisite: FREN 2020.

3010 **Literature and Culture of Pre-Revolutionary France (4 sh)**

A survey of early modern culture preceding the French Revolution. The wars of religion and the movement from feudalism to nation-state will be examined through texts representing medieval, Renaissance, Grand Siècle, and Enlightenment values and traditions. Taught in French. Prerequisite: FREN 2020.

3020 **Literature and Culture of Post-Revolutionary France (4 sh)**

A survey of the French Revolution and its aftermath. The Declaration of the Rights of Man and of the Citizen, which inspired the American Civil Rights Movement, will be a focal point of the course. the Hexagon's movement from absolute monarchy to republic to world power will be examined through texts representing Romantic and Realist traditions. Taught in French. Prerequisite: FREN 2020.

3150 **Advanced French Grammar and Composition (4 sh)**

Perpetual review and practice of spoken and written French in preparation for advanced-level content courses. Students will become familiar with idioms as well as literary language, and will analyze excerpts from contemporary literature and films. Class activities will engage students in active learning through discussion, role play, problem-solving, and presentations. Taught in French. Prerequisite: FREN 2020 or 3010.

3910 **Topics in French (4 sh)**

Guided reading and discussion of a selected topic in French or Francophone literature or culture. Topics change each semester, so the course may be taken again and again. Reading comprehension tests, presentations, and essays should be expected. Taught in French. Prerequisite: FREN 3150 or professor's permission.

3920 **Francophone Literature (4 sh)**

Exploration of major regions of the Francophone world: Africa and the Caribbean; their culture, political, economic, and social problems, religion, etc. Quebec may be included if taught in French. Prerequisite: FREN 3010.

4000 **Senior Honors Thesis (4 sh)**

An optional research project of 25-30 pages in French for senior honors students majoring in French. Topics will be chosen by the individual student and approved by the Chair of the French and Francophone Studies Department. The project will be completed in multiple drafts, and the final draft will be presented (in French) to peers and faculty. Taught in French. Prerequisite: Honors status and professor's permission.

4010 **Seminar: Great Works/Great Writers (4 sh)**

Intensive study of the major literary works of one prominent writer in the French literary canon (Montaigne, Montesquieu, Voltaire, Diderot, Seigne, Rousseau, Hugo, Sand, Stendhal, Zola, inter alios). The writer's contribution will be examined in historical context as well as in the context of major literary movements of his/her time. Taught in French. Prerequisite: FREN 3150 or professor's permission.

4901 **Senior Assessment (0 sh)**

A non credit course in which all French majors must register in order to complete their final requirements to graduate: a portfolio, an oral proficiency interview, CLA Exam and written exit questionnaire. Graded on a pass/fail basis.

4910 **Independent Study in French (1-4 sh)**

Advanced independent research. Open to majors in other disciplines with reading knowledge in French. Student must obtain consent of instructor and division chairperson to register for this course. Student must be of fourth-year standing.

4970 **Internship in French (1-4 sh)**

Please refer to the Internship section of the catalog for internship requirements and guidelines.

General Honors (GH)

See the appropriate section for a description of the General Honors program.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement. See the General Education Program section of the catalog for more information.

1050 **Art and Society (6 sh)** GE

This course examines at least one historical period in each of two different cultures. Students will be required to learn the methods for analyzing the artwork of that period and will also develop the historical and social science concepts needed to analyze the society. The course fulfills both the Fine Arts and the Culture and Society general education requirements.

German (GERM)

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1010 **Basic German I (4 sh)** GE

Introduction to the sound and structure of contemporary German through materials relating to everyday events. Equal emphasis on listening, speaking, reading and writing. No credit for GERM 1010 will be granted to students who have more than two years of high school German within the last five years.

1020 **Basic German II (4 sh)** GE

Conversation-oriented grammar and lexical patterns. Reading comprehension skills through primary texts. Writing assignments on German life and culture. Supplemental audio-visual presentations. Prerequisite: GERM 1010.

2010 **Intermediate Conversation (4 sh)**

Systematic practice of conversational techniques to deal with current everyday issues. Review and extension of grammar and lexical patterns. Pronunciation and intonation exercises. Prerequisite: GERM 1020.

2020 **Intermediate Composition (4 sh)**

Theme writing based on current issues in German speaking countries to achieve idiomatic proficiency and fluent everyday style. Syntax of subordination. Prerequisite: GERM 2010.

4910 **Independent Study in German (2-4 sh)**

Advanced level of study for material not offered in the regular curriculum. To be arranged in consultation with the chair of the Department of Modern Languages and the instructor. Prerequisite: GERM 2010 or GERM 2020;

Global Studies (GBLS)

The objective of the Global Studies program is the development of international and intercultural awareness of global issues from an interdisciplinary perspective.

Major requirements for the B.A. in Global Studies

Required semester hours

36 sh

Co-requirement:

Foreign Language Minor

Foreign Study Abroad Experience in which the foreign language is used.

Required core courses

12 sh

GBLS 2130; two courses from the following: BSE 2211, BTS 2700, COMM 2350, CTS 3000, , POGO 2200, 2250, 2300, SOC 1910, WGS 2010

Additional required courses

24 sh

Area Studies (20 sh) Five courses from two area studies, one of which must be related to the foreign language studied. At least one must be non-European. A concentration in a geographical region not listed must be approved by a Global Studies Advisor: Africana Studies, French Studies, Latin American Studies, Middle Eastern Studies and Scandinavian Studies.

Capstone Course (4sh): One capstone course from the following list: BSE 3230, COMM 3910, ENG 3920, POGO 3210, SOC 3310, SOC 3410, SOC 3800, WGS 3100. This course must be chosen from one of the core course disciplines the student studied. Any appropriate 3910 Topics course in the disciplines mentioned could also serve as a capstone course, with the approval of advisors.

Senior Assessment (0sh)

Students will complete a Global Studies journal in which the following entries will be mandatory. The journal must be handed in before graduation.

- Weekly (2-3) entries regarding a service learning, volunteer, or internship experience that requires hands-on exposure in a cross-cultural context. (Could be a part of their foreign study program). Students will seek approval and guidance of the GLBS advisor for such experience. Center directors will also be useful resources.
- Two entries of a minimum of 250 words of analytical response to at least two presentations on topics of Global and International themes every semester.
- A final response to a series of reflective questions
 1. What is your next step in the development or use of this major?
 2. What were your goals upon initiating this program? -what goals have you realized, and what experiences significant?
 3. Which goals have not been reached, and why not?
 4. What, if any, has been the impact of this major on your personal, intellectual, or spiritual development?
 5. Would you recommend this program to another student? Why or why not?

Notes and Restrictions

No more than 12 hours in one discipline and no more than 8 hours can double count. At least 4 courses must be at the 3000 level. All majors must complete the co-requisite of a minor in a foreign language and must participate in a foreign study experience in which that language is used (a minimum of four weeks).

A final paper is required as part of the capstone course in which an issue is analyzed in the context of the two cultural regions studied. It is to be approximately 25 pages in length, read by the subcommittee of advisors, and presented at a forum attend by other Global Studies majors. Students must identify themselves to the professor and secure their approval.

1000 Pre-Study Abroad Seminar (0 sh)

The course will help prepare students for the experience of living in another culture. Intended for students who have been accepted to study abroad in an upcoming semester, this pre-departure course is designed to make the study abroad experience more successful and meaningful by introducing participants to a variety of themes and issues related to culture- What is culture? How do my home and host cultures differ? What are my cultural values and how do they impact culture shock? On what are intra- and intercultural communication based? How can intercultural learning take place? The course also includes basic orientation and health and safety information for particular study abroad sites and programs.

2130 Between Worlds: Language, Culture and Globalization (4 sh)

In our increasingly global world, many students plan to live and work with people who are from other parts of the world. This course will teach global studies majors and foreign language majors essential concepts in becoming border people, being able to understand and identify with people who live between worlds in the process of globalization. Tutoring recent immigrants to Chicago is an integral part of the course.

3910 Topics in Global Studies (2-4 sh)

An intensive examination of a selected theme.

4901 Senior Assessment (0 sh)

A non credit course in which all Global Studies majors must register in order to complete their final requirements to graduate Capstone thesis, journal and written exit questionnaire. Course is taken on a Pass/Fail basis.

4910 Independent Study in Global Studies (1-4 sh)

A course of independent research that can be applied to the regional study or the capstone requirement with the consent of the Global Studies Advisor.

4970 Internship in Global Studies (2-4 sh)

Students work on a local project that clearly reflects a global/international dimension.

Greek (GRK)

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1010 **Basic Greek I (4 sh)** GE

The grammar and vocabulary of Hellenistic Greek, noting significant variations from classical grammar and syntax. Special emphasis on reading New Testament literature.

1020 **Basic Greek II (4 sh)** GE

The grammar and vocabulary of Hellenistic Greek, noting significant variations from classical grammar and syntax. Special emphasis on reading New Testament literature. Continuation of Greek 1010. Prerequisite: GRK 1010.

Health Sciences (HSC)

The Bachelor of Science in Health Science is designed to advance the learner's critical thinking, communication skills, theoretical knowledge and professional development. The design of the curriculum is to prepare students for career paths in the health sector, including administration, management, and health promotion in education or clinical settings such as schools and community health environments. The Bachelor of Science in Health Science program prepares graduates for non-clinical positions within the healthcare industry and/or leadership and management roles in a professional discipline.

Service Learning is an important part of the program. A senior internship and capstone project will provide students with opportunities to work with community partners and gain experience in the healthcare system.

Learning Objectives:

At the completion of this program, graduates will be able to:

- Discuss the structure and functions of the health care system
- Use critical analysis to respond to health care issues and societal needs
- Utilize evidence-based decision-making in the health care setting
- Establish collaborative relationships with clients and function effectively as part of an interprofessional team
- Evaluates the legal, ethical, political, and policy issues the shape and change health care
- Demonstrates the leadership, professionalism, and cultural sensitivity in the practice of health care
- Demonstrates an understanding of human, fiscal, and materials management in the delivery of health care
- Understand the role of information technology in the changing U.S. health care system

The Bachelor of Science degree in Health Sciences is granted to students who complete the required program of study. These requirements will include supporting life science classes, the health science core, and a specialty track. The degree will be designed to meet the needs of two student populations.

Option One:

Allows students who have completed an Associate Degree in an allied health field from an accredited program to build on their knowledge base and enhance their opportunities for advancement in management and health promotion.

Option Two:

Is available for students who do not have a health profession background but would like to pursue a Bachelor of Health Science degree. As a major, students will blend three areas of emphasis that is comprised of the Health Science Core requirements, health education, and health systems management.

Major requirements for the B.S. in Health Sciences

Health Systems Management Track

Required semester hours

43 sh

Prerequisites and supporting courses

BIOL 1250, 2100 (Physiology of Disease), 2930; CHEM 1021, 1031, STAT 1490

Required core courses

HSC 2100, 2800; NURS 3540, 4240, 4540

Health Systems Management Track

BSE 2110, 2211, 2310, 2610, 3520; HSC 3800, 4010; SBNM 5250, 5510

Notes

Students during their senior year may take a maximum of 3 graduate courses with permission of the Nursing and Health Science Division.

2100 Introduction to the Health Sciences (4 sh)

This course serves as an introduction to the field of health science. The student will develop an understanding of the health care system in the United States and the professions which impact it. The student will be learning how to navigate the health care resources and acquire knowledge of how health care is delivered.

2800 Intro to Epidemiology (2 sh)

Provides skills to apply a population focused approach to identification of health problems. Identifies epidemiological findings to be used as a basis for improving health. Provides the learner with basic epidemiological concepts, statistics, and applications such as descriptive epidemiology and health indicators, to read and interpret epidemiologic studies. Provides the tools to apply practical disease concepts, public health requirements, and epidemiological concepts toward improving public health via programs such as Healthy People initiatives and immunization projects. Prerequisite: STAT 1490.

3800 Regulatory and Oversight Issues in Health Care (2 sh)

The course explores how legal, policy, and political considerations influence legislative enactments and administrative agencies' regulatory policies in the health care arena. The first part of the course will examine policy and political reasons for government intervention at the state and federal level. The second unit will review the manner in which administrative agencies' implement health care statutes. The third unit will address health care enforcement and compliance issues.

4010 Health Science Practicum and Capstone (5 sh)

The Health Science Practicum and Capstone project provides an opportunity for students to gain hands-on experience and to explore career options in their selected health care field. The student will complete the practicum in the healthcare science track of the student's choosing such as leadership and management. The capstone project will be imbedded in this experience. This project will require the student to demonstrate critical analysis of data and development of plan to respond to an issue generated during their practicum experience.

History (HIST)

Rabe (chair), Ayot, Koeller

The study of history is an essential component of one's understanding of God, self, and others. It engages students deeply and actively in their own world through disciplined reflection on the significant persons, events and dynamics which have helped to create it and give it meaning. History gives students both breadth and depth of understanding through comparative study of world civilizations and their development over time. The major in History provides specialized courses in the history of the United States, Europe, Africa, and the Middle East. It provides the tools of critical analysis, evaluation of evidence, and historical argumentation, and examines the methodologies and schools of historical writing. As stewards of public memory, historians have a unique calling to serve the community, the Church, and the world.

Major requirements for the B.A. in History

Required semester hours

36 sh

Required core courses

HIST 2120, 2200, 2210 and 4010; Students who declare a History major after having completed the Core Curriculum Global Themes in History course may substitute that course for either HIST 2200 or 2210.

Electives

20 sh of 3000 level seminars with the following distribution:

Ancient or Medieval (4 sh)

Modern Europe (4 sh)

Non-Western (4 sh)

United States (4 sh)

Elective (4 sh)

In addition, students will take at least one course each from English, Philosophy, and Art, and one course from either Political Science or Sociology.

Notes and Restrictions

The history department shares with other departments in the Faculty of Humanities a common spirit and orientation toward the search for the truth. We require history majors to enhance their major learning experiences with at least one course each in Philosophy, Art, and English. Students are encouraged to consult their advisor for suggestions about particular courses. Students with a double major or those obtaining a secondary teaching certificate are exempt from the Humanities co-requirements. Presentation of the senior seminar research at a History Department conference and presentation of a major portfolio are required for graduation.

Honors

For departmental honors in History, students must apply no later than the second semester of their third year. The student must earn 8 sh of HIST 4000 in addition to the credit required for a major in History. For general Departmental Honors requirements and HIST 4000 course description, see appropriate sections of this catalog.

Minor requirements in History

Required semester hours

20 sh

Electives

One of the following: HIST 2110 or 2120; One of the following HIST 2200 or 2210. Three courses from seminars numbered 3000 or above, chosen from at least two geographical areas.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1000 **Global Themes in History (4 sh)** GE

An introduction to the cultures, historical developments and global interactions of world history through an intense examination of one of its significant themes.

2110 **United States to 1877 (4 sh)**

Development of a Western civilization on the American seaboard from colonial beginnings to 1877.

2120 **United States Since 1877 (4 sh)**

Development of an industrial and urban society and its political, economic, social, and intellectual significance; emergence as a world power.

2200 **World History to 1500 (4 sh)**

An introduction to the cultures and historical developments of the major world regions and their global interactions from the establishment of sedentary societies to ca. 1500 C.E. This course is required of History majors.

2210 **World History Since 1500 (4 sh)**

An introduction to the cultures and historical developments of the major world regions and their global interactions from ca. 1500 C.E. to the present. This course is required of History majors.

2230 **The Mediterranean World (4 sh)** GE

An introduction to the cultures, historical developments and global interactions of the Ancient World, from the establishment of sedentary societies through the fourth century C.E. For students who entered prior to fall 2013.

2250 **The Atlantic World (4 sh)** GE

An introduction to the cultures and historical developments of the major world civilizations and their global interactions from ca. 1500 C.E. to ca. 1800 C.E.

2260 **The Modern World (4 sh)** GE

An introduction to the cultures and historical developments of the major world regions and their global interactions in the nineteenth, twentieth, and twenty-first centuries.

3130 **History of Rome The Days of Cicero (4 sh)**

A study of the Roman world and its political, institutional and cultural transformations from its origins through the fifth century. The course will focus in particular on the intercultural dynamics of the Empire.

3140 **Society and Culture in the Middle Ages (4 sh)**

An inquiry into the development of the institutional, cultural, and intellectual life of Europe from ca. 300 to ca. 1450. The course will be interdisciplinary in character.

- 3150 Religion in the Middle Ages (4 sh)**
An examination of the religious culture, institutions, and thought of medieval Europe and the Mediterranean, with particular attention to Christian, Muslim, and Jewish interaction.
- 3190 Topics in Ancient and Medieval History (4 sh)**
Intensive exploration of a particular theme within the area of Ancient and Medieval history. Emphasis on developing the requisite skills for historical inquiry.
- 3210 African History I (4 sh)**
African history from earliest times to 1880. Themes include population movements, trade, state formation, slavery, and the African response to the nineteenth century revolutions.
- 3220 African History II (4 sh)**
African history since 1880. Themes include imperialism and the partition of Africa, the establishment of colonial rule and the African response, national liberation movements, and independent Africa.
- 3230 Ancient Civilization of Africa (4 sh)**
Early civilizations of the Nile Valley; ancient Egypt; Nubia; Kush; Ajsum; civilization of North Africa; the Phoenicians; the Greeks and Romans in North Africa; the Sahara in classical antiquity; early Christian era in Africa; the historiography of the east coast; peoples and cultures of east, central, and Southern Africa.
- 3240 Themes in North African History (4 sh)**
The history of ancient peoples of the Maghrib; foreign invaders; development of the Trans-Saharan trade; international trade; the imperialist scramble; establishment of colonial rule and the struggle for independence; Northeastern Africa: Egypt, the Sudan, and Ethiopia.
- 3260 Imperialism and Nationalism in Africa (4 sh)**
Examination of the nature of European Imperialism and Nationalism in Africa with emphasis on European conquest; conquest and occupation; imperialist exploitation and domination; origins and development of nationalism; triumph of the nationalist liberation movements; legacies of colonialism, nationalism and issues of development in the post-independence era.
- 3290 Topics in African History (4 sh)**
Intensive exploration of a particular theme within the history of Africa. Emphasis on developing the requisite skills for historical inquiry.
- 3310 Middle East to 1453 (4 sh) GE**
An inquiry into the political, cultural, religious, and institutional development of the Middle East from Constantine and the establishment of Byzantium through the rise of the Ottoman Turks.
- 3320 Ottoman Empire (4 sh)**
Examination of the complex imperial culture, politics, institutions, and intellectual life of the Ottoman Empire and its interaction with other Middle Eastern and European powers, from 1453 to 1921. The course will focus in particular on the intercultural and interreligious dynamics of the Ottoman world.
- 3391 Topics in Middle Eastern History (4 sh)**
Intensive exploration of a particular theme within the history of the Middle East. Emphasis on developing the requisite skills for historical inquiry.
- 3415 The Reformation Era (4 sh)**
An inquiry into the movements to reform the Christian Church in Western Europe in sixteenth and seventeenth centuries with special emphasis on Protestantism, Christian Humanism, and Catholic Reformation.
- 3421 Scientific Revolution and Enlightenment (4 sh)**
An inquiry into the Scientific Revolution, the Enlightenment, and the evangelical Awakening of the seventeenth and eighteenth centuries.
- 3431 The Rise of the State 1550-1789 (4 sh)**
The sovereign national state is one of the unique developments of Western Civilization. This course will trace its development from the Wars of the Religion to the French Revolution.
- 3440 Secularization in the Nineteenth and Twentieth Centuries (4 sh)**
This course will trace the increasingly secular character of Western society from the French Revolution to the Eve of World War I. Topics will include Darwin and Evolution, Einstein and Relativity and Marx and Communism.
- 3450 Twentieth Century Germany (4 sh)**
A study of Germany from World War I to its reunification in the 1990's, focusing on Weimar and Nazi eras.
- 3460 Russia, Soviet Union, and Eastern Europe (4 sh)**
The Russian political, social, and cultural tradition; the revolutions of 1917 and the emergence of Leninism and Stalinism; World War II, the eastern European empire, and the Cold War; stagnation under Brezhnev and reform and revolution in both eastern Europe and the Soviet Union in the Gorbachev era.
- 3491 Topics in Modern European History (4 sh)**
Intensive exploration of a particular theme within the history of modern Europe. Emphasis on developing the requisite skills for historical emphasis on Protestantism, Christian Humanism, and Catholic Reformation.
- 3421 Scientific Revolution and Enlightenment (4 sh)**
An inquiry into the Scientific Revolution, the Enlightenment, and the evangelical Awakening of the seventeenth and eighteenth centuries.
- 3431 The Rise of the State 1550-1789 (4 sh)**
The sovereign national state is one of the unique developments of Western Civilization. This course will trace its development from the Wars of the Religion to the French Revolution.
- 3440 Secularization in the Nineteenth and Twentieth Centuries (4 sh)**
This course will trace the increasingly secular character of Western society from the French Revolution to the Eve of World War I. Topics will include Darwin and Evolution, Einstein and Relativity and Marx and Communism.
- 3450 Twentieth Century Germany (4 sh)**
A study of Germany from World War I to its reunification in the 1990's, focusing on Weimar and Nazi eras.
- 3460 Russia, Soviet Union, and Eastern Europe (4 sh)**
The Russian political, social, and cultural tradition; the revolutions of 1917 and the emergence of Leninism and Stalinism; World War II, the eastern European empire, and the Cold War; stagnation under Brezhnev and reform and revolution in both eastern Europe and the Soviet Union in the Gorbachev era.
- 3491 Topics in Modern European History (4 sh)**
Intensive exploration of a particular theme within the history of modern Europe. Emphasis on developing the requisite skills for historical inquiry.

3515 The 1960's and American Culture (4 sh)

American social, cultural, and political history during the 1960's, including 1950's culture, popular politics, the Vietnam War, the Civil Rights Movement, Youth Protest, the Counter Culture, Multiculturalism, Feminism and Gay Activism.

3521 Immigration and Ethnicity in United States History (4 sh)

Analysis of the immigration waves that have shaped the American population from the colonial era to the present, including causes of migration; shifting attitudes toward immigrants; immigration policy; economic and social adjustment of newcomers; ideologies of the Melting Pot vs. cultural pluralism.

3531 Industrialization and Urbanization in Nineteenth Century America (4 sh)

America's transformation from a geographically compact agrarian republic to an urban, industrial, transcontinental empire. Topics include American nationalism, slavery, the growth of capitalism, urban poverty during the Gilded Age, popular literature and politics.

3540 American Religious History (4 sh)

Covers the history of American religions from the Puritan era to the present. The focus of the course will be the history of American Christianity, but will also include the development of uniquely American and world religions. Topics include Puritanism, Evangelicalism, Revivalism and Reform, Mormonism, the Civil War, fundamentalism, Pentecostalism, Immigrant religion, Roman Catholicism, Feminism, African-American voices, and the rise of the Religious Right.

3591 Topics in U.S. History (4 sh)

Intensive exploration of a particular theme within the history of the United States. Emphasis on developing the requisite skills for historical inquiry.

4000 Department Honors in History (4 sh)

Honors independent study. The student produces a paper at honors level. It must be at least B quality to receive honors credit. Presentation of the paper at a Spring Honors Symposium is required.

4010 Capstone Seminar (4 sh)

Capstone seminar in advanced historical research of a major integrative theme. Explicit focus on the sources of history, research methods, trends in historiography, and philosophies of history. Major paper required incorporating insights derived from the course.

4910 Independent Study in History (1-4 sh)

Intensive independent study of a topic chosen in consultation with an instructor in the Department of History.

4970 Internship in History (1-4 sh)

Please refer to internship requirements and guidelines in another section of this catalog

Honors (HON)

A Place of Achievement and Preparation

North Park prizes its tradition of high accomplishment by students, faculty, and alumni. The North Park University Honors Congress is designed to bring students and faculty into a learning community that promotes academic excellence, rigorous intellectual development, community involvement, campus and community service, leadership development, and vocational direction. A major goal of the Honors Congress is to prepare students for acceptance into graduate schools and for competition for graduate school fellowship programs. Honors Congress students are encouraged to apply for awards and fellowships both in their individual disciplines and in competitive national programs to serve and learn beyond their undergraduate years. Honors Congress students are assigned mentors to assist them in creating an undergraduate portfolio that will enhance these applications starting in the first year of study. Academic achievement at North Park is also recognized through numerous scholarship and departmental honors that are awarded annually to students demonstrating excellence in the classroom.

Honors Congress

The North Park University Honors Congress brings together students of high academic ability with faculty in a learning community designed to promote academic excellence, rigorous intellectual development, community involvement, service to others, and vocational direction.

Students receiving Trustee and Nyvall Scholars awards upon admission are invited to join the Honors Congress. Completion of the program will result in honors designation and distinction in major at graduation. Transfer students will be invited to join the Honors Congress upon admission to receive distinction in their major.

Requirements of the Honors Congress

Year 1

- Students participate in the Honors Congress.
- Students complete the first year Honors Seminar, 2 sh each in the fall and spring semesters.
- Students attend the Undergraduate Research Symposium.

Year 2

- Students participate in the Honors Congress.
- Students complete at least one GE course with Honors designation.
- Students attend Undergraduate Research Symposium.

Year 3

- Students participate in Honors Societies in their major or as leaders in major clubs.
- Students complete a Community Service Honors Project
- Students attend Undergraduate Research Symposium.

Year 4

- Students participate in Honors Societies in their major or as leaders in major clubs.
- Students complete a Senior Honors Project in their major.
- Students present their Senior Honors Project at the Undergraduate Research Symposium.

Graduate School Application

The Office of Career Development and Internships and individual school deans work with the Director of the Honors Congress to run seminars and plan events to consider graduate education. Vocational exploration undertaken in the first two years becomes actual planning in the second two years of university study.

Internship

Chicago connections explored in the first two years become work place learning environments during the last two years. Students take advantage of the city and put their academic knowledge to the test, gaining valuable experience for choices after graduation.

Rewards of the Honors Congress

The Honors Congress at North Park University provides opportunity for students of promise to excel during their first two years of undergraduate study. If you are highly motivated, and if you are ready to be challenged and to challenge yourself, this program may be for you. We strive to take the Jesus's words "To whom much is given much will be required," and give them special life during your North Park experience. Our philosophy is simply this: The Honors Congress gives students of high intellectual ability an array of learning experiences from which to choose, places them side-by-side faculty mentors who care, and offers guidance and encouragement along the way.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1010 Honors Congress First Year Seminar (2 sh)

The first of two 1st year Honors courses, designed to stimulate critical and creative thinking on a key virtue of the human person (e.g. imagination, beauty, wisdom, etc.) In its interdisciplinary and multicultural character, the course helps prepare advanced students for an intentional and creative approach to their studies and future vocation.

1020 Honors Congress First Year Seminar (2 sh)

The second of two 1st year Honors courses, designed to stimulate critical and creative thinking on a key virtue of the human person (e.g. imagination, beauty, wisdom, etc.) In its interdisciplinary and multicultural character, the course helps prepare advanced students for an intentional and creative approach to their studies and future vocation. Prerequisite: HON 1010.

4000 Honors Portfolio (0 sh)

Reviews academic progress and evidence of program outcomes in the Honors Congress through personal reflection. Student will submit an organized sample of course work and reflections for review. Independent study.

Italian (ITAL)

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1010 **Basic Italian I (4 sh)** GE

This course introduces students to the basic structures of Italian grammar through written and oral usage. Vocabulary is selected from concrete situations of daily living and a cultural component exposes students to general concepts of Italian life and history. No credit for ITAL 1010 will be granted to students who have completed more than two years of high school Italian within the last five years.

1020 **Basic Italian II (4 sh)** GE

This course introduces students to the basic structures of Italian grammar through written and oral usage. Vocabulary is selected from concrete situations of daily living and a cultural component exposes students to general concepts of Italian life and history. Prerequisite: ITAL 1010.

2010 **Intermediate Italian I (4 sh)**

This course reviews and expands upon the basic structures of Italian grammar through written and oral and usage. Vocabulary begins to introduce topics of increasing length and depth on more abstract and intellectual nature while leading to more complex manipulation of concrete situations. Reading selections from literature and authentic cultural materials are expanded as students are encouraged to create longer oral and written statements of creative expression. Prerequisite: ITAL 1020.

2020 **Intermediate Italian II (4 sh)**

This course reviews and expands upon the basic structures of Italian grammar through written and oral and usage. Vocabulary begins to introduce topics of increasing length and depth on more abstract and intellectual nature while leading to more complex manipulation of concrete situations. Reading selections from literature and authentic cultural materials are expanded as students are encouraged to create longer oral and written statements of creative expression. Prerequisite: ITAL 2010.

4910 **Independent Study in Italian (2-4 sh)**

Independent research in Italian culture or literature, the conditions of which are arranged with the instructor.

Latino and Latin American Studies (LAS)

Latin American Studies is an interdisciplinary program designed to apply the scholarly approach of a number of traditional disciplines, such as sociology, theology, and history, to a consideration of the Latino experience. The program seeks to nurture the student's intellectual, social, and political development through an examination of the rich and multifaceted cultures, literatures, religions, and histories of great wealth and diversity of the Latino peoples.

Students who complete the minor in Latin American Studies should be aware of the unique influence of people of the Latino Peoples on the culture of the West, emphasizing the contribution of Latino Peoples to the economic, social, and political development of America. In addition, they should understand the social problems of the U.S. from a Latino perspective and demonstrate a willingness to be agents of change in the creation of social justice and equality.

Minor requirements in Latino and Latin American Studies

Required semester hours

18 sh beyond SPAN 1020

Prerequisites and supporting courses

SPAN 1020 or equivalent

Required core courses

At least one course selected from LAS and at least one course selected from three of the four remaining areas comprising this minor, (BTS, COMM, SOC, SPAN). Options: BTS 3910; COMM 2750; LAS 3910, 4910; SOC 2090, 2130; SPAN 2130, 3170, 3300, 3400, 3910, 4010.

Notes and restrictions

For Spanish majors, no more than two literature courses may apply to this minor. Some course work for the Latin American minor may be done through North Park's program in Morelia, Mexico, and the Coalition for Christian Colleges and Universities' program in San Jose, Costa Rica.

- Students must complete a form listing the courses they have taken to complete the minor, to be obtained from the department and on the department website.
- Students must turn in a simple portfolio to the chair of the department containing the following:
 1. A statement of their specific goals upon entering the program
 2. A self-assessment of the achievement of those goals-including what educational experiences most enhanced their learning, curricular and extracurricular.
 3. Two samples of student work from each course: completed: projects, essays or exams.

2730 **Speaking Truth to Power: The Politics of Mexicans in America (4 sh)**

Surveys Mexican history from Pre-Columbian Period to the present and emphasizes Mexican American politics. Employs Marxian and Gramscian theory in examining the political influence of such organizations as the League of United Latin American Citizens and the protest rhetoric of Chicano leaders like Cesar Chavez. Examines selected points of common political interests shared by Mexicans and African Americans. Cross-listed with AS 2730.

2950 **Rap Music in Urban America: An Introduction to the Politics of Black And Latino Culture (4 sh)**

The class employs Marxism and Gramscian theory in interpreting rap music specifically and hip hop culture generally as forms of resistance to the oppressive ideas and discriminatory policies of U.S. society. It offers a critical examination of Latino and Black political rappers viewing them as socially conscious activists committed to the uplift of their respective communities. Cross-listed with AS 2950

3910 **Topics in Latin American Studies (4 sh)**

Selected topics in areas of Latin American themes, including but not limited to Latin American History, Latin American Economics, Latin American Politics, Latin American Culture, Latin American Music, etc. Course is repeatable.

4910 **Independent Study in Latin American Studies (1-4 sh)**

Student must have consent of the instructor and chairperson of the division to register for this course.

Library Science (LIB)

2010 **Navigating the Electronic Library (1 sh)**

Instruction and practice in use of print and electronic sources such as CD-ROMs, the Internet, and the World Wide Web. The course stresses the organization and critical assessment involved in searching for and selecting relevant resources for research papers and other library-based assignments.

Mathematics (MATH)

Iliff (chair), Ankney, Gorguis, Kaestner, Mirza

The overall goal of the department of mathematics is to equip its students for a lifetime of learning and service via God's gift of mathematical thought and practice. Some specific objectives include developing in each student: (1) the ability to think rigorously; (2) an understanding of the fundamental principles and techniques of mathematics; (3) an appreciation of mathematics as the primary language of science and an important part of our cultural heritage; (4) the ability to learn independently and to utilize technology effectively for learning and problem solving; (5) the ability to communicate mathematics well in both oral and written form.

Major requirements for the B.A. in Mathematics

Required semester hours

36 sh

Prerequisites and supporting courses

CSIS 1210

Required core courses

MATH 1410, 1490, 1510, 1520, 3010, 3100, 3110, 3210

Electives

8 additional hours in Mathematics, numbered 2000 or higher

Notes and restrictions

A comprehensive examination is required for graduation.

For students in secondary education: The B.A. in Math requires 36 sh in MATH, namely MATH 1410, 1490, 1510, 1520, 3010, 3100, 3110, 3210, 8 sh in Mathematics, numbered 2000 or higher, as well as CSIS 1210 (4 sh) as a supporting course.

Honors

For Departmental Honors in Mathematics, 4 sh of MATH 4000 are required in addition to the 36 sh for a B.A. Application for admission should be made the second semester of the third year. For general Departmental Honors requirements and MATH 4000 course description, see appropriate sections of this catalog.

Major requirements for the B.S. in Mathematics

Required semester hours

40 sh

Prerequisites and supporting courses

CSIS 1210

Required core courses

MATH 1410, 1510, 1520, 2030, 3050, 3100, 3150, 4010

Electives

8 additional hours in Mathematics, numbered 2000 or higher

Notes and restrictions

A comprehensive examination is required for graduation. An oral presentation of a paper outside the classroom (the paper and venue to be previously approved by the department) is required for graduation.

Honors

4 sh of MATH 4000 are required in addition to the 40 sh for a B.S. Application for admission should be made the second semester of the third year. For general departmental honors requirements and a MATH 4000 course description, see appropriate sections of this catalog.

Minor requirements in Mathematics

Required semester hours

20 sh

Required core courses

20 sh in the Mathematics Department in courses numbered including MATH 1410, 1490, 1510, 1520 and a minimum of 4sh of Mathematics numbered 2000 or higher.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1005 Practical Mathematics for College Students (4 sh)

Topics in basic mathematics including solving equations, graphing, substitution to evaluate expressions, order of operations, word problems, translations of units, proportions, real-world modeling problems, fractions, exponential notation and use of calculator. Registration based on score on the mathematics placement test. Developmental courses do not count toward the 120sh graduation requirement but do count towards full-time enrollment status.

1010 Intermediate Algebra (4 sh)

Topics in beginning and intermediate algebra such as: equations and inequalities, systems, polynomials, factoring, graphing, roots and radicals, rational functions, and quadratic equations. Designed to prepare students for math classes numbered 1020 or higher and especially for MATH 1150. Developmental courses do not count toward the 120sh graduation requirement but do count towards full-time enrollment status. Prerequisite: MATH 1005 or by math placement.

1020 Modern Mathematics for Elementary Teachers (4 sh)

Content and trends in the mathematics usually taught at the elementary school level. Emphasis is on philosophy and concepts of mathematics. Includes computer applications.

1030 Concepts and Structures (4 sh) GE

Acquaints students with some of the diversity of mathematics and mathematical thinking through a survey of topics such as symbolic logic, topology, graph theory, modular arithmetic and coding theory, probability, and the history of mathematics; or by exploring one area in depth. Oral and written work required. Prerequisite: MATH 1005 or MATH 1010 or designated score on the NPU math placement examination.

1150 Pre-Calculus Mathematics (4 sh) GE

Analysis of polynomial, rational, algebraic, trigonometric, exponential, and logarithmic functions. Prerequisite: MATH 1010 or by math placement.

1410 Discrete Mathematics I: Number Theory And Logic (4 sh) GE

Introduction to mathematical logic and writing proofs, providing a solid foundation for further work in mathematics. Topics include propositional logic, first-order logic, proof techniques, elementary number theory, sets, Boolean algebra, and relations. Students should have completed four years of high school math. Prerequisite: MATH 1010.

1490 Introductory Statistics (4 sh) GE

Introduction to applied statistical analysis. Descriptive, correlational, and inferential statistics; concepts of population, sample, sampling distribution; elements of probability; parameters of discrete distributions; hypothesis testing; analysis of proportions, means, and variance; linear regression. Cross-listed with STAT 1490. Prerequisite: MATH 1005 or MATH 1010 with a minimum grade of C or by math placement.

1510 Calculus I (4 sh) GE

Beginning calculus, limits and continuity, derivatives, mean value theorem, applications of derivatives, antiderivatives, Riemann Sums, introduction to the definite integrals. Uses computers. Lab included. Student should have completed four years of high school math. Prerequisite: MATH 1150.

1520 Calculus II (4 sh) GE

Continuation of MATH 1510. Fundamental theorem of calculus, evaluation of definite integrals, applications of definite integrals, introduction to differential equations, infinite sequences and series. Uses computers. Lab included. Prerequisite: MATH 1510.

2030 Differential Equations (4 sh) GE

Study of ordinary differential equations, especially first and second order, with applications to geometry and the physical life sciences. Uses computers. Prerequisite: MATH 1520.

2420 Discrete Mathematics II (4 sh) GE

Continuation of Math 1410. Topics selected from counting, combinations and permutations, discrete probability, recurrence relations, graphs and trees. Prerequisite: MATH 1410.

3010 Introduction to Geometry (2 sh) GE

A study of Euclidean and non-Euclidean geometries by synthetic, analytic, and transformation methods. Prerequisite: MATH 1410, 1510.

3050 Vector Calculus (4 sh) GE

A detailed study of functions of several variables including differentiation, line and surface integrals, and Green and Stokes' theorems. Uses computers. Prerequisite: MATH 1520.

3060 Real Analysis (4 sh) GE

Introduction to the fundamentals of real analysis including real numbers, limits, derivatives, and the Riemann integral. Prerequisite: MATH 1410, 1520.

3100 Linear Algebra (4 sh) GE

A study of matrices, vector spaces, linear transformations, orthogonality, eigenvalues, and eigenvectors. Uses computers. Lab included. Prerequisite: MATH 1510.

3110 Modern Abstract Algebra (4 sh) GE

Study of groups, rings, ideals, integral domains, fields and their applications. Prerequisite: MATH 1410, 1520.

3150 Statistical Theory (4 sh) GE

Probability, probability distributions, random variables, numerical and descriptive statistics, and statistical inference. Prerequisite: MATH 1490 or STAT 1490, MATH 1520.

3210 History of Mathematics (2 sh) GE

Study of primary sources in mathematics. Focuses on the changing nature of mathematics. Prerequisite: MATH 1410, 1520.

3310 Complex Analysis (4 sh) GE

Complex numbers, elementary complex functions, the Cauchy theory, infinite series, the calculus of residues, and introduction to conformal representation. Prerequisite: MATH 3060.

3620 Numerical Methods (4 sh) GE

An introduction to numerical methods with computer implementation. Solution of linear, non-linear, and differential equations; interpolation and approximation; numerical integration and differentiation; and error analysis. Prerequisite: MATH 1520.

3910 Topics in Mathematics (2 or 4 sh)

In-depth treatment of selected topics. Possible topics include point set topology, philosophy of mathematics, and Dynamical Systems. Prerequisite will depend on the topic.

4000 Department Honors in Mathematics (4 sh)

Honors independent study in Mathematics.

4010 Fourth-Year Seminar (4 sh)

Capstone course for mathematics major. Students learn to read, analyze, and learn mathematics not contained in standard undergraduate textbooks. Written and oral presentations required. Student must be of fourth-year standing and a mathematics major.

4910 Independent Study in Mathematics (1-4 sh)

Independent Study in Mathematics.

4970 Internship in Mathematics (1-4 sh)

Please refer to the Internship section for requirements and guidelines.

Middle Eastern Studies (MES)

The purpose of the minor is to offer a concentrated program of study for students interested in exploring the politics, history, and religions of the Middle East. These courses will be supplemental to the student's major field of study. For example, International Business, Politics and Government, History, or Biblical and Theological Studies majors can focus their studies on the Middle East as an aspect of their vocational or graduate school preparation. The Middle Eastern Minor is structured to build upon courses currently available primarily in the Biblical and Theological Studies, History, and Politics and Government departments.

Israel and the Palestinian territories. Students will also be required to complete 12 hours of service learning in a religious or human rights institution related to the issues studies in class.

3910 **Topics in Middle Eastern Studies (2-4 sh)**

An intensive examination of a selected theme.

Minor requirements in Middle Eastern Studies

Required semester hours

20 sh

Required core courses

MES 2720; BTS 2700 or MES 2710; HIST 3320; POGO 3370

Elective

Choose one from the following: ARAB 1010 or 1020; COMM 3910: Int'l Conflict Transformation; HIST 3310; POGO 2200, 2300, or 3390

Notes and Restrictions

- Students must complete a form listing the courses they have taken to complete the minor, to be obtained from the department and on the department website.
- Students must turn in a simple portfolio to the chair of the department containing the following:
 1. A statement of their specific goals upon entering the program
 2. A self-assessment of the achievement of those goals-including what educational experiences most enhanced their learning, curricular and extracurricular.
 3. Two samples of student work from each course: completed projects, essays, or exams.

2710 **Children of Abraham: the Three Major Monotheistic Religions of the Middle East (4 sh)**

The course will examine in depth the origins of Islam, Judaism, and Christianity in their respective Middle Eastern contexts. Various sects and denominations within each religion will be studied, noting theological and political differences. Special attention will be given to contemporary political dynamics and manifestations of each religion in the Middle East and North America. Students will have first-hand encounters with local Muslim, Jewish, and Christian leaders and observe how their respective faith communities are adapting to western secular culture. Theological Emphasis. Prerequisite: BTS 1850.

2720 **Palestine and Palestinian Christianity from Pentecost to 2000 (4 sh)**

The course will be a multi-disciplinary survey of Palestinian Christianity from the time of Jesus until the year 2000. Each major period will be studied in terms of the political, historical, theological, and interreligious context of Palestine. Emphasis will be placed on the origins and diversity of early Palestinian Christianity, the initial tension with Judaism, Roman occupation, Byzantine Christianity, Islam, the Crusades, Palestine under the Ottoman Empire, the rise of Zionism and the Israeli-Palestinian conflict, the British Mandate, and the decline of Christianity in contemporary

Music (MUS)

Johnson (dean), Bauer, Davids, Hudgens, Lill, Shofner-Emrich, Zelle

The mission of North Park University's School of Music is to prepare students to lead lives of significance and service through music. The School of Music, Christian in identity, welcomes students of all perspectives and embraces music of diverse cultures and traditions. The faculty is committed to supporting and guiding students towards realizing their potential. The music community seeks to share its gifts outwardly through service to others and inwardly through a deeper sense of meaning and connection. The North Park University School of Music is enriched by the diverse cultural experiences and musical opportunities afforded by our location in the city of Chicago. The School of Music offers a curriculum that fosters an inclusive, multicultural perspective, cultivating the student's ability to evolve holistically.

To facilitate these aims for music majors, three degrees are offered. The Bachelor of Arts in Music is a broad-based liberal arts degree. The Bachelor of Music in Performance is a professional program and is, therefore, more intensive in academic and applied music studies. The Bachelor of Music in Education (choral and instrumental) is a professional program which results in K–12 certification qualifying graduates to teach music in the Illinois public school system. The Bachelor of Music in Music in Worship is a professional program, equipping students with a broad set of skills required for ministry in the 21st century Christian church. All music majors must maintain a minimum grade point average of 2.5 in their academic music courses and a 3.0 in applied music. All programs are accredited by the National Association of Schools of Music (NASM).

Four other North Park University academic programs require emphasis in music studies. The music concentration of the Early Childhood/Elementary Education major meets state requirements as administered through the School of Education. The music minor and music in worship minor are designed to provide basic training in theory, history, aural skills, and performance and can be combined with most majors outside of music. The Certificate in Music for Social Change is an eight-semester-hour undergraduate certificate designed for students enrolled in any degree track in music who seek more knowledge of, and experience with, the El Sistema-inspired philosophy of music instruction, and music-related social change.

Application Process

As soon as possible after applying to the University, prospective music majors, minors, and concentrations must be evaluated for acceptance into the School of Music. The evaluation will consist of a theory placement exam and keyboard placement (if applicable), sight reading, and an audition. Repertoire requirements vary by instrument. See website for details.

To audition for a music scholarship, students must submit an online audition request form, and a resume listing previous musical study, musical activities, and goals for further music study. Recordings are acceptable although a live audition is preferred. If an audition is not possible on our published audition days, an individual audition date may be arranged, but is not guaranteed. Auditions scheduled after our published audition dates may not receive full music scholarship consideration. Any non-music major with previous music training and experience who wishes to be considered for a music scholarship should follow the same procedure as outlined above.

Following one year of music study, prospective music majors must apply for acceptance into their music major of choice. At the point of application and beyond, students must have and maintain a minimum 2.0 overall GPA, 2.5 academic music course GPA, and 3.0 applied music GPA.

Additional requirements for acceptance into each major may apply. Please see the Undergraduate School of Music Handbook for details.

Honors

For the general requirements of the University, see the Honors section in this catalog. To be eligible for admission into the School of Music Honors Program the students must meet the following criteria:

1. Students must be at least a second semester third-year student.
2. Students must have completed all course work as prescribed by their major through the first semester of the third year.
3. Students must have demonstrated superior accomplishment in academic and/or performance areas and a highly developed sense of individual initiative.
4. Students must gain sponsorship of a supervising faculty member.
5. Students must obtain an application from the Dean of the School of Music and submit it, stating the nature of the proposal, for approval by the School of Music. Students who meet the requirements of both the School of Music and the University and successfully complete the honors project will receive a baccalaureate degree with honors.

Additional details can be found at www.northpark.edu/music.

Major requirements for the B.A. in Music (with a concentration General Music)

Required semester hours

40 sh

Prerequisites and supporting courses (4 sh)

MUS 2060

Required core courses

MUS 1005

Music History (6 sh) 3010, 3020

Theory (20 sh): 1080, 1110, 1120, 2110, 2120, 2130, 2140, 3130, and 3140

Performance Practica (0 sh): 0100 (8 semesters); Keyboard Skills (0 sh): 1010 and 1020, Level II Proficiency required

Ensemble (0 sh, 4 years):

Brass, Percussion, String or Woodwind: Required 4 years: (strings) MUS 0750, (brass/woodwind/percussion) MUS 0700 or MUS 0725

Guitar: Required at least 2 years in MUS 0700, MUS 0725, MUS 0750, MUS 0800 or MUS 0810. No more than 2 years in MUS 0855, MUS 3770, MUS 3850.

Piano and Organ: Required at least 2 years in or accompanying an ensemble (based on ability) such as the MUS 0700, MUS 0725, MUS 0750, MUS 0800 or MUS 0810. No more than 2 years in or accompanying MUS 0855 or MUS 3770.

Voice: Required at least 3 years in MUS 0800 or MUS 0810. No more than 1 year in MUS 0855 or MUS 3890.

Applied Music (12 sh)

Major requirements for the B.A. in Music (with a concentration in Arts Administration)

Required semester hours

40 sh

Prerequisites and supporting courses (4 sh)

MUS 2060; BSE 2211

Required core courses

MUS 1005

Music History (6 sh): 3010, 3020 Theory (16 sh): 1080, 1110, 1120, 2110, 2130, 2140, and 3130

Performance Practica (0 sh): 0100 (8 semesters); Keyboard Skills (0 sh): 1010 and 1020, Level II Proficiency required

Ensemble (0 sh, 4 years):

Brass, Percussion, String or Woodwind: Required 4 years: (strings) MUS 0750, (brass/woodwind/percussion) MUS 0700 or MUS 0725

Guitar: Required at least 2 years in MUS 0700, MUS 0725, MUS 0750, MUS 0800 or MUS 0810. No more than 2 years in MUS 0855, MUS 3770, MUS 3850.

Piano and Organ: Required at least 2 years in or accompanying an ensemble (based on ability) such as the MUS 0700, MUS 0725, MUS 0750, MUS 0800 or MUS 0810. No more than 2 years in or accompanying MUS 0855 or MUS 3770.

Voice: Required at least 3 years in MUS 0800 or MUS 0810. No more than 1 year in MUS 0855 or MUS 3890.

Applied Music (6 sh):

Arts Administration (12 sh): NONP 2710 (2 sh); NONP 3710 (4 sh); MUS 3500 (2 sh); MUS 4970 (4 sh)

Major requirements for the B.A. in Music (with a concentration in Composition)

Required semester hours

40 sh

Prerequisites and supporting courses (4 sh)

MUS 2060

Required core courses

MUS 1005

Music History (6 sh) 3010, 3020

Theory (24 sh): 1080, 1110, 1120, 2000, 2110, 2130, 2140, 3130, 3140, 4160 and one from: 3150, 4150, 4165, or 4175

Performance Practica (2 sh): 0100 (8 semesters); Keyboard Skills (0 sh): 1010 and 1020, Level II Proficiency required; 2155 (2 sh); AMUS 4900

Ensemble (0 sh, 4 years):

Brass, Percussion, String or Woodwind: Required 4 years: (strings) MUS 0750, (brass/woodwind/percussion) MUS 0700 or MUS 0725

Guitar: Required at least 2 years in MUS 0700, MUS 0725, MUS 0750, MUS 0800 or MUS 0810. No more than 2 years in MUS 0855, MUS 3770, MUS 3850.

Piano and Organ: Required at least 2 years in or accompanying an ensemble (based on ability) such as the MUS 0700, MUS 0725, MUS 0750, MUS 0800 or MUS 0810. No more than 2 years in or accompanying MUS 0855 or MUS 3770.

Voice: Required at least 3 years in MUS 0800 or MUS 0810. No more than 1 year in MUS 0855 or MUS 3890.

Applied Music (8 sh): must include 4 sh of AMUS 1090

Major requirements for the B.A. in Music (with a concentration in Jazz Studies - Instrumental)

Required semester hours

40 sh

Prerequisites and supporting courses (4 sh)

MUS 2060

Required core courses

MUS 1005

Music History (6 sh) 3010, 3075

Theory (22 sh): 1080, 1110, 1120, 2110, 2120, 2130, 2140, 3130, 3150 and 4175

Performance Practica (2 sh): 0100 (8 semesters); Keyboard Skills (0 sh): 1010 and 1020, Level II Proficiency required; MUS 3155 (2 sh); AMUS 4900

Ensemble (0 sh, 4 years): 0700, 0725 and/or 3710, by advisement.

Applied Music (10 sh): by advisement.

Major requirements for the B.M. degree in Performance

Required semester hours

64 sh (voice and string track, additional 4sh)

Prerequisites and supporting courses (4 sh)

MUS 2060

Required core courses

MUS 1005

Music History (8 sh): 3010, 3020; one from 3015 or 3910 (when the topic is music history focused)

Theory (24 sh): 1080, 1110, 1120, 2110, 2120, 2130, 2140, 3130, 3140, 4150, and 4160

Performance Practica (8 sh, strings 12 sh): 0100 (8 semesters); Keyboard Skills: 1010, 1020 and 1030, Level III Proficiency; 2155, 3170

- Brass majors (4 sh): 3700
- Guitar majors (4 sh): 3850
- Percussion majors (4 sh): 3760
- Piano majors (4 sh): 3350
- String majors (8 sh): 3750
- Voice majors (4 sh): 3450, 3455
- Woodwind majors (4 sh): 3725
- Instruments not listed: consult with the School of Music

Pedagogy/Literature (4 sh, voice 8 sh):

- Brass majors: 3600, 3610
- Guitar majors: 3640, 3650
- Percussion majors: consult with faculty advisor
- Piano majors: 3300, 3310
- String majors: 3200, 3210
- Voice majors: 2401, three from 2402, 2403, 2404, 2405; 3401, 3402, 3410
- Woodwind majors: 3620, 3630
- Instruments not listed: consult with the School of Music

Ensemble (0 sh, 4 years):

Brass, Percussion, String and Woodwind majors: Required 4 years: (strings) MUS 0750, (brass/woodwind/percussion) MUS 0700 or MUS 0725

Guitar majors: Required at least 2 years in MUS 0700, MUS 0725, MUS 0750, MUS 0800 or MUS 0810. No more than 2 years in MUS 0855, MUS 3770, or MUS 3850.

Piano and Organ majors: Required at least 2 years in or accompanying MUS 0700, MUS 0725, MUS 0750, MUS 0800 or MUS 0810. No more than 2 years in or accompanying MUS 0855 or MUS 3770.

Voice majors: Required 4 years in MUS 0800 or MUS 0810

Applied Music (16 sh)

Electives

2 sh from any MUS courses

Other Requirements

Third-year recital (AMUS 3900) and Fourth-year recital (AMUS 4900)

Major requirements for the B.M. degree Music in Worship

Prerequisites and supporting courses (4 sh)

MUS 2060

Required semester hours

68 sh in Music; 9 sh in Biblical Studies

Required Core Courses

MUS 1005

Music History (6 sh) 3010, 3020

Theory (20 sh) 1080, 1110, 1120, 2110, 2120, 2130, 2140, 3130, 3150

Composition/Technology (6 sh) 2155, 4160, 4175

Keyboard (2 sh) Keyboard Skills: 1010, 1020, 1030 Level III Proficiency; 1040

Practicum (10 sh) 2210 (1/1), 3170, 3180, 4980

University Worship – 2 semesters

Seminary Worship – 2 semesters

Performance and Literature Studies (should be formatted like Musicianship Core Courses)

Church Music (4 sh) 3660, 3670, 4250

Applied Music (18 sh) AMUS 1110/1130 or 1335/1340 (8); 1200 (2); by advisement (8)

MUS 0100 (0 sh); 8 semesters

Ensemble (0 sh, 4 years);

Guitar: Required at least 2 years in MUS 0700, MUS 0725, MUS 0750, MUS 0800 or MUS 0810. No more than 2 years in MUS 0855 or MUS 3890. Optional, no more than 1 year in a leadership position of University Ministries Worship Team.

Piano and Organ: Required at least 2 years in or accompanying MUS 0700, MUS 0800 or 0810. No more than 2 years in or accompanying MUS 0855 or MUS 3890. Optional, no more than 1 year in a leadership position of University Ministries Worship Team.

Voice: Required at least 2 years in MUS 0800 or MUS 0810. No more than 2 years in MUS 0855 or MUS 3890. Optional, no more than 1 year in a leadership position of University Ministries Worship Team.

Foundations of Worship Studies (9 sh)

BTS 3660, 3661, 3670, 3680, 3920

Electives (6 sh) any coursework at the university unless an emphasis is chosen below.

Composition emphasis 4150, 4155, 4165

Choral conducting emphasis 2401, 2402, 3401, 2 sh of elective (MUS 3402 strongly recommended)

Keyboard emphasis (for students whose major instrument is either piano or organ): 3350 (taken for two semesters); 4 sh of elective

Major requirements for the B.M.E. (Bachelor of Music Education) degree

Required semester hours

59 sh in music; 36 sh in education

Prerequisites and supporting courses (4 sh)

MUS 2060

Required core courses

Music

Music History (8 sh): 3010, 3020; one from 2050, 3015, 3075, or 3910 (when the topic is music history focused)

Theory (22 sh): 1080, 1110, 1120, 2110, 2120, 2130, 2140, 3130, 3140, and 4160

Performance Practica (6 sh): 0100 (7 semesters), Keyboard Skills: 1040 Level IV Proficiency; 3170, and 3180

Ensemble (0 sh): Required 7 semesters in MUS 0700, MUS 0725, MUS 0750, MUS 0800 or MUS 0810. Students are strongly encouraged and advised to participate in Gospel Choir and Chamber Ensembles.

Applied Music (12 sh): Voice track (voice 9sh, piano 3sh), Piano track (piano 9sh, voice 3sh), Instrumental track (instrumental 9sh, voice 1sh, piano 2sh)

Music Education

All Majors (11 sh): MUS 3307, 3408, 3409; Three of the following: 2080, 2081, 2082, 2083

Voice and Piano Majors: 2401, 2402, 3401, 3402

Instrumental Majors: 3080, 3081, 3082, and 3083

Professional Education

EDUC 2120, 2130, 2140, 2145, 3011, 3130, 3170, 3315, 3430, 3510, 3520, 4110, 4120 and 4600 See Education Department section of the catalog for course descriptions.; MUS 2155

General Education

(NPU and State of Illinois) Refer to School of Education catalog section.

Music concentration requirements in Early Childhood or Elementary Education Major

Required semester hours

18 sh in music, (beyond the general education requirements for certification)

Prerequisites and supporting courses

See Education section of this catalog

Required core courses

Music History (2 sh): 2050

Theory (8 sh): 1080, 1110, 2130

Performance Practica (6sh): (0 sh): 0100 (4 semesters); MUS 1010 & 1020: Keyboard Skills: Level II proficiency; 3170

Ensemble (0 sh): 0700, 0725, 0750, 0800 or 0810 (2 years)

Applied Music: 2 sh

Minor requirements in Music

Required semester hours

22 sh in music

Required core courses

Music History (6 sh): 3010, 3020

Theory (12sh): 1080, 1110, 1120, 2130, and 2140

Performance Practica (2 years, 0 sh): 0100 (4 semesters)

Keyboard Skills (0 sh): Level II proficiency

Ensemble (2 years, 0 sh): 0700, 0725, 0750, 0800 or 0810

Applied (4 sh)

Minor requirements in Music in Worship

Required semester hours

23 sh

Required core courses

Church Music (7 sh): 2040, 2210 (1/1), 3660, 3670

Theory (12 sh): 1080, 1110, 1120, 2130, 2140

Performance Practica (2 years, 0 sh): 0100 (4 semesters)

Campus Worship (0 sh, 1 year): Must be involved in University Ministries chapel planning or music team;

Keyboard Skills (0 sh): Level II proficiency

Ensemble (2 years, 0 sh): 0700, 0725, 0750, 0800, 0810 or 0850

Applied (4 sh) taken for 4 semesters at 1 semester hour each

Requirements for the Certificate in Music for Social Change

Required semester hours

8 sh

Required core courses

MUS 1600 (1sh)

MUS 2083 (1sh) and MUS 3083 (1sh) or MUS 3210 (2sh)

MUS 3690 (2sh)

3 semesters of MUS 4970 (1sh each)

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

0100 Student Recital (0 sh)

This course is designed to offer students opportunities to listen to a variety of concerts and recitals, and to perform as soloists as well. In addition, guest artists conduct master classes on occasion during the Thursday afternoon sessions. Students registered for this course have a set number of requirements to attend General and Class Recitals that occur on Thursday afternoons, evening and weekend concerts and recitals from the School of Music Concert Calendar. Students also have specific performance requirements associated with the General and Class Recitals.

0700 Jazz Ensemble (0 or 1 sh) GE

A select group of wind, rhythm, and percussion players determined by audition. Repertoire includes music for large jazz groups from the big band era to the present. An on-campus concert is presented each term, along with occasional outside performances.

0725 Concert Band (0 or 1 sh) GE

Open to all wind and percussion players, this group is dedicated to the performance of wind ensemble music, both original music and transcriptions. Performances include on-campus concerts each term.

0750 University Orchestra (0 or 1 sh) GE

Devoted to the study and preparation of orchestral literature from the Baroque era to the present through regular rehearsal and performance. All instrumentalists are welcome. Principal positions and general seating are determined by audition.

0800 University Choir (0 or 1 sh) GE

A select group of experienced choristers, determined by audition. Emphasis is placed on vocal development and performance, with major appearances annually on and off campus, and with regular national and foreign tours. The University Choir performs a varied repertoire of sacred and secular music. Cross-listed with MUS 5800.

0810 Women's Chorale (0 or 1 sh) GE

A select group of female singers determined by audition. Emphasis is placed on vocal development and performance, with major

appearances annually on and off campus, and with national and foreign tours periodically. The Women's Chorale performs a varied repertoire of sacred and secular music.

0850 Gospel Choir (0 or 1 sh)

Open to all singers, the Gospel Choir performs music that originates in the African American religious experience, including both traditional and contemporary repertoire. The choir performs two concerts a year on campus.

0855 Gospel Choir Touring Ensemble (0 or 1 sh) GE

A select ensemble of singers drawn from the larger Gospel Choir by audition. The repertoire features all forms of gospel as well as traditional spirituals. The emphasis is on off-campus performances with a major tour every other year.

1000 Music Appreciation (2 sh) GE

Introduction to the art of music in Western civilization, and its elements, styles, and masterworks from the Middle Ages to the present. Emphasis on repertoire study, listening, and concert attendance. On and/or off-campus concert attendance required. For the non-music major. Cannot be applied toward a major or minor in music.

1005 Introduction to the Music Profession (2 sh)

Introduction to the Music Profession offers Bachelor of Arts or Music students to begin to make connections between their music study, the total academic program, and post-undergraduate activities. It will also provide a setting in which to share perceptions about intended professions; this process will then in turn create a supportive atmosphere to ease the transition from high school and prior artistic settings, to college, and eventually to the workplace. Guests who work in a variety of music fields will be invited to selected classes, and students will be assigned readings that will act as a basis for in-class discussions. Other goals of the course include an intensive focus on the ethical dimensions of the music profession, and an exploration of professional habits that will support success in the future.

1010 Keyboard Skills I (2 sh)

For students with little or no piano study. Functional keyboard harmony, scales, transposition, simple score reading, sight-reading, improvisation, and repertoire. For music majors, minors, and concentrations. Placement by piano faculty.

1020 Keyboard Skills II (2 sh)

For students with some piano study. Functional keyboard harmony, scales, transposition, simple score reading, sight-reading, improvisation, and repertoire. For music majors, minors, and concentrations. Prerequisite: MUS 1010 with a grade of C- or placement by piano faculty.

1030 Keyboard Skills III (2 sh)

For students with a minimum of 2-4 years of piano study. Functional keyboard harmony, scales, transposition, score reading, accompaniments, sight-reading, improvisation, repertoire and skills required for specific majors. For music majors as required by degree track. Prerequisite: MUS 1020 with a grade of C- or placement by piano faculty.

1040 Keyboard Skills IV (2 sh)

For students with a minimum of 3-5 years of piano study. A highly focused and practical approach to the performance of music materials commonly used in music education and worship programs. Areas of study include: advanced score reading using C clefs; transpositions, and keyboard improvisation. For music majors as required by degree track. Prerequisite MUS 1030 with a grade of C- or by placement of piano faculty.

1060 Fundamentals of Music I (1 sh)

Study of pitch and rhythmic notation, meter, key signatures, major scales. Designed as a remedial class for music students or as an introductory class for non-majors. Does not fulfill GE requirements or music major elective requirements.

1065 Fundamentals of Music II (1 sh)

Continuation of MUS 1060. Study of rhythm and meter, minor scales, intervals. Does not fulfill GE requirements or music major elective requirements.

1080 Introduction to Musicianship (4 sh)

An introduction to basic skills and concepts that are foundational to further studies in music. Topics in music theory, aural skills and keyboard harmony will be taught against the contextual background of a broad overview of stylistic periods in music history. Prerequisite: MUS 1060 or placement test.

1110 Aural Skills I (2 sh)

Sight singing and ear training through an aural approach to music rudiments including recognition, reproduction, and dictation. Includes rhythms, scale degrees, intervals, melodies and harmony in diatonic music of graded difficulty. Prerequisite: MUS 1080 or placement test.

1120 Aural Skills II (2 sh)

Continuation of sight singing and ear training through an aural approach to music rudiments including recognition, reproduction, and dictation. Includes rhythms, scale degrees, intervals, melodies and harmony in a diatonic music of graded difficulty. Prerequisite: MUS 1110 with a minimum grade of C- or placement test.

1600 El Sistema (1 sh)

An introduction to the El Sistema Philosophy of Music Instruction. The course will include information about the history of El Sistema; current developments in the movement; specific case studies of El Sistema-inspired programs in Venezuela, the United States and other countries; and other pertinent topics related to this philosophy of music instruction. Resources from greater Chicago and YOURS community will be linked to the curriculum of this course.

2000 Introduction to Composition (2 sh)

Introduction to the craft of composition. Exercises and guided projects aimed at honing technique and developing a personal voice. Co-requisite: MUS 2130 or by permission of instructor.

2050 Contemporary American Popular Music (2 sh) GE

A study of American popular music from the birth of rock-and-roll in the 1950s to the present. The basic elements of music will also be covered. Individual works are analyzed and placed within their cultural and historical frameworks. Listening and analysis.

2060 World Music in Cultural Perspective (4 sh) GE

An introduction to the cultures and historical developments of major world regions and their global interactions, focusing on the nineteenth, twentieth, and twenty-first centuries, using music as the primary form of cultural analysis. Music will be studied from an ethno-musicological perspective to provide insight into several world cultures and the historical events that shaped them. Listening and analysis will be components of this course.

2080 Applied Methods: Brass (1 sh)

Introduction to the fundamentals of applied techniques specific to various instruments in the brass family.

2081 Applied Methods: Woodwind (1 sh)

Introduction to the fundamentals of applied techniques specific to various instruments in the woodwind family.

2082 Applied Methods: Percussion (1 sh)

Introduction to the fundamentals of applied techniques specific to various instruments in the percussion family.

2083 Applied Methods: Strings (1 sh)

Introduction to the fundamentals of applied techniques specific to various instruments in the string family.

2110 Aural Skills III (2 sh)

Sight singing and ear training through an aural approach to more advanced music including recognition, reproduction, and dictation. Includes rhythms, intervals, an introduction of chromaticism in scale patterns, melodies, and harmony. Prerequisite: MUS 1120 with a minimum grade of C- or placement test.

2120 Aural Skills IV (2 sh)

Sight singing and ear training through an aural approach to advanced music including recognition, reproduction, and dictation. Includes rhythms, intervals in an atonal context, more advanced chromaticism in scale patterns, melodies, harmony, and formal analysis. Prerequisite: MUS 2110 with a minimum grade of C- or placement test.

2130 Music Theory I (2 sh)

Study of basic elements of diatonic music. Topics include triadic harmony, non-chord tones, melodic organization, phrase structure, cadences. Prerequisite: MUS 1080 or placement test.

2140 Music Theory II (2 sh)

Continuing study of the principles of diatonic music. Topics include elements of melodic structure; pitch and rhythm, embellishing tones, melodic form and composition, and part writing with triads and seventh chords. Prerequisite: MUS 2130 with a minimum grade of C- or placement test.

2155 Technology in Music (2 sh)

An introduction to current software programs and their applications for music education, composition and production. Music graphics, sequencing and pedagogical software and hardware will be used in this course. Prerequisite: MUS 2130 or by permission of instructor.

2210 Integration (1 sh)

Provides feedback and coaching for students involved in regular campus worship services. Team building, music selection, technical aspects and spiritual components of worship leading are discussed. May be repeated for credit.

2401 Lyric Diction: IPA and Latin (1 sh)

An overview of the sounds of Latin and basic rules for pronunciation using the International Phonetic Alphabet. Previous language study is desirable but not necessary. A supplement to traditional language study focusing on authoritative pronunciation for the unique needs of singers and choral conductors. Includes lecture, written tests, and assignments. This course is a prerequisite for all other diction courses. Cross-listed as MUS 5421. Prerequisites: 2 Semesters of AMUS 1200

2402 Lyric Diction: Spanish and English (1 sh)

An overview of the sounds of Spanish and English and basic rules for pronunciation using the International Phonetic Alphabet. Previous language study is desirable but not necessary. A supplement to traditional language study focusing on authoritative pronunciation for the unique needs of singers and choral conductors. Includes lecture, written tests, and assignments. Cross-listed as MUS 5422. Prerequisite MUS 2401.

2403 Lyric Diction: Italian (1 sh)

An overview of the sounds of Italian and basic rules for pronunciation using the International Phonetic Alphabet. Previous language study is desirable but not necessary. A supplement to traditional language study focusing on authoritative pronunciation for the unique needs of singers and choral conductors. Includes lecture, written tests, and assignments. Cross-listed as MUS 5423. Prerequisite MUS 2401.

2404 Lyric Diction: German (1 sh)

An overview of the sounds of German and basic rules for pronunciation using the International Phonetic Alphabet. Previous language study is desirable but not necessary. A supplement to traditional language study focusing on the authoritative pronunciation for the unique needs of singers and choral conductors. Includes lecture, written tests, and assignments. Cross-listed as MUS 5424. Prerequisite MUS 2401.

2405 Lyric Diction: French (1 sh)

An overview of the sounds of French and basic rules for pronunciation using the International Phonetic Alphabet. Previous language study is desirable but not necessary. A supplement to traditional language study focusing on authoritative pronunciation for the unique needs of singers and choral conductors. Includes lecture, written tests, and assignments. Cross-listed with MUS 5425. Prerequisite MUS 2401.

3000 Music Bibliography (1 sh)

An introduction to the basic canon of library resources in music research. Study will include general library resources, bibliographies of composers, music, music literature, and music sources. It will give a broad view of dictionaries, encyclopedias, discographies, dissertations, and *Festschriften* as well as histories, library catalogs, periodicals, periodical indexes, thematic catalogs, monuments and electronic resources. A key project in the class will be providing an appropriate bibliography for a selected research topic. Cross-listed with MUS 5000. Prerequisite: MUS 2140.

3010 Music History and Literature I (4 sh) GE

This survey of the history of western music from the Baroque period through the mid-Romantic period is designed to familiarize students with the genres, musical styles and important personalities of the eras. Through active listening and analysis, students will become familiar with the musical styles of the periods. Structured writing assignments will reflect professional scholarship in the field of music. Prerequisite: MUS 2140.

3015 Medieval and Renaissance Music (2 sh)

A historical study of music, compositional techniques and aesthetic concepts beginning with Ancient Greece and Rome, the Middle Ages proceeding through the late Renaissance. Listening and analysis. Pre/Co-requisite: MUS 2140.

3020 Music History and Literature II (2 sh) GE

This survey of the history of western music from the late Romantic period through the present time is designed to familiarize students with the genres, musical styles and important personalities of the eras. Through active listening and analysis, students will become familiar with the musical styles of the periods. Structured writing assignments will reflect professional scholarship in the field of music. Prerequisite: MUS 3010 or permission of instructor.

3025 Baroque Music (2 sh) GE

A historic survey of instrumental, vocal and operatic music literature from the development of figured bass to the works of Johann Sebastian Bach. Reading, listening and analysis. Co-requisite: MUS 2140.

3035 Music of the Classic Period (2 sh)

A survey of the Classical Period in the eighteenth century through the mature works of Haydn, Mozart and Beethoven. Reading, listening and analysis. Co-requisite: MUS 2140.

3045 Music of the Romantic Era (2 sh) GE

Using Masterworks from the early nineteenth century, an introduction to the main genres and styles of Romanticism through the late Romantic music of Mahler, Strauss and Bruckner. Reading, listening and analysis. Co-requisite: MUS 2140.

3065 20th Century to the Present (2 sh)

The main genres and compositional techniques of European and American mainstream music. Major twentieth century aesthetic concepts and issues, (such as Impressionism, Symbolism, Expressionism, the Second Viennese School, Primitivism, Futurism, Neoclassicism, Nationalism, Serialism, and the international Avant-Gardes) will be analytically studied. Co-requisite: MUS 2140.

3075 Jazz History (2 sh)

A survey of the history of jazz. The material will be approached through selected readings, recorded listening examples, classroom discussion, and special projects.

3080 Pedagogical Methods: Brass (1 sh)

Intermediate applied techniques and pedagogical methods for teaching beginning and intermediate players. Prerequisite: MUS 2080.

3081 Pedagogical Methods: Woodwinds (1 sh)

Intermediate applied techniques and pedagogical methods for teaching beginning and intermediate players. Prerequisite: MUS 2081.

3082 Pedagogical Methods: Percussion (1 sh)

Intermediate applied techniques and pedagogical methods for teaching beginning and intermediate players. Prerequisite: MUS 2082.

3083 Pedagogical Methods: Strings (1 sh)

Intermediate applied techniques and pedagogical methods for teaching beginning and intermediate players. Prerequisite: MUS 2083.

3130 Music Theory III (2 sh)

Study of principles of chromaticism in tonal music, including secondary functions, modulation, mode mixture, altered pre-dominants and other advanced chromatic harmony. Formal analysis, introduction to counterpoint, study of inventions and fugue. Short composition projects and analysis of 19th century works. Prerequisite: MUS 2140 with a minimum grade of C- or placement test.

3140 Music Theory IV (2 sh)

Study of compositional techniques in late 19th and 20th century music. Topics include linear chromaticism, use of synthetic scales and modes, post-tonal techniques in both centric, freely atonal and serial contexts. Introduction to pitch-class set theory. Analysis of major works in each of these areas. Prerequisite: MUS 3130 with a minimum grade of C- or placement test.

3150 Jazz/Pop Theory (2 sh)

Harmonic studies in jazz and pop idioms. Literature analysis, harmonization of melodies, keyboard realization and voicing. Projects include small arrangements and original compositions. Prerequisite: MUS 3130.

3155 Jazz Keyboard (2 sh)

This class will include the voicing of jazz chords; the techniques of harmonization; an exposure to jazz styles on the piano; and other appropriate concepts, building on the knowledge gleaned in MUS 3150 - Jazz/Pop Theory. Prerequisite: MUS 3150.

3170 Conducting I (2 sh)

Beginning and intermediate conducting skills: beat patterns, baton technique, use of face, eyes, left hand; basic rehearsal planning; score preparation; psychology of conducting. An introduction to choral and instrumental methods and materials. Co-requisite: MUS 2140 or placement test.

3180 Conducting II (2 sh)

An advanced study of the conducting concepts covered in MUS 3170. A more in-depth exploration of choral and instrumental methods and materials for the purpose of developing skills in applied musicianship. Prerequisite: MUS 3170.

3200 String Pedagogy and Literature I (2 sh)

Pedagogy: examination of string techniques and pedagogical materials for teaching the beginning years of string playing. Supervised teaching and observation. Literature: historical approach to important string genres including the concerto, sonata, and chamber idioms from pre-Baroque through the twentieth century. Listening, score study, and performance practice. Prerequisites: 2 Semesters of AMUS registration.

3210 String Pedagogy and Literature II (2 sh)

A continuation of MUS 3200. Prerequisite: MUS 3200.

3300 Piano Pedagogy and Literature I (2 sh)

Pedagogy: methods and techniques of teaching. Supervised teaching and observation. Literature: study of masterworks from the 18th century through the middle of the 19th century with an emphasis on listening. Prerequisites: 2 Semesters of AMUS 1110.

3307 Materials and Methods for Elementary Music (2 sh)

An exploration of the current pedagogical practices with regard to elementary music education. Through the study of various musical philosophies and methodologies, along with the National Standards for Music Education, students will develop and practice appropriate lesson plans and assessment tools for teaching all types of learners the basic elements common to most music curricula. A survey of the most widely used pedagogical systems in music education (Orff, Kodaly, and Dalcroze) will be featured. Other topics include: theories of music learning, testing and measurement, assessment, multicultural resources and their applications, technology in the music classroom, arts integration strategies, and building a defense for arts in education. Prerequisite: EDUC 3510.

3310 Piano Pedagogy and Literature II (2 sh)

Pedagogy: methods and techniques of teaching. Supervised teaching and observation. Literature: study of masterworks from the middle 19th century to present day with an emphasis on listening. Prerequisite: MUS 3300.

3401 Vocal Pedagogy I (1 sh)

Physiology of the voice and pedagogical methods for teaching singing. Mentored clinical teaching with in-class observation and critique. Tests cover text and lectures. Cross-listed with MUS 5401. Prerequisite: two semesters of AMUS 1200.

3402 Vocal Pedagogy II (1 sh)

A continuation of MUS 3401: Physiology of the voice and pedagogical methods for teaching singing. Mentored clinical teaching with in-class observation and critique. Tests cover text and

lectures. Research paper on a voice related topic, either in the area of voice science or pedagogy. More emphasis on clinical teaching. Cross-listed with MUS 5402. Prerequisite: MUS 3041.

3408 Secondary Choral Methods and Materials (1 sh)

Philosophies, techniques, methodologies, and administration of secondary school music programs for general music and vocal programs including curriculum, unit/lesson/rehearsal planning, vocal techniques, performance practice, conducting, skill building, and technology integration. Students will examine common challenges associated with secondary choral programs including advocacy, diverse learning populations, and various choral ensembles such as show choir. Relevant materials, resources, and repertoire will be examined to enable students to effectively teach from perspectives that are intentionally multicultural and interdisciplinary, and stylistically diverse. Prerequisite: EDUC 3170, 3510. Co-requisite: EDUC 3520 (required).

3409 Secondary Instrumental Methods and Materials (1 sh)

Philosophies, techniques, methodologies, and administration of secondary school music programs for instrumental music programs including an overview of relevant repertoire, computer technologies, multicultural resources for concert band, orchestra, jazz ensemble, marching band, chamber ensembles, and class guitar. Prerequisite: MUS 3408.

3410 Vocal Literature (2 sh)

Art song literature for the solo voice from the late 16th century to the present. Prerequisites: 2 Semesters of AMUS 1200.

3450 Opera Workshop (0 or 1 sh)

Emphasis is on the development of singing-acting skills through lecture, discussion, and exercises in character interaction using appropriate staging techniques. A scene recital is presented at the conclusion of the course. Scenes may be performed in a foreign language or in English. By audition. Cross-listed with MUS 5450.

3455 Opera Production (0 or 1 sh)

For a select group of experienced singers cast through auditions by instructor. The skills developed in scene recital work will be called upon in this intensive preparation for a complete opera production. Chamber and full-length operas will be performed in yearly alternation, and may be performed in a foreign language or in English. Chamber operas will be performed with piano or an instrumental ensemble, and full-length operas will be with orchestra. Cross-listed with MUS 5455.

3500 Introduction to Arts Administration (2 sh)

An introductory arts administration course that will approach a broad range of topics related to the nonprofit arts sector. The course will include lectures, discussions, readings, guest speakers and visits to arts organizations in the region. Prerequisite: BSE 2211, NONP 3710.

3600 Brass Pedagogy and Literature I (2 sh)

Methods and techniques of teaching the beginning years of brass playing. Observation of Chicago area teachers. Supervised teaching. Prerequisite: two semesters of AMUS 1400, 1410, 1420, 1440, or 1450.

3610 Brass Pedagogy and Literature II (2 sh)

Study of major solo works and orchestral excerpts from the 17th century to the present with an emphasis on listening and performance practice. Prerequisite: MUS 3600

3620 Woodwind Pedagogy and Literature I (2 sh)

Methods and techniques of teaching the beginning years of woodwind playing. Observation of Chicago area teachers. Supervised teaching. Prerequisite: two semesters of AMUS 1500, 1510, 1520, 1530 or 1540.

3630 Woodwind Pedagogy and Literature II (2 sh)

Study of major solo works and orchestral excerpts from the 17th century to the present with an emphasis on listening and performance practice. Prerequisite MUS 3620.

3640 Guitar Pedagogy and Literature I (2 sh)

Methods and techniques of teaching the beginning years of guitar playing. Observation of Chicago area teachers. Supervised teaching. Prerequisites: 2 Semesters of AMUS 1340.

3650 Guitar Pedagogy and Literature II (2 sh)

Study of major solo works and orchestral excerpts from the 17th century to the present with an emphasis on listening and performance practice. Prerequisite: MUS 3640.

3660 Church Music Literature (1 sh)

A survey of Christian sacred music meant to be performed by choirs (adult and children), organ, hand bells, and other ensembles, from various historical time periods and cultural groups, highlighting works appropriate for local church settings. Prerequisite: MUS 3170.

3670 Congregational Music for the 21st Century Church (1 sh)

A survey of music for the gathered community to sing together in the context of Christian worship. Historical, contemporary and global resources will be explored, including a survey of Christian hymnody, Taize, contemporary praise and worship, African American gospel, and songs from the world-wide church. Prerequisite: MUS 3170.

3690 Youth Orchestra Techniques (2 sh)

The course will focus on orchestra pedagogy; youth orchestra rehearsal techniques; strategies for building an orchestra program through rehearsal and repertoire choices; rehearsal psychology with a specific emphasis on the unique context of YOURS (ethnic and cultural diversity, poverty, and others).

3700 Brass Ensemble (0 or 1 sh)

Open to qualified performers, the Brass Ensemble explores original and transcribed music for brass from all periods. Performances include concerts, chapel services, and ceremonial opportunities.

3710 Jazz Combo (0 or 1 sh)

A select group of musicians determined by audition. Jazz music of all eras is studied, with an emphasis on individual improvisation.

3725 Woodwind Ensemble (0 or 1 sh)

The ensemble provides experience in small groups of mixed and/or similar woodwinds, depending on enrollment. Repertory will be selected according to available instrumentation. Emphasis on developing chamber music skills including intonation, ensemble, style, and interpretation.

3750 Chamber Music/Strings (0 or 1 sh)

Small performing groups with two or more participants pursue the study and performance of literature for duos, trios, quartets, etc., with weekly faculty coaching. By audition.

3760 Percussion Ensemble (0 or 1 sh)

Open to qualified performers, this ensemble will explore repertoire for diverse percussion combinations. Emphases will be on musicianship and versatility. Repertoire will be selected based on available instrumentation.

3770 Chamber Music Ensemble (0 or 1 sh)

Open to qualified performers, this ensemble will explore repertoire for diverse instrumental and vocal combinations. Repertoire will be selected based on available instrumentation.

3800 Handbell Choir (0 or 1 sh)

An ensemble that rehearses and performs handbell literature. Members may have an opportunity to conduct and compose for the ensemble.

3850 Guitar Ensemble (0 or 1 sh)

The North Park Classical Guitar Ensemble is a performance course similar to the String and Wind Ensembles currently offered by the School of Music. Students will form guitar trios, duos, and quartets. They will study and perform an extensive array of guitar ensemble literature spanning the Renaissance Era through the 21st Century. The guitar ensemble will perform a minimum of 2 times each semester, once on the Student Chamber Music Concert and once on the Thursday afternoon general recital. In the event there is not a scheduled Student Chamber Performance, the ensemble will explore other performance opportunities or, at the very least, appear twice on the Thursday afternoon general recital. Additional performances throughout the semester will be encouraged. In addition to class time, student practice and preparation time will be required.

3890 Chamber Singers (0 or 1 sh)

The Chamber Singers is a small, select group of singers, that performs music from many and diverse styles and periods. The goal for this ensemble is to function as a group of soloists in the true chamber style, performing music that profits from intimate renderings. Students participate in multiple performances both on and off campus including regular national and foreign tours. Auditions are competitive and based on the needs of the ensemble. Cross-listed with MUS 5890.

3910 Topics in Music (1-4 sh)

Periodic intense investigations of selected topics such as: The Entrepreneurial Musician, Single Composer Survey, Film Music, Performer's Health, Advanced Music Theory, Jazz Improvisational Techniques and others. Prerequisite: MUS 1080.

4000 Departmental Honors in Music (3 sh)

Advanced study and/or performance project for selected students. (For specific eligibility requirements, see the Honors heading near the beginning of the School of Music section.)

4150 Counterpoint (2 sh)

Study of the principles of counterpoint through analysis of Baroque era contrapuntal genres and written exercises using a modified species approach. Prerequisite: MUS 3130.

4160 Orchestration (2 sh)

A study of the ranges, techniques, timbres, and scoring of traditional orchestral instruments. Arranging for small instrumental ensembles is emphasized. Prerequisite: MUS 3130.

4165 Songwriting (2 sh)

Introduction to the craft of songwriting. Exercises and guided projects aimed at writing and setting original lyrics as well as existing texts. Emphasis on songwriting related to faith expression. Prerequisite: MUS 2140 or consent of instructor.

4175 Arranging (2 sh)

Practical techniques of arranging music for a variety of vocal and instrumental mediums and in a variety of stylistic genres. Focus

on arranging for small ensembles found both in school and church contexts. Prerequisite: MUS 3130.

4250 Practice and Aesthetics of Church Music (2 sh)

Introduction to biblical foundations for Christian worship and a survey of the wide spectrum of practices and theology expressed in worship arts, especially music. Visits and observation of Chicago area congregations. The use of aesthetic judgment in evaluating music and art used in worship. The worship leader's role as educator and change agent in the context of a servant leadership model. Students develop evaluative tools to facilitate these goals and articulate a personal philosophy of church music ministry. Prerequisite: MUS 3170.

4910 Independent Study in Music (1-4 sh)

Study project as proposed by the student and approved by the faculty

4970 Internship in Music (1-4 sh)

Students have an opportunity to work with a variety of professional organizations, including churches, in fields such as radio, arts management and church choir/music ministry leadership. Please see the internship section of the catalog for requirements and guidelines.

Applied Music (AMUS)

Undergraduate music majors, minors, and students concurrently registered in an approved ensemble are allowed to register for applied music for credit; other students may register for non-credit applied instruction (AMUS 1000). All applied lessons for credit have an applied music fee per credit set by the institution each year; there is a separate fee for non-credit applied instruction. 1 sh covers 30 minutes of instruction per week; 2 sh covers 60 minutes of instruction per week. Please see the School of Music Undergraduate Handbook for more information.

These applied courses involve one-on-one instruction, and the repertory studied is primarily classical. Instructor placement and registration are by permission of the specific applied area supervisor.

- 1110 Piano (1 or 2 sh)
- 1120 Harpsichord (1 or 2 sh)
- 1130 Organ (1 or 2 sh)
- 1200 Voice (1 or 2 sh)
- 1300 Violin (1 or 2 sh)
- 1310 Viola (1 or 2 sh)
- 1320 Violoncello (1 or 2 sh)
- 1330 String Bass (1 or 2 sh)
- 1340 Guitar (1 or 2 sh)
- 1350 Harp (1 or 2 sh)
- 1400 Trumpet (1 or 2 sh)
- 1410 Trombone (1 or 2 sh)
- 1420 Horn (1 or 2 sh)
- 1440 Euphonium (1 or 2 sh)
- 1450 Tuba (1 or 2 sh)
- 1500 Flute (1 or 2 sh)
- 1510 Clarinet (1 or 2 sh)
- 1520 Saxophone (1 or 2 sh)
- 1530 Oboe (1 or 2 sh)
- 1540 Bassoon (1 or 2 sh)
- 1600 Percussion (1 or 2 sh)

These applied courses involve one-on-one instruction, and the repertory studied is primarily non-classical. Instructor placement and registration are by permission of the specific applied area supervisor.

- 2110 Jazz Piano (1 or 2 sh)
- 2120 Gospel/Contemporary Piano (1 or 2 sh)
- 2130 B-3 Organ (1 or 2 sh)
- 2200 Contemporary Voice (1 or 2 sh)
- 2330 Jazz/Contemporary Bass (1 or 2 sh)
- 2340 Jazz/Contemporary Guitar (1 or 2 sh)
- 2400 Jazz Trumpet (1 or 2 sh)
- 2410 Jazz Trombone (1 or 2 sh)
- 2520 Jazz Saxophone (1 or 2 sh)
- 2600 Drum Set (1 or 2 sh)

2700 Applied Jazz - for instruments not listed with specific course numbers (1 or 2 sh)

Additional Applied Courses:

1000 Non-Credit Instruction (0 sh)

Students may register for this course only with the permission of the School of Music Director of Operations

1135 Class Voice (1 sh)

This course involves beginning voice instruction in a group setting.

1335 Class Guitar (1 sh)

This course involves beginning guitar instruction in a group setting.

3000 Coaching (1 or 2 sh)

This course involves work with a coach, one-on-one, who works on interpretive matters with the student: this course would supplement applied study.

3010 Composition (1 or 2 sh)

This course involves one-on-one instruction in composition.
Prerequisite: MUS 2000

3190 Conducting (1 or 2 sh)

This course involves one-on-one instruction in conducting.
Prerequisite: MUS 3180

3350 Collaborative Piano (1 or 2 sh)

This course offers training in the specialized skills needed to accompany vocal/instrumental solos, choirs and opera productions.

Recital Registration (see the School of Music Undergraduate Handbook for more information):

2900 Special Recital (0 sh)

Students who desire to perform recitals not required by their degree tracks should register for this course in the semester in which the recital is performed.

3900 Third-Year Recital (0 sh)

Students required by their degree tracks to perform recitals should register for this course in the semester in which the recital is performed, most typically during the junior year.

4900 Fourth-Year Recital (0 sh)

Students required by their degree tracks to perform recitals should register for this course in the semester in which the recital is performed, most typically during the senior year.

Nonprofit Management (NONP)

Lindahl (dean), Farruggia, Fitzgerald, Gavor, Hicks, Hubbard, Kamienski, Marsh, Rogers, Schilling, Sundholm

For admittance into the major, an overall GPA of 2.50 is required. A student must also earn a minimum grade of C- in each of these two courses: BSE 2211 and NONP 2710.

Students transferring courses into the major from outside North Park must still take at least one half of the required courses in their degree program at North Park. For example, students earning a Bachelor of Arts degree must take 20 semester hours in the major at North Park. Students need not retake a similar course at North Park to fulfill the requirement, but may take any courses with a BSE or NONP designation.

Students are also required to have a minimum grade of C- in any major course beyond the initial two courses. A GPA of 2.50 in the major courses and a GPA of 2.00 overall at North Park is required for graduation from the University with this major. Students dropping below 2.50 in the major are required to meet with their advisor to develop a plan to repeat courses to bring up their GPA before taking additional courses. The dean of the School of Business and Nonprofit Management must approve the plan. Students failing to complete their plan successfully are subject to dismissal from the major.

Students begin their program with macroeconomics in order to gain an understanding of the context of nonprofit management and complete their program with comprehensive courses in leadership/management and nonprofit management.

Guiding Principles:

- To prepare students for service and significance in the fields of nonprofit management.
- To develop intellectual curiosity.
- To enable students to make ethical decisions.
- To develop analytical and quantitative skills.
- To develop learning disciplines and critical thinking skills.
- To develop written and oral communications skills.
- To prepare students for life-long learning.

Major requirements for the B.A. degree in Nonprofit Management

Required semester hours

40 sh

Prerequisites and supporting courses

COMM 1910, 2350, PHIL 2530, STAT 1490

Required core courses

BSE 2110, 2211, 2540, 2610, 3520, NONP 2710, 3300, 3600, 3710, 3750, 4700, SOC 1910

Notes and restrictions

Students are strongly encouraged to complete an internship (NONP 4970).

Major requirements for the B.S. in Nonprofit Management

Required semester hours

52 sh

Prerequisites and supporting courses

COMM 1910, 2350, PHIL 2530, STAT 1490

Required core courses

BSE 2110, 2211, 2520, 2540, 2610, 3520, NONP 2710, 3300, 3600, 3710, 3750, 4700, 4970, SOC 1910; 2100 or 3310, SBNM 5730 (graduate course, requires 3.0 GPA and senior status)

Required participation

Students must participate in the Nonprofit Leadership Club over two semesters and attend one Alliance Management Institute. Students are required to complete a 4 sh, 300 hour internship (NONP 4970): equivalent to two semesters of 10 hours per week, one semester of 20 hours per week, one summer of 25-30 hours per week, or some combination of these options.

Notes and restrictions

Students completing this major will also be completing the requirements for the Nonprofit Leadership Alliance certificate and Certified Nonprofit Professional (CNP) credential.

Minor Requirements in Nonprofit Management

Required semester hours

24 sh

Required core courses

BSE 2110, 2211, 2610, NONP 2710, 3300, 3600, 3710

Bachelor of Science Nonprofit Management/ Master of Nonprofit Administration

Following the four-year undergraduate degree in nonprofit management, the student would be able to waive the following five courses:

SBNM 5350 Nonprofit Financial Management

SBNM 5680 Nonprofit Marketing and Consumer Behavior

SBNM 5720 Nonprofit Board Governance and Volunteer Management

SBNM 5730 Nonprofit, Law, Policy, and Government Relations

SBNM 5710 Principles of Nonprofit Management

The Master of Nonprofit Administration degree would be completed by taking the remaining core courses and seven elective courses as presented in the graduate section of the catalog.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

2710 Introduction to Nonprofit Management and Leadership (2 sh)

The introductory course will give students an overview of America's nonprofit sector as it relates to both the for-profit business and government sectors. Emphasis will be on the history, purpose and theories for the sector, the legal and regulatory environment, efforts to improve ethics and accountability, the sector's economics and funding environment, trends in evaluation and outcome measurement, and general management problems and principles. The course will also discuss opportunities for personal growth and career advancement available in the sector and highlight skills and training needed to succeed. Cross-listed with NPM 4170.

3300 Nonprofit Financial Management Organizations (2 sh)

This course addresses the financial management of nonprofit organizations. This includes both financial reporting and managerial finance. Topics include 1) Financial Accounting principles and practices; 2) Managerial accounting methodology; 3) Compliance, and 4) Measuring and managing program performance. The course examines current trends in nonprofit financial management and integrates financial management with recent federal legislation. Cross-listed with NPM 4190. Prerequisite: BSE 2110, NONP 2710.

3600 Advanced Nonprofit Marketing and Fundraising (4 sh)

Addresses the main processes that nonprofits use to interact with internal and external audiences for the purpose of building public and financial support for their missions. Current trends and best practices in nonprofit marketing and fundraising. Identifies and addresses ethical issues related to fundraising and marketing. Cross-listed with NPM 4200. Prerequisite: BSE 2610, NONP 2710.

3710 Nonprofit Governance and Volunteer Management (4 sh)

This course is designed to improve students' understanding of the elements, processes and dynamics of board governance and volunteer management of nonprofit organizations. The course includes analysis of the respective roles of the board, chief executive, staff and volunteers to maximize organizational effectiveness. Students will learn how to assess and improve the effectiveness of a board, the senior leadership, volunteers and the overall governance of the non-profit organization. Cross-listed with NPM 4180. Prerequisite: NONP 2710.

3750 Social Entrepreneurship and Sustainable Business Models (2 sh)

The course examines the history and practice of the groundbreaking field of social entrepreneurship, and how a new brand of entrepreneurs are using market-focused, innovative approaches to address the world's most pressing social and environmental issues. Within the context of sustainable business models for nonprofit organizations, a wide range of earned-income and other social enterprise strategies will be discussed. Prerequisite: NONP 2710. Prerequisite: NONP 2710.

3920 Advanced Topics in Nonprofit Mgmt. (1-4 sh)

This is a topics course allowing the School of Business to grant undergraduate credit for selected graduate courses taken through SBNM.

4700 Advanced Nonprofit Management and Leadership (4 sh)

Provides students with advanced knowledge and understanding of the management and leadership of nonprofit organizations. Students will gain theoretical and practical knowledge of the most essential leadership skills and attributes, as well as management functions exercised in nonprofit organizations. Students will participate in application experiences, individual and group projects, and organization assessments. Prerequisite: NONP 2710, 3300, 3600, 3710. Prerequisite: NONP 2710, NONP 3300, NONP 3600, NONP 3710.

4910 Independent Study in Nonprofit Management Economics (1-4 sh)**4970 Internship in Nonprofit Management (1-4 sh)**

The Internship Program provides an opportunity for students to gain hands-on experience and to explore career options in their chosen field. The student earns four semester hours for their internship. The internship program is open to any North Park student who has completed at least one full year of study at North Park, has third- or fourth-year status and has a minimum GPA of 2.5 in their major. In addition, the student must apply and be accepted by a

faculty sponsor and the Internship Committee. The faculty sponsor will monitor the student's progress throughout the internship, including meeting periodically with the student and maintaining contact with the site supervisor. During the course of the internship, interns must fulfill certain requirements. Interns will keep a daily journal of their activities throughout the internship. The faculty sponsor and the site supervisor may, at their discretion, assign certain reading materials to the intern. In addition, the faculty sponsor may assign a final paper. Finally, the intern must work for a minimum of 300 hours at an eligible nonprofit organization. Tuition is charged at the same rate as for other courses, based on the number of semester hours the student is requesting. Grading for all internships is Pass/Fail. Prerequisite: BSE 2211, 2540, 2610, NONP 2710.

Norwegian (NORW)

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1010 **Basic Norwegian I (4 sh)** GE

Introduction to contemporary Norwegian through materials relating to culture and civilization, with equal emphasis on listening, speaking, reading, and writing. No credit for NORW 1010 will be granted to students who have more than two years of high school Norwegian within the last five years.

1020 **Basic Norwegian II (4 sh)** GE

Introduction to contemporary Norwegian through materials relating to culture and civilization, with equal emphasis on listening, speaking, reading, and writing. Prerequisite: NORW 1010.

2010 **Intermediate Norwegian I (4 sh)**

Review and reinforcement of Norwegian grammar. Discussion based on reading of materials on everyday situations. Daily practice in conversation. Currently taught at the University of Oslo. Prerequisite: NORW 1020.

2020 **Intermediate Norwegian II (4 sh)**

Extensive reading of simple literary works of high quality to develop reading comprehension. Theme writing based on the assigned texts and on contemporary topics to achieve a higher degree of proficiency in writing skills. Currently taught at the University of Oslo. Prerequisite: NORW 2010.

3150 **Advanced Norwegian (4 sh)**

Intensive study of vocabulary, conversation, composition, idiom, and grammar to strengthen self-expression and fluency. Prerequisite: NORW 2020.

Nursing (NURS)

L. Duncan (dean), Andrea, Benevich, Burns, Coakley, Cullen, H. Duncan, Fogel, Hobart, Kotowski, Loukissa, Lynch, Wang, and Wojciechowski.

The mission of the School of Nursing is to prepare professional nurses for lives of significance and service through baccalaureate and graduate nursing education within the Christian tradition. Our vision is the creation and maintenance of a culture of excellence in nursing education grounded in the compassion of Christ. To this end, the curriculum of the School of Nursing is based on a “caring philosophy.”

The School of Nursing offers a four-year program that leads to a Bachelor of Science in Nursing. Successful completion of the program qualifies the graduate to apply for the professional nurse licensing examination, NCLEX-RN.

The curriculum consists of three parts: general education, nursing prerequisites, and courses in the nursing major. Together these courses provide the student with the knowledge and skills needed for beginning practice in professional nursing.

Students are urged to complete a Major Declaration Form by the end of the first year. Official acceptance into the nursing major comes after the completion of all nursing prerequisite courses and is contingent upon the student having achieved a cumulative grade point average of 2.75 or higher, and a minimum of C in all prerequisite courses. No more than two prerequisite courses may be repeated and only one of those may be a science course. Standardized testing is an integral part of the nursing evaluation process, beginning prior to acceptance into the major and continuing throughout the program. Students are required to pass the Test of Essential Academic Skills (TEAS) examination from Assessment Technologies Institute (ATI) with a proficiency level of “Proficient” or better. Passing a comprehensive standardized examination is required prior to graduation.

Transfer students may be accepted into the University at any level prior to the fourth year. However, transferring into the nursing major may involve additional time as general education, prerequisites, or nursing courses may not always fit well with North Park University’s curriculum. Generally, nursing courses from other nursing programs do not transfer; however, the School of Nursing faculty will evaluate such courses for equivalence and appropriate allocation of transfer credit. Criteria for entrance into nursing, e.g. cumulative grade point average and minimum grade on all prerequisite courses, is the same for transfer students as for other students.

Accreditation

The programs for pre-licensure and registered nurses are accredited by:

The Commission on Collegiate Nursing Education
One Dupont Circle, NW
Suite 530
Washington, DC 20036-1120

Clinical Facilities

The School of Nursing has affiliations with more than 80 clinical agencies used for supervised clinical practice at both undergraduate and graduate levels. These affiliations include: Chicago Department of Public Health, , Ann & Robert H. Lurie Children’s Hospital of Chicago, Evanston Hospital, Glenbrook Hospital, Lake County Department of Public Health, Lutheran General Hospital, Swedish Covenant Hospital, Highland Park Hospital, Skokie Hospital, Northwestern Lake Forest Hospital, Northwestern Memorial Hospital, Rehabilitation Institute of Chicago, Chicago Lakeshore Hospital, Saint Joseph Hospital, Saint Francis Hospital, and home health-care agencies such as Lawndale Christian Health Center.

Learning Labs and Simulation Center

The School of Nursing maintains a Learning Resource Center and a Simulation Center. The Delores H. Johnson Memorial Nursing Laboratory, is used by students for independent study and the practice of nursing skills. The School of Nursing Simulation Center enables students in Nursing to practice critical skills in a simulated safe learning environment.

Additional Expenses

Estimated additional expenses for nursing students include uniforms, clinical & lab fees for each clinical nursing course, costs of health examinations, vaccinations, and standardized examination fees. Further specification of health requirements is explained in the Nursing Baccalaureate Prelicensure Student Handbook. Students must also plan on transportation expenses associated with travel to agencies and other settings for clinical laboratory. Students are responsible for their own transportation. Costs in the spring term of fourth year are higher because of the need for a car (or equivalent transportation costs) for community health visits.

Major requirements for the B.S. in Nursing (Pre-licensure Students)

Required semester hours

53 sh

Prerequisites and supporting courses

BIOL 1250, 1260, 2910, 2930; CHEM 1021 and 1031; NPJ 1000; STAT 1490; PSYC 1000, 2700; SOC 1910; NURS 2150, 2540. Many of the prerequisites in Nursing also count toward the fulfillment of Core Curriculum requirements.

Required core courses

NURS 2100, 3020, 3030, 3201, 3220, 3240, 3500, 3520, 3540, 4200, 4201, 4202, 4203, 4240, 4500, 4520, 4540, 4550

Notes and Restrictions

Students may take a proficiency test for NURS 2150 to be exempt from having to take this supporting course. No credit will be given for testing out of NURS 2150.

Once accepted into the major, students must earn a minimum of a C grade in each nursing course to progress. Only one nursing course may be repeated.

All nursing majors are required to successfully complete a comprehensive examination in order to receive approval to graduate from the School of Nursing and apply for professional nursing licensure.

Honors

For admission into the Departmental Honors program, students must reach fourth-year status. Admission requires an overall grade point average (GPA) of 3.5 with a minimum major GPA of 3.7 on a 4.0 system. Application for admission may be made upon completion of the spring term in the third year. For graduation with Honors in Nursing, students must earn minimum of 4 sh in NURS 4000 in addition to Nursing major requirements. For general Departmental Honors requirements and NURS 4000 course description, see appropriate sections of this catalog.

Special programs

Nursing International Exchange Programs: Established with School of Health Sciences, Jönköping University, Jönköping Sweden.

Selected nursing students meeting appropriate criteria may spend designated weeks while enrolled in the major to study and gain clinical experience in an international healthcare system.

2100 Survey of Professional Nursing (2 sh) GE

Introduces students to the mission, vision, philosophy, and distinctives of the North Park University School of Nursing; explores the concepts of professional nursing, the history of nursing and nursing education, the roles and settings where professional nurses practice, and envisions a preferred future for the profession

2150 Math for the Nurse Generalist (1 sh)

Math for the Generalist Nurse is designed to review basic math relevant to nursing pharmacology and provide the student with necessary knowledge and practice to master comprehensive dosage calculations in nursing practice. Prerequisite: NURS 2100.

2540 Applied Nutrition (2 sh)

Applies the science of nutrition to human needs throughout the life span. Includes major nutrition related health problems. Explores cultural and ethical issues and values related to nutrition, food consumption, hunger and the environment. Connects to Christian, urban, and international issues.

3000 Pathophysiology: RN (2 sh)

Examines physiologic changes occurring as a result of disease processes. Presents concepts of disease causality cell metabolism, injury and death, infection, and inflammation. Uses a systems approach.

3020 Introduction to Professional Nursing Practice (4 sh)

Introduces students to the foundational concepts and beginning skills required in professional practice. Includes lecture, lab, and clinical.

3030 Health Assessment (2 sh)

Integrates knowledge from the natural and behavioral sciences to focus on holistic health assessment of adults. Includes assessment of spiritual, cultural, developmental, and nutritional aspects. Considers ethnic variables of normal assessment. Course culminates with students performing and recording a complete health assessment. Students will describe the role of the nurse in health assessment.

3201 Nursing of Adults I (4 sh)

Based upon knowledge of liberal arts and sciences and basic nursing concepts, applies nursing theory to the care of adults with physiological disorders. The focus is patients who undergo surgery or have disorders in the respiratory, gastrointestinal, cardiovascular, and endocrine disorders. Applies theory and practice in acute care settings.

3220 Pharmacology in Nursing (2 sh)

Introduces basic pharmacological concepts including drug classification, drug actions; routes of administration, drug standards, legislation and control, and nursing implications for patient use.

3240 Pathophysiology (2 sh)

Explores major pathophysiology concepts using a physiological systems approach. Applies theories of etiology, pathogenesis, and clinical manifestations to common disease processes. Concepts from anatomy and physiology provide the foundation for exploring human dysfunction. Concepts learned in this course are basic to nursing practice.

3500 Nursing of Childbearing Families (4 sh)

Applies a caring philosophy and current knowledge, theory, and research to nursing care of diverse pregnant women, fetuses, newborns, and families. Explores cultural values, community resources, and ethical and spiritual issues related to childbearing. Uses acute and ambulatory care settings.

3520 Nursing of Children (4 sh)

Based upon knowledge of liberal arts and sciences and basic nursing concepts, nursing theory is applied to the care of ill children and their families. Emphasizes Family Centered Care. Theory and practice in ambulatory and acute care settings. Patients and families are from urban, suburban, or rural environments. The Christian mission is integrated in the plan of care. A caring philosophy directs interaction with culturally and spiritually diverse families.

3540 Ethics in Health Care (2 sh) GE

Issues and dilemmas in the health care system serve as a basis for examination of theories and principles of ethics. The spiritual domain is considered a valued context for decision-making.

3910 Topics in Health (2 sh)

Selected topics in health related areas. Restricted to third-year status or above, or consent of nursing faculty.

3920 Management of Cardiac Dysrhythmias (2 sh)

Focuses on identification and management of cardiac dysrhythmias. Provides students with basic information concerning cardiac functioning and conduction principles. Guides students through analysis and interpretation of rhythm strips, and management of various common arrhythmias.

3940 NCLEX-RN Review (1 sh)

Presents a comprehensive review of content areas with integration of nursing concepts and test-taking strategies as preparation for successful completion of the NCLEX-RN examination.

4000 Departmental Honors in Nursing (4 sh)

Honors independent research study; student completes individually selected nursing research project that includes all steps of the research process. Presents and defends project to nursing and University-wide faculty and community. Student must have completion of minimum of 90 sh; application for admission may be made upon completion of the third year. Special restrictions: School of Nursing approval; fourth-year standing; major GPA 3.7 on a 4.0; overall GPA 3.5. Co-requisite: NURS 4200, 4220, 4240, 4500, 4520.

4200 Psychiatric/Mental Health Nursing (4 sh)

Integrates knowledge of human development, behavior and psychological theory; places emphasis on increasing self-awareness and therapeutic use of self and milieu. With assistance and use of collaborative skills, students develop decision-making skills in the psychiatric-mental health care delivery system in a way that communicates respect and understanding.

4201 Nursing of Adults II (4 sh)

Based upon knowledge of liberal arts and sciences and Nursing of Adults I, nursing theory is applied to the care of adults with physiological disorders. The focus is patients who have cardiovascular, peripheral vascular, neuromuscular and renal disorders typically seen in older adults. Applies theory and practice in acute care settings. Co-requisite: NURS 4202.

4202 Concepts in Gerontology (2 sh)

Focus is on being old in America and transitions that impact health of older adults and families. Explores issues related to the health

care industry, access to health care, and health care management. Considers culturally specific issues, and ethics of health care at the end of life. Incorporates priorities of Healthy People 2010 and ANA standards of practice for gerontological nursing. Co-requisite: NURS 4201.

4203 Concepts of Gerontology Internship (1 sh)

Applies gerontological concepts in student-selected activities. Students identify, plan, implement, and analyze the effectiveness of their acute and community-based service related activities that promote healthy lifestyles, enhance the quality of life, or support adaptive behaviors with the elderly. Requirements include a course project incorporating specific cultural and ethnic perspectives to provide optimal, individualized care.

4500 Community Health Nursing (5 sh)

Synthesizes knowledge in the science and practice of community health nursing, and is built upon and connected to the University urban, international and Christian distinctives. Focuses on patterns that influence wellness, and potential barriers that place individuals, families, and communities at risk for major health problems. Includes health care delivery system and its effects on under-served consumers and professionals, community assessment, epidemiology, violence in the community, environmental & occupational health issues, world health issues, and home health hospice care. Applies theory and practice in community health settings.

4520 Synthesis of Nursing Practice (5 sh)

Culminating nursing course. Synthesizes knowledge in arts and sciences, nursing theory, and current management principles in multi-complex health care settings. Includes leadership, management, and synthesis of multi system disorders.

4540 Health Policy and Politics (2 sh)

Examines and emphasizes the challenges and opportunities related to issues in health policy and health care from a local, national, and international perspective. Addresses the political, economic, legal and ethical aspects of the United States Health Care policy and health care issues, their impact on patients, and mechanisms and strategies for political advocacy and influence.

4550 Leadership and Management in Nursing (2 sh)

Integrates leadership and management theory in the preparation of nurse leaders and managers who, through the functions of leading, managing and directing others in a variety of healthcare settings, will not only know how to use power appropriately, but will empower others in serving humankind.

4901 Nursing Comprehensive Exam (0 sh)

Comprehensive examination of major requirements.

4910 Independent Study in Nursing (1 or 2 sh)

The student completes an individually selected nursing project. Open only to nursing majors with consent of faculty and School of Nursing Director.

4970 Internship in Nursing (1-4 sh)

Internship in an approved healthcare setting. A maximum of 4 semester credit hours of elective credit can count toward the overall graduation requirement. The student must have completed at least 14 semester hours in nursing and have a minimum GPA of 2.75 in the nursing major. Approval by the Selection and Progression Committee and the Director of the Undergraduate Nursing Program is required. Please refer to the catalog for further internship requirements and guidelines. Awarded on an individual basis. Prerequisite: NURS 3010, 3020, 3030, 3201, 3220, 3240.

Philosophy (PHIL)

Clark (chair), Ahn, Clifton-Soderstrom

The vision of the North Park University philosophy department is to become a community of truthful conversation. Our mission is twofold: 1) to guide the North Park University community in critical and edifying reflection on the good life through attentive reading, writing, and experience, and 2) to prepare our majors to serve the common good as public intellectuals.

Major requirements for the B.A. in Philosophy

Required semester hours

36 sh

Required core courses

PHIL 2010, 2020, 2510, 3515, 3590, at least two semester hours of PHIL 3400, at least two semester hours of PHIL 4970

Electives

12sh from PHIL 2310, 2530, 2910 (repeatable), 3100, 3910

Notes and restrictions

The philosophy department shares with the other departments in the Faculty of Humanities a common spirit and orientation toward the true, the good, and the beautiful. As such philosophy majors are required to enhance their major learning experiences through electives, taking at least one course each in History, English, and Art.

Major requirements for the Interdisciplinary B.A. in Philosophy

Required semester hours

28 sh in Philosophy

16 sh of upper-division work in another discipline

Required core courses

PHIL 3590

Notes and restrictions

The philosophy department and the Humanities faculty must approve the courses that will count toward the major. The addition 16 sh may or may not be part of a double major. The philosophy department shares with the other departments in the Faculty of Humanities a common spirit and orientation toward the true, the good, and the beautiful. As such we require philosophy majors to enhance their major learning experiences with one course each in History, English, and Art. The philosophy department will consult with other departments as necessary. Students are encouraged to consult their advisor for suggestions about particular courses. Students with a double major or those obtaining a secondary teaching certificate are exempt from the Humanities co-requirements.

Minor requirements in Philosophy

Required semester hours

20 sh

Required core courses

Any PHIL courses to accumulate at least 20 semester hours.

2010 **Ancient & Medieval Philosophy (4 sh)** GE

A survey of the thinkers and movements in the history of philosophy from the pre-Socratics through the late medieval and early Renaissance period.

2020 **Modern & Contemporary Philosophy (4 sh)** GE

A survey of the thinkers and movements in the history of philosophy from the 16th through the 21st century. A

2310 **East Asian Philosophies and Ethics (4 sh)** GE

The course introduces students, who have no previous background of East Asian studies, to the general philosophical, religious, and cultural ideas of East Asia: Confucianism, Taoism, and Buddhism. Through lectures as well as critical readings in the classical primary texts and contemporary interpretations, the course develops broader and comparative points of views and approaches to the common human problems that have evolved in the major cultures of East Asia (China, Korea, and Japan). The course can serve as a foundation for further study of East Asia including East Asian literature, aesthetics, religion, politics, economics, and history.

2510 **Logic (4 sh)**

An intermediate course in formal and informal logic.

2530 **Business and Professional Ethics (2 sh)** GE

An introduction to the important problems and topics in the area of business and professional ethics, e.g., job discrimination, corporate responsibility, environmental obligations, professional codes of ethics, power, and accountability.

2910 **Introductory Issues in Philosophy (2 or 4 sh)** GE

An introduction to the meaning, ethics, and metaphysics of the human relation to various aspects of the world. Specific courses will focus on a single topic (e.g., nature, technology, culture, economics, religion.) Rationale

3100 **Political Philosophy (4 sh)**

A seminar course on selected problems and topics in the area of social and political ethics, e.g., the nature of political associations, the variety of competing visions of the good and just society. Cross-listed with POGO 3100.

3400 **Philosophy in Action (1-4 sh)**

An experiential education approach to philosophy.

3515 **Philosophy of Art (4 sh)**

A seminar course on selected problems and topics in the area of aesthetics, e.g., the nature and meaning of aesthetic value, the problem of aesthetic judgment.

3590 **Hermeneutics (4 sh)**

A seminar course on selected problems and topics in the area of hermeneutics, e.g., the nature of understanding, of language and meaning, and the role of context, tradition, and pre-judgment.

3910 **Topics (4 sh)**

A seminar course on selected topics and problems in philosophy.

4000 **Departmental Honors in Philosophy (4 sh)**

A seminar course for students who do honors work in philosophy.

4910 **Independent Study in Philosophy (1-4 sh)**

A course which allows students to work independently on a project of particular interest to them and which is not offered in the curriculum.

4970 **Internship in Philosophy (1-4 sh)**

A course which permits students to explore vocational options that pertain to philosophy. Please refer to the internship section of the catalog for requirements and guidelines.

Physics and Engineering (PHEN)

McDonald (chair)

The mission of the physics department is to imbue all students, regardless of major, with: (1) a basic understanding of the physical world around them; (2) an understanding of the process of doing science; (3) the basic skills necessary to succeed in science and in life; (4) the basic knowledge and reasoning ability to make ethical decisions on the use of science and technology in their own lives and in society; (5) a sense of responsibility for the path that science will take in the 21st century; and (6) an appreciation of the wonders of God's world as revealed through the study of physics.

Our educational philosophy is based on the following values: (1) excellence – we expect excellence from our faculty and students in all classes; (2) hard work – the pursuit of truth through physics requires diligence, determination and perseverance; (3) empowerment – students who succeed at physics will know they can succeed at anything; (4) responsibility – with knowledge comes the responsibility to assure that knowledge is applied ethically and carefully; (5) teamwork – no matter what background one comes from, physics students are united by the common goals; and (6) passion – the path to true understanding can only be pursued by the passionate learner.

Physics Major:

The department sets several outcomes for all of its students: (1) to acquire a basic understanding of physical principles and their applications at a level appropriate to the student's intended academic path; (2) to develop a basic mastery of the skills necessary to undertake scientific inquiry, including: graphical and statistical analysis of data, computational proficiency, mathematical competency, and the use of computers; (3) to develop of their critical thinking and analytical skills as well as mastery of problem solving techniques; (4) to learn to communicate physics effectively both orally and in various written formats and to read physics material at various levels; (5) to consider the ethical responsibilities of a physicist to society; and (6) to consider the history and philosophy of physics and its relationship to other intellectual disciplines.

Major requirements for the B.A. degree in Physics

Required semester hours

36 sh

Prerequisites and supporting courses

MATH 1510, 1520, 2030

Required core courses

PHEN 1210, 1220, 1330, 1410, 1510, 2110, 2510, 2520, 3310, 3410 or 3510, 4030

Electives

4 sh from: PHEN 1060, 1070, 2060, 2950, 3010, 3110, 3210, 3220, 3410, 3510, 3910, 3920, 3930, 3940, 3950, 4010, 4910, 4930, 4950, 4970

Notes and restrictions

Recommended MATH 3100 (4 sh)

In addition all students will be required to write a senior thesis. Students may undertake some type of original research project which will result in a written paper to be submitted to the department for review. Students should also present their research at either a departmental symposium or at an organized off-campus meeting.

Special programs

Students completing the 3-2 Engineering program will receive a B.A. in Physics from North Park. The 3-2 engineering program consists of 3 years at North Park at which time the student transfers to an accredited engineering school. It is recommended that students take the following courses while at North Park: PHYS 1210, 1220, 1330, 1510 2110, 2510, 2520, 3310, MATH 1510, 1520, 2030, 3100, CHEM 1150, 1160, and all of the North Park general education requirements.

Major requirements for the B.S. degree in Physics

Required semester hours

48 sh

Prerequisites and supporting courses

MATH 1510, 1520, 2030

Required core courses

PHEN 1210, 1220, 1330, 1410, 1510, 2110, 2510, 2520, 3110, 3310, 3410, 3510, 4010, 4030

Electives

6 sh from: PHEN 1060 or 1070; 2060, 2950, 3010, 3210, 3220, 3910, 3920, 3930, 3940, 3950, 4000, 4910, 4930, 4950

Notes and restrictions

Recommended MATH 3100 (4 sh)

All students are required to take a comprehensive exam. Students may choose to take the GRE Physics subject test or a departmental comprehensive exam. In addition all students will be required to write a senior thesis. Students will undertake some type of original research project. A written paper must be submitted to the department for review. Students must also present their research at either a departmental symposium or at an organized off-campus meeting.

Special Programs

Students completing the joint North Park University/University of Illinois Chicago (UIC) Dual Degree Program in Engineering will receive a B.S. in Physics from North Park. The Dual Degree Program consists of five years combined at North Park and UIC, plus courses and/or internships during some summers. For details, please see the description in the "Professional Programs" section of the catalog.

Honors

Students must complete 45 sh of physics. In addition to the above requirements for a B.S. in Physics students must also complete a minimum of 3 sh of either PHYS 4930 or 4950. They must also enroll in a minimum of 3 sh of PHYS 4000 spring semester of their fourth year. Research for physics 4930/4950 may be carried out either on campus or at an approved off-campus site. Students will prepare a written paper which must also be presented orally to an appropriate group. Students must submit a proposal of their intended research project for departmental approval prior to enrollment in 4930/4950. For general Departmental Honors requirements and PHYS 4000 course description, see appropriate sections of this catalog.

Minor requirements in Physics

Required semester hours

22 sh

Required core courses

10 sh of Physics courses numbered 2000 or above; and PHEN 4030

Electives

12 sh from: PHEN 1060, 1070, 1110, 1120, 1210, 1220, 1330, 1410, 1510, 2060, 2110, 2510, 2520, 2950, 3010, 3110, 3210, 3220, 3310, 3410, 3510, 3910, 3920, 3930, 3940, 3950, 4010, 4910, 4930, 4950, 4970

Notes and restrictions

Recommended Math 1510, 1520, 2030, 3100

Engineering Major:

The BA in engineering is an interdisciplinary major which is designed to serve a variety of students. It is intended to serve students in a broad range of disciplines who feel the need to better understand the science and technology they will employ on a daily basis. In fields such as health care, business, and public safety, professionals are constantly being faced with decisions about the appropriate use of new technologies. This degree is also intended to serve students who wish to use their liberal arts background in the pursuit of engineering as it interfaces with areas of economics, public policy, security, law and the environment. As other fields become more technological, the skills need for Engineering, such as computer programming, design, systems management, and analysis, have become the basic requirements for a professional, regardless of their discipline. When coupled with degrees in business, theology, biology, political science, neuroscience or any of a range of majors, the BA in Engineering offers students a world of possibilities.

Major requirements for the B.A. degree in Engineering

Required semester hours

36 sh

Prerequisites and supporting courses

MATH 1510, PHEN 1210, 1220; 8 sh from the following courses: MATH 1150, 1520; STAT 1490; PSYC 3010, 3100, 3500, 3600, 3800, 3900; CHEM 1150, 1160, 2160, 2310, 2320, 2410, 2510, 3250, 3260, 3330; BIOL 1250, 1260, 2910, 2930, 2950, 3150, 3160, 3180, 3210, 3230, 3510, 3530, 3610, 3620; EXS 2300, 2400, 3010, 3160, 3300, 3400.

Required Core Courses

PHEN 1330, 1510, 2510, 2520, 3310, 3610; 12 sh of PHEN numbered 2000 or above. MATH 2030, 3050 or 3100 can be substituted for one of the classes making up the additional 12 sh of PHEN.

Electives

8 sh from: PHEN 1410, 2950 (repeatable), 4030; PHIL 2530, 2910

Notes and Restrictions

The BA Engineering is not an ABET accredited degree; students interested in becoming professional engineers should instead consider the 3-2 program or the NPU/UIC dual degree program. All students will carry out a senior design project. Students are recommended to participate in some sort of internship in Engineering. Students might also undertake some type of original research project that will result in a written paper to be submitted to the department for review. Students should also present their research at either a departmental symposium or at an organized off-campus meeting.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1000 Conceptual Physics (2 sh) GE

This course is intended to be an introductory algebra-based course in physical science. The course will cover selected topics in physics and applied physics which may include: introduction to astronomy, introduction to geology, introduction to meteorology, or amusement park physics. In each case, emphasis will be placed on the role of technology in society, with emphasis on the environment, as well as physics as a human endeavor. Lab is included in this course. Basic competency in algebra is assumed.

1020 Light (2 sh) GE

This course is intended to be an introductory course in physical science with minimum mathematics. The course will cover selected topics in optics and light including the principles of production and propagation of light waves with particular emphasis on design and analysis of optical equipment. Geometrical and physical optics, lasers, and their applications will also be covered. Lab is included in this course. Registration based on designated score on the Math Placement Exam or permission of instructor.

1030 Energy (2 sh) GE

This course is intended to be an introductory course in physical science with minimum mathematics. The course will cover selected topics dealing with various forms of energy including the concepts of atomic, nuclear and electrical energy, work, power, conservation of energy, heat, and entropy. Emphasis will be placed on energy and the environment, energy resources, alternative forms of energy production, pollution, and the economics of energy use. Lab is included in this course. Registration based on designated score on the Math Placement Exam or permission of instructor.

1050 Physics of Sports (2 sh) GE

This course is intended to be an introductory, algebra-based course in physical science. The course will cover selected topics in physics and their applications to a wide variety of sports. Data acquisition using interactive video techniques will be used widely. Lab is included in this course. Basic competency in algebra is assumed.

1060 Astronomy (2 sh) GE

This course is intended to be an introductory, algebra-based course in physical science. The course will cover selected topics in astronomy including historical background, the earth-moon system, the solar system, stars and their evolution, environment and groupings of stars, galaxies, and the frontiers of astronomy. Lab is included in this course. Prerequisite: MATH 1010 or higher.

1070 Climate Dynamics (2 sh) GE

This course is intended as a survey of the physics of the Earth's climate system. This course focuses on large-scale, long-term variability, ranging from days to millennia, rather than local, short-term weather. Topics include basic fluid dynamics, the energy balance of the Earth, the general circulation of the atmosphere, past and modern climate variability, and climate modeling. Lab is included in this course. Background in trigonometry is assumed.

1110 College Physics I (4 sh) GE

This course is a trig-based introductory course in physics for health science majors. The course will cover kinematics, dynamics, circular motion, gravitation, conservation of energy and momentum, systems in equilibria, rotations, and properties of matter and fluids. Lab is included in this course. Knowledge of trigonometry or permission of instructor is required to register for this course.

1120 College Physics II (4 sh)

This course is the second semester of a trigonometry-based introductory course in physics for health science majors. The course will cover thermodynamics, electric fields and potentials, DC circuits, magnetic fields and forces, AC circuits, geometrical optics, physical optics, quantum theory, atomic theory, and nuclear physics. Lab is included in this course. Prerequisite: PHYS 1110 or PHEN 1110.

1210 Introductory Physics I (4 sh) GE

This course is the first semester of a calculus-based introductory physics course for science majors. Topics to be covered include kinematics, dynamics, energy and momentum, rotational motion, gravitation, equilibria, properties of materials, fluids, wave motion, sound, and simple harmonic oscillations. Emphasis will be placed on problem solving skills as well as conceptual understanding of the material. Lab is included in this course. Basic knowledge of trigonometry is assumed. Calculus is recommended.

1220 Introductory Physics II (4 sh)

This course is the second semester of a calculus-based introductory physics course for science majors. Topics to be covered include thermodynamics, electrical fields and forces, electric potential, DC circuits, magnetic fields and forces, AC circuits, geometrical and physical optics, quantum theory, atomic theory and structure, and nuclear structure, decay, and reactions. Emphasis will be placed on problem solving skills as well as conceptual understanding of the material. Lab is included in this course. Prerequisite: PHYS 1210 or PHEN 1210. Co-requisite: MATH 1510.

1330 Mechanical Comprehension (2 sh)

This course is an introduction to a variety of practical, real-world tools used in physics to solve problems and complete projects. In contrast to other courses which focus on the theoretical and analytical aspects of physics, this course covers tools you can use to not only do homework problems but also to tackle real-world engineering and research projects. In this course the focus will be predominately on visual thinking tools. Such topics include drawing and sketching for visualization, imagery and ideation, and basic technical drawing. Coverage may also include basic design and engineering concepts as well as an introduction to CAD.

1410 Pursuit of Knowledge (2 sh) GE

How do we know? How do we decide that a theory is true? What does it take to become convinced? Physics is perceived as a totally analytical and quantitative field. However, the reality is that even at the simplest level there is considerable judgment required in the interpretation of data and the assignment of meaning to theory. This course will include a brief overview of the history and philosophy of Physics, discussion of the methods of doing physics, experimental techniques, and the role of approximation in theory and computation. The emphasis will be placed on the nature of knowledge and the extent to which it is socially constructed. Students will reflect on science ethics, science policy, the role of the scientist in society, and the interface between science and theology.

1510 Mathematical Methods of Physics (2 sh)

This course is an introduction to mathematical methods in physics. Topics covered include using spreadsheets (Excel), algebraic languages (Mathematical), and interpreted languages (Python) to solve basic physics problems. Elementary numerical methods and scientific visualization is also covered. Topics of coverage may include: approximation techniques, numerical differentiation and integration, matrices, complex variables, and solution of transcendental equations.

2060 Astrophysics (2 sh)

The main focus of this course will be stellar astrophysics. The course will cover the historical development of astronomy, optics and spectroscopy, telescopes, gravitation, planetary systems and comparative planetology, general relativity, stellar structure, H-R diagrams, stellar evolution and galaxies. Lab is included in this course. This course is intended for science majors interested in astronomy. Basic knowledge of trigonometry is assumed. Calculus is recommended.

2110 Modern Physics (4 sh)

This course constitutes a survey of physics since 1900. Topics to be covered include special relativity, blackbody radiation, photoelectric effect, Compton scattering, quantum theory, wave-particle duality, DeBroglie waves, Bohr model of the atom, quantum mechanics and the Schrodinger equation in one dimension, Heisenberg uncertainty principle, quantization in many-electron atoms, statistical physics, lasers, X-ray spectra, molecular structure, solid state physics, nuclear structure, and nuclear reactions. No lab is required. Prerequisite: PHYS 1220.

2510 Electronics for Scientists (3 sh)

This course offers a practical introduction to DC and AC circuits, filters, diodes, power supplies, transistors, operational amplifiers, and logic gates. Emphasis will be placed on both the mathematical methods and the rules of thumb used in everyday laboratory settings. Prerequisite: PHYS 2110 or PHEN 2110. Co-requisite: PHYS 2520 (required).

2520 Electronics Lab (1 sh)

This course is the lab to accompany PHEN 2510. Students will gain practical experience in building electronic circuits and using electrical measuring devices with an eye toward laboratory application. Co-requisite: PHEN 2510 (required).

2950 Topics in History and Philosophy of Physics (2 sh) GE

This course will cover a topic in the History and Philosophy of Physics. The credit hours will be determined by the choice of topics and the professor teaching the course. Readings in historical methods and philosophy of history will be included as well as instruction in the use of archival materials and oral histories. Proposed topics include: History of Quantum Mechanics and the Influence of the German Romantic Movement, Galileo and the Church, Cold War Science and the Rise of Big Science, Nuclear Security, Medieval Engineering.

3010 Third-Year Lab (2 sh)

This course constitutes an introduction to the laboratory techniques employed in physics research. Important experiments in the development of modern physics (since 1900) will be covered as well as more contemporary experiments. There is no accompanying lecture course for this lab. Prerequisite: PHYS 2110 or PHEN 2110.

3110 Statistical Thermodynamics (4 sh)

This course seeks to investigate how the unifying concepts of atomic theory can lead to an understanding of the observed behavior of macroscopic systems, how quantities describing the directly measurable properties of such systems are interrelated, and how these quantities can be deduced from a knowledge of atomic characteristics. Topics to be covered include properties of equilibria, heat and temperature, statistical ensembles, probability, specification of the state of a system, thermal interaction, work, internal energy, entropy, Maxwell distribution, equipartition theorem, applications to an ideal gas, phases, thermal conductivity, and transport of energy. There is no lab for this course. Prerequisite: PHYS 1220 or PHEN 1220.

3210 Modern Optics (3 sh)

This course will investigate the electromagnetic basis of light. Topics to be covered include reflection, refraction, and diffraction of light waves, geometrical optics including aberrations, spectra, and introduction to quantum effects. Modern applications of optics including lasers, holography, and nonlinear effects will also be included. Prerequisite: PHYS 2110 or PHEN 2110. Co-requisite: PHEN 3220 (required).

3220 Optics Lab (1 sh)

Lab to accompany PHEN 3210. Practical experience in optics including photography, holography, Fourier optics, microwave diffraction, fiber optics. Prerequisite: PHYS 2110 or PHEN 2110. Co-requisite: PHYS 3210.

3310 Dynamics (4 sh)

This course presents a detailed account of the classical mechanics of particles, systems of particles, rigid bodies, moving coordinate systems, Lagrange and Hamiltonian formulations, linear oscillators, driven oscillators, nonlinear oscillations, and central force motion. A review of the mathematics of matrices, vectors, tensors, and vector calculus will be included. No lab is required. Prerequisite: PHYS 2110 or PHEN 2110.

3410 Electromagnetic Fields (4 sh)

Electric and magnetic phenomena are discussed in terms of the fields of electric charges and currents. The use of Maxwell's equations in the interaction of fields and charges will be emphasized. Extensions to electromagnetic radiation and the interaction with matter will also be covered. No lab is required. Prerequisite: PHYS 2110 or PHEN 2110.

3510 Quantum Mechanics (4 sh)

Quantum mechanics deals with the physics of the microscopic realm where classical mechanics fails to explain phenomena such as those seen in lasers and transistors. This course will cover the experimental results that led to and verified quantum mechanics. It will cover the basic topics of quantum mechanics including wave-particle duality, complementarity, the postulates of quantum mechanics, wave packets (their formation and analysis), operators in quantum mechanics, time independent and time dependent Schrodinger Equation and solutions of it for various potentials including the simple harmonic oscillator, Hermitian operators and eigenvalue equations, commutators, uncertainty relations, and conservation laws. Emphasis will be placed on both the mathematical formalism of quantum mechanics and the philosophical implications and alternatives to the theory. There is no lab for this course. Prerequisite: PHYS 2110 or PHEN 2110.

3910 Atomic Physics (2 sh)

The methods of quantum mechanics are applied to simple atomic systems. Coverage includes a review of quantum theory, solution of the central force problem using Schrodinger's equation, the one-electron atom, time-independent and time-dependent approximation methods, spin, applications of quantum mechanics to multi-electron atoms, shell model of the atom, perturbation theory, variational method and Hartree and Hartree-Fock theories. There is no lab for this course. Prerequisite: PHYS 2110 or PHEN 2110.

3920 Solid State Physics (2 sh)

This course will investigate the properties of condensed matter including crystallographic groups, mechanical properties, thermal properties, and electrical properties of metals and semiconductors. There is no lab for this course. Prerequisite: PHYS 2110 or PHEN 2110.

3930 Nuclear and Particle Physics (2 sh)

This course will investigate the properties of nuclei and elementary particles. Emphasis will be placed upon the structure of nuclei as well as the interactions with nuclei that reveal this structure. Experiments used to obtain information about elementary particles and nuclei will be stressed. Topics to be covered include accelerators and detection systems, interactions of radiation with matter, classification and structure of subatomic particles, symmetries and conservations laws, electromagnetic interactions, weak interactions, hadronic interactions, quarks and Regge poles, nuclear models, and nuclear applications, especially nuclear power. There is no lab for this course. Prerequisite: PHYS 2110 or PHEN 2110.

3940 General Relativity (2 sh)

This course will investigate the basic theory of general relativity. Topics to be covered include the principles of special and general relativity including 3+1 space-time, Lorentz transformations, curved space, black holes, and the Einstein field equations. There is no lab for this course. Prerequisite: PHYS 2110 or PHEN 2110.

3950 Advanced Topics in Contemporary Physics (2-4 sh)

Various topics in contemporary physics will be discussed. The topics will be determined by the interests of the students. There is no lab for this course. Prerequisite: PHYS 2110 or PHEN 2110.

4000 Departmental Honors in Physics (1-4 sh)

Independent study in physics towards a B.S. in Physics with Honors. Students will prepare a written paper which must also be presented orally to an appropriate group. Students must submit a proposal of their intended project for departmental approval prior to enrollment. Student must be a physics major with suitable GPA and have permission of the instructor.

4010 Fourth-Year Seminar (2 sh)

This course is intended to help students begin to make the transition from student to professional. The course will have three main goals: 1) to help students examine their goals as they enter graduate school or the private sector; 2) to help students prepare for the departmental comprehensive exam; and 3) to begin to familiarize students with the literature in their field of study.

4030 Knowledge Reloaded (2 sh)

In PHEN 1410 students examined how we acquire knowledge and gain understanding about our world. In this course students examine the interface between knowledge and practice. Using their experience and information from their undergraduate courses students will examine the point at which physics research becomes truth. Students will examine how society affects research and how physics becomes part of society. This course will include a brief overview of anthropology and sociology of physics. The social construction of knowledge and the anthropology of the laboratory are examples of topics to be considered. Students will particularly focus on science ethics, security issues and the role of the scientist in forming policy.

4910 Independent Study in Physics (1-4 sh)

This course is intended as an opportunity for students to study a topic in physics not included in the regular curriculum. Instructors consent required.

4930 Research Methods (Experimental) (1-4 sh) GE

Experimental research in physics which may be performed off-campus. Students may repeat this course up to a total of 8 semester hours.

4950 **Research Methods (Theoretical) (1-4 sh)** GE

Theoretical research in physics which may be performed off-campus. Students may repeat this course up to a total of 8 semester hours.

4970 **Internship (1-4 sh)**

Please refer to internship section of the catalog for requirements and guidelines

Politics and Government (POGO)

Alulis (chair), Peterson

The mission of the Politics and Government department is to prepare students for knowledgeable participation in the civic life of their communities. The student who successfully completes the program will:

- Demonstrate the ability to use theoretical and practical concepts to explain political behavior at the local, national, and international levels.
- Show the ability to ethically and effectively participate in the process by which collective decisions are made about the rational use of social resources.
- Articulate and defend the fundamental principles of Western political institutions generally and the American constitutional regime in particular.
- Use an understanding of the cultural sources of political behavior to compare the various ways different societies worldwide organize their political systems.
- Explain the functions and limits of law in ordering society to secure freedom and other social goods.

Major requirements for the B.A. in Politics and Government

Required semester hours

36 sh

Required core courses

POGO 1100, 1600, 2200, 2300, 3100, and 4100

Electives

Three electives from courses numbered above 2500, one of which must be an American politics course and one of which must be an international or a comparative politics course. POGO 3410 is counted as an international politics course. Internships may not be counted toward satisfying the major but will count as general University electives.

Notes and restrictions

The following supporting courses are recommended (not required): HIST 2110, 2120; BSE 2210. Students interested in pursuing graduate work in international relations should take advanced language courses, BSE 3230, and HIST 3260 or 3430. A comprehensive examination is required and must be passed. A minimum of 16 credits at the 3000 level or higher in the major are to be taken at North Park. A minimum of sixteen semester hours at the 3000 level or higher in the major are to be taken at North Park University.

Honors

Students must apply for admission to the program no later than the spring semester of their third year. To graduate with Departmental Honors in Politics and Government students must earn 8 sh of POGO 4920 in addition to the credit required for the major. For general Departmental Honors requirements and POGO 4920 course description, see appropriate sections of this catalog.

Minor requirements in Politics and Government

Required semester hours

20 sh

Required core courses

POGO 1100, 1600 and any three courses numbered above 2500.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1100 Introduction to Politics (4 sh)

An examination of the major principles and ideas which have shaped world politics. The perennial questions of justice, equality, freedom, moral relativism, and tyranny as expressed in the great works of representative ancient and modern political thinkers will be critically examined.

1600 American Government (4 sh)

An introductory survey of the principles which have shaped the American Republic. The political institutions and processes central to an understanding of American politics and government will be examined including the Constitution, presidency, Congress, Supreme Court, political parties, campaigns, elections, and selected public policy issues.

2200 International Politics (4 sh)

An introduction to the theory and practice of the political relations among nations, including a survey of the historical development of the international system, and analysis of the major features of international politics including security, power, diplomacy, and efforts to establish and sustain international society.

2250 Survey of International Politics (4 sh)

An examination of selected international issues, policies, and conflicts in the contemporary world. Offered at SVF for North Park students participating in the Sweden Exchange program

2300 Comparative Politics (4 sh) GE

An introductory comparative study of the political institutions of the nations of Europe and selected nations of the Middle East, Latin America, Asia, and Sub-Saharan Africa. Forms of government, political culture and history, parties and elections, governing institutions and development will be among the topics considered.

2520 Criminal Justice (4 sh)

An overview of the criminal justice system in the United States emphasizing key issues in the process of arrest through trial and sentencing and imprisonment, an analysis of the roles of the police, prosecutors, defense attorneys, and courts, and the various theories of punishment and crime causation. Representative Supreme Court decisions in the law of arrest, right to counsel, capital punishment, search and seizure, and self-incrimination will be analyzed. Prerequisite: POGO 1600. Cross-listed with SOC 2520. Prerequisite: POGO 1600.

3100 Political Philosophy (4 sh)

An examination of the development of the classical and modern traditions of political philosophy analyzing the nature and origin of the state, the individual's relationship to the state, the different types of the state, constitutionalism, the ideas of right, law, freedom, justice, equality, and the struggle to prevent tyranny. Readings will include selections from among the following: Plato, Aristotle, Thomas Aquinas, Machiavelli, Hobbes, Locke, Montesquieu, Rousseau, Smith, Tocqueville, Mill, Marx, Nietzsche, and others. Student must be of third-year standing. Prerequisite: POGO 1100.

3210 International Political Economy (4 sh)

An examination of the economic aspects of international relations in the contemporary world. Attention is given to the following: world trading, monetary and financial systems, the role of international institutions both governmental and non-governmental in the world economy, national and regional economic systems, the activities of states to secure advantage in the international economic system, the relation of the state and of international society to economic development and the ongoing globalization of economic activity.

3230 Issues in International Relations (4 sh)

Advanced political analysis of the primary issues facing the contemporary international system, including the challenges of economic interdependence and institutionalization, economic development, human rights and democracy, and other transnational concerns. Includes a simulation of an international treaty negotiation. Student must be of third-year standing. Prerequisite: POGO 2200.

3310 Modernizing China and Japan (4 sh)

What does it mean to be modern? This course explores the political and social dynamics of creating a modern state in China and Japan in the 19th and 20th Centuries. Focusing on historic initiatives that led to each society's transformation, we examine the push for industrialization, nationhood, and the ideal citizen. Readings draw on the perspectives of ordinary people responding to state-sponsored social change. Cross-listed with SOC 3300.

3370 Politics of the Middle East (4 sh)

An analysis of the modern Middle East from the fall of the Ottoman Empire to the present in terms of the concepts of political development, modernization, and civil society. A broad overview of the region is combined with a country-by-country examination of selected states. Particular attention is paid to ideology, political party structure, and ongoing conflicts in the region.

3390 Israel: State and Society (4 sh)

An introduction to modern Israel, its history, politics and social state. Topics include: Zionism and the founding of the state, the social make-up, its governing institutions and political life, in particular its parties and electoral system, its place in the international community, and the Israeli-Palestinian conflict.

3410 American Foreign Policy (4 sh) GE

An examination of United States foreign policy in the twentieth century with emphasis on the major features of U.S. engagement, the expansion of American power, and an analysis of the foreign policy decision making process.

3500 Constitutional Law (4 sh)

An introduction to the judicial process, an examination of the role of law in the American political system, and an historical and theoretical analysis of the United States Constitution as developed in landmark Supreme Court decisions relating to federalism, commerce, and separation of powers, executive and legislative powers. Topics include issues of individual rights: freedom of speech, press, and religion, abortion, censorship and obscenity, racial and gender discrimination, and affirmative action and reverse discrimination. Student must be of third-year standing. Prerequisite: POGO 1600.

3630 Parties and Elections (4 sh)

Analysis of the organization and evolution of political parties in the American political process. Topics include the role of nominations, campaigns, elections, campaign finance, public opinion, and interest groups in a representative democracy. Discussion of current

local, state and national election campaigns is an important focus. Student must be of third-year standing. Prerequisite: POGO 1600.

3650 Congress and the Presidency (4 sh)

An analysis of the creation, the historical development, and the operations of Congress and the presidency with specific emphasis on the political relationships between the two policy making branches of American government. Case studies in congressional and presidential leadership will be examined through biographies of selected twentieth century presidents. Student must be of third-year standing. Prerequisite: POGO 1600.

3690 Religion and Politics (4 sh)

An examination of the historical and ongoing relationship between church and state in American politics. Topics discussed include religion's impact on voting behavior, interpretations of the establishment and free exercise clauses of the First Amendment, and normative questions regarding religion's role in political life.

3750 Chicago Politics (4 sh)

Chicago as a case study of the urban political process as it relates to ward politics, patronage, ethnicity and race, education, housing, poverty, and crime. The rise and the decline of the Chicago Machine from Richard J. Daley to Richard M. Daley and its implications for the future of the city that works will be the central focus of the course.

3910 Topics in Political Science (4 sh)

An intensive investigation of a selected topic in politics and government offered from time to time at the discretion of the department.

4100 Fourth Year Seminar (4 sh)

An extensive investigation of significant themes through reading, discussion, and research designed to integrate all previous course work in the major. Themes will vary from term to term. Students do a major research project on a topic related to one of the themes of the seminar, assemble their findings in a seminar paper, and present those findings to the seminar. Required of all majors. Student must be of fourth-year standing.

4910 Independent Study in Politics and Government (2-4 sh)

Advanced work in fields of special interest not generally available in traditional courses.

4920 Departmental Honors in Politics and Government (4 sh)

An independent, high level examination of a political problem or issue and the writing of an honors thesis. Designed for students seeking to graduate with Departmental Honors in Politics and Government.

4970 Internship in Politics and Government (2 or 4 sh)

The opportunity to explore a practical employment opportunity in an academic context, including an integration of the practical and the academic elements of the experience. Please refer to Internship section of this catalog for further requirements and guidelines.

Psychology (PSYC)

Gray (chair), Bennett, Schmale, Shirkey

The mission of the psychology major is to prepare its students for lives of significance, intellectual growth, and service through the science and profession of psychology—lives marked by an understanding of the complexity of behavior, informed about its biological, cognitive, developmental, social, and cultural dimensions; and by the use of empirical methods, interpretive skills, and faith, in the application of knowledge for human well-being.

Requirements for the B.A. in Psychology

Required semester hours

36 sh

Prerequisites and supporting courses

STAT 1490

Required core courses

PSYC 1000, 2100, 3010, 3100, 3150, 3500, 4901. One course from Group A: PSYC 3200, 3600, 3700. Two courses from Group B: PSYC 3250, 3400, 3800, 3900

Notes and Restrictions

All majors are required to take and pass an objective comprehensive exam during the final semester of the major; or, anyone failing that exam will be required to take and pass a departmental comprehensive essay exam. Students must enroll in PSYC 4901: Psychology Comprehensive Exam (0sh) to complete this requirement.

Students with a human services focus should select PSYC 4100, 4200, and 4970. Students preparing for graduate school in psychology should select PSYC 3400, 4100 and 4500.

In unusual circumstances, particular course prerequisites may be waived by the course professor. All majors are required to take and pass a national major field achievement test midway through the final semester of the major; or, anyone failing that exam will be required to take and pass a departmental comprehensive essay exam.

Honors

For Departmental Honors in Psychology, 4 sh of PSYC 4000 are required in addition to the 36 sh for the B.A. degree. Application for admission should be made the second semester of the third year. For Departmental Honors requirements and PSYC 4000 course description, see appropriate sections of this catalog.

Requirements for the B.S. degree in Psychology

Required semester hours

52 sh

Prerequisites and supporting courses

STAT 1490

4sh in Life, Physical or Mathematical Sciences

Required core courses

PSYC 1000, 2100, 3010, 3100, 3150, 3500, 3910, 4000 or 4970, 4901. One course from Group A: PSYC 3200, 3600, 3700. Two courses from Group B: PSYC 3250, 3400, 3800, 3900, 8 additional sh from either Group A or B.

Notes and Restrictions

- Students who wish to pursue doctoral studies in Psychology should choose the B.S. option. Graduate psychology programs are extremely competitive and this curriculum offers the most thorough preparation.
- Students should seek regular advising regarding which courses would be most appropriate for their specific career goals.
- Students must verify the eligibility of the science course with their PSYC advisor for approval for the B.S. degree. Advisors have a list of appropriate course options to recommend based on advice from the chairs of the science departments.
- Students must verify the eligibility of the PSYC 3910 section with the instructor and declare their intention to use the course as a requirement for the Bachelor of Science degree. Some PSYC 3910 courses may not be eligible to meet this requirement if they are not structured as advanced seminars on a detailed topic.
- Student may complete a 4 sh internship or two 2 sh internships to fulfill this requirement. Internships must be officially recorded as PSYC 4970 and arranged through Career Services. Students must have a current psychology faculty member as a faculty sponsor.
- If student meets the criteria for Honors and has a faculty sponsor, he or she may complete a senior honors project (PSYC 4000) as an alternative to an internship. Students particularly interested in an experimental PhD program should pursue this option.
- Students must enroll in and pass PSYC 4902: Psychology Portfolio in their final semester.

Honors

For Departmental Honors in Psychology, 4 sh of PSYC 4000 are required in addition to the 36 sh for the B.A. degree. Application for admission should be made the second semester of the third year. For Departmental Honors requirements and PSYC 4000 course description, see appropriate sections of this catalog.

Minor requirements in Psychology

PSYC 1000, 2100

Electives

12 additional hours in psychology

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1000 Introduction to Psychology (4 sh)

An introduction to the methodology and the major content areas of psychology.

1200 Stress and Health (2 sh) GE

Introduces the concepts of stress and health, including physical and psychological well-being, nutrition and exercise.

2100 Research Methods in Psychology (4 sh) GE

Introduces the methods and statistics used in the study of psychology, including case study, survey, observation, and experimentation. Special attention to the unique requirements of human subjects. Lecture plus lab experience. Prerequisite: PSYC 1000, STAT 1490.

2700 Human Lifespan Development (4 sh)

Studies physical, cognitive, social, and emotional development across the human lifespan. The course incorporates theories, methods, and research with both children and adults. Prerequisite: PSYC 1000.

3010 Behavioral Neuroscience (4 sh)

Explores how biological mechanisms interact with experience to create behavior, with an emphasis on components of the nervous system, and the biological bases of the sensory systems. Labs included. Prerequisite: PSYC 2100.

3100 Learning and Cognition (4 sh)

Examines some of the central aspects of behavior and mental life: classical and operant conditioning, remembering, forgetting, solving problems, making decisions, and communicating. Combines experimental data, everyday experience, and psychological theory. Lecture plus lab experience. Prerequisite: PSYC 2100.

3150 Developmental Psychology (4 sh) GE

Explores the nature and course of physical, social, and cognitive development and patterns of growth, change, and stability in behavior that occur throughout the entire lifespan. Special attention to developmental research. Pre-requisite: PSYC 2100.

3200 Personality (4 sh)

Focuses on the scientific investigation of individuals' characteristic patterns of thinking, feeling, and behaving from a psychological perspective. Includes historical and contemporary approaches, current research, personality assessment, and the application of personality concepts in everyday life. Lecture plus lab experience. Prerequisite: PSYC 2100.

3250 Psychology of Gender and Sexuality (4 sh)

This course is an overview of the scientific study of gender and human sexuality and will familiarize students with both basic and advanced concepts in these fields. This course is a survey of research and current thinking and emphasizes the scientific investigation of human mental processes and behavior. Prerequisite: PSYC 2100.

3400 Psychological Testing (4 sh)

Studies the history, principles, and applications of psychological testing and assessment. Included are: the functions of psychological testing; technological and methodological components such as reliability and validity; test development and construction. Particular focus on the theories and uses of intelligence and personality tests. Lecture plus lab experience. Prerequisite: PSYC 2100.

3500 Social Psychology (4 sh)

Introduces the study of human behavior in groups, including social cognition, social influence, attribution, social comparison, attraction and friendship, stereotypes, and the self. The course incorporates theory, research, and application. Prerequisite: PSYC 2100.

3600 Abnormal Psychology (4 sh)

Studies psychological disorders, etiologies, assessment, and interventions. This includes the history of abnormal psychology; theory and research; and biological, psychological, and social approaches to treatment. Field visits and extensive use of video recordings are included. Prerequisite: PSYC 2100.

3700 Counseling Psychology (4 sh)

Introduces research and principles, theories, and techniques of counseling. Emphasizes the practice and mastery of basic listening and responding skills; sound judgment and the limits of practice; and professional ethics. Lab experience using video recordings of skills practiced by the students. Prerequisite: PSYC 2100.

3800 Perception (4 sh)

Studies the relationship between the external world and our internal representation of it¹⁵¹the world as we perceive it. Considers the bases of accurate perception, factors contributing to perceptual distortion and disability, the dimensions and processes of consciousness, and the nature of reality. Lecture plus lab experience. Prerequisite: PSYC 2100.

3900 Psychology of Language (4 sh)

Examines the nature and origin of human language and what is known about how humans speak, listen, comprehend, converse, and read, as well as how language influences other aspects of cognition. Included are the neurological and social underpinnings of language, time-course of acquisition, sign language, bilingualism, and animal language. Prerequisite: PSYC 2100.

3910 Topics in Psychology (2 or 4 sh)

Studies in depth and detail selected topics in psychology. Repeatable. Prerequisite: PSYC 2100.

4000 Departmental Honors in Psychology (2–4 sh)

Studies an approved research topic in depth and detail under the supervision of department faculty. Involves a literature review, design of a study, analysis, and write-up. The final paper is presented to the larger university and/or psychological community. Students may register for PSYC 4000 in one semester for 4 sh, or two semesters for 2 sh each. Student must have approval of the project proposal by the department faculty and assignment of the supervisor.

4400 History and Systems of Psychology (4 sh)

A capstone seminar for students applying to graduate programs in psychology. A systematic review of the roots of psychology in philosophy and physiology; emphasizes the historical development of and connections in thought and methods among major subfields of contemporary psychology. Admission to the course is limited to third and fourth year psychology majors who obtain permission of the instructor based upon superior grade point averages.

4901 Psychology Comprehensive Exam (0 sh)

All majors are required to complete and pass the psychology comprehensive exam prior to graduation. Students should enroll in PSYC 4901 in their final fall or spring semester at North Park University. The psychology comprehensive exam is a cumulative exam covering all content in major PSYC courses offered at North Park University.

4902 Psychology Portfolio (0 sh)

Reviews academic progress, career planning and exploration, and evidence of major outcomes in psychology through personal reflection. Student will submit an organized sample of education work samples and skills for review. Independent study.

4910 Independent Study in Psychology (1–4 sh)

Studies in detail a topic chosen by the student in consultation with a department faculty member whose approval is required for the course. Repeatable.

4930 Directed Research (2–4 sh)

This course is open to students with an interest in a special topic in psychological research. Students must be a psychology major, in

their final year, with a minimum Psychology GPA of 3.0. Students will work under the direction of a faculty mentor on a novel research project. Permission of the faculty mentor and departmental approval is required prior to enrollment in this course.

4970 Internship in Psychology (1-4 sh)

Please refer to the internship section of the catalog for requirements and guidelines.

Scandinavian Studies (SCAN)

Andreasson-Hogg

The objectives of the Scandinavian Studies major are: 1) to impart to the student a knowledge of the Swedish or Norwegian language in its spoken and written forms and 2) to develop the student's awareness of the environmental and cultural context of the Scandinavian languages, i.e., Scandinavian history, literature, arts and contemporary society in five countries (Sweden, Norway, Denmark, Finland, and Iceland); and 3) to develop abilities comprehending Scandinavian languages.

Major requirements for the B.A. in Scandinavian Studies

Required semester hours

36 sh

Required core courses

SWED 1010, 1020, 2010, 2020, 3150; or NORW 1010, 1020, plus a semester language study in Norway to earn NORW 2010, 2020, 3150; and SCAN 2130; 3200; 3250, 4901.

Electives

4 additional hours in Swedish from 4000, 3910, 4910

Special programs

The Center for Scandinavian Studies administers exchange programs with institutions in Scandinavia and invites guest faculty, artists, performers, and lecturers. Students are encouraged to spend a semester or a year on exchange in Scandinavia.

Minor requirements in Scandinavian Studies

Required semester hours

20 sh

Required core courses

SWED 1010, 1020, 2010, 2020; or NORW 1010, 1020, plus semester in Norway to earn NORW 2010, 2020.

Electives

4 additional hours in Scandinavian Studies

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

2040 Swedish Phonetics and Pronunciation (2 sh)

Phonetics and pronunciation is a practical course that aims to help majors improve their pronunciation and learn how to teach pronunciation to others. It also includes the theoretical treatment of phonetics: specifically articulatory phonetics, phonology, linguistics structures, and intonation that will be language specific.

2130 Scandinavian History and Culture (4 sh) GE

Course offered in English. Scandinavia's role in European development. The Viking age, the medieval period, the Reformation, the Counter-Reformation, the modern breakthrough, nineteenth century migration, emergence of the modern democracies, and the Welfare State.

3200 Ibsen and Strindberg (4 sh) GE

Course offered in English. Lectures with reading, discussion, analysis, and synthesis of representative plays of Scandinavia's two internationally significant dramatists.

3250 Reading and Comprehending Scandinavian Languages (4 sh)

The study of current texts in Swedish, Norwegian, and Danish develops the student's ability to read and comprehend the other Scandinavian languages. The texts will reflect issues related to the environment, business and contemporary society in Scandinavia. (Course offered in Swedish, Norwegian and Danish.) Prerequisite: SWED 3150 or Norwegian or Danish equivalent.

3910 Topics in Scandinavian Studies (2 or 4 sh)

Topics courses offered either by the Swedish Department or in cooperation with the Center for Scandinavian Studies.

4000 Departmental Honors in Swedish (4 sh)

Honors students will write a major paper at the honors level and make an oral presentation of the paper at a Spring Honors Symposium.

4901 Senior Assessment (0 sh)

A non-credit course for which all Scandinavian Studies majors must register in order to complete their final requirements to graduate: a portfolio, an oral proficiency interview, and written exit questionnaire. Graded on a pass/fail basis.

4910 Independent Study in Swedish (1-4 sh)

Advanced independent research. Open to majors in other disciplines with a reading knowledge of the language.

4970 Internship in Swedish (1-4 sh)

Please refer to the internship section of the catalog for requirements and guidelines.

Sociology (SOC)

Steinbart (chair), Nedilsky

Offerings in sociology are designed to provide the student with: 1) skills required to assemble and interpret data concerning social behavior, 2) comprehension of basic concepts and theories in sociology, and 3) awareness of human variability in different cultural contexts.

Sociology Major:

Basic courses required for the majors in sociology analyze patterns of human relationships in complex industrial societies including non-Western societies. Skills developed by the students will help prepare them for graduate study in these and related fields, employment in the business areas related to the analysis of social behavior, as well as, employment in international business, government, and service fields. North Park's urban location provides opportunities for students interested in urban sociology, the sociology of culture, and applied sociology.

Major requirements for the B.A. in Sociology

Required semester hours

36 sh

Prerequisites and supporting courses

STAT 1490

Required core courses

SOC 3010, 3500, 3930, 4010

Electives

One course from each area plus one additional course from any of the 4 areas to total 20 semester hours:

Social Identity: SOC 2090, 2150, 2500, 3100, 3410

Social Organization: SOC 2130, 2800, 2900, 3030, 3080, 3130

Social Deviance: SOC 2100, 2520

Social Change: SOC 2530, 3300, 3310, 3800

Notes and Restrictions

No more than two cross-listed courses taught outside the department may be counted toward the major. Cross listed courses are indicated in the course descriptions. A comprehensive examination is required and must be passed for graduation. A minimum of 16 credits at the 3000 level or higher in the major are to be taken at North Park.

Honors

Prospective students must submit a research proposal two weeks prior to the last day of classes of the spring semester of their third year. To graduate with Departmental Honors in Sociology students must successfully complete 8 semester hours of SOC 4000 in addition to their major requirements. For general Departmental Honors requirements and SOC 4000 course description, see appropriate sections of this catalog.

Minor requirements in Sociology

Required semester hours

20 sh

Required core courses

none.

Criminal Justice Major:

The objective of the major in Criminal Justice is to provide students with an education in criminal justice that prepares them to think critically about the problems of crime and justice and to prepare them for a career in the field of law enforcement.

Crime and social deviance are multifaceted phenomena, involving both traditional criminal behaviors and domestic violence, but also encompassing more recently recognized fields such as hate crimes, organizational offenses against the environment, or corporate crime. We recognize that the pursuit of justice involves not only the criminal sanctioning system of police, courts, and corrections, but also matters of justice and a variety of other social and political institutions such as regulatory systems, civil law and administrative law, alternative dispute resolution, and community initiatives.

Major requirements for the B.A. degree in Criminal Justice

Required semester hours

36 sh

Prerequisites and supporting courses

POGO 1600, SOC 1910, STAT 1490

Required core courses

SOC 2090, SOC 2100, POGO 2520, SOC 3030, SOC 3200, SOC 3330, SOC 3400, SOC 3450, SOC 3500, SOC 3900, SOC 3950

Electives

CTS 3000, SOC 2800, SOC2 930, POGO 3600, SOC 4910, SOC 4000, POGO 4970, SOC 4970

Notes and Restrictions

A minimum of 18 credits at the 2000 level or higher in the major are to be taken at North Park.

Honors

Prospective students must submit a research proposal two weeks prior to the last day of classes of the spring semester of their third year. To graduate with Departmental Honors in Criminal Justice students must successfully complete 8 semester hours of SOC 4000 or POGO 4920 in addition to their major requirements. For general Departmental Honors requirements and SOC or POGO 4000 course descriptions, see appropriate sections of this catalog.

Minor requirements in Criminal Justice

Required semester hours

20 sh

Required core courses for the minor from the following list

POGO 2520, SOC 3200, SOC 3330, SOC 3400, SOC 3450, SOC 3900, SOC 3950

Notes:

SOC 3200, SOC 3330, SOC 3400, SOC 3450, SOC 3900, and SOC 3950 are taught in the School of Adult Learning (SAL), and are intensive courses. All courses meet for 7 weeks (1 quad), once weekly, typically in the evenings. Four-hour courses meet for four hours (usually 6-10 pm); 2-hour courses meet for two hours (usually 6-8 pm). Students should be prepared for a concentrated experience and plan their schedules accordingly.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1910 Introduction to Sociology (4 sh) GE

Problems, fields, and methods of sociology. Emphasis on a theoretical frame of reference to explain basic social processes, the role of culture in social behavior, the nature of social organization, and social and cultural change. Intensive reading in descriptive studies from a wide range of societies.

2090 Race and Ethnicity (4 sh) GE

Characteristics and definitions of race and ethnicity in various cultures and societies. Significance for cultural pluralism.

2100 Social Problems (4 sh) GE

A variety of social issues have assumed enough prominence to be labeled problems. This course is intended to provide the student with a conceptual framework within which to examine social problems. Emphasis will be on issues such as poverty, crime and punishment, affordable housing, education and deviance.

2130 Mexican History and Culture (4 sh) GE

A multi-disciplinary approach to the study of Mexico from pre-Colombian societies to the present. Taught in English. Required for the Morelia program. Cross-listed with SPAN 2130.

2150 Gender Studies (4 sh)

Exploration of male and female gender roles in culture and society. Importance of gender in workplace, family, education, and belief systems. Analysis of power. Assessment of the contribution of feminist theories to study of gender. Cross-listed with WGS 2150.

2500 Introduction to African Studies (4 sh)

This course, utilizing the disciplines of history, sociology, and anthropology, will present, discuss, and analyze the African-American experience from pre-slavery West Africa to contemporary U.S., with particular emphasis on current cultural, theological, social, economic, and political issues that exist within the African-American community. Cross-listed with AS 2500.

2520 Criminal Justice (4 sh)

An overview of the criminal justice system in the United States emphasizing key issues in the process of arrest through trial and sentencing and imprisonment, an analysis of the roles of the police, prosecutors, defense attorneys, and courts, and the various theories of punishment and crime causation. Representative Supreme Court decisions in the law of arrest, right to counsel, capital punishment, search and seizure, and self-incrimination will be analyzed. Prerequisite: POGO 1600. Cross-listed with POGO 2520. Prerequisite: POGO 1600.

2530 The Civil Rights Movement 1954-1970'S (4 sh)

Emphasizes the period from 1954 through the 1970s as a time of social turmoil and change in American society during which African-Americans insisted on inclusion in the nation's mainstream and power in their own right. Employs social movement theory in examining the history, progress, and effects of the Civil Rights Movement in general and in studying such organizations as the NAACP and such leaders as Martin Luther King in particular. Cross-listed with AS 3030.

2800 Marriage and Family (4 sh)

The family is an important social institution that profoundly affects us. This course is designed to study the diversity of families and explore the historical changes in marriage patterns. Topics covered include dating and mate selection, family structures, marital satisfaction, parenting, divorce and remarriage, alternative lifestyles, and the diversity of meaning that the institution has in the United States and cross-culturally.

2900 Community and Initiative (4 sh)

Initiatives to establish community are what make the United States what it is today. This class explores how voluntary association, the visions of utopian planners, and the networking of migrants and minorities have all contributed to this country's political and spatial peculiarities. It also asks students to consider whether community is still possible today, and, if so, at what cost? Through service learning excursions, students will get their own answers to these questions.

2930 Topics in Sociology (1-4 sh)

Intensive investigation of a selected topic of current interest in sociology. The specific subject matter may vary from year to year, reflecting the interests of both faculty and students. The courses are designed for all students and are taught at an introductory level.

3010 Social Thought (4 sh)

Critical examination of the theoretical foundations of the study of society and culture. Historical evolution of social and anthropological thought as well as contemporary analysis. Required of all students majoring in sociology.

3030 Urban Sociology (4 sh) GE

90% of urbanization taking place today is in the developing world-Latin America, Africa, and Asia. How can Western classical theories of urbanization developed in the 19th and 20th Centuries inform contemporary experiences of migration, individualism, social control, social movements and redevelopment in non-Western countries in the 21st Century Lectures, reading and case studies from local authors provide ample opportunity for cross-cultural comparisons.

3080 Power, Privilege and Inequality (4 sh)

Examination of class, status, and power; their origin, change, and interrelationship with other aspects of society; societal distribution of resources and rewards. Analysis of forces influencing individual and group mobility.

3100 Sociology of Religion (4 sh)

Relationship of culture and society to religion. Analysis of social, political, and economic forces with religious belief, expression, and practice.

3130 Justice in Education (4 sh)

Applied to America's system of schooling, justice as an ideal has inspired a meritocratic system, and justice as a goal has offered up education as the great equalizer. Yet these related pursuits have, arguably, proven illusory. Sociologists, educators, students, and other concerned citizens continue to tweak our existing systems, to correct for past disadvantages, to achieve new notions of justice. Through lectures, readings, fieldtrips, and service-learning, this course follows developments in education, with an eye on what are our ideals, and what it means to fail at achieving them.

3200 Correctional Services (4 sh)

Review of the historical and contemporary structure, philosophical underpinnings, and administration of adult corrections in the United States. Emphasis is placed on the purpose and goals of the correctional system and the critical issues and problems facing it today. Major topics include discussion of the various philosophies of punishment, sentencing strategies, and the prison community. The social, political, and economic impact on correctional services, such as boot camps, sentencing reform, overcrowding, community-based alternatives, punishment versus rehabilitation debates, and reintegration are explored. Cross listed with CJ 3200. Enrollment limited to Criminal Justice majors or permission of instructor or department chair. Prerequisite: SOC/POGO 2520.

3300 Modernizing China and Japan (4 sh)

What does it mean to be modern? This course explores the political and social dynamics of creating a modern state in China and Japan in the 19th and 20th Centuries. Focusing on historic initiatives that led to each society's transformation, we examine the push for industrialization, nationhood and the ideal citizen. Readings draw on the perspectives of ordinary people responding to state-sponsored social change.

3310 Movements for Change (4 sh)

Who fights for change? Why? And how? Answers tend to vary with historical circumstance. Increasingly today we find trans-border problem solving to deal with problems that cross borders—problems like environmental degradation, migrant rights, and criminal or health issues. This course looks at the transformation of old and the emergence of new institutions as people try not only to cope but realize their vision of a just society.

3330 Juvenile Justice System (4 sh)

The contemporary juvenile justice system is analyzed from historical and philosophical perspectives. An overview of the procedures, structures, and treatment of juvenile offenders are provided as well as an exploration of the purpose and primary operations of juvenile detention and probation services. Further emphasis is placed on the nature and extent of delinquency, theories of causation, current trends, prevention, problem solving, and the delivery of services to this population. Students compare and contrast different approaches and future trends in juvenile justice among countries within and outside of the United States. Cross listed with CJ 3300. Enrollment limited to Criminal Justice majors or permission of instructor or department chair. Prerequisite: SOC/POGO 2520.

3400 Criminal Procedure (2 sh)

An overview of the structure of the United States court system, sources of individuals' rights and the constitutional limitations on the prohibition of criminal conduct will provide a foundation for this study of criminal procedural law. This course will examine the legal continuum from the initial search and seizure of a suspect, to the arrest and interrogation, pre-trial process, criminal trial, sentencing and punishment, and appeal and post-conviction rules. Cross-listed with CJ 3400. Enrollment limited to Criminal Justice majors or permission of instructor or department chair. Prerequisite: SOC/POGO 2520.

3410 Migration and Identity (4 sh)

Study of dynamics of immigrants, adaptation, intercultural acculturation, education of next generations, family life, interracial marriage, ethnic conflict with business, religion, economic, and political functions.

3450 Criminal Law (2 sh)

Provides with an overview of criminal law with an emphasis on the major crimes to include offenses against: the person, habitation, property, public morality, alcohol and drug offenses, and white collar and organized crime. The course will explore an individual's liability for criminal conduct, criminal responsibility or intent, and the circumstances that may modify the individual's responsibility for a criminal act. Special defenses to criminal acts will also be discussed. Cross-listed with CJ 3500. Enrollment limited to Criminal Justice majors or permission of instructor or department chair. Prerequisite: SOC/POGO 2520.

3500 Methods in Social Research (4 sh) GE

An introduction to the logic of scientific inquiry and its implication for social research. Research strategy, definition of research goals, methods of data collection and analysis. Required of all students majoring in sociology. Prerequisite: STAT 1490.

3800 Globalization: Transforming Economy and Culture (4 sh)

Global Village or Global Pillage? Focusing on the experiences of the United States and China, this class provides a theoretical framework and historical perspective to understanding globalization as both an economic and cultural process. Lectures, reading and case studies of local responses to globalization illustrate how this process reorders, integrates and transforms societies.

3900 Law Enforcement Administration (2 sh)

Application of the fundamental theories and principles related to the professional management and administration of law enforcement agencies. The basic management concepts of police administration and forms of police organization are analyzed and evaluated. Examines specific operational functions such as budgeting, personnel, planning, technology, and productivity measurements. Designed to assist students in developing the ability to interpret and implement complex policy such as homeland security into their professional practice. Cross-listed with CJ 4000. Enrollment limited to Criminal Justice majors or permission of instructor or department chair. Prerequisite: SOC/POGO 2520.

3930 Practicum in Sociology (4 sh) GE

Hands-on and practical, this class introduces students to the qualitative methods of research such as observation and interview as students support Chicago institutions through service learning. Team work around common interests, learning outside the classroom, and application of existing talents and skills sets this course apart. Required of all students majoring in sociology, but not limited to sociology majors.

3950 Restorative Justice (2 sh)

An in-depth analysis of the key principles and concepts critical to the practical application of restorative justice. Acknowledges that crime causes injury to people and communities and that restorative justice seeks healing, wholeness, and reconciliation for all parties. Introduces the student to a variety of established restorative methods such as family/group conferencing, victim/offender mediation, and peace making circles. Cross-listed with CJ 4200. Enrollment limited to Criminal Justice majors or permission of instructor or department chair. Prerequisite: SOC/POGO 2520.

4000 Departmental Honors in Sociology (8 sh)

Prospective students must submit a research proposal two weeks prior to the last day of the spring semester of their third year. To graduate with Departmental Honors in Sociology a student must successfully complete 8 semester hours of SOC 4000 in addition to their major requirements.

4010 Seminar in Sociology (4 sh)

Directed research will integrate students' knowledge in sociology. The research project will facilitate use of students' reasoning and writing skills and their insights of sociology. Required of all students majoring in sociology. The sociology comprehensive examination is administered in conjunction with SOC 4010. Prerequisite: SOC 3010, 3500, 3930 and fourth year standing.

4910 Independent Study in Sociology (1-4 sh)

Self-directed study of material not covered in an existing course. Requires pre-approval by faculty of proposed course topic, reading list, learning activities, and tools of evaluation.

4970 Internship in Sociology (2 or 4 sh)

Please refer to the internship section of the catalog for internship requirements and guidelines.

Spanish (SPAN)

Bricault (chair, modern languages), Craft, Florian, Parkyn

The objectives of the department of Spanish are incrementally increased as students' progress in the program. Students fulfilling the General Education requirements should demonstrate a communicative proficiency in writing, reading, and speaking day-to-day Spanish. They should possess an understanding of basic grammatical structures and a general awareness of the various cultural and political identities of Spanish-speaking peoples.

Students who complete a minor in Spanish should demonstrate competence in managing the grammatical, lexical, and cultural elements of many life-based oral and written interactions with native speakers, comprehension of reading materials intended for the general Spanish speaking population, and specific knowledge of the concerns and cultural patterns of some Spanish-speaking cultures.

Students who complete a major in Spanish should demonstrate broad and accurate mastery of written and spoken Spanish as it relates to daily and academic, particularly literary topics. In addition to mastery of linguistic elements, they should demonstrate broad knowledge of the historical and intellectual heritage of the various Spanish-speaking cultures, and an in-depth analysis of issues relating to Spain Mesoamerica, the Caribbean, or South America.

Major requirements for the B.A. degree in Spanish

Required semester hours

36 sh

Required core courses

SPAN 1010, 1020, 2010, 2020, 4010, 4901; one of 3150 or 3930; and one of the following: 2040, 3160, or 3170.

Majors are required to participate in an approved foreign study program in Spanish, such as the winter program in Cuenca, Ecuador.

Electives

Students may choose any additional courses above SPAN 2020 as electives to bring the total of semester hours for the major to 36. The study abroad requirement may be waived for heritage speakers by substituting a minimum of 4 sh of SPAN 4970 Internship in Community Spanish.

Notes and restrictions

SPAN 2130 does not count toward the major or minor. in Spanish but will count toward a minor in Latino and Latin American Studies, which is recommended.

In addition to the major requirements, secondary education students must take SPAN 3150; 2040; and either 3160 or 3170; and must pass the Oral Proficiency Interview at the high intermediate level.

Honors

Students with a GPA of at least 3.5 may apply for Departmental Honors in Spanish. During their fourth year, they will enroll in SPAN 4000 (4 sh) in which they will complete a research paper on a selected topic in Spanish (25 pages). For general Departmental Honors requirements and description of SPAN 4000, see appropriate sections of this catalog.

Minor requirements in Spanish

Required semester hours

20 sh

Required core courses

SPAN 1010, 1020, 2010, 2020 (or equivalent), and one of 2030, 3150 or 3930.

Electives

Any additional Spanish courses.

SPAN 2130 cannot be applied to the minor.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1010 Basic Spanish I (4 sh) GE

Introduction to Spanish through materials relating to culture and contemporary society, with equal emphasis on listening, speaking, reading and writing. Coordinated with multi-media materials. No credit for SPAN 1010 will be granted to students who have completed more than two years of high school Spanish within the last five years.

1020 Basic Spanish II (4 sh) GE

Introduction to Spanish through materials relating to culture and contemporary society, with equal emphasis on listening, speaking, reading and writing. Coordinated with multi-media materials. Prerequisite: SPAN 1010.

2010 Intermediate Spanish I (4 sh)

Expansion of vocabulary, review of grammar, and extended involvement in conversation and writing through work on short readings about contemporary Hispanic culture. Prerequisite: SPAN 1020.

2020 Intermediate Spanish II (4 sh)

Expansion of vocabulary, review of grammar, and extended involvement in conversation and writing through work on short readings about contemporary Hispanic culture. Prerequisite: SPAN 2010.

2030 Advanced Intermediate Conversation and Grammar (4 sh)

Taught only during the winter program in Morelia, Mexico. Prerequisite: SPAN 2010.

2040 Spanish Phonetics and Pronunciation (4 sh)

An introduction to how the sound system of Spanish functions with emphasis on phonetic transcription, accentuation, syllabification, spelling, dialectal variations, and contrast with English. Prerequisite: SPAN 2020.

2130 Mexican History and Culture (4 sh) GE

A multi-disciplinary approach to the study of Mexico from pre-Colombian societies to the present. Taught in English. Required for the Morelia program. Does not count for the major or minor.

3100 Literature of Spain I: Medieval the Golden Age (2 sh)

A survey of Spanish literature as viewed through short selections of classic literature from the Cid through Cervantes. Taught in Spanish.

3150 Advanced Grammar and Composition (4 sh)

An intensive review of problematic grammar and vocabulary through short literary selections to strengthen written expression. Prerequisite: SPAN 2020.

3160 The Cultures of Spain (2 sh)

Advanced intermediate course taught in Spanish, intended to familiarize students with major trends and some specific detail concerning the culture and history of Spain. Course content will expand vocabulary and reinforce grammar while improving skills

of summary and synthesis. Applicable toward Spanish major and minor. Prerequisite: SPAN 2020.

3170 The Cultures of Latin America (2 sh)

Advanced intermediate course taught in Spanish, that introduces major trends in four regions of Latin America: The Caribbean, the Andes, the Southern Cone and Central America. Course content will expand vocabulary and reinforce grammar while improving skills of summary and synthesis. Applicable toward Spanish major and minor. Prerequisite: SPAN 2020.

3200 Literature of Spain II: Neoclassical through Contemporary (2 sh)

A survey of Spanish literature including Neoclassic, romantic, the Generation of '98, '27 Civil and post-Civil War. Students read short selections and one full-length work. Taught in Spanish. Prerequisite: SPAN 2030 or 3150.

3300 Colonial Latin American Literature (2 sh)

A survey of significant literary movements in Latin America and representative works from the conquest to the nineteenth century. Prerequisite: SPAN 2030 or 3150.

3400 Contemporary Latin American Literature (2 sh)

A survey of significant literary movements in Latin America in the nineteenth and twentieth centuries as viewed through representative works. Prerequisite: SPAN 2030 or 3150.

3910 Topics: Language or Literature (2-4 sh)

An in-depth study on selected topics from the field of language, literature or cultures of Spanish speaking people.

3920 Mexican Literature (4 sh)

An in-depth study of a theme in contemporary Mexican literature, taught in conjunction with the Morelia program. Prerequisite: SPAN 2030 or 3150.

Statistics (STAT)

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1490 **Introductory Statistics (4 sh)** GE

Introduction to applied statistical analysis. Descriptive, correlational, and inferential statistics; concepts of population, sample, sampling distribution; elements of probability; parameters of discrete distributions; hypothesis testing: analysis of proportions, means, and variance; linear regression. Computer applications required. Cross-listed with MATH 1490. Prerequisite: MATH 1005 or MATH 1010 with a minimum grade of C or by math placement.

1491 **Multivariate Data Analysis for Business (2 sh)**

This course presumes that a basic statistics course has been taken. The course will attempt to review some fundamental multivariate procedures that are often used in the social science and business environments. The course will begin with a review of options of dealing with missing data and outliers. The assumptions of multivariate analysis will be explained. Quantitative procedures such as multiple regression, discriminate analysis, and conjoint analysis will be discussed. The analysis of qualitative data through log-linear models will then be reviewed. A data set will be provided with which these techniques will be applied. Prerequisite: STAT 1490.

Swedish (SWED)

Andreasson-Hogg

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement; see the General Education Program section of the catalog for more information.

1010 **Basic Swedish I (4 sh)** GE

Introduction to contemporary Swedish through materials relating to culture and civilization with equal emphasis on listening, speaking, reading, and writing. No credit for SWED 1010 will be granted to students who have more than two years of high school Swedish within the last five years.

1020 **Basic Swedish II (4 sh)** GE

Introduction to contemporary Swedish through materials relating to culture and civilization with equal emphasis on listening, speaking, reading, and writing. Prerequisite: SWED 1010.

2010 **Intermediate Swedish I (4 sh)**

Review and reinforcement of Swedish grammar. Discussion based on the reading of materials on everyday situations. Daily practice in conversation. Prerequisite: SWED 1020.

2020 **Intermediate Swedish II (4 sh)**

Extensive reading of simple literary works of high quality to develop reading comprehension. Theme writing based on the assigned texts and on contemporary topics to achieve a higher degree of proficiency in writing skills. Prerequisite: SWED 2010.

2040 **Swedish Phonetics and Pronunciation (2 sh)**

Phonetics and pronunciation is a practical course that aims to help majors improve their pronunciation and learn how to teach pronunciation to others. It also includes the theoretical treatment of phonetics: specifically articulatory phonetics, phonology, linguistics structures, and intonation that will be language specific. Prerequisite: SWED 2020.

3150 **Advanced Swedish Grammar and Composition (4 sh)**

Intensive study of vocabulary, idiom, and grammar to strengthen self-expression and fluency. Prerequisite: SWED 2010, 2020.

Women's and Gender Studies (WGS)

The minor in Women's and Gender Studies gives students the opportunity to explore these two interdisciplinary fields through academic study and creative activities focused on women's and men's experiences in gendered cultures and sub-cultures in the United States and globally. The purpose of the program is to develop students' understanding of their own and others' identities by recognizing the nexus of gender and other identity markers, such as race, class, nationality, religion, sexuality, and others. The program complements a variety of professional and liberal arts majors.

Minor requirements in Women's Studies

Required semester hours

20 sh

Required core courses

2010, 2020, 2130, 3100

Electives

4 additional hours from WGS 2150 or 4910.

Notes and restrictions

- Students must complete a form listing the courses they have taken to complete the minor, to be obtained from the department and on the department website.
- Students must turn in a simple portfolio to the chair of the department containing the following:
 1. A statement of their specific goals upon entering the program
 2. A self-assessment of the achievement of those goals-including what educational experiences most enhanced their learning, curricular and extracurricular.
 3. Two samples of student work from each course: completed: projects, essays or exams.

2010 **Introduction to Women's and Gender Studies (4 sh)** GE

This course introduces students to Women's and Gender Studies by exploring contemporary gendered issues through the lenses of race, class, sexuality, and disability. Women's experiences across cultures and co-cultures are emphasized.

2020 **Gender and Justice (4 sh)**

This course traces the pursuit of justice and equal rights for women and men in the U.S. through the first and second wave feminist movements, as well as contemporary feminist and queer movements. The focus is on the ethics and moral reasoning used in the past and today to frame the cultural debates.

2130 **Contemporary Feminism (4 sh)**

This course introduces students to Women's and Gender Studies by exploring contemporary gendered issues through the lenses of race, class, sexuality, and disability. Women's experiences across cultures and co-cultures are emphasized.

2150 **Gender Studies (4 sh)**

Exploration of male and female gender roles in culture and society. Importance of gender in workplace, family, education, and belief systems. Analysis of power. Assessment of the contribution of feminist theories to study of gender. Cross-listed with SOC 2150. Prerequisite: SOC 1910.

3100 **Global Perspectives on Feminism and Gender (4 sh)**

This course explores the ways in which gender equality and justice vary across global cultures. Students examine the opportunities and challenges created by transnationalism, including those related to global economics, human rights, ecology, and cultural traditions.

3910 **Topics in Women's Studies (1-4 sh)**

An in-depth study of a chosen topic within any discipline.

4910 **Independent Study in Women's Studies (1-4 sh)**

Advanced independent research in Women's Studies.

Writing Center (WRIT)

Martin

The Writing Center supports all North Park undergraduate students in their search for meaningful lives of significance by lending concrete assistance in learning and practicing writing as a process of learning. Student Writing Advisors, trained in WRIT 2100, work one-on-one with all students in Core Curriculum seminar courses, and are available to all other undergraduates on a drop-in basis in the Writing Center. Two formal composition classes offer more intensive instruction and training. Enrollment in current WRIT classes is by placement only; contact the Writing Coordinator for consultation.

1000 Fundamentals of Composition (4 sh)

Specific instruction and intensive practice in written expression. Review of conventions of grammar and usage. Study of the composing process, thesis development, and essay structure. Enrollment by placement. A grade of C- or higher is required to enroll in NPD 1000. Developmental courses do not count toward the 120sh graduation requirement but do count towards full-time enrollment status.

1050 College Composition (4 sh)

Students are issued credit for writing effectively within a range of rhetorical contexts and for demonstrated competence in critical thinking and reading. Enrollment by placement and/or consent of the Writing Center.

2100 Tutoring Writing (0-2 sh)

Intended to train Writing Advisors for their work in the Writing Center, this seminar introduces and exercises theoretical concepts, pedagogical methods, and practical strategies useful as a foundation for peer response and tutoring of writing. This course is restricted to students who have been accepted as an apprentice Writing Advisor.

5000 Writing for the Professions (1 sh)

A program of workshops (4 workshops) and one-on-one instruction (8 sessions) designed to ensure competence in writing commensurate with the demands of graduate studies.

Youth Ministry (YM)

Hodge (director)

The Youth Ministry major is sponsored and taught by the Center for Youth Ministry Studies. Through a combination of course work and supervised field experience, the department seeks to develop biblical and theological depth, personal spiritual maturity, management and leadership skills, and the working knowledge needed to minister effectively to adolescents and their families.

Initial application to enroll in the Youth Ministry major is made upon completion of YM 1510 and YM 2710. Acceptance and advancement in the major are contingent upon academic performance and personal aptitude. Students must have a cumulative grade point average of 2.50 or higher and a minimum grade of C in all prerequisite courses in order to enter as a Youth Ministry major.

Major requirements for the B.A. in Youth Ministry

Required semester hours

36 sh

Prerequisite and supporting courses

One Old Testament BTS course; one New Testament BTS course; one Theology BTS course.

Required core courses

YM 1510, 2010, 2410, 2710, 3010, 3020, 3910 (minimum of 2 sh), 4970, 4980, 4990

Electives

3 semester hours; suggested YM 3910, 4970

Notes and restrictions

All youth ministry majors will be required to complete two supervised youth ministry field experiences. The internship (YM 4970) must be either a full-time summer placement or part-time, nine month placement during the school year in a church, parachurch, or community-service setting.

Minor requirements in Youth Ministry

Required semester hours

16 sh

Required core courses

YM 1510, 2410, 3010, 4980.

1510 Introduction to Youth Ministry (4 sh)

A survey of theoretical and developmental issues related to youth and youth ministry. Units will include biblical-theological basis for ministry, an overview of the theories of adolescent development and implications for youth ministry; and a survey of contemporary youth culture and suggested Christian responses. This course will also survey various developmental models for relational youth ministry.

2010 Urban and Multi Ethnic Youth Ministry (4 sh)

This course is an engagement with multi-ethnic & urban settings and connecting the youth worker/ pastor to the field of urban & multi-ethnic youth ministry. It explores the issues and systems that affect youth and youth ministry in urban contexts in North America, with a special focus on Chicago. There is an emphasis on

the practical skills and knowledge needed by a leader in an urban multi-ethnic church, para-church or community based setting. Students who have experience in urban settings are invited to use the course to further build on their experience and knowledge base and to inform their current and/or future ministry. This course seeks to examine, engage, and develop a theology for the urban and multi-ethnic city through discussion, historical contexts, sociocultural analysis, theory, literature, film, Black Popular culture, Hip Hop, and the Word of God. Prerequisite: YM 1510.

2020 Introduction to Camping Ministry (4 sh)

An introduction to the field of Christian camping. This course will familiarize students with key issues present in Christian camping such as the history and philosophy of Christian camping, programming, administration and maintenance, risk management, staff recruitment, marketing development of campers and staff, evaluation and legal concerns. Prerequisite: YM 1510.

2410 Adolescent Development and Issues (4 sh)

This course provides an exploration of development theories as they relate to stages of change: physical, cognitive, social, moral and faith. These theories help us understand various issues faced in adolescence such as peer associations, family and personal identity, and specific adolescent disorders. This course will also deal with basic assessment, intervention, and referral strategies. Prerequisite: YM 1510.

2710 Youth Ministry Practicum (2 sh)

This experience includes the integration of theory, practice, and reflection in a supervised youth ministry situation. Students will volunteer five to eight hours a week in local churches or para-church organizations, in addition to regular class meetings. Co-requisite: YM 1510.

3010 Curriculum Development (4 sh)

This course addresses specific methods of designing, implementing and evaluating youth ministry curriculum and group processes. The learning experience will include a critical analysis of current curriculum as well as designing specialized curriculum for particular contexts. The student will be able to adapt and create effective youth ministry programs. Having taken an Old or New Testament course in an asset. Prerequisite: YM 1510, 2410, 2710.

3020 Discipleship Theory and Practice (4 sh)

This course aims to provide a comprehensive and practical experience in being a disciple, making disciples, and training disciples. It is intended to equip students to do person-context and church-context training. This course is taught in conjunction with North Park Seminary. Prerequisite: YM 1510.

3910 Topics in Youth Ministry (1-4 sh)

A selection of intensive courses taught by leaders in their respective fields. These courses are offered to North Park students for credit and are available as non-credit workshops for youth workers in service. When taken for credit each course includes preparatory reading and a summary paper and/or project. One course will be offered each semester in conjunction with North Park Theological Seminary. Options may include: Post-modernism and Youth Ministry; Ministering to Teenagers in Crisis; Urban Youth Ministry Issues; Spiritual Formation and the Youth Worker; Developing Student Leadership Teams; Involving and Developing Students for Mission and Service; College Student Ministries; Camping and Retreats; Worship and Youth Ministry

4910 Independent Study in Youth Ministry (1-4 sh)

This course allows students to work independently on projects in a field of study not offered in the curriculum. Consent of instructor required. Prerequisite: YM 1510.

4970 Internship in Youth Ministry (1-4 sh)

Youth ministry majors are required to serve in a key leadership role in a church, parachurch, camp, or community-service setting. The goal is practical, supervised experience combined with reflection and evaluation. It must be either a full-time summer placement or part-time, nine-month placement during the school. Consent of instructor required. Please refer to the section in the catalog pertaining to internship requirements and guidelines. Student must be of third or fourth year standing. Prerequisite: YM 1510, 2510, 2710.

4980 Leadership and Management of Youth Ministry (4 sh)

This course delves into leadership and management issues in the field of youth ministry. Issues addressed include managing finances, managing risk, building a team ministry, and organizing time, office, events, and meetings. Student must be of 3rd or 4th year standing. Prerequisite: YM 1510, 2710, 3010, 3020.

BACHELOR'S DEGREE COMPLETION PROGRAMS

North Park University's degree-completion programs are designed for working adults who wish to complete their undergraduate degree and advance their careers. Courses are offered on an accelerated schedule to accommodate non-traditional undergraduate students.

RN-to-BSN Degree-Completion Program

The University offers a part-time or full-time program for registered nurses seeking a Bachelor of Science degree. Acceptance into the major is contingent upon successful completion of prerequisite courses and a 2.75 cumulative grade-point average. Registered nurses must also provide evidence of the following:

- Graduation from a National League for Nursing accredited associate degree or diploma nursing program or equivalent.
- Credit for previous coursework in nursing is awarded after successful completion of NURS 3210 for a total of 30 credit hours.
- Licensure to practice as a Registered Nurse in the State of Illinois

RN-to-BSN Degree-Completion students must complete the core curriculum requirements of the School of Adult Learning. These core curriculum courses are offered in an accelerated format through the School of Adult Learning or by transfer of credit. The appropriate corresponding core curriculum classes in the traditional undergraduate program are also open to RN-to-BSN Degree-Completion students.

The Bachelor of Science in Nursing program for RN students is approved by the Department of Professional Regulation of the State of Illinois and is accredited by the Commission on Collegiate Nursing Education (CCNE).

Registered Nurse Admission Procedures

Prospective students will complete an online application. In addition, the following materials must be received for the application to be complete:

- Transcripts from all previously attended nursing schools, colleges and universities

Program and Academic Requirements

All academic policies specified for undergraduates apply to students seeking the BSN.

Major requirements for the B.S.N. (RN Students)

Required semester hours

RNs must take at least 30 credits at North Park, 24 of which are nursing course credits.

Supporting courses for the major (may also be met through transfer credits)

GS 2080 or a composition course, BIOL 2910, 2930, CHEM 1021, STAT 1490; PSYC 1000, 2700; SOC 1910. Prerequisites in Nursing may also count toward the fulfillment of Core Curriculum requirements.

Required core courses

NURS 3000 (or an approved upper level pathophysiology course),
NURS 3030, 3210, 3540, 4240, 4510, 4530

3210 Concepts of Professional Nursing: RN (4 sh)

A bridge course designed for Registered Nurses. Selected units may be taught on-line. Discusses ways in which nursing practice, personal experience, and liberal arts education interface with nursing professionalism. Introduces theories of adult learning styles, critical thinking, group dynamics, and personal/professional development. Applies theoretical principles to professional writing and presentations. Examines current legal issues, multiculturalism, and healthcare policy. Integrates personal values, Christian perspective, and caring in nursing. Explores students' personal experiences in various healthcare settings.

4240 The Research Process in Professional Nursing (2 sh)

Introduces elements of the research process with emphasis on becoming a consumer of research. Focus is on relevance of research findings to evidenced-based quality health care. Considers ethical issues in research.

4510 Community Health Nursing: RN (6 sh)

Designed for registered nurses, the course synthesizes knowledge of the science and practice of community health nursing, and is built upon and connected to the University urban, international and Christian distinctives. Focuses on patterns that influence wellness and potential barriers that place individuals, families or communities at risk for major health problems. Includes health care delivery system and its effects on underserved consumers and professionals, community assessment, epidemiology, violence in the community, environmental & occupational health, world health issues, and home health hospice care. Applies theory and practice in community settings.

4530 Management/Leadership in Nursing: RN (6 sh)

Designed for registered nurses as a culminating nursing course. Focuses on synthesis of nursing knowledge, integrating management and leadership principles and addressing professional challenges and opportunities in nursing. Individualized practice opportunities in clinical settings.

SCHOOL OF ADULT LEARNING

SAL Program

Watkins (dean), Curry, James, Priester, Ransom, Ross

The SAL (School of Adult Learning) program extends the mission of North Park University to adults by helping them complete their undergraduate degree with an education in the liberal arts. SAL courses provide a supportive Christian environment that calls forth a lively interest in life-long learning, a sense of personal wholeness, ethical servant leadership in the workplace, and responsible citizenship in the world.

The SAL (School of Adult Learning) program offers seven majors to help the adult student with at least 12 semester hours of college credit complete a Bachelor of Arts degree. The seven majors are: (1) Business Administration, (2) Church and Ministry Management, (3) Counseling Psychology (4) Criminal Justice, (5) Management Information Systems, (6) Nonprofit Management, and (7) Organizational Management and Leadership. The three certificates are: (1) Business Information Systems, (2) Certification in Web Development for Business, and (3) Church and Ministry Management. Students complete their degree through two components: (1) Credit for Prior Learning (up to 20 semester hours for learning on the job, in seminars, or individually); and (2) instructional modules offered one four-hour session per week in seven-week courses.

Application Process

Adult applicants with 12 semester hours from an accredited college with a 2.0 grade point average or better are accepted. Those with a grade point average below 2.0 will be considered for admission on a provisional basis.

At the admission stage, students will be informed of any general education and/or elective courses still required, accompanied by a recommendation as to when and how these can be completed (See SAL Studies). Applicants who are accepted must complete an orientation process before registering in courses.

Bachelor of Arts

The Bachelor of Arts (120 semester hour credits total) requires the following:

1. 36-40 major credits
2. 44 general education credits
3. 36-40 elective credits
4. Completion of Learner Assessment

SAL Studies (GS)

SAL Studies offers the general education requirements and selected elective courses in the accelerated format (one night a week or Saturday morning, in four-hour sessions over a period of seven weeks) to SAL students. Exceptions are Spanish I and II and 1-2 semester hour courses. Spanish I and II are offered twice a week in three-hour sessions. Courses bearing 1-2 semester hours meet on alternate schedules within the seven-week format. Students are expected to spend 10-20 hours per week in preparation. Sessions are taught in an interactive manner.

Adult applicants to the SAL program who have 12 semester hours from an accredited college with a 2.0 grade point average on a scale of 4.0 or better are accepted. Those with a grade point average below 2.0 will be asked to submit a writing sample and may be considered for provisional admission. SAL Studies courses are open only to currently enrolled SAL students (with the permission of the advisor). RN-BS Degree Completion students may take SAL Studies courses with the approval of their advisors. Education Certification students who have completed a bachelor's degree may also take SAL Studies courses upon the approval of the School of Education; traditional students may petition to take SAL courses with advisor's approval.

At least one SAL Studies course is offered for each general education requirement.

SAL Core

The SAL Core is a set of three courses designed to prepare incoming students with additional instruction in writing, oral communication, information technology, and mathematical skills. Students are required to complete the core sequence prior to enrolling in their major courses of study. The SAL core is made up of the following:

GS 2050 Strategies and Technologies for Professional Development.. 4 sh

GS 2080 Writing for the Disciplines 4 sh

GS 4000 is a capstone seminar required for all SAL students and is to be taken in the semester prior to graduation.

GESAL Designates a course that fulfills all or part of a General Education (G.E.) requirement for the B.A. or B.G.S. degree; see the General Education section of the School of Adult Learning for more information.

1000 College Composition (4 sh) GESAL

The goal of the course is competent writing, critical reading, responsible thinking, and applied understanding of the rhetorical range of the English language. Weekly essay and research paper. Enrollment by placement. In order to pass, students must earn a grade of C- (70%) or higher.

1010 Spanish I (4 sh) GESAL

Introduction to contemporary Spanish through materials relating to culture and civilization, with equal emphasis on listening, speaking, reading, and writing. Coordinated laboratory work.

1015 Introduction to Algebra (4 sh)

This course develops proficiency in basic mathematics and algebra. It is intended for adult students who need a refresher course in mathematics and/or algebra preparatory to taking the mathematics course (GS 1030, GS 1490 or above) necessary to fulfill the general requirements.

1020 Spanish II (4 sh) GESAL

Introduction to contemporary Spanish through materials relating to culture and civilization, with equal emphasis on listening, speaking, reading, and writing. Coordinated laboratory work. No credit for

Spanish/French/German/Swedish/ Norwegian will be granted to students who have more than two years of high school Spanish, etc. or the equivalent within the last five years. Prerequisite: GS 1010.

1030 Mathematical Concepts and Structures (4 sh) GESAL

Topics such as symbolic logic, set theory, axiomatic systems, non-Euclidean geometry, probability, and basic computer concepts will be covered. Prerequisite: GS 1015.

1040 Chemistry in Our World (2 sh) GESAL

A seminar-based approach to some of the relevant issues of chemistry as applied to sociological, economic, and international contexts.

1050 Introduction to Psychology (4 sh) GESAL

An introduction to the methodology and the major content areas of psychology.

1100 Conceptual Physics (2 sh) GESAL

An introductory algebra-based course in physical science, this course will cover selected topics in physics and astronomy with some introduction to geology and meteorology as they pertain to planetary evolution and environments. Emphasis will be placed on the role of technology in society, physics as a human endeavor, and the present and future status of space exploration. Lab is included in this course. Prerequisite: GS 1015 or by math placement.

1160 Astronomy (4 sh) GESAL

An introduction to basic principles and issues in astronomy. Topics include celestial observations, planetary mechanics, comparative planetology, star evolutions, galaxies, the earth-moon system, and the solar system. Students will also develop important insights into scientific inquiry through use of a variety of data sources. Lab is included in this course.

1200 Natural History of Illinois (4 sh) GESAL

A survey of the natural history of Illinois. Introduces basic concepts of natural history and environmental science. Develops the ability to think critically about scientific problems and concepts. Includes laboratory and field experiences.

1250 Nutrition (2 sh) GESAL

A general course in nutrition that will evaluate the eating habits of the student and suggest how to improve their diet. The digestive process, the role of macronutrients and micronutrients, and weight control will be explored. Nutrition will be examined from pregnancy through the elderly years. Eating disorders, food safety and the general problem of malnutrition throughout our world will be addressed. Independent laboratory activities will be assigned weekly to supplement lecture presentations.

1400 Personal Development (2 sh) GESAL

Examination of the traditional domains of mind, body and spirit, and explore a holistic approach to the integration of those domains. This course will help students create a personal framework, which will serve them for life. Familiar habits that may lead to ill health will be challenged. Attitudes that respect the wisdom of the body will be cultivated. The interactions among the body, mind, and spirit will be explored. Contemporary interpretations of what contributes to wellness will be examined and applied in the service of identifying and implementing lasting lifestyle changes.

1450 Adult Fitness and Wellness (2 sh) GESAL

Comprehensive instruction in adult fitness and wellness strategies and activities. Particular attention will be paid to practical applications of fitness theories, appropriate nutritional behaviors, and examinations of commonly encountered health and wellness

challenges encountered by adults. Includes applied exercise and activity components to assure comprehensive learning and fullness of appreciation for achieving personal fitness and wellness goals.

1490 Statistics in Practice (4 sh) GESAL

This course introduces students to modern statistical practice, focusing on the analysis of data. The most commonly used descriptive and inferential methods are covered. Students develop analytic skills for working with data to gain understanding of real-world problems in a variety of fields, and critical thinking skills regarding the role of statistics in the modern world. Prerequisite: GS 1015.

1500 North Park Dialogue I (4 sh) GESAL

The First-Year Seminar is an interdisciplinary seminar focused on the classic philosophical question, Who am I? Students gain an introduction to the educational experience at North Park and sharpen skills of oral and written communication.

1750 Studies in Literature (2 sh) GESAL

Reading and analysis of the major forms of literary expression. This course is designed to acquaint the student with principles of aesthetic criticism applied to significant works of world literature.

1850 Introduction to Biblical Studies (4 sh) GESAL

An introductory survey of the history and theology of the Biblical narrative as it informs Christian faith today. Particular emphasis on the theological unity of the Bible's message.

1910 U.S. History to 1877 (3 sh) GESAL

Development of a Western civilization on the American seaboard from colonial beginnings to 1877; emphasis on the colonial experience, Revolution, Constitution, evolution of institutions, division, and reunion.

1920 U.S. History Since 1877 (3 sh) GESAL

Development of an industrial and urban society and its political, economic, social, and intellectual significance; emergence as a world power.

1930 Introduction to Sociology (4 sh) GESAL

Problems, fields, and methods of sociology. Emphasis on a theoretical frame of reference to explain basic social process, the role of culture in social behavior, the nature of social organization, and social and cultural change. Intensive reading in descriptive studies from a wide range of societies.

1940 American Government (3 sh) GESAL

This course will provide a general survey of American politics and government. The purpose is to explain, analyze, and increase your understanding of the processes and institutions by which our nation makes political decisions.

2000 North Park Dialogue II (4 sh) GESAL

The Second-Year Seminar focuses on the question Why should I be ethical? It furthers each student's entry into the life of the mind and continues the development of essential communication skills.

2030 Musical Connections: The Classical Tradition and American Jazz (3 sh) GESAL

This course is an introduction to the basic elements of music common to all periods and styles of music. Melody, harmony, and form will be defined as variables that create unique and recognizable musical styles. These styles will be illustrated with lectures and guided listening. The development of American Jazz as it emerged alongside the Western Classical Tradition will be a significant component. A sampling of major composers and their words from both traditions will be covered.

2040 Women in U.S. History (3 sh) GESAL

Intensive exploration of the history of work as exemplified by women in the United States. Emphasis on developing the requisite skills for historical inquiry. Opportunity for independent inquiry within the overall theme of the course.

2050 Strategies and Technologies for Professional Development (4 sh)

Students will develop transferable skills for academic and professional success, including written and oral communication, use of technology, problem solving, critical reasoning, and lifelong learning. Adult learners will assess their own learning styles, practices, and experiences, as well as reflect on personal and professional roles and goals, and develop learning plans for achieving those goals. Emphasis on understanding fundamental concepts of information technology necessary to effectively exploit computers as tools for academic and professional development. Orientation to expectations of baccalaureate education in general and North Park University learning resources in particular. This is a required course for all incoming School of Adult Learning students.

2070 Fluency with Information Technology (4 sh)

This course will develop proficiency with contemporary word processing, spreadsheet, database, presentation, e-mail and browser application. The course will also introduce fundamental knowledge underlying information technology including how computers work, how information is represented digitally, modeling and abstraction, and algorithm discovery. Finally, this course will facilitate development of higher-level thinking processes necessary for exploiting IT: problem solving, reasoning, managing complexity and troubleshooting. Limitations and social implications of technology will also be addressed. Second course in GOAL Core sequence.

2080 Writing for the Disciplines (4 sh) GESAL

The focus of this course is on helping students to develop communication skills, both written and oral. The course provides instruction and practice in the explanatory, analytical, and persuasive writing that is found in multiple disciplines, emphasizing a writing-to-learn method. Students are given guidance through the writing process and through providing sources and ideas for thinking, rhetorical analysis and writing of complex essays, at least one of which utilizes and documents research, so that students also develop skill in information literacy and the appropriate method of documentation. Additionally, they develop skill in effective and persuasive oral presentation. Overall, students are given opportunities to learn and practice skills for success in their chosen careers, both in college and beyond.

2210 Jesus of Nazareth (4 sh) GESAL

The life and teachings of Jesus studied with reference to current research. Explores the quest for the historical Jesus, the historicity of the gospels, and the method and message of Jesus' teachings. Prerequisite: GS 1850.

2250 Film Studies (3 sh) GESAL

An exploration of relationships between film and society through the study of film aesthetics, film history, and film criticism. Emphasis will be placed on the criticism of narrative films. Critical skills will be developed through discussion, assigned readings, research, and writing.

2260 The Modern World (4 sh) GESAL

The Modern World is an introduction to the cultures and historical developments of the major world regions and their global interactions in the nineteenth, twentieth, and twenty-first centuries.

2300 Faith and Business (4 sh) GESAL

The course will foster student understanding of the interplay between Christianity and business and encourage students to consider the issues related to individual Christians as entrepreneurs, employees, leaders and observers of business. It will also examine Christian approaches to business such as Kingdom Business, Christ-centered, marketing and management, and Biblical and moral principles for the work place. The purpose of the course is to encourage students to discover how faith and business can co-exist and to construct a theology of Christian business that will guide them in their career. Prerequisite: GS 1850.

2510 African-American History to 1865 (3 sh) GESAL

Explores the history of African Americans beginning with African origins and continuing through the Civil War. Focuses on Black religion, identity formation, participation in plantation society, and contribution to American culture. Emphasizes African-American self-expression through a reading of primary sources, especially slave narratives.

2520 African-American History from 1865 to the Present (3 sh) GESAL

Explores the history of African Americans from the end of the Civil War to the present. Investigates Black identity formation, migration and urbanization, leadership production, protest strategies, and recent political movements. Gives attention to the writings of African-American authors, especially those of the Harlem Renaissance and the Civil Rights Movement.

2550 Christian Ethics (4 sh) GESAL

A study of the moral implications of the Christian faith, with emphasis on their integration into personal belief. Prerequisite: GS 1850.

2560 C.S. Lewis (4 sh) GESAL

A study of the life and thought of C.S. Lewis. Emphasis will be given to his religious ideas, his understanding of the Christian doctrine, and his methods of commending the Christian faith by reason and imagination. Prerequisite: GS 1850.

2600 Comparative Politics (4 sh) GESAL

An introductory comparative study of the political institutions of the nations of Europe and selected nations of the Middle East, Latin America, Asia, and Africa. Political parties, ideologies, military, social revolution, and modernization will be considered.

3000 North Park Dialogue III: Community (4 sh) GESAL

How are communities formed? What unites them? What divides them? How do communities change over time? What makes some communities ethical and others unethical? What role does nationalism, language, religion, race and ethnicity, economics, and geography play in the formation of community? What is the relationship between community and multiculturalism? What light do various academic disciplines bring to bear on the way communities function? This course asks students to engage with the assumptions about community embodied in a variety of historical primary texts, and to explore their own roles in the communities they inhabit. This course emphasizes reading strategies and models of intellectual inquiry, while simultaneously asking students to analyze their own participation in one or more contemporary communities.

3150 Global Themes in History (4 sh) GESAL

An introduction to the cultures, historical developments and global interactions of the world history through an intense examination of one of its significant themes.

3520 Christian Spirituality (4 sh) GESAL

An examination of the nature of Christian spirituality with emphasis on spiritual development and maturity. Relevant literature of a variety of approaches to spirituality will be introduced and evaluated.

3620 World Religions (4 sh) GESAL

Study of the common features and distinctive motifs that characterize some of the main religious traditions; Hinduism, Buddhism, Islam, and others. Emphasis on development of a methodology for reading and interpreting the world's religions. Prerequisite: GS 1850.

3910 Topics in General Studies (1-4 sh)

An intensive investigation of a selected topic offered from time to time at the discretion of the department.

4000 Integrative Capstone Seminar (0 sh)

This capstone seminar is required for all SAL students and is to be taken in the semester prior to graduation. The student will develop a professional portfolio by revising the resume and professional development plan initiated during the first term at North Park. Participants will reflect on their own learning and professional growth through discussion and synthesis of the University learning outcomes and outcomes specific to each student's major. An opportunity for feedback on the various types of services that have been part of their experience as well as discussion about methods for continuing service after graduation will be provided. This seminar serves as the final component of the School of Adult Learning assessment of student learning program. A variety of other resources will be shared to help the student continue as a life-long learner.

4910 Topics in International Settings (1-4 sh)

The School of Adult Learning encourages adult students to understand the implications of a global community, both theoretically and experientially. Topics within the overall theme of the course will be announced one year prior to offering the exchange. Study will include three to four weeks of in-class preparation, one to two weeks in a foreign country (e.g., Sweden, Mexico), one to two in-class sessions upon return. A journal will be kept throughout the experience.

Business Administration (BADM)

The major in Business Administration provides a foundation of basic managerial skills and an overview of the organization. Students are introduced to the values, problems, and priorities of management in business organizations. Business Administration majors seek to provide 1) theory of an organization as an integrated system, 2) analytical tools useful for decision making, and 3) an introduction to the functional activities of an organization: production, marketing, finance, and accounting. In developing basic managerial skills, a business administration major will also advance the skills of inquiry, critical thinking and communication that are central to a liberal education.

The major is scheduled in seven-week courses over 70 weeks, totaling 40 semester hours. The curriculum will be distributed in a series of Learner Guides, with detailed assignments for each week. Students are expected to spend 10-20 hours per week in preparation.

Major requirements for a B.A. in Business Administration

Required semester hours

40 sh

Required core courses

BADM 3100, 3300, 3500 or 3700, 3900, 4100, 4400; BADM 4200 or ISIT 3030; ORG 3034, 4074, 4094, 4120

Minor requirements in Business Administration

Required semester hours

22 sh

Required core courses

BADM 3100, 3300, 3900, 4100 4200; Select one from ORG 3034, 4074, 4094, 4120

Course descriptions for ORG courses may be found under the Organizational Management and Leadership major.

GESAL Designates a course that fulfills all or part of a General Education (G.E.) requirement for the B.A. ; see the General Education portion of the School of Adult Learning section of this catalog for more information.

3100 Principles of Macro and Micro Economics (4 sh) GESAL

Focus on macro (external) and micro (internal) environments of business, and monetary and fiscal policy as applied to interest rates, growth, income and prices. The expanding role of the international economy is discussed. The ethics of business and governmental policymaking are examined.

3300 Principles of Financial Accounting (4 sh)

This course introduces the study of generally accepted accounting principles and techniques for measurement and reporting of financial information in a balance sheet, income statement and statement of cash flows. This will involve developing an understanding of the accounting cycle, transaction analysis, debits and credits, financial reporting concepts and internal control. Ethical implications of accounting decisions will also be considered.

3500 Principles of Managerial Accounting (2 sh)

This course introduces managerial accounting concepts that are relevant to decision-making. Topics include theory and practice of job cost and unit cost accounting, including job order, process

and standard costing systems, variance analysis, direct and indirect costs, budgeting. Prerequisite: BADM 3300.

3700 International Business (4 sh) GESAL

This is a course designed to introduce students to international business and the role of multinational corporations (MNC) in today's global economy. The course will address international business issues that need to be understood by managers of organizations with worldwide operations and/or plans to commence foreign operations. The course focuses on, international business issues such as; political, cultural, social, legal, economic, financial, trade and investment, regional trading blocks, role of nation state, and multinational institutions. By the end of the course, students should gain a global perspective and be aware of the potential of international business in today's fast changing competitive business environment.

3900 Business Law (2 sh)

An introduction to the foundational concepts in business law. Fundamental legal understanding of our system of federalism and state law, government regulation of business, and an overview of the principles underlying the formation of contracts (including general contracts and those for the sale of goods), torts, negligence and strict liability and the various forms of business organization common in the United States.

3910 Topics in Business Administration (1-4 sh)

Intensive investigation of a selected topic in Business Administration offered from time to time at the discretion of the School of Adult Learning.

4100 Foundations of Finance (4 sh)

This course covers the concepts and techniques of financial management with an emphasis on for profit corporate entities. The major focus of this course will be on valuation techniques, project analysis, the effects of markets on rate structure, and corporate financial structure. Specific topics include the time value of money, discounted cash flow techniques, internal rates of return, management of working capital, financial analysis, capital budgeting, capital structure, cost of capital, dividend policy and valuation techniques. The course will also cover acquisition and allocation of short and long-term capital. While highly quantitative in nature, this course stresses problem-solving processes, specifically in a financial context. Included in this, especially in light of North Park's Christian heritage, we will explore how ethical considerations have affected financial decision-making and theory throughout history. Prerequisite: BADM 3300, 3500.

4200 Production Management (4 sh)

Objective, constraints and processes, associated with the efficient production of goods and services. Analytical models and methods, facilities design and the design of control systems for production operations are presented. Process and systems analysis, capacity, design, inventory planning and control, queuing theory, and network models are all included in the production management science. Student must complete an undergraduate statistics course or pass proficiency testing. Prerequisite: GS 1490.

4400 Strategic Management (4 sh)

Provides a capstone experience for the business administration and organizational and management and leadership major. As such it will summarize and synthesize the various disciplines of management and will assist the student in creating a strategic future for the (business) organization. The course will examine the key dimensions of strategic management: mission determination, environmental scanning, organizational analysis, strategy selection and organizational implementation. Students will complete a

summary project requiring individual and team research, quantitative data gathering and qualitative analysis in service of creating a new direction for an existing organization. Throughout, the ethical dimensions of decision-making and implementation will be emphasized. The course will allow students to apply the lessons of strategic thinking to their own career direction.

4910 Independent Study in Business Administration (1-4 sh)

Advanced independent research.

4970 Internship in Business Administration (1-8 sh)

An assignment in a business institution other than the current employer in which reflective experience is the goal. Interested students who have completed 20 hours or more in the major should apply to their academic advisor.

Church and Ministry Management (CMM)

Major requirements for a B.A. in Church and Ministry Management

Required semester hours

40 sh

Required core courses

BADM 3100 or ISIT 3030; BADM 4400; CMM 3000, 3100, 3200, 3300; NPM 4170, 4190; ORG 3034, 4074, 4094, 4120

Church and Ministry Management Certificate

This certificate is designed to help students understand different approaches to church and ministry administration and to develop planning and management tools. It will also identify, analyze, and present solutions for several human resource related issues in a congregational and nonprofit setting. Students will discover and research appropriate stewardship models from a management perspective and give practical tools that will help congregations evaluate its current health and strategies for growth. Overall, administrative and management principles and practices for churches and ministries will be examined from leadership, human resources, stewardship, and growth and management perspectives.

Church and Ministry Management Certificate

12 sh

Required core courses

CMM 3000, 3100, 3200, 3300

Course descriptions for BADM, NPM and ORG courses may be found under the respective major in the SAL program.

3000 Principles and Practices of Church and Ministry Management (4 sh)

This course will review basic management and leadership theories in relation to the church congregation and ministries. It is designed to help students understand different approaches to church and ministry administration using both secular and biblical sources and church administrative models to develop planning and administrative tools, and identify and assess their own behavior as leaders as well the needs of the congregation in order to create a strategic plan to identify and meet those needs. This course is an overall study of the administrative and management principles and practices for the local church and ministries and will examine staff, finances, buildings, human resources, stewardship, and management.

3100 Managing Human Resources in a Church Ministry Setting (2 sh)

This course will examine current theory and practice of human resource management in a Church, ministry and nonprofit context. It will review human resources policies, compliance and procedures for local and large congregations and ministries and will provide applicable human resource tools such as; recruitment and hiring, managing personnel, evaluation and performance appraisals, discipline and compensation, volunteer management and coaching of employees. The course will also identify, analyze and present solutions for several human resource related issues in a congregational, nonprofit, and ministry settings. Prerequisite: CMM 3000.

3200 Church Fundraising and Stewardship (2 sh)

This course helps students understand different approaches to church and ministry fundraising, capital campaigns and fundraising rules and regulations. Students will learn basic annual funds, major gifts, foundation grants, planned gift fundraising, restricted and designated gifts, and essential rules and regulations. The course will focus on discovering and researching good stewardship models from a management perspective as well as helping to lead the congregation and ministries in both a personal and public understanding of stewardship. Prerequisite: CMM 3100.

3300 Strategies for Church and Ministry Growth, Change, and Revitalization (4 sh)

This course identifies key principles related to church and ministry growth, change, and revitalization. Clergy, ministry leaders, and nonprofit professionals will learn how strategic planning can clarify a congregation's direction, discernment, and opportunities for growth. It will also give practical tools that will help congregations and ministries evaluate their current health and recognize areas that need improvement and can hinder growth causing plateaus. This course will focus on how to deal with and implement change in a positive and productive way. Special attention will be given to theological and cultural principles which may affect the rate and patterns of church or ministry growth. Strategies will be designed to promote growth and revitalization. Prerequisite: CMM 3200.

Counseling Psychology (CPSY)

The major in counseling psychology provides a foundation for the application of psychological principles to personal, social, and organizational problems. Theory and research related to normal human development, etiology of mental health problems, and ethical standards of the psychology profession are discussed. Emphasis is on interaction with clients in professional settings, such as human services and social services agencies or the corporate workplace. Major principles and methods which address social and counseling issues are applied to diverse populations. This major alone does not prepare students to function as counselors, therapists or psychologists. Rather, students develop the necessary skills to assume entry-level positions in a variety of settings such as government, private human service agencies, mental health organizations, business, and industry.

Major requirements for a B.A. in Counseling Psychology

Required semester hours

36 sh

Prerequisite and supporting courses

GS 1050

Required core courses

CPSY 2010, 3020, 3040, 3800, 4060, 4070, 4120, 4130, 4400

Minor requirements in Counseling Psychology

Students are required to meet the Introduction to Psychology requirements prior to enrolling in the minor. The minor includes the following courses for a total of 20 sh. The minor reflects counseling psychology principles as they are applied to adults within social service or organizational settings.

Required semester hours

20 sh

Required core courses

5 courses taken from the following: CPSY 2010, 3020, 3030, 3800, 4050, 4060, 4070, 4120, 4130.

GESAL Designates a course that fulfills all or part of a General Education (G.E.) requirement for the B.A. or degree; see the General Education portion of the School of Adult Learning section of this catalog for more information.

2010 Research Methods and Design (4 sh)

Designed to expose the student to how the scientific enterprise is applied to research on human development. A three-pronged focus includes research design, data collection, and the use of statistics in the analysis and interpretation of data.

3020 Lifespan Development (4 sh)

Surveys physical, cognitive, social, moral and emotional development across the human lifespan. The course incorporates theories, methods, and research with both children and adults. Identifies moral/ethical issues and encourages the student to reflect on how such issues apply to his or her own life experiences.

3040 Psychobiology (4 sh)

Introduces the student to the field of psychobiology. Specific content will include basic concepts, major theoretical viewpoints, and research findings relating to a variety of topics, such as the

structure and function of neurons, the anatomy of the nervous system, lateralization and language, sleep, the regulation of internal body states, emotional behaviors and stress, and recovery from brain damage.

3800 Principles of Counseling Diverse Populations (4 sh)

Application of principles and methods which address social issues and problems related to diverse populations. Topics addressed may include law and justice, health and health care, education, and inter-group relations. Engages the student in the applications of principles and methods of counseling and social services. The student develops abilities in the areas prevention and social level interventions. Systemic and ecological theories of human behavior as they pertain to the individual and community will be discussed. The student will develop skills in interviewing, assessment, and evaluation with diverse populations.

4050 Human Sexuality (4 sh) GESAL

Consideration of human sexuality from biological, psychosocial, behavioral, cultural, and religious perspectives. Particular emphasis on psychosexual development throughout the human life cycle. Critical attention given on problems and solutions that significantly affect persons and social groups.

4060 Personality (4 sh)

Study of traditional and contemporary personality theory, with emphasis on theory, research methods, and assessment. Consideration of the development of personality and of whether it can or does change across the lifespan, and a critical appraisal of key personality theories from developmental and other perspectives.

4070 Learning (4 sh)

Introduces the student to various theoretical viewpoints that explain how we learn. The basic principles of classical and operant conditioning, observational learning, cognitive, humanistic, and radical-conscientization theories will be discussed. How these theories can be applied in the everyday settings of home, school, and work will be an important focus.

4120 Biopsychosocial Disorders of Human Development (4 sh)

Uses a case-finding approach in a study of biopsychosocial disorders across the lifespan, their assessment and treatment. Traditional categories of psychological disturbance will be discussed as well as issues associated with the duality of illness and wellness, legal and ethical implications of mental dysfunction.

4130 Helping Skills for Social Services (4 sh) GESAL

Focuses on the development of listening, influencing, and relationship skills that underpin effective intervention in the helping professions. Attention is also placed on the impact of cultural and social factors on the helping process.

4400 Practicum in Counseling Psychology (4 sh)

The practicum includes observation and hands-on experience within an appropriate agency. The student will develop and/or work on a larger institutional-wide project. It involves reflection and application of theory and research learned in the classroom to practical situations in the work setting. The student will apply counseling theory and methods utilizing traditional and multi-cultural perspectives to inform their practice. The practicum is designed to increase the student's knowledge related to the available resources in communities, churches, hospitals and social service agencies. The practicum is one full semester in length.

Criminal Justice (CJ)

The major in criminal justice provides the professional knowledge and skills needed to work and advance in the field of criminal justice. The interdisciplinary curriculum blends a strong foundation of liberal arts with professional course work which prepares students for a broad range of careers in criminal justice. Students engage in study that examines causes, prevention, and control of crimes, as well as the foundational theories and policies relevant to the traditional and non-traditional structures and operations of the criminal justice system. Students develop a comprehensive understanding of criminology, research methods, management, ethics, criminal law, corrections, and juvenile and restorative justice. Grounded in an urban context, the practicum provides diverse opportunities for students to apply theory learned in the classroom to real life situations in a variety of work settings. This major is intended for sworn police officers as well as students interested in entry-level positions in a variety of settings such as law enforcement, private security, judiciary, corrections, victim assistance, probation, parole, federal service, and social service agencies. Students interested in augmenting the criminal justice major can enhance their learning through minors in human psychology, counseling and social services, nonprofit management, and business administration.

The curriculum provides a strong foundation for graduate study in criminal justice or law, and it may be helpful to those students interested in social work.

CJ 3000 (4sh), and then any combination of 16 sh of CJ 3100, 3200, 3300, 3400, 3500, 3910, 4000, 4100, 4200, 4300,

GESAL Designates a course that fulfills all or part of a General Education (G.E.) requirement for the B.A. degree; see the General Education portion of the School of Adult Learning section of this catalog for more information.

3000 Introduction to Criminal Justice (4 sh) GESAL

Provides an interdisciplinary and critical analysis of the criminal justice system in the United States. Emphasis is on key theories, causation of crime, and pertinent research that assesses the implications for policies related to crime control and prevention. An analysis of the roles of the police, prosecution, defense attorneys, and courts, from diversionary processes to arrest, trial and sentencing and imprisonment. An examination of contemporary structures and practices of corrections will build upon a historical understanding of the criminal justice system in the United States. Representative Supreme Court decisions in the law of arrest, right to counsel, capital punishment, search and seizure, and self-incrimination are analyzed.

3100 Research Methods in Criminal Justice (4 sh)

Emphasis is on the theory, principles, and methods used in criminal justice research. The course addresses a broad range of research methods, data collection strategies, and analytical tools that are commonly used in the criminal justice system. Provides an overview of various types of research design and data collection strategies such as questionnaires, interviews, observational techniques, sampling, and the use of secondary sources, computers, and other technology.

3200 Correctional Services (4 sh)

Review of the historical and contemporary structure, philosophical underpinnings, and administration of adult corrections in the United States. Emphasis is placed on the purpose and goals of the correctional system and the critical issues and problems facing it today. Major topics include discussion of the various philosophies of punishment, sentencing strategies, and the prison community. The social, political, and economic impact on correctional services, such as boot camps, sentencing reform, overcrowding, community-based alternatives, punishment versus rehabilitation debates, and reintegration are explored.

3300 Juvenile Justice System (4 sh)

The contemporary juvenile justice system is analyzed from historical and philosophical perspectives. An overview of the procedures, structures, and treatment of juvenile offenders are provided as well as an exploration of the purpose and primary operations of juvenile detention and probation services. Further emphasis is placed on the nature and extent of delinquency, theories of causation, current trends, prevention, problem solving, and the delivery of services to this population. Students compare and contrast different approaches and future trends in juvenile justice among countries within and outside of the United States.

3400 Criminal Procedure (2 sh)

An overview of the structure of the United States court system, sources of individuals' rights and the constitutional limitations on the prohibition of criminal conduct will provide a foundation for this study of criminal procedural law. This course will examine the legal continuum from the initial search and seizure of a suspect, to the arrest and interrogation, pre-trial process, criminal trial, sentencing and punishment, and appeal and post-conviction rules.

3500 Criminal Law (2 sh)

Provides an overview of criminal law with an emphasis on the major crimes to include offenses against: the person, habitation, property, public morality, alcohol and drug offenses, and white collar and organized crime. The course will explore an individual's liability for criminal conduct, criminal responsibility or intent, and the circumstances that may modify the individual's responsibility for a criminal act. Special defenses to criminal acts will also be discussed.

3910 Topics in Criminal Justice (1-4 sh)

Intensive investigation of a selected topic in criminal justice offered from time to time at the discretion of the School of Adult Learning.

4000 Law Enforcement Administration (2 sh)

Application of the fundamental theories and principles related to the professional management and administration of law enforcement agencies. The basic management concepts of police administration and forms of police organization are analyzed and evaluated. Examines specific operational functions such as budgeting, personnel, planning, technology, and productivity measurements. Designed to assist students in developing the ability to interpret

and implement complex policy such as homeland security into their professional practice. Prerequisite: CJ 3000.

4100 Urban Communities and Crime (4 sh)

An overview of the most common crimes and issues related to crime and delinquency within urban communities. In-depth analysis of theories and research that emphasize community factors that lead to crime and delinquency, including local community approaches to crime prevention. Topics include but are not limited to youth culture and deviance, substance abuse, gun control, and domestic violence. Current community-oriented initiatives such as problem oriented policing and alternatives to incarceration aimed at reducing crime will be discussed. Prerequisite: CJ 3000.

4200 Restorative Justice (2 sh)

An in-depth analysis of the key principles and concepts critical to the practical application of restorative justice. Acknowledges that crime causes injury to people and communities and that restorative justice seeks healing, wholeness, and reconciliation for all parties. Introduces the student to a variety of established restorative methods such as family/group conferencing, victim/offender mediation, and peacemaking circles. Prerequisite: CJ 3000.

4300 Professional Issues, Ethics, and Diversity (4 sh)

An intense examination of the ethical dilemmas and diversity issues facing the professional criminal justice practitioner. Myths and realities surrounding race, gender, social class, and the relationship to the criminal justice system are discussed. Typical applied ethical issues might include the following: plea bargaining, capital punishment, insanity defense, mandatory sentencing, search and seizure rules, white collar crime, terrorism, and community-based alternatives to incarceration. Prerequisite: CJ 3000.

4400 Practicum in Criminal Justice (4 sh)

The practicum includes observation and hands-on experience within an appropriate criminal justice agency. The student will develop and/or work on a larger institutional-wide project that involves reflection and application of theory and research learned in the classroom to practical situations in the work setting. The student applies relevant theory and research methods to inform their practicum project. The practicum is designed to increase the student's interdisciplinary knowledge and practical skills employed in the field of criminal justice. The practicum is approximately four hours a week over one full semester and is the final course in the major. Prerequisite: CJ 3000, 3100, 3400, 3500.

4910 Independent Study in Criminal Justice (1-4 sh)

Advanced independent research in criminal justice.

4970 Internship in Criminal Justice (1-8 sh)

An assignment in the field of criminal justice other than the current employer in which reflective experience is the goal. Interested students who have completed 20 hours or more in the major should apply to their academic advisor.

Management Information Systems (ISIT)

The major in management information systems focuses on the strategic and competitive role of information systems in today's business organizations, and the global, social, cultural, and economic importance of the Internet and associated technologies. The Management Information Systems major includes courses that develop general business and management skills, along with information systems courses that explore the exciting cutting-edge nature of technology, its great potential of to improve lives, associated risks and ethical dilemmas, and how responsible, ethical leadership in the application of technology will help create a better world.

The management information systems curriculum is aligned with the recommendations of professional organizations and employers with regard to critical knowledge and skills regarding information systems and business. The management information systems major prepares students to be business leaders and advocates regarding information systems in their organizations, to think critically regarding how information systems can be employed to achieve organizational goals, and to participate meaningfully and responsibly in a global community where technology is shaping many facets of our personal and professional lives.

Major requirements for a B.A. degree in Management Information Systems

Required core courses

ISIT 3030, 3040, 3070, 4010, 4020, 4040, 4055, 4060; ORG 3034, 4074, 4120

Course descriptions for ORG courses may be found under the respective major in the SAL program.

Minor requirements for Management Information Systems

Required semester hours

20 sh

Required core course

ISIT 3030

Electives

Additional 16 sh from the following: ISIT 3040, 3070, 4010, 4020, 4040, 4055, 4060

3030 Information Systems in Organizations (4 sh)

This course addresses functional, strategic and competitive roles of information systems and information technology in organizations. Topics include hardware and software, types of information systems, the analysis and development of information systems, management of the information systems function, and workplace social, legal ethical issues related to technology.

3040 Web Technologies and E-Commerce (4 sh) GESAL

This course focuses on current and emerging business uses of web technologies including home pages, advertising, retail sales, electronic commerce, middleware, partnering, payment systems, and security and encryption. The course also considers changes

in corporate economics driven by electronic commerce and social, legal and ethical issues related to web technologies.

3070 Cyber Security (4 sh)

This course explores methods for assessing security risks and techniques for securing organizational data assets. Technological advances driving threats to data security are examined. The course also includes an overview of cryptography and trends in hacking.

4010 Information Age Communications Technology (4 sh)

This course focuses on business and organizational applications of current and emerging communications technologies. Topics include networks, security, wireless technology, mobile computing, social networking and emerging communications technologies. Social, legal and ethical issues related to communications technologies.

4020 Managing Data and Information (4 sh)

This course covers a variety of topics related to the design and management of databases and information repositories. The course focuses upon databases and data warehouses and their critical role in business and other organizations. Other topics include the nature of business information, emerging trends in information repositories, and privacy and security concerns related to storage and warehousing of information.

4040 Information Systems Analysis and Design (2 sh)

The course presents standard methodologies for analyzing business problems and modeling business processes in order to identify information system requirements. Frameworks for evaluating different implementation approaches will also be covered. Students will develop skills for writing clear and concise business requirements and for communicating and collaborating effectively with various organizational stakeholders. Prerequisite: ISIT 4020.

4050 Decision Support Systems (2 sh)

This course focuses upon how decision support systems technologies can support managerial decision-making. Systems covered include expert systems, executive information systems, groupware, artificial intelligence, intelligent agents, and knowledge management. The course also includes an overview of decision-making along with methods for designing and implementing decision support systems. Students will use application software to solve managerial decision-making problems. Prerequisite: ISIT3030.

4055 Enterprise Resource Planning (2 sh)

This course provides an overview of enterprise resource software applications. Students learn how ERP software is used to integrate functional systems in order to maximize operational efficiencies and improve business processes. The various components of an ERP system, implementation strategies and the latest trends in ERP software are examined.

4060 Strategic Management of Information System Projects (4 sh)

This capstone course integrates knowledge and skills acquired in previous courses and presents strategic approaches for identifying organizational information systems projects and evaluating the acquisition, development and implementation of those projects. Additional topics include managing risk; systematic processes and methods organizations use to initiate, specify and prioritize information systems projects, determine their feasibility, and identify acquisition alternatives. A systemized methodology for managing information systems projects is also presented. Students develop a strategic project plan to develop and manage an information system project addressing a business challenge or opportunity. Prerequisite: ISIT 4040.

Nonprofit Management (NPM)

The major in nonprofit management is designed for adults with work experience who are seeking to enter the nonprofit sector or to move into leadership positions in nonprofit organizations.

Relevant history, theories, and purpose of the sector as it relates to for-profit business and government, and gain a greater understanding of current legal, regulatory, funding, and management issues. Ethical, environmental, and organizational challenges facing modern nonprofits, along with best practices in nonprofit leadership and management will be addressed.

Students will learn how nonprofits use marketing, fundraising, social enterprise and lobbying to build public and financial support for their missions.

Elective courses

Select one from ORG 3034, 4074, 4094, 4120

Course descriptions for BADM and ORG courses may be found under the respective major in the SAL program.

4170 Elements of Nonprofit Management (2 sh)

The introductory course will give students an overview of America's nonprofit sector as it relates to both the for-profit business and government sectors. Emphasis will be on the history, purpose and theories of the sector, the legal and regulatory environment, efforts to improve ethics and accountability, the sector's economics and funding environment, trends in evaluation and outcome measurement, and general management problems and principles. The course will also discuss opportunities for personal growth and career advancement available in the sector and highlight skills and training needed to succeed.

4180 Nonprofit Governance and Volunteer Management (4 sh)

This course is designed to improve students' understanding of the elements, processes and dynamics of board governance and volunteer management of nonprofit organizations. The course includes analysis of the respective roles of the board, chief executive, staff and volunteers to maximize organizational effectiveness. Students will learn how to assess and improve the effectiveness of a board, the senior leadership, volunteers and the overall governance of the non-profit organization. Prerequisite: NPM 4170

4190 Financial Management of Nonprofit Organizations (2 sh)

This course addresses the financial management of nonprofit organizations. This includes both financial reporting and managerial finance. Topics include 1) Financial Accounting principles and practices; 2) Managerial accounting methodology; 3) Compliance, and 4) Measuring and managing program performance. The course examines current trends in nonprofit financial management and integrates financial management with recent federal legislation. Prerequisite: NPM 4170.

4200 Building Public and Financial Support for Nonprofit Organizations (4 sh)

Addresses the four main processes that nonprofits use to interact with internal and external audiences for the purpose of building public and financial support for their missions: 1) Marketing; 2) Fundraising; 3) Social Enterprise; and 4) Advocacy/Government Relations. Current trends and best practices in non-profit marketing and fundraising. Provides an overview of current approaches to earned-income generation, along with the potential and pitfalls of these methods. Identifies and addresses ethical issues related to fundraising, marketing, earned-income and lobbying. Prerequisite: NPM 4170.

Organizational Management and Leadership (ORG)

The major in organizational management and leadership builds on the principle that leadership is a process and not a position. Therefore, students, wherever they are located in the organization, are able to exercise leadership. Students are introduced to a theoretical framework that includes leaders, followers and the context. Majors will 1) recognize the similarities and differences between leadership and management; 2) cultivate a repertoire of leadership skills for individual and organizational development; and 3) demonstrate competence in those practices that contribute to the effective handling of critical issues like conflict and change.

The organizational management and leadership major will also advance the skills of inquiry, critical thinking, ethical reasoning and communication that are central to a liberal arts education. The major is scheduled in seven-week courses totaling 36 semester hours. The curriculum will be distributed in a series of Learner Guides, with detailed assignments for each week. Students are expected to spend 10-20 hours per week in preparation.

GE Designates a course that fulfills all or part of a General Education (G.E.) requirement for the B.A. ; see the General Education portion of the School of Adult Learning section in this catalog for more information.

3034 Business Communications (4 sh) GESAL

Communicating in the workplace with emphasis on written, verbal, non-verbal, and other visual modes of communication. The processes of imparting and receiving information are emphasized. Business writing, the use of visual aids, and professional presentation methods are put into practice. Ethical behavior in communications is examined.

3500 Writing for Business Success (4 sh) GESAL

Drawing upon the fundamentals of effective writing, this course helps students to further develop successful written communication skills, and to create the types of documents commonly used in professional environments. Students will apply a writing process to complete the kind of practical writing projects commonly required in the workplace. Emphasis is placed on the process of completing any on-the-job writing assignment and the specific formats most often used. It covers such business writing topics as style

and format, audience analysis and adaptation, document design, informative, negative and persuasive messages, reports, and job search materials. Prerequisite: GS 2080.

3910 Topics in Organizational Management (1-4 sh)

Intensive investigation of a selected topic in Organizational Management and Leadership offered from time to time at the discretion of the School of Adult Learning.

4024 Understanding Group and Organizational Behavior (4 sh)

Investigate the dynamic interaction of individual, group and organizational behavior. Examine organizations as complex open systems. Explore the nature of learning organizations and strategies for maintaining positive organizational culture. Practice working in groups and facilitating team development. Beginning to use one's self as an agent of change; identifying and enhancing competencies required for such a role. Reflect on the ethical dimensions of problem solving in the workplace.

4074 Leadership and Management (4 sh)

The roles of leadership, managing people and change, and total quality management (TQM) are examined. The firm's mission and its relation to the individual is presented: performance appraisals, issues of gender and cultural diversity, negotiation techniques, hiring, and termination analysis are included. The characteristics of the ethical organization are examined.

4094 Principles of Marketing (4 sh)

The environment of marketing, including market identification and selection, the concepts of marketing mix, target markets, and the product life cycle as applied to the global economy, are fundamental to the course. Company mission and Maslow's hierarchy are implemented to determine organizational fit. Consumer behavior, organizational markets, product planning and development, and the essentials of marketing communication are presented and analyzed. Service and non-profit marketing procedures are included. The ethics of marketing and processes are examined.

4095 Entrepreneurial Business Planning and Execution (4 sh)

Covers the promotion of business with effective communication from concept to development by use of the business plan. The effective techniques of this course should be readily applied when seeking loans, partnerships and investors in the real world. Comprehensive in learning and production, this course is a culmination of many skills from the Organizational Management or Business Administration majors.

4100 Human Resources Management (4 sh)

The basic principles, concepts and issues analyzing the role of human resources in the organization: personnel requirements, training, job responsibilities, performance evaluations, grievance procedures, compensation, and labor relations (including unions, EEO, and Affirmative Action programs). Meets elective credit only.

4120 Business Ethics (4 sh) GESAL

An introduction to ethics and to ethical decision-making. A basic overview of value systems and ethical paradigms, utilizing a seminar format. Discussion of how values and ethics may be applied to the issues and dilemmas of the business world.

4150 Business Promotions and Advertising (4 sh)

Covers the concepts of promoting business with effective communication techniques that encompass the written word; public relations writing, journalism, advertising copy, mass media or television copy and graphics or other media types with a particular emphasis on tracking results of the communication via the use of metrics and return on investment. Explores the discipline of business

commitments from an organization or an individual as bound by promises made in advertising and the history of promotions from an American industry that is continually shaped and regulated today. Using comprehensive skills from marketing, students will be expected to make sound financial decisions as well as evaluate risk management for advertising and/or corporate communications. Whether internal or for public consumption, the message is often governed by the media and this course will stress the importance of subjective messages with ethical dimensions.

4160 Elements of Community Development (4 sh)

This course introduces students to the basics of sustainable community development, including community and neighborhood planning, community organizing, grassroots leadership and community empowerment. Students will examine and discuss the role of community-based organizations such as community development corporations, social services agencies, and religious and educational institutions. Students will also examine organizational and local politics and discuss how these factors help or hinder the community development process. The course will give students insight into the role community development process in rebuilding low-income or economically disadvantaged neighborhoods. It also seeks to teach students the importance of personally participating in and supporting the development of economically disadvantaged neighborhoods. Finally, the course will introduce students to varied career paths that relate to the field of community development.

4220 Assessing Leadership Skills (4 sh)

Provides a framework for students to become more familiar with themselves and their relationships with colleagues and team members within the context of organizations. Investigates a number of common psychometric instruments from two perspectives: an individual profile and within the context of group dynamics in organizations. From an individual perspective, students will investigate themselves as a leader, determine personal strengths and weaknesses, assess his or her style of leadership and the type of organization that leadership style best suits. From an organizational perspective, students will investigate how psychometric instruments can be used to diagnose organizational problems, determine change-readiness within organizations, and enhance team/group dynamics. Survey design and interpretation will also be discussed. The Action Research method will be investigated and applied. Ethical considerations for assessment instruments will be fully and thoroughly emphasized.

4240 Managing Change and Conflict (4 sh)

Provides the student with resources to mediate organizational experiences within the context of managing and leading. Examines several theoretical frameworks for organizational change. Through these frameworks organizations, and their varied circumstances, will be evaluated in order for students to determine which change methodology is most appropriate for a specific situation. The steps of change, common problems associated with change, and methods to measure outcomes will be explored. Students will investigate resistance to change and what can be done about it. Conflict, as a natural outgrowth of change will be investigated. Methods for managing conflict, understanding its root causes and addressing it productively will be explored. The concept of BATNA (Best Alternative to a Negotiated Agreement) will be investigated as a conflict management technique. The course will explain the action research process that is typically associated with change. Students will complete a team-based project requiring individual and team research and roll out the change management plan created with timelines, interventions, expected results and appropriate

organizational metrics. Throughout, the ethics of appropriate change and conflict management will be emphasized.

4260 Career Management (4 sh)

Analyzes concepts such as perception, motivation, decision making, communication, and career development. Explores the changing concepts of a career and the implications of planning for multiple careers. Assists in finding direction in the midst of uncertainty, conflict and complexity. The organizations' career and the individual's career: how is the fit? Focus in on developing a flexible and realistic career plan and methods implementation. Careers and vocations will be discussed as they relate to the search for meaning in one's life.

4910 Independent Study in Organizational Management and Leadership (1-4 sh)

Advanced independent research.

4970 Internship in Organizational Management and Leadership (1-8 sh)

An assignment in a business institution other than the current employer in which reflective experience is the goal. Interested students who have completed 20 hours or more in the major should apply to their academic advisor.

tance to change and what can be done about it. Conflict, as a natural outgrowth of change will be investigated. Methods for managing conflict, understanding its root causes and addressing it productively will be explored. The concept of BATNA (Best Alternative to a Negotiated Agreement) will be investigated as a conflict management technique. The course will explain the action research process that is typically associated with change. Students will complete a team-based project requiring individual and team research and roll out the change management plan created with timelines, interventions, expected results and appropriate organizational metrics. Throughout, the ethics of appropriate change and conflict management will be emphasized.

4260 Career Management (4 sh)

Analyzes concepts such as perception, motivation, decision making, communication, and career development. Explores the changing concepts of a career and the implications of planning for multiple careers. Assists in finding direction in the midst of uncertainty, conflict and complexity. The organizations' career and the individual's career: how is the fit? Focus in on developing a flexible and realistic career plan and methods implementation. Careers and vocations will be discussed as they relate to the search for meaning in one's life.

SECOND BACHELOR'S DEGREE COMPLETION PROGRAMS

Second bachelor's degree programs are designed for students who have already earned a bachelor's degree from an accredited institution and wish to pursue an additional bachelor's degree at North Park University.

Teaching Licensure Only- Post B.A. Degree

This program is designed for students who possess an undergraduate degree recognized by the Illinois State Board of Education and wish to become licensed to teach. The program is offered in the evenings and on Saturdays as well as the regular day schedule. All field and clinical experiences take place during school hours.

Licensure-only candidates must meet the same program (Early Childhood, Elementary, Secondary, or K-12) and GPA requirements as undergraduate licensure candidates, that is 2.5 overall, 2.75 in the major/concentration, and 2.75 in education coursework. Secondary and K-12 candidates must take a minimum of 24 sh at North Park University and early childhood and elementary candidates must take a minimum of 28 sh at North Park University.

All professional education and content-area coursework that forms part of an application for licensure, endorsement, or approval that is received by ISBE on or after February 1, 2012, must have been passed with a grade of no lower than C in order to be counted toward fulfillment of the applicable requirements.

Program requirements and course descriptions can be found under the Education major in the undergraduate section of the catalog.

Medical Studies

Post-Bachelor's Degree

The Post-Baccalaureate Pre-Medical (post-bacc) program is designed for students who have completed a baccalaureate degree. North Park's post-bacc program would provide the course work, advising, and application support for students to apply to medical school or health sciences

professional programs. The post-bacc program provides preparation through prerequisite courses for medical school (and the MCAT) or other health-sciences professional programs, for:

- persons wishing to change careers
- persons wishing to enhance an existing academic record to increase the competitiveness of their medical school, or health sciences professional program, applications.

The post-bacc program will primarily attract students preparing for medical school, and the curriculum is designed based on medical school admission requirements. However, students interested in dental school, optometry school, pharmacy school, veterinary science, occupational therapy, physical therapy, clinical laboratory science, or physician's assistant programs may also attend the program.

Students will apply and enroll at North Park University in this program to complete a second bachelor's degree in medical studies. Students may also choose to attend NPU for a shorter time frame and complete only the few courses needed to complete medical school application requirements.

Based on the preparation requirements and suggestions for students preparing for medical school, the post-bacc program will provide advising and core courses for standard science prerequisites as well as elective courses in the core subjects found on the MCAT. The Program Coordinator will advise students regarding coursework and professional development opportunities while they are enrolled in the program.

The mission of the Post-Baccalaureate Pre-Medical program is to prepare students for admission into competitive medical and health professional graduate programs through course work, advising, and application support.

Learning Outcomes and Assessment

Upon completion of the Post-Baccalaureate Pre-Medical program, students will:

- Demonstrate mastery of knowledge of science concepts required in the medical profession and its application in their chosen field
- Recognize and evaluate the ethical dimensions of their profession for application in decision-making
- Develop a clear understanding of their chosen profession in the health field and communicate effectively their desire, qualifications, and fit

Learning outcomes are assessed as part of the program assessment process.

The Program Coordinator will oversee assessment of the learning outcomes for the program. Specifically, assessment will include data collection regarding student qualifications (including grades, MCAT scores, and research or clinical experiences), applications to graduate programs,

acceptance into programs, and final program choice. Students will also engage in an exit interview process which will include reflection on the quality of the program, ethical decision making in the health field, and self-understanding. Course assignments may also be used as evidence for achievement of learning outcomes (e.g., cumulative final exams scores for

mastery of content, or paper assignments that include ethical reasoning or reflection on careers in the health field).

Admission Requirements and Criteria

The post-bacc program includes a competitive application process. Post-bacc students will complete the admissions process which will include a standard NPU application and submission of transcripts. In addition, minimum admission requirements for the Post-Baccalaureate Pre-Medical program include a bachelor's degree from an accredited university/college, a 3.2 cumulative grade point average, and faculty approval.

Applicants must provide by the submission deadline:

- Evidence of a completed bachelor's degree from an accredited college or university and a minimum cumulative undergraduate GPA of 3.2 or higher with official undergraduate transcripts.
- North Park University application
- A current resume
- Two letters of recommendation from individuals who can comment upon academic and/or professional work histories.

Curriculum

A student who has previously graduated with a bachelor's degree from North Park may be eligible for a second bachelor's degree if an additional 30 hours are taken beyond the initial degree at North Park and all requirements for the major of the second degree are met. A student who has completed a bachelor's degree from another institution will be treated as a transfer student and must complete all the degree requirements.

The post-bacc program curriculum outlines the requirements for a major in Medical Studies. For a student to be eligible to declare this major, he/she must have completed a bachelor's degree from an accredited college or university and apply to and be granted admission to the post-bacc program. Traditional undergraduates may not pursue a major in Medical Studies; this is a post-baccalaureate major program only.

Major requirements in Medical Studies are based on the Association of American Medical Colleges minimum requirements for medical school application.

Major requirements for the B.S. in Medical Studies

56 sh

Prerequisites and supporting courses

Completed bachelor's degree from an accredited college or university

Required core courses

BIOL 1250, 1260, 2930; CHEM 1150, 1160, 2310, 2320, 3330; PSYC 1000; SOC 1910; 8 sh from MATH 1150, 1510, 1520 or STAT 1490; PHEN 1110, 1120 or PHEN 1210, 1220

Electives

Courses from the following list, as needed, to enhance academic record for medical school or health professional program application or meet the minimum semester hour and residency requirement for a second bachelor's degree.

BIOL 2100, 2910, 3010, 3210, 3230, 3140, 3510, 3620; CHEM 3250, 3260; MATH 1150, 1510, 1520 or STAT 1490; PHEN 2110; PSYC 2100, 2700, 3010, 3600

Notes and restrictions

Students must complete at least 30 semester hours at North Park post bachelor's to meet eligibility for second degree. Course waivers and substitutions are allowed.

Health professional programs view research and clinical experiences highly. In fact, in the current market admission to programs is often very competitive and students must have this experience to be considered for admission. Post-bacc students will be advised to engage in opportunities such as internship, practica in medical settings, or off-campus research.

Program Advising

The program also provides advising regarding the application process including writing a statement of purpose, providing letters of recommendation, and development of off-campus research, clinical and volunteer experiences. Regular communication with the Program Coordinator is required.

This service to students alongside curricular requirements will provide instruction and guidance for student development of the understanding, qualifications, and fit in their career path.

Course Waivers and Substitutions

For degree seeking students, up to eight courses within the required core courses in the major may be accepted to meet requirements if a student has completed similar undergraduate courses from an accredited institution within a 10 year period and received a grade of B or higher.

Students will choose electives to complete the minimum required semester hours to complete a second degree.

Course substitution arrangements are facilitated through the Program Coordinator. The Program Coordinator will act upon these requests upon admission process and the student will be advised regarding appropriate NPU coursework for degree completion. Students in this program will have different preparation, goals, and academic histories. Therefore, course substitutions are likely. Elective courses in the major are suggested for students who have completed major requirements but still need semester hours toward the major. A plan of study will be determined for each student in collaboration with the Program Coordinator in advance that will meet the student needs and goals.

GRADUATE PROGRAMS

North Park University offers several graduate programs through its professional schools and North Park Theological Seminary. The schools offering programs include

The School of Education

www.northpark.edu/education

The School of Nursing

www.northpark.edu/nursing

The School of Music

www.northpark.edu/music

The School of Business and Nonprofit Management

www.northpark.edu/sbnm

The Seminary's programs are documented in a Seminary Catalog. Policy for graduate programs, except for the Seminary, is set by the Graduate School Council and approved by the University administration, subject to review by the University faculty and board of trustees. Changes to curriculum originate with the particular School's faculty and are approved by the Curriculum and Instruction Committee and University administration and then sent to the University faculty for final approval.

The policies of the Graduate School Council include universal standards for graduate programs and specific policies related to the various schools. Students are encouraged to check both general graduate program policy and program-specific policy.

Mission Statement

The mission of the graduate programs at North Park University is to prepare students for lives of significance and service through quality graduate professional education.

North Park University's vision, building on our core institutional identity – Christian, urban, multicultural – is to fashion a university of uncommon character and enduring excellence where faith, learning, and service meet. The faculty and staff of our graduate programs at North Park University embrace this vision as we work to create, develop, and enhance our various offerings.

Graduate Learning Outcomes

All graduate programs share the following student learning outcomes that are designed to meet the advanced educational needs of professionals in their respective fields. Upon completion of their program students will:

- Integrate knowledge and its application in their chosen field.
- Demonstrate a full-spectrum of effective communication skills appropriate to their discipline.
- Utilize critical thinking, analysis, and synthesis at the professional level.
- Demonstrate field-related collaborative and interpersonal skills.
- Recognize and evaluate the ethical dimensions of their profession for application in decision-making.
- Conduct research appropriate to their field, including finding, evaluating, and using information effectively and ethically.

Specific student outcomes for each graduate program are provided within the particular School's catalog section. Overall graduate learning outcomes are assessed as a part of the program assessment process.

Accreditation

All graduate programs are accredited by the Higher Learning Commission of the North Central Association. Several graduate programs also have specialized accreditation through various discipline based accrediting agencies. The following list describes the specialized accreditation.

School of Business and Nonprofit Management

International Assembly of Collegiate Business Education (IACBE)

School of Education

Illinois State Board of Education (ISBE)

School of Music

National Association of Schools of Music (NASM)

School of Nursing

Commission on Collegiate Nursing Education (CCNE)

Graduate School Council

The Graduate School Council establishes and reviews the graduate mission for the University, facilitates long-range planning for graduate programs, and develops and reviews policies that impact graduate programs. The council is also responsible for evaluating existing programs, suggesting new programs for particular Schools to consider, and working with the Curriculum and Instruction Committee to establish procedures for design and review of new courses. The council will also address issues that promote the general welfare of graduate students at the University.

The council is comprised of representatives from each division or school that manage graduate programs along with a graduate student representative. The Deans and/or their faculty designees will serve two-year terms. The student representative is selected by the council and will serve for a one year term. The chair will be appointed by the Provost.

ADMISSION POLICY FOR GRADUATE STUDENTS

Admission Requirements for Graduate Programs

The minimum requirements for admission to North Park University's graduate degree programs are as follows. Specific additional requirements for particular programs are given in the section of the catalog pertaining to that program.

- Application
- Application fee of \$30
- Official transcripts from all colleges and universities
- Baccalaureate degree from an accredited institution
- A cumulative grade point average of 3.0 or higher on a 4.0 scale (if under 3.0 the applicant must take either the GRE or specialty examination(s) for the specific programs)
- Essay
- References
- International students must have a TOEFL score of 600 (paper-and-pencil), 250 (computer-based), and 100 (internet-based) or higher and must submit a letter from a bank indicating financial support for each year of the program. International students may also take North Park University's English proficiency test in place of the TOEFL. In addition, we require photocopies of passport and, if available, visa, and I-20.

Auditing Policy

Students may audit a course for a fee equal to 50 percent of the current tuition rate for the course. Students taking a course for credit will have priority over an auditor in admission into the class. The authority to decide if a class will have auditors and, if so, how many and the extent to which auditors are to participate is vested in the respective instructor. Some programs allow auditing for full-time degree seeking students (see the particular program section).

Costs and Financial Aid

The tuition rates and scholarship levels for each graduate program vary by school at North Park University and students need to refer to the specific information on the particular school's website.

Money is available in subsidized and unsubsidized funds through the federal government at an attractive rate. Interest on subsidized loans is paid by the federal government while the student is in school. To apply, please visit the Stafford Loan website at www.fafsa.ed.gov.

North Park's convenient payment plan allows you to spread tuition costs over the duration of the term in equal monthly installments. A modest fee of \$30 per semester is charged for this option.

The extension plan for employer reimbursement allows students who are eligible for their employer's tuition reimbursement program to defer payment of tuition until two weeks after grades are posted. To enroll in the plan, students must submit a letter from their employer stating they are part of the organization's tuition reimbursement program and complete

an Extension Plan for Employer Reimbursement Agreement, which can be found on the North Park University website. There is a \$30 fee (per semester) to enroll in the payment plan.

Credit by exam or life experience

No course credit is available to students for life experiences or by examination. Requests for exceptions should be directed to the Dean of the particular graduate program.

Matriculation Limitations

Students in good standing have up to six years to complete degree requirements.

Second Master's Degree

Students wishing to take a second master's degree from the same school are subject to the specific policy of each school. Typically the number of semester hours required for a second or subsequent degree is considerably less than the initial degree.

Transfer Students

In most programs, students may transfer a certain number of courses from a regionally accredited master's program to North Park University (taken within 10 years). Each school will have a specific maximum number of semester hours allowed for transfer and associated with their specific programs. Courses to be transferred must have a grade of B or higher. The credentials examiner from the School, in consultation with the faculty, will ascertain the transferability of each course. Regional accreditation refers to that granted by an organization such as the Higher Learning Commission of the North Central Association. Graduate transfer credits may be used to obtain certificates. No transfers will be allowed beyond those granted at the time of admission except in the case of undergraduate prerequisites that are not in the major area. Transfer course grades are not used in calculating the North Park University grade point average.

ACADEMIC POLICY FOR GRADUATE STUDENTS

Academic Integrity

In keeping with our Christian heritage and commitment, North Park University is committed to the highest possible ethical and moral standards. Cheating of any sort will not be tolerated. Students who are discovered cheating are subject to discipline up to and including failure of a course and expulsion. Faculty suspecting academic dishonesty will discuss the situation with the student directly and with the Dean of the School. The faculty member and Dean will determine an appropriate sanction. The student may appeal the sanction to the Provost, who is the final arbiter for the University.

Categories that constitute academic dishonesty are:

1. Cheating on quizzes, tests and/or examinations. Examples include, but are not limited to the following:
 - Copying another's answers on an examination, or allowing another to copy.
 - Obtaining unauthorized information about the examination prior to administration of the exam. This includes possessing or distributing an exam prior to its administration.
 - Using unauthorized materials or equipment during an examination. Stealing, destroying, or altering another student's work; hiding or abusing materials to keep others from using them is considered an instance of cheating.
2. Substitution
 - Taking an examination or preparing an assignment for another student.
 - Signing an attendance roster for someone who is not present.
3. Plagiarism
 - Using another's work as one's own, whether quoting directly or paraphrasing, without giving credit to the original source. This includes use of the internet.
 - Unauthorized use of any resources or materials in an academic exercise.
 - Self-plagiarism: Using your own work in another assignment without acknowledging its source.
4. Group Work
 - In the special instance of group work, the instructor will make clear his/her expectations with respect to the individual vs. collaborative work. A violation of these expectations may also be considered as academic dishonesty.
5. Admission
 - Gaining admission to the University through misrepresentation is unacceptable and may be grounds for expulsion from the University or revocation of any degree.

It is the mission of North Park University "to prepare students for a life of significance and service." Honesty and ethical behavior are the foundation upon which such lives are built.

Academic Load Restrictions

A full-time course load for a student is 8 semester hours each semester. Students should take no more than a load of 12 semester hours each semester. Students wishing to take more than 12 semester hours each semester need to seek the approval of the Director of the particular graduate program or the Dean of the School.

Academic Probation

North Park University graduate students must have a 3.0 grade point average (on a 4.0 scale) or above to continue enrollment and for graduation. A student shall be placed on academic probation when his or her cumulative grade point average falls below 3.0. Students on academic probation will be sent a letter from the School Dean that outlines the terms for returning to academic standing. These terms may include the requirement to repeat certain courses or bring up the grade point average within a specified time. If the student is unable to meet these terms, that student will be subject to dismissal from the program.

Attendance and Participation

Graduate students are required to attend class sessions and participate in class or online activities and discussions. Punctuality is also expected. Specifics for each program and course are documented in the syllabus. Students who drop a course because of their inability to follow the attendance policy of the course will be held responsible for tuition, based upon the current North Park University refund policy.

Course Schedule and Syllabi

Course schedules for each School's graduate program are available online through the WebAdvisor computer system. In some cases the schedule is also posted directly on the School's website for the convenience of the student.

Syllabi for each course offered through the graduate programs may be available online before the start of the term. Students may find last year's syllabi postings helpful for selecting courses, although there is no assurance that the syllabi for the current year will be the same. Students seeking information about texts to be used in a course may look at the posted syllabus or contact the bookstore for ordering information.

Discrimination, Harassment, and Retaliation Policy

As a Christian institution of higher learning supporting the mission and embodying the faith heritage of the Evangelical Covenant Church, North Park desires to have a campus community which truly values people and is characterized by integrity, diversity, collegiality, fairness, compassion and joyful living. As such, North Park is committed to providing and maintaining a welcoming environment, and will not tolerate discrimination, harassment, retaliation, or any form of intimidation by any person in any form directed against students, faculty or staff of the institution. The institution will take prompt and appropriate action when complaints of discrimination, harassment, or retaliation are registered, including appropriate disciplinary action up to dismissal, if the complaint is substantiated and such discipline is deemed necessary.

Students are referred to the North Park website (www.northpark.edu) for further information including directions for reporting an incident of possible discrimination, harassment, or retaliation.

Drops and Withdrawals

Students must complete a drop form to withdraw from a course. Withdrawal from a course or from the School will count from the date that formal written notice has been filed with the Student Services Office. Absence from class or notice to the instructor does not constitute withdrawal. A grade of DW (dropped without permission) will be assigned to unauthorized withdrawals and a grade point of zero applied.

Students may withdraw from a course without an assigned grade through the fourth week of the quad. That course will not appear on the student's permanent record.

After the beginning of the fifth week of the quad, a dropped course is assigned a grade of W (Withdraw) and is listed on the student's permanent record but is not used in the calculation of the student's GPA. After this week, students will be assigned grades that are used in the calculation of their GPA.

The last day to withdraw from a course with a grade of W depends on the length of the term:

Term Length	Last Date to Drop a Course with a Grade of W
7 ½ week Fall/Spring Quad	The end of the 6th Week
9 week Summer Semester	The end of the 7th Week
4 ½ week Summer Quad	The end of the 3rd Week
3 week Mini-term (May)	The end of the 2nd Week

After these dates, students will be assigned grades that are used in the calculation of their grade point average.

Final Exams

Final examinations are given at the discretion of the instructor. They may either be in-class, online, or take-home. A final paper, presentation, or performance may be used in place of a final examination.

Grading Systems

At the end of each term, a graduate student's work in each course is recorded with one of the following grades:

A	4.00
A-	3.67
B+	3.34
B	3.00
B-	2.67
C+	2.34
C	2.00
C-	1.67
D+	1.34
D	1.0
D-	.67
F	0.00
AU (Audit)	0.0
DR (Administrative Drop)	0.0

DW(Drop without permission)	0.00
I(Incomplete)	0.00
NG (No grade)	0.00
NS (Not submitted)	0.00
P (Pass)	0.00
W (withdrawal)	.00

A cumulative grade point average of 3.0 (B) in all courses attempted is required for degree completion. Particular Schools have further grade requirements that go beyond this basic policy and students should read and understand the grade requirements of their specific program.

Graduation Application

The form entitled "Graduate Student Graduation Application" can be found in the Student Services building on the main floor or online at www.northpark.edu/graduation. It must be completed by the student and returned to the Office of Student Administrative Services. This should be before the end of the semester prior to graduation.

Some Schools require an internal audit of transcripts before going to the North Park University campus auditor. Other Schools rely totally on the North Park campus auditor for the final evaluation of status in regard to the upcoming commencement. Students should check with their advisor as to the specific expectations.

The signed application must be submitted to Student Services by the end of the 1st week of the semester in which the student plans to graduate.

There is a \$150 graduation fee applied to the account of each graduating student in their last semester. Participation in the Commencement ceremony is required.

Graduation with Distinction

Graduates with a cumulative grade point average of 3.90 or above (on a 4.0 scale) will be recognized as graduating "With Distinction" on their graduate degree diploma and on their transcript. "With Distinction" calculations for inclusion in graduation ceremonies (e.g., to wear honor cords) will be based on grades at the end of the first quad of the final semester before graduation. Final "With Distinction" status will be determined when all course work has been completed and will be recorded on the official transcript.

Grievance Procedures: Academic

Appeals concerning classroom requirements, assignments, and grades should be made directly to the faculty member involved. If a resolution is not found, a written petition should go to the School Dean. If the student does not agree with the Dean's decision, the student may appeal to the Provost. The Provost is the final arbiter for the University.

If a student would like to request special consideration or exceptions to standard academic policies, curricular requirements, etc. a written petition detailing the request and the rationale for it may be submitted to the Dean. This petition will be presented to the School's full-time faculty (whole or committee) for a vote. If a satisfactory resolution is not found, the student may appeal to the Provost. The Provost is the final arbiter for the University.

Independent Study

Independent study is encouraged for situations where a student is interested in exploring a topic not regularly covered in the curriculum. A student needs to have a cooperating instructor for the independent study

and he or she needs to make an arrangement with the faculty member before applying and registering for the course. A form, available from Student Services, needs to be completed and signed in order to register for an independent study.

Registration

Students register for courses online through the WebAdvisor system (available online through North Park's website) during much of the year. Certain times in the calendar (e.g., four weeks before each Quad B) courses are blocked for online registration. Therefore, students should make every effort to follow registration protocol as announced by Student Services. Students who have outstanding student account balances or have not taken the required prerequisites are blocked from registering online.

Registration Outside of a Student's Degree Program

Students who wish to take courses outside their program must get approval both from the Dean or Director of their School or program and the Dean or Director of the other School or program. Courses outside their program should relate to their program. Courses are approved on an individual basis. If the student intends to take extensive coursework in the other program, he/she needs to apply officially to the other program or degree. Graduate tuition will be charged at the rate of the student's program. Graduate students taking classes at the undergraduate level will be charged the default rate for part-time undergraduates. Students who are in graduate programs with a tuition discount rate receive that discount on both undergraduate and graduate level course registrations.

Repeating Courses

Graduate students may repeat courses and have the new grade averaged with the old grade for use in determining the overall GPA. For no more than three courses in the student's program and only when the student received a grade less than B, he/she may repeat the course and have the new grade replace the old grade for use in determining the overall GPA. In these cases, the Registrar must give permission. Without this permission, the two grades will be averaged together for use in determining the overall GPA. All grades from repeated courses (old and new) will be listed on the official transcript.

Student Behavior

Students may be involuntarily withdrawn from the institution if they are determined by University officials to be a danger to themselves or others, or if their behavior or actions are incongruent with the values and mission of the institution. Students may be responsible for tuition, fees, and charges up to the point of withdrawal.

INFORMATION FOR GRADUATE STUDENTS

Books and Materials

Textbooks are typically required for graduate courses and may be purchased at the North Park University Bookstore, managed by the Follett Company. Bookstore hours are posted at their website (<http://www.bkstr.com/northparkstore/store-info-contact-us>), along with information on how to order online. Students purchasing textbooks should make sure the book is the correct edition. Instructors may also have created a custom textbook that is only available at the campus bookstore. Students should budget for the costs of textbooks for each course, typically between \$100 and \$200.

Instructors may also provide other materials and course packs for students to purchase. The costs for students may include printing, processing, and copyright clearance fees. The charges for these materials, which can range from \$10 to \$80, are typically entered into the student accounts system and appear on the students' invoice along with tuition and fees.

Lab fees are assessed in certain courses and can go up to approximately \$200 per course.

Campus Locations

Just three miles west of Lake Michigan, the main North Park campus is located at the corner of Foster and Kedzie Avenues (5200 north and 3200 west) in Chicago, Illinois. The address is 3225 West Foster, Chicago, Illinois 60625.

Satellite locations are in Arlington Heights, Grayslake, Evanston, Glenview, Humboldt Park/Chicago, and Crystal Lake. Graduate programs at each location include:

- Forest View Educational Center (Arlington Heights) – School of Education, School of Nursing
- University Center of Lake County (Grayslake) – School of Business and Nonprofit Management
- North Shore University Health System (Evanston, Glenview) – School of Nursing
- Casa Central (Humboldt Park/Chicago)– School of Business and Nonprofit Management
- McHenry Community College (Crystal Lake) – School of Education

For specific locations and directions, visit www.northpark.edu/locations.

Career Development

The North Park University Center for Career Development and Internships provides assistance to students seeking to change or develop their careers. Though mainly focused on the undergraduate experience, graduate students can meet with the Director to discuss career development issues. Students needing extensive career counseling should be prepared to make private arrangements for one-on-one assistance beyond the services of the University.

The faculty in each school are available for networking and conversation around career options. Some of the schools also announce job openings that students may be interested in pursuing.

Chapels, Convocations, and Ministry Opportunities

North Park University is owned and operated by the Evangelical Covenant Church of America and has a nondenominational chapel service which is held each week at 10:30 AM on Wednesday. The services are held in Anderson Chapel and all members of the community, including graduate students, are invited and encouraged to attend.

Our community also gathers in Anderson Chapel each year for a convocation service in honor of Dr. Martin Luther King, Jr. Day.

The various graduate programs may on occasion also sponsor special assemblies for students in their particular programs.

University Ministries provides opportunities for graduate students including: Global Partnership programs for mission trips around the world; small group Bible study; Urban Outreach projects; the prayer team; pastoral counseling, and more. Visit www.npumin.com for more information.

Classroom Technology

North Park University has several A/V-equipped classrooms that include access to projectors with DVD and CD capability. For making presentations, students may connect their laptops with classroom technology. For an Apple Macintosh interface, contact Computer Services.

Computer Services

Computer Services oversees administrative and academic computing, student computer labs, the campus network, and campus telephone systems. Student Computer Labs are available for student use and are equipped with Apple Macintosh and IBM-compatible computers, laser printers, and scanners. The student labs are staffed by student lab assistants who have been trained on the machines and are able to respond to users' questions. Visit www.northpark.edu/cs for information on locations of campus computer labs.

Fiber optic cable connects campus buildings, including residence halls, to the campus computer network. Wireless access is also available in selected areas throughout the campus. Students with internet-ready computers may connect from various locations on campus.

All properly registered students will be able to set up a North Park University email account. To set up an account, go to the University home page, www.northpark.edu, click on "Current Students," then "Information Technology," and follow the directions under "Account Setup and Access."

Course Evaluation

Students are asked to complete a course evaluation for each course they take. They include feedback opportunities to evaluate all aspects of the learning experience, including instructor evaluation. The course evaluation is given to the instructor anonymously to review for possible future course modification and to the Dean for use as a part of a faculty development process.

Disabilities Accommodations

Students with disabilities who may need accommodations in their graduate program are encouraged to contact their program's administrative office. Please do so as soon as possible to better ensure that such accommodations are implemented in a timely manner. For further information, visit www.northpark.edu/ada.

Health Services

In cooperation with the Family Practice Center at Swedish Covenant Hospital, Health Services exists to facilitate North Park University students in developing healthy life choices, maintaining optimal health, and obtaining appropriate medical care. Graduate students are essentially limited to immunization and health education services; however, students may purchase health insurance for a fee through Health Services' approved third-party vendor. All graduate students are encouraged to maintain health insurance coverage. Recent graduates from undergraduate programs may be eligible to remain on their parents' policy or take advantage of COBRA to continue on a policy with additional charges.

Students needing immediate medical attention when they are on the main campus may either proceed directly to the emergency room at Swedish Covenant Hospital (at California and Foster Avenues) or to Peterson Urgent Care (at Peterson and Western Avenues) for non-emergency urgent care. Peterson Urgent Care is open daily, including evening hours. Students are obligated to arrange for paying for these services directly or through their own health insurance.

Complete information about all services available can be found at www.northpark.edu/healthservices.

Housing

No official housing is available for graduate students, except for Seminary students. However, there are several different options available in the community surrounding North Park for apartment rentals and real estate purchase. Students looking for housing may check the bulletin boards at the Seminary (Nyvall Hall), contact the International Office (for international students), or contact the Executive Vice President for Financial Affairs Office (Old Main). Numerous online resources for finding housing in the area, such as Craigslist, are available. Often the best way to find an apartment is to just walk the neighborhood looking for rental signs.

International Student Services

International students are required to be in contact with the Office of International Student Services on a regular basis to ensure accurate status reporting to the U.S. government. The office provides a variety of services, outlined at www.northpark.edu/campus-life-and-services/international-student-services.

Library

North Park University's Brandel Library is located on Christiana Avenue, south of Foster Avenue, and houses a collection of books, newspapers, academic journals, and other materials. Students are required to present a North Park ID card for entry. The Library has many online databases and services available to students via the library website. Students also have inter-library loan access to the libraries of 76 partner universities, including the University of Illinois. Students are encouraged to visit www.northpark.edu/library and meet with the librarians on staff for further orientation or for specific reference questions.

Office of Distributed Learning/ Online learning

The Office of Distributed Learning oversees the integration of academic technology into North Park course offerings, including courses that are online, hybrid, and technology-enhanced. The ODL supports the use of Moodlerooms, the course management system used by North Park. North Park is committed to maintaining and expanding its online learning opportunities. Visit the website for up-to-date offerings.

Transcripts

Official transcripts may be obtained by submitting a signed written application to the Student Services office. Forms for this purpose are available at Student Services or online. The fee for same-day transcript requests is \$10, and \$5 for regular requests (two-to-three days). If it is not a same-day request, the first transcript requested is free. Official transcripts are notarized and delivered in a sealed envelope.

DEGREE PROGRAMS FOR GRADUATE STUDENTS

School of Business and Nonprofit Management

Lindahl (dean), Farruggia, Fitzgerald, Gavoor, Hicks, Kamienski, Marsh, Rogers, Schilling, Sundholm

The School of Business and Nonprofit Management was formed in 2002 combining undergraduate and graduate business and nonprofit management programs. Graduate programs offered include a Master of Business Administration (MBA), Master of Management (MM), Master of Human Resource Management (MHRM), Master of Nonprofit Administration (MNA), Master of Higher Education Administration (MHEA), and several certificate programs.

Consistent with the University's mission, the SBNM is committed to addressing ethical and moral issues within the business and nonprofit organizational environment. Recognizing the importance of ethics in these issues, the SBNM has developed management education that integrates ethical frameworks for decision-making throughout the curriculum.

The SBNM offers flexible schedules (weekday evenings and Saturdays) on campus, at the University Center of Lake County as well as onsite locations throughout Chicagoland. Much of the program is available online as well.

Admissions

North Park University encourages the application of all qualified persons interested in the study of business and nonprofit management. Prior study in business or economics is not a requirement for admission.

The Admissions Committee places a high value on full-time work experience. Most of the students entering the North Park graduate programs have had professional experience that adds maturity, career awareness, and insight to a student's potential for success. The Committee attempts to evaluate an applicant's potential for graduate study based on careful review of academic background, professional experience, military service, community service, personal achievements, standardized test scores, and personal interests.

Requirements for Admission to Non-degree Seeking Students

Professionals wishing to apply to the SBNM Certificate programs must submit a completed application, essay, current resume, and transcripts from all colleges and universities attended. Non-degree seeking students may complete a maximum of 12 semester hours, at which point they must be accepted into a SBNM graduate degree program to enroll in further courses.

Requirements for Admission for International Students

International students wishing to apply to the SBNM must submit the following documents:

- Completed application
- A baccalaureate degree from an accredited institution
- A current resume

- Two letters of recommendation are required from individuals who can comment upon academic and/or professional work histories. Recommendations should be returned directly to the admissions office in the return envelopes provided.
- An official evaluation of transcripts performed by World Educational Services
- The Graduate Management Admissions Test (GMAT) or the Graduate Records Examination (GRE) taken within the last five years will be required for those with an undergraduate GPA of less than 3.0 on a 4.0 system. Students with a graduate degree from an accredited institution are exempt from taking an entrance exam.
- A short essay commenting on the student's academic and professional goals and approach to promoting ethics within their organization. This essay is to be written by the applicant unassisted and will be assessed both with respect to content and communication skills. If communication skills are not up to graduate standards, a professional writing course will be required.
- A bank statement or affidavit of support indicating available funds of at least \$24,000 per year

Minimum TOEFL scores (i.e., 600 paper-based, 250 computer-based, or 100 internet-based) will be required.

All international students are required to take an English proficiency test when they arrive on campus. The results of the test may impact course selection and scheduling.

International students wishing to transfer from another U.S. institution must also submit a foreign students' advisor report form, completed by an advisor at the institution from which the student is transferring.

NOTE: The SBNM does not offer teaching assistantships or research grants. The only form of financial aid for international students is the SBNM scholarship program.

Admissions Requirements: Graduate Degree Programs

- Completed application
- Official undergraduate or graduate transcripts
- A current resume
- Two letters of recommendation from individuals who can comment upon academic and/or professional work histories.
- Applicants who do not possess a graduate degree and whose undergraduate degree GPA is below a 3.0 (on a 4.0 scale) must submit the following additional document:
- An official Graduate Management Admissions Test (GMAT) or Graduate Record Examination (GRE) score within the last five years. You may be considered for provisional admission without a GMAT or GRE score.

Provisional Admission

Applicants who do not possess a graduate degree and whose cumulative undergraduate degree GPA is below 3.0 (on a 4.0 scale) may be granted provisional acceptance as a degree-seeking student without submitting a GMAT or GRE score. Provisionally accepted students are granted full admission as a degree-seeking student upon completing their first five SBNM graduate courses with a cumulative GPA of 3.0 or above.

Application Process

Applications to the SBNM are accepted for August, October, January, March, and May entry. Although there are no strict application deadlines, prospective students are encouraged to apply well in advance of the month in which they wish to matriculate.

Within two weeks of receipt of all admissions materials, the Admissions Committee will review the applicant's file and render a decision.

Fast Track

By taking 8 semester hours per quad (4 courses per quad), students can complete the graduate degree programs in a 9-12 month period. Contact the admissions office for further details.

Five-Year Bachelor/Graduate Studies Program

With the availability of graduate courses in both evening and Saturday class formats, North Park University undergraduate students can pursue a course of study that permits them to achieve a bachelor's degree plus an MBA degree within a five-year period. Students are required to maintain a 3.0 GPA to take graduate-level courses during their senior year.

Standardized Test Information

Information regarding the Graduate Management Admissions Test (GMAT) is available by phone at (800) GMAT-NOW.

Information regarding the Graduate Records Examination (GRE) is available by phone at (800) 473-2255.

Transfer Credit

Students may transfer a maximum of four courses (eight courses, if entering with a graduate management degree) from a regionally accredited master's program to North Park. Courses to be transferred must have a grade of B or higher and be taken within a ten year period. Courses taken over ten years ago will be considered on a case-by-case basis by the credentials examiner, in consultation with the faculty, who will consider the candidate's professional experience and number of years since completing the course. Regional accreditation refers to that granted by an organization such as the North Central Association of Universities and Schools. Graduate transfer credits may also be used to obtain certificates. No transfers will be allowed beyond those granted at the time of admission.

Course Waivers and Substitutions

For degree seeking students, up to five courses from any of the core courses among the graduate degree programs may be waived (2 completely waived and 3 substituted for electives), if a student has completed similar undergraduate courses from an accredited institution within a 10 year period and received a grade of B or higher.

Waiver/substitution arrangements are granted at the time of admission. The Admissions Committee will act upon these requests as a part of the admissions process and the student will be advised in writing of the committee's decision. Waivers can only be used by degree seeking students,

not by certificate students. No waivers will be allowed beyond those granted at the time of admission as a degree seeking student.

Financial Aid

Scholarships

The School of Business and Nonprofit Management and its Axelson Center make a variety of scholarships available to students who have demonstrated academic excellence. Students may only be awarded one North Park scholarship. For example, a student qualifying for an Axelson Scholarship may not receive a Presidential scholarship in addition. Following are the scholarships that are available:

Presidential Scholarships will be awarded to all entering students with an overall undergraduate GPA of 3.65 or above, or a GMAT score of 640 or above or a GRE score of 1350 or above. Each Presidential Scholarship pays 30 percent of all course tuition and is renewable annually with maintenance of a 3.0 GPA.

Provost's Scholarships will be awarded to all entering students with an overall GPA of 3.35 – 3.64 or GMAT score of 600-630, or a GRE score of 1250-1340. Each scholarship pays 20% of all course tuition and is renewable annually with maintenance of a 3.0 GPA.

Dean's Scholarships will be awarded to all entering students with an overall undergraduate GPA of 3.00 -3.34, a GMAT score of 570-590, or a GRE score of 1150-1240. Each Dean's Scholarship pays 10 percent of all tuition costs and is renewable annually with maintenance of a 3.0 GPA.

Armed Forces Scholarship will be awarded to all active duty military members, full-time National Guard, and Reserve personnel (including spouses) from all branches of the armed forces and Coast Guard. Each Armed Forces Scholarship pays 20 percent of all course tuition and is renewable annually with maintenance of a 3.0 GPA.

The Axelson Scholarship

In the spirit of its founder, Nils Axelson, the Axelson Center endeavors to facilitate values-centered education for members of the nonprofit sector who, because of financial constraints, may be unable to pursue further graduate education. The Axelson Scholarship will be granted to individuals employed in certain nonprofit organizations that do not offer tuition reimbursement programs and which are generally unable to offer salaries sufficiently large to enable students to fund their own education. The Axelson Scholarship covers 35 percent of a student's tuition costs for all courses taken in the SBNM.

Requirements: Admitted applicant to a graduate certificate program or degree program who is a full-time employee of a 501(c) or government organization.

Application: No scholarship application is required, but applicant must submit proof of organization's nonprofit status (copy of tax return, official letter from the Executive Director, etc.).

Student Rights, Responsibilities and Regulations

Academic Probation

A student shall be placed on academic probation when his or her cumulative grade point average falls below 3.0 (B). If a student is on academic probation for two quad terms, that student will be subject to dismissal from the program.

Only two grades of C (2.0) are allowed for graduation or to receive a certificate. Courses with grades below C cannot be used to fulfill requirements for degrees or certificates. Courses with grades of C and

below may be made up by re-taking the course, if needed, subject to University policy.

Any student whose academic standing has been subject to action may appear before an SBNM faculty committee to discuss his or her status. Decisions by the committee may be appealed to the Dean of the SBNM.

Class Attendance Policy

The graduate courses in the SBNM are all 7 weeks in length. Missing one class session is allowed without penalty as long as all readings and assignments are made up by the student within a reasonable time period (the following week). Failing to log into an online course site for an entire week is allowed, but a penalty may be applied at the instructor's discretion. Missing a second class session is allowed only in unusual circumstances by prior arrangement with the instructor. Since this represents almost 30% of the engagement time for the course, the student runs the risk of receiving a lower overall grade for the class. Faculty are encouraged to drop the course grade by a full letter grade in this situation. A student who misses three classes (or the equivalent two weeks for an online class) will automatically fail the course, unless the student drops the course before the seventh week of class. Students who drop a course will be held responsible for tuition, based upon the current North Park University refund policy outlined in the University Catalog.

Grade Requirements

A cumulative grade point average of 3.0 (B) in all SBNM courses attempted is required for degree completion. Only 2 grades of C are allowed for graduation or for a certificate. Courses with grades of C and below may be made up by re-taking the course, if needed.

A failure in a required course must be made up by repeating the course or a substitute course as specified by the SBNM Faculty Committee. The faculty committee will decide whether the student may enroll in the next course in a sequence before the failed course is made up.

If a student receives an I (Incomplete) grade, the work must normally be made up within one quad. If a student fails to make up an I grade after one quad, the grade will become an F unless the student receives a written extension with a specific date of completion from the instructor. Without special permission, a student may carry no more than two Incomplete grades without being considered for dismissal.

Additional Degrees

Students may complete an additional degree in the SBNM by completing a minimum of eight additional courses, or sixteen semester hours, beyond the requirements of the first degree. Students must complete all core course requirements for the additional degree. Students entering an SBNM degree program with a graduate management degree from an accredited university may complete an SBNM graduate degree by completing a minimum of ten additional courses, or twenty semester hours. Courses transferred either from other universities or from the first SBNM degree program are accepted following the SBNM's standard transfer policy. No transfers or waivers will be allowed beyond those granted at the time of admission to the additional degree program.

MS Nursing Dual Degree Program

MS Nursing dual degree sequence is described under the School of Nursing section of the University Catalog. The dual degrees are administered through the School of Nursing and students must be formally accepted to the School of Nursing.

Seminary Dual Degree Program

The School of Business and Nonprofit Management offers, in conjunction with North Park Theological Seminary, several dual degree programs for individuals in professional ministry (parish ministers, missionaries, and persons in parachurch organizations) and for lay people in secular employment. The dual degrees are administered through the Seminary and individuals must be formally accepted to the Seminary. Contact Seminary Admissions at (800) 964-0101 or (773) 244-5530 to obtain the Seminary Catalog.

Nonprofit Management Substitutions

Students pursuing the MBA, MM, and MHRM may take select courses in nonprofit management and substitute them for similar courses in their program. Possible substitutions include:

SBNM 5680 for SBNM 5610

SBNM 5681 for SBNM 5611

SBNM 5790 for SBNM 5991

Master of Business Administration (MBA)

Students in the MBA program take 18 courses or 36 Semester Hours (sh). Students may take a certificate or multiple certificates in particular areas in order to concentrate their studies as a part of the MBA degree.

Program Requirements

The 18 MBA courses required for graduation consist of 13 core courses and 5 electives. All courses are two semester hours and most meet once a week for seven weeks. A minimum of 12 of the 18 courses required for graduation must be taken at North Park University.

Core Courses

Students pursuing the MBA must take the following courses:

SBNM 5010	Organizational Behavior and Ethics
SBNM 5011	Ethical Leadership
SBNM 5110	Financial Accounting
SBNM 5111	Managerial Accounting
SBNM 5210	Macroeconomics
SBNM 5211	Global Economics
SBNM 5212	Microeconomics
SBNM 5310	Managerial Finance
SBNM 5311	Financial Decision Making
SBNM 5411	Quantitative Decision Analysis
SBNM 5610	Marketing Analysis and Consumer Behavior
SBNM 5611	Advanced Marketing Management
SBNM 5991	Ethical Strategic Management

Electives

MBA students may choose any five elective courses from among the courses offered through the SBNM or approved courses from other graduate partner programs at North Park University.

Master of Management (MM)

The Master of Management program is designed for individuals who wish to focus on management and leadership within a business context. Students may take a certificate or multiple certificates in particular areas in order to concentrate their studies as a part of the MM degree.

Program Requirements

Students in the Master of Management program take 18 courses, consisting of the 13 core courses and 5 electives. A minimum of 12 of the 18 courses required for graduation must be taken at North Park University.

Core Courses

Students pursuing the MM must take the following 13 courses:

SBNM 5010	Organizational Behavior and Ethics
SBNM 5011	Ethical Leadership
SBNM 5030	Principles of Human Resources
SBNM 5040	Managing Diversity and Conflict
SBNM 5041	Negotiation and Influence
SBNM 5110	Financial Accounting
SBNM 5210	Macroeconomics
SBNM 5310	Managerial Finance
SBNM 5311	Financial Decision Making
SBNM 5610	Marketing Analysis and Consumer Behavior
SBNM 5611	Advanced Marketing Management
SBNM 5990	Change Management
SBNM 5991	Ethical Strategic Management

Electives

MM students may choose any five elective courses from among the courses offered through the SBNM or approved courses from other graduate partner programs at North Park University.

Master of Human Resource Management (MHRM)

The Master of Human Resource Management is a degree that focuses on preparation for a career specific to the field of Human Resources. Alternatively, if students wish to gain broader knowledge in business or management, and want to gain basic human resource knowledge, they would complete the MBA or MM plus the HR certificate, rather than the MHRM degree.

Program Requirements

Students in the MHRM program take 18 courses, consisting of the 13 core courses and 5 electives. A minimum of 12 of the 18 courses required for graduation must be taken at North Park University.

Core Courses

MHRM students must take the following 13 courses:

SBNM 5010	Organizational Behavior and Ethics
SBNM 5011	Ethical Leadership
SBNM 5030	Principles of Human Resources
SBNM 5040	Managing Diversity and Conflict
SBNM 5041	Negotiation and Influence

SBNM 5060	Talent Development and Retention
SBNM 5070	Building High Performance Teams
SBNM 5085	Employment Law
SBNM 5090	Compensation and Benefits Administration
SBNM 5035	Strategic Human Resources Planning and Staffing
SBNM 5095	Strategy and Metrics in Human Resource Management
SBNM 5590	Organizational Communication
SBNM 5990	Change Management

Electives

MHRM students may choose any five elective courses from among the courses offered through the SBNM or approved courses from other graduate partner programs at North Park University.

Master of Nonprofit Administration (MNA)

The Master of Nonprofit Administration is designed for those students pursuing a career in the nonprofit sector (e.g., human services, health services, hospitals, education, religious, arts, museums, associations, foundations, and camping).

Students may take a certificate or multiple certificates in particular areas in order to concentrate their studies as a part of the MMNA degree.

Program Requirements

Students in the MNA program will take 18 courses consisting of 13 core courses and 5 electives. A minimum of 12 of the 18 courses required for graduation must be taken at North Park University.

Core Courses

MNA students must take the following 13 courses:

SBNM 5010	Organizational Behavior and Ethics
SBNM 5011	Ethical Leadership
SBNM 5030	Human Resources Management
SBNM 5350	Nonprofit Financial Management
SBNM 5351	Nonprofit Financial Decision Making
SBNM 5680	Nonprofit Marketing Analysis and Consumer Behavior
SBNM 5710	Principles of Nonprofit Management
SBNM 5720	Nonprofit Board Governance and Volunteer Management
SBNM 5730	Nonprofit Law, Policy, and Government Relations
SBNM 5770	Fundraising Principles for Nonprofit Organizations
SBNM 5771	Annual and Major Gift Fundraising
SBNM 5780	Measuring Outcomes and Assessment
SBNM 5790	Nonprofit Strategic Management

Electives

MNA students may choose any five elective courses from among the courses offered through the SBNM or approved courses from other graduate partner programs at North Park University.

Master of Higher Education Administration (MHEA)

The Master of Higher Education Administration is designed for administrators, faculty, policy makers, and leaders in higher education who are interested in enhancing their leadership and management capabilities. The degree combines course specific to higher education with management coursework in leadership, finance, marketing, fundraising, and strategy. Students may take a certificate or multiple certificates in particular areas in order to concentrate their studies as a part of the MHEA degree.

Program Requirements

Students in the MHEA program will take 18 courses consisting of 13 core courses and 5 electives. A minimum of 12 of the 18 courses required for graduation must be taken at North Park University.

Core Courses

MMHEA students must take the following 13 courses:

SBNM 5010	Organizational Behavior and Ethics
SBNM 5011	Ethical Leadership
SBNM 5350	Nonprofit Financial Management
SBNM 5351	Nonprofit Financial Decision Making
SBNM 5680	Nonprofit Marketing Analysis and Consumer Behavior
SBNM 5740	Principles of Higher Education Administration
SBNM 5741	Higher Education Organization and Governance
SBNM 5742	The Contemporary College Student
SBNM 5745	Higher Education Curriculum Development
SBNM 5746	The Law of Higher Education
SBNM 5770	Fundraising Principles for Nonprofit Organizations
SBNM 5780	Measuring Outcomes and Assessment
SBNM 5790	Nonprofit Strategic Management

Electives

MHEA students may choose any five elective courses from among the courses offered through the SBNM or approved courses from other graduate partner programs at North Park University.

Certificate Programs

All of the following certificate programs may be completed by any graduate student at the SBNM. They are not associated with a particular degree and all prerequisite classes are included in the sequence. The certificates also provide a way for students to concentrate in a particular area of interest as they complete a degree program. Students may waive courses in a certificate through approved undergraduate or graduate credit only if they are degree seeking. If waivers or transfers are used when completing a certificate, at least 3/5 of the certificate program (i.e., three of five courses) must be taken at North Park University. Non-degree seeking certificate students must take all courses for a certificate at North Park University.

Certificate in Accounting

The certificate in accounting is designed for individuals with an interest in accounting topics from a managerial perspective. The certificate program consists of the following five courses:

SBNM 5110	Financial Accounting
SBNM 5111	Managerial Accounting

SBNM 5120	Cost Accounting I
SBNM 5121	Cost Accounting II
SBNM 5130	Corporate Tax Accounting

Certificate in Operations Management

The certificate in operations management is designed to help individuals assist organizations to make efficient use of their resources so as to maximize efficiency and minimize net cost. The certificate program consists of the following five courses:

SBNM 5212	Microeconomics
SBNM 5411	Quantitative Decision Analysis
SBNM 5412	Technology and Production
SBNM 5413	Project Management
SBNM 5420	Quality Management and Productivity

Certificate in Nonprofit Governance

The certificate in nonprofit governance is designed for individuals who desire a comprehensive overview of a broad range of nonprofit governance issues, including ethics; individuals interested in starting their own nonprofit organization; or nonprofit volunteers and/or board members who wish to expand their skills and knowledge related to governance issues. The certificate program consists of the following five courses:

SBNM 5350	Nonprofit Financial Management
SBNM 5710	Principles of Nonprofit Management
SBNM 5720	Nonprofit Board Governance and Volunteer Management
SBNM 5730	Nonprofit Law, Policy, and Government Relations
SBNM 5770	Fundraising Principles for Nonprofit Organizations

Certificate in Finance

The certificate in finance is designed for individuals with an interest in commodities and financial instruments. The certificate program consists of the following five courses:

SBNM 5110	Financial Accounting
SBNM 5310	Managerial Finance
SBNM 5311	Financial Decision Making
SBNM 5320	Investment Management
SBNM 5321	Financial Modeling

Certificate in Fundraising Management

The certificate in Fundraising Management is designed for professionals seeking in-depth instruction in nonprofit fundraising strategy and implementation. The certificate program consists of the following five courses:

SBNM 5770	Fundraising Principles for Nonprofit Organizations
SBNM 5771	Annual Fund and Major Gift Fundraising for Nonprofit Organizations
SBNM 5772	Capital Campaigns for Nonprofit Organizations
SBNM 5773	Grant Writing for Foundations and Corporations
SBNM 5774	Planned Giving for Nonprofit Organizations

Certificate in Healthcare Management

The certificate in healthcare management is designed to offer students a framework for effective management within the turbulent healthcare environment. Topics such as the economic, social, political, and ethical issues affecting healthcare, financial concepts and strategies unique to healthcare and strategic management of change in the industry are all addressed. The certificate in healthcare management consists of the following five courses:

SBNM 5250	Healthcare Economics/Finance
SBNM 5510	Principles of Healthcare Management
SBNM 5520	Management and Marketing of Services
SBNM 5680	Nonprofit Marketing Analysis and Consumer Behavior
SBNM 5780	Measuring Outcomes and Assessment

Certificate in Church Administration

The certificate in Church Administration offers students a framework for effective management within the church environment. Topics such as board governance, volunteer management, finance, marketing, and ethical issues affecting Church administration are all addressed. The certificate in Church administration consists of the following five courses:

SBNM 5030	Principles of Human Resources
SBNM 5350	Nonprofit Financial Management
SBNM 5700	Principles of Church Administration
SBNM 5680	Nonprofit Marketing Analysis and Consumer Behavior
SBNM 5720	Nonprofit Board Governance and Volunteer Management

Certificate in Human Resource Management

The certificate in human resource management is designed for professionals either working within or closely with the Human Resource Department. An underlying premise of the program is that people are an organization's most important and valuable asset. The certificate program consists of the following five courses:

SBNM 5030	Principles of Human Resources
SBNM 5035	Strategic Human Resources Planning and Staffing
SBNM 5060	Talent Development and Retention
SBNM 5085	Employment Law
SBNM 5090	Compensation and Benefits Administration

Certificate in International Business

The certificate in international business provides a structure for understanding the firm's motivation for global expansion and its choices for entering foreign markets. The certificate in international business consists of the following five courses:

SBNM 5210	Macroeconomics
SBNM 5211	Global Economics
SBNM 5560	Managing International Business I
SBNM 5561	Managing International Business II
SBNM 5570	International Business Experience (Or SBNM 5040 Managing Diversity and Conflict)

Certificate in Marketing Management

The certificate in Marketing addresses both marketing strategy and tactics and prepares the student for positions in corporate marketing. The certificate in Marketing Management consists of the following five courses:

SBNM 5520	Management and Marketing of Services
SBNM 5610	Marketing Analysis and Consumer Behavior
SBNM 5611	Advanced Marketing Management
SBNM 5630	Integrated Marketing Communications
SBNM 5650	Internet and Electronic Marketing

Certificate in Organizational Development

The certificate in organizational development is designed for individuals who are leaders within an organization or department. The certificate program consists of the following five courses:

SBNM 5010	Organizational Behavior & Ethics
SBNM 5030	Principles of Human Resources
SBNM 5040	Managing Diversity and Conflict
SBNM 5070	Building High Performance Teams
SBNM 5780	Measuring Outcomes and Assessment

Certificate in Conflict Management

The certificate in conflict management provides you with exposure to the causes of conflict, conflict theory, and how to manage conflict as part of team building and negotiation. The certificate program consists of the following five courses:

SBNM 5040	Managing Diversity and Conflict
SBNM 5041	Negotiation and Influence
SBNM 5070	Building High Performance Teams
SBNM 5085	Employment Law
SBNM 5990	Change Management

Certificate in Leadership

The certificate in leadership is designed for individuals who are searching for ways to navigate their way through ambiguous and uncertain waters of the workplace, and in so doing chart the course for others to follow. Leadership is not a person or a position. Rather it is a complex moral relationship between people based on trust, obligation, collaboration, commitment, emotions and a shared vision. The certificate program consists of the following five courses:

SBNM 5011	Ethical Leadership
SBNM 5040	Managing Diversity and Conflict
SBNM 5041	Negotiation and Influence
SBNM 5060	Talent Development and Retention
SBNM 5990	Change Management

Certificate in Economics

The certificate in Economics is designed for individuals who would like an in-depth understanding of economics from a management perspective. Businesses, nonprofit organizations, and government all exist within the context of economic forces. The successful management of these organizations demands an understanding of the economic framework. The certificate program consists of the following five courses:

SBNM 5210	Macroeconomics
SBNM 5211	Global Economics
SBNM 5212	Microeconomics
SBNM 5220	Econometrics
SBNM 5230	Industry and Competitive Analysis

Certificate in Higher Education Administration

The certificate in higher education administration provides you with a unique and highly practical curriculum that combines coursework in higher education with courses in outcomes and assessment and management. The certificate program consists of the following three core courses plus two selected electives:

SBNM 5740	Principles of Higher Education Administration
SBNM 5741	Organization and Governance of Higher Education
SBNM 5780	Measuring Outcomes and Assessment
Select two electives from the following:	
SBNM 5350	Nonprofit Financial Management
SBNM 5520	Management and Marketing of Services
SBNM 5680	Nonprofit Marketing Analysis and Consumer Behavior
SBNM 5742	The Contemporary College Student
SBNM 5745	Higher Education Curriculum Development
SBNM 5746	Law of Higher Education
SBNM 5770	Fundraising Principles for Nonprofit Organizations

Certificate in Nonprofit Finance

The certificate in nonprofit finance is designed to give individuals a comprehensive introduction to issues related to the accounting and finance functions of nonprofit organizations. The certificate program consists of the following five courses:

SBNM 5030	Principles of Human Resources
SBNM 5320	Investment Management
SBNM 5350	Financial Management for Nonprofit Organizations
SBNM 5351	Financial Decision Making for Nonprofit Organizations
SBNM 5770	Fundraising Principles for Nonprofit Organizations

Certificate in Nonprofit Management

The certificate in Nonprofit Management is designed to provide managers and leaders of nonprofit organizations with a pragmatic approach to nonprofit management. It consists of a five-course sequence as follows:

SBNM 5350	Financial Management of Nonprofit Organizations
SBNM 5680	Nonprofit Marketing Analysis and Consumer Behavior
SBNM 5710	Principles of Nonprofit Management
SBNM 5770	Fundraising Principles for Nonprofit Organizations
SBNM 5780	Measuring Outcomes and Assessment

Certificate in Nonprofit Marketing Management

The certificate in nonprofit marketing is designed for professionals who wish a greater understanding of the marketing process and strategies, including marketing research, segmentation and targeting, positioning, product/service issues, and integrated marketing communications. The certificate consists of the following five courses:

SBNM 5520	Management and Marketing of Services
SBNM 5630	Integrated Marketing Communications
SBNM 5650	Internet and Electronic Marketing
SBNM 5680	Nonprofit Marketing Analysis and Consumer Behavior
SBNM 5681	Advanced Nonprofit Marketing Management

Customized Certificate

The Customized Certificate is intended to provide a way for students to sharpen their management skills and build knowledge in a specific topic area in a timely, cost-effective way. Working with an outside agency, SBNM can determine the particular courses and title for the certificate specifically tailored to meet the needs of the agency's constituencies. The Customized Certificate remains consistent with the other SBNM certificates and consists of five 2 sh classes (SBNM 5XXX). As the needs vary with outside agencies, the five classes will vary. Credit will be granted and the certificate will be recognized on the official North Park transcript with the completion of the five classes designated for each custom certificate.

Course Descriptions

0500 eLearning-Prepare for Success (0 sh)

This required course must be completed prior to beginning any on-line course or any intensive course that requires online participation before and/or after the face to face intensive sessions. It introduces students to various university support resources as well as helps them to build technical skills for negotiating the course management system that will provide password protected websites for each course they are taking.

5010 Organizational Behavior and Ethics (2 sh)

This course examines the importance of ethical decision making and relates existing theory and research to an understanding and explanation of human behavior within organizations. The course covers basic concepts: foundations of individual behavior; perception and individual decision-making; values, attitudes, and job satisfaction; basic motivation concepts and application. Also studied are foundations of group behavior, understanding work teams, communication, leadership, power, and politics. Ethical dilemmas are studied within the context of the behavior of individuals and groups.

5011 Ethical Leadership (2 sh)

This course will explore modern business leadership. The leader, followers, and the situation will be studied individually, as well as techniques of achieving congruence between these potentially diverse components. Opportunities will be provided for students to assess their individual leadership styles and the appropriateness of those styles given the other components of leadership in their situation. This course expands on basic concepts: foundations of organization structure; technology, work design, and stress; human resource policies and practices; organizational culture; and organizational change and development. Ethical and social responsibility issues are studied from the viewpoint of the organization as a whole.

5030 Principles of Human Resources (2 sh)

This course examines current theory and practice as it applies to the management of human resources within organizations. Contemporary human resource management issues pertaining to cultural diversity will be stressed throughout the course. Specific focus is given on the effects of organizational mission and culture on human resource management. The processes of recruitment and selection, training and development, performance evaluation, compensation and motivation, and legal influences are examined. The course takes the viewpoint of human resource management as a key responsibility of every manager within the organization.

5035 Strategic Human Resources Staffing and Planning (2 sh)

Increasingly today, the success of an institution is directly dependent upon the caliber of human resources that are provided through

the staffing process. Without qualified people available in the right place, at the right time and in the right number, organizational goals will not be met. This course provides an understanding of the essential elements of human resource planning processes in organizations and the implementation of those processes within the organization's overall staffing function. Prerequisite: SBNM 5030.

5040 Managing Diversity and Conflict (2 sh)

The modern organization is diverse with respect to gender, race, age, and cultural background. This course addresses the significance of this diversity and the need to understand and manage it. This course also provides a broad survey of approaches to analyzing and managing conflict. A variety of topics will be covered, including identifying the origins of organizational conflict, how to diagnose and prevent conflict, understanding the dynamics of conflict, and the appropriate role of effective leadership styles in resolving conflict. The relationship between organizational structure and conflict, resistance to change in organizations, factors leading to the escalation of conflict, and conflict resolution techniques will be examined.

5041 Negotiation and Influence (2 sh)

Managers need a conceptual framework in which to explore competitive and cooperative aspects of business situations and the crucial role played by negotiations in alleviating conflict. Negotiation is a fact of daily life and skilled managers must develop the power to ethically persuade others of the right course of action. The development and use of power to influence others will be covered as well as specific negotiating tactics. Students will be afforded opportunities for actual negotiating experiences that will help them become better negotiators, attain improved resolutions for disputes, and reach more mutually beneficial agreements.

5060 Talent Development and Retention (2 sh)

The single most important driver of organizational performance and individual managerial success is talent. This course presents valuable tools and methods that will assist with recruitment and selection of the most qualified people that are also a good fit with the organization. Exercises in coaching and counseling for current and future performance improvement will emphasize the capacity to provide feedback in a way that it will actually be heard, and finally the ethics of termination will be discussed together with looking when and under what circumstances termination should occur. Additionally, this course will assist with the construction of individualized career plans for each student.

5070 Building High Performance Teams (2 sh)

In modern organizations, productivity is dependent upon the ability of employees to interact effectively. While traditional management styles focused on individual motivation, this course explores the advantages of self-directed work teams. Contemporary issues in managing teams will also be examined. Beginning with group dynamics, the course will explore the necessity of teams, how they should be structured for optimal effectiveness, and how a coaching style of management may be used to facilitate team success and efficiency. Students will have the opportunity to evaluate the team-building process as it proceeds through the four stages of forming, storming, norming, and producing.

5085 Employment Law (2 sh)

This course is designed to assist students in becoming knowledgeable about the legal principles that affect employment law in the United States. The course examines various employment laws with which businesses and nonprofit organizations must comply and the legal rights and responsibilities of employees and employers. The

emphasis is on the laws concerning equal employment opportunity with respect to discrimination and harassment because of sex, race, national origin, age, disability, religion, sexual orientation, and other characteristics protected by workplace laws; workplace security and privacy; the regulatory environment including workers compensation, unemployment compensation, occupational health and safety, and minimum wage laws; employment and severance agreements, including non-competition and confidentiality agreements; and the use of mediation and arbitration as means of alternative dispute resolution.

5090 Compensation and Benefits Administration (2 sh)

This course involves students in the application of compensation principles to organizational objectives. It includes the strategic use of compensation systems for attracting, motivating and retaining highly qualified employees. Both direct (wages and salary) and indirect (benefits) compensation are discussed in the context of the contemporary organization. The major objectives are: to examine the current state of compensation decision making; to examine how recent developments inform compensation decisions; and to offer an opportunity to develop competence in making compensation decisions. Prerequisite: SBNM 5030.

5095 Strategy and Metrics in Human Resource Management (2 sh)

This is the capstone course for the study of human resources. A final paper that integrates all human resource areas for a particular organization will be required. Quantitative as well as qualitative concepts, approaches, and techniques will be emphasized. Prerequisite: SBNM 5010, 5011, 5030, 5035, 5040, 5041, 5060, 5070, 5085, 5090, 5590 and 5990.

5110 Financial Accounting (2 sh)

Financial accounting develops the ability to read and analyze a corporate financial statement. The course is oriented toward the user of financial accounting data and emphasizes the reconstruction of economic events from published accounting reports. It presents the accounting model, reviews accounting standards used for financial reporting, and considers their impact on managerial decisions. The role of accounting in planning, decision making, control, and performance evaluation is the managerial focus of this course. An examination of the ethical issues encountered when making accounting decisions is undertaken throughout the course.

5111 Managerial Accounting (2 sh)

Managerial accounting takes an internal decision-oriented approach and examines the information requirements of various techniques and planning models. The course emphasizes the solution of particular types of problems and the structural evolution of costing systems for management planning and control. It covers accounting data used by managers for several purposes: product cost and income determination, routine short-run decision making, fundamental policy formation, and control of various activities of the organization. Stress is placed on the design of accounting systems aimed at encouraging ethical behavior consistent with top-management goals. Prerequisite: SBNM 5110.

5120 Cost Accounting (2 sh)

A study of the theory and practice of cost accounting. The course will focus on job cost and unit cost accounting; job order and standard costing systems; variance analysis; direct and indirect costs; and budgeting. Pre-requisite: BSE 2120 or SBNM 5111.

5121 Advanced Cost Accounting (2 sh)

Continuation of a study of the theory and practice of cost accounting. The course will focus on process costing systems; problems

with cost accumulation and cost allocation; capital budgeting and cost analysis. Pre-requisite: SBNM 5120.

5130 Corporate Tax Accounting (2 sh)

A study of tax decisions related to various business organizations, specifically Sub Chapter C and Sub Chapter S corporations. Additionally, the course addresses tax issues for partnerships, estates, and trusts. Prerequisite: BSE 2110 or SBNM 5110.

5210 Macroeconomics (2 sh)

This course studies the determinants of aggregate demand and aggregate supply, causes of economic recessions and recoveries, government policies that foster stability and growth, processes leading to inflation, the effect of inflationary expectations on interest rates and labor markets, and the effect of central bank policies on the value of the dollar. The course deals with the equilibrium level of employment and output, the differential impact of temporary and permanent changes in policy on the equilibrium values of macro variables, the distinction between policy actions and rules, and the connection between fiscal and monetary policy.

5211 Global Economics (2 sh)

This course studies the basis for international trade, and how global exchanges of resources take place. The course studies the changing patterns of trade between nations in various regions of the world. The competition of nations in global markets and the strategic positions of business firms within international markets are analyzed. The course studies both developed nations as well as the newly industrializing countries representing emerging markets. The nature and goals of regional economic alliances are presented, and the role played by national governments in shaping global trade is discussed. The course explains differences in technology exchanges between nations. Prerequisite: SBNM 5210.

5212 Microeconomics (2 sh)

The focus of microeconomic analysis is on business decision making within the firm, on the behavior of individual markets reacting to supply and demand forces, on the consequences of alternative market structures and business policies, and on the interactions between the public and private sectors. Specific topics for this course include supply and demand analysis, consumer behavior, theory of cost and production, pricing and non-price modes of competition, market structure, economic deficiency, and policy response to market failure. Ethical considerations with respect to pricing and competition are incorporated throughout the course. The legal framework and laws covering anti-trust are examined.

5220 Econometrics (2 sh)

This course combines mathematical methods with economic and business models in order to develop and provide empirical content for these models. This approach is appropriately applied in the solution of practical problems. In addition, these methods allow for a more precise analysis of relevant economic and business issues. Accurate and measurable analysis is the basis of the formulation of appropriate policy. Such policy may take the form of setting macroeconomic or microeconomic goals, or in the development and application of strategic objectives of business firms. Econometric methods and applications provide a significant basis for making more reliable economic and business decisions. Prerequisite: SBNM 5210, 5211, 5212.

5230 Industry and Competitive Analysis (2 sh)

This course develops methods for the analysis of the organizational, technological, industrial, and informational structure of the business firm's competitive environment. In the process of introducing and developing applied business research methods and

case studies, the competitive and strategic decisions made by firms will be assessed and evaluated. Managers must have a relevant and reliable understanding of competitive and industrial conditions, and the ability to analyze information and manage in a variety of new and changing situations. Ethical considerations and social responsibility are consistently included and explored in the process of discussing business decision making.

5250 Healthcare Economics and Finance (2 sh)

This course addresses the economics and finance of modern healthcare organizations. It surveys the economic, social, political and ethical forces affecting the American healthcare industry and addresses the financial management required in this environment. It begins by reviewing public and private healthcare delivery and reimbursement systems, resource allocation issues, and the impact of current payer arrangements on the financial management of healthcare. Finally, financial strategies and operations will be covered and a sample financial plan for a hypothetical healthcare organization will be developed. Ethical considerations will be interwoven throughout the course.

5310 Managerial Finance (2 sh)

This course covers the foundations of finance with applications in investments and business financial management. Topics include the valuation of financial assets and liabilities, determination of present value of cash flows, relationship between risk and return, and characteristics of equilibrium in efficient capital markets. This course describes the financial environment in which business operates, the sources and forms of external financing, and changes in financial market conditions. It includes the study of investment decisions, the estimation of financing needs, and the choice among financing alternatives, so that skills can be developed in bringing analysis, information, and judgment to bear on such decisions. This course also provides a survey of various types of financial assets such as stocks, bonds, and options. The role of ethical behavior is incorporated into the study of financial markets, as well as in financial management. Financial models will be solved using microcomputers throughout the course. Prerequisite: SBNM 5110.

5311 Financial Decision Making (2 sh)

This course covers the theory and practice of corporate finance, especially the application of financial theory to solve practical problems. Topics include the investment, or capital budgeting, decision and the financing decision. This course also assists the financial manager in deciding how much to invest, what assets to invest in, and how to raise the necessary cash. It includes the study of dividend policy, debt policy, risk management, and alternative forms of debt. This course covers financial planning, channels for short-term borrowing, the management of liquid assets, and the management of accounts receivable. The role of ethical behavior is incorporated into the study of financial markets, as well as in financial management. Financial models will be solved using personal computers throughout the course. Prerequisite: SBNM 5310.

5320 Investment Management (2 sh)

This course studies financial markets, principally equity markets, from an investment decision-making perspective. The course develops a set of conceptual frameworks and analytical tools and applies them to particular investments and investment strategies selected from a wide array of companies, securities, and institutional contexts. The focus is on adding value across the spectrum of decisions ranging from position-taking in particular securities to portfolio risk management to the oversight of professional investment managers. The course explores the competitive dynamics among investment organizations, products, and markets. The role of ethical

behavior is incorporated into the study of financial markets, as well as portfolio management. Moral reasoning will be factored into portfolio management as environmental, multinational, and global issues affect it. Prerequisite: SBNM 5310.

5321 Financial Modeling (2 sh)

This course studies the planning, design, development and applications of a financial model. The focus of the course is a comprehensive, applied, project deliverable executing many financial concepts acquired earlier in the program. The skills applied include: construction of a pro forma balance sheet, income statement and cash flow statement; defining business drivers and assumptions; estimating the cost of debt; establishing an equity structure; calculating the weighted average cost of capital; assessing tax, depreciation and amortization effects; performing enterprise valuations using the discounted cash flow and multiples techniques. The model will be used to estimate scenarios, including the capstone which involves a simulated negotiation of an acquisition opportunity. Prerequisite: SBNM 5310.

5350 Nonprofit Financial Management (2 sh)

This course provides both basic and advanced financial planning and management skills necessary in today's nonprofit organization. Successful financial planning and business development strategies will be combined to create a financial plan which achieves the goals of the organization. Included are basic principles of managerial accounting. Fund accounting, budgeting, cash flow analysis, expenditure control, long-range financial planning, audits, and grants and contracts are studied, as applied to nonprofit organizations.

5351 Nonprofit Financial Decision Making (2 sh)

Basic principles of managerial accounting, fund accounting, budgeting, cash flow analysis, expenditure control, long-range financial planning, audits, and grants and contracts are studied, as applied to nonprofit institutions. Prerequisite: SBNM 5350.

5411 Quantitative Decision Analysis (2 sh)

This course is primarily concerned with time series analysis and forecasting. The future of any organization depends on the ability of management to spot trends and develop appropriate strategies. The leaders of these organizations must know when to change direction and stay a step ahead of the competition. The ability to accurately forecast may be the difference between success and failure. Some of the critical areas include sales, production, staffing, the economy, finance, and many others. Knowledge of statistics is critical in the area of forecasting and in most other fields in business and economics. Part of this course is devoted to the study of statistics required by organizations to optimize output and help to compare data.

5412 Technology and Production (2 sh)

This course uses the scientific approach in conducting its study. This means that the course will emphasize conducting a systematic investigation that includes careful data gathering, developing and testing hypothesis about the problem (typically in the form of a mathematical model), and then applying sound logic in the subsequent analysis. We will be concerned with optimizing output in operations with the use of linear programming, transportation models, and assignment models. This involves the need to import files and data to achieve high volume production using minimal inventories of parts that arrive at the work station just in time to eliminate defects and mistakes. Performance will be measured in terms of cost, quality, speed, and flexibility. Examples will come from both product and service organizations. This course deals with technological issues as well as human and ethical factors. The

rapid development of the information technology field is leading to a dramatic improvement in the quantity and quality of data that will be available to the management science team. Thus the management science team often works closely with the corporate information technology department. Prerequisite: SBNM 5411.

5413 Project Management (2 sh)

This course is concerned with a systematic analysis of the organization, planning, and controlling used in project management. Topics include: project selection, work breakdown structures, risk management and statistics, project life cycle, resource planning, charts and diagrams, scheduling and project monitoring. Project management software is used as a tool in developing real life projects in class.

5420 Quality Management and Productivity (2 sh)

This course addresses total quality management throughout a service or manufacturing enterprise, with an emphasis on customer satisfaction. It takes a comprehensive approach to quality, from product and process development through continuous improvement of ongoing processes. The course presents methods for improving the quality of a firm's goods and services that lead to a better competitive position, higher productivity, and lower operating costs. Topics include product and process design for reliability, vendor and material selection, control of process capability, work force management for defect prevention (rather than detection), and sales and service feedback. The incorporation of ethical considerations with respect to product and service is made throughout the course. Microcomputers will be employed to solve problems throughout this course. Prerequisite: SBNM 5411.

5440 Electronic Commerce (2 sh)

This course is designed to provide an overview and introduction to the field of electronic commerce. It will cover the electronic marketing value chain including finding and attracting customers, interacting with them and responding to customer needs and demands. Topics will include internet and web technologies, system design, cryptography and security, payment systems and transaction processing. It will focus on business requirements for electronic commerce and raise fundamental design issues in the context of the new economy for both business to business and retail applications as well as for the information industry. The importance of ethical behavior is incorporated throughout. The course will be a hands on learning experience using microcomputers throughout.

5450 Information Technology (2 sh)

This course is designed to introduce graduate students to the science of information technology. Managers use information technology not only to present and deliver information but also to solve their organizational problems. There have been many changes in this field in the past and more changes will occur in the future. Trends like increased competition, performance improvements, expanded capacity, increased capabilities of software, and the expansion of the internet, all affect managers. Modern managers need to apply their knowledge of information technology tools to solve problems and find new opportunities to improve their organization. The students will be exposed to how information technology affects the strategy, e-business, organizational structure, business process, and resource allocation of the organization as a whole. The architecture of the computer system will also be addressed as it relates to the applications networks and security of the entity.

5510 Principles of Healthcare Management (2 sh)

This course explores critical trends and crises in the current and emerging American healthcare industry. The formation of healthcare policy in view of current trends and social concerns is explored

from the perspective of the consumer, the provider and society at large. Extensive consideration is given to ethical concerns arising out of these issues.

5520 Management and Marketing of Services (2 sh)

This course focuses on increasing the service organization's competitive differentiation, service quality, and productivity. A service is intangible and cannot be stored. Service industries include the government sector (post office, regulatory agencies, military services), the private nonprofit sector (hospitals, churches, universities, museums), and part of the business sector (airlines, banks, insurance companies, real estate firms, motion picture companies, hotels). The role of presale service and post-sale service is emphasized during the study of product support services. Heavy emphasis is placed on the human element necessitated in service organizations.

5530 Entrepreneurship (2 sh)

This course focuses on the initiation of new business ventures as contrasted with the management of ongoing enterprises. The course applies concepts and techniques covered in various functional areas to the new venture development environment. Issues that are addressed include how to identify and define the fundamental issues relevant to new ventures; how to prepare a cohesive, concise, and effective business development plan for a new venture; how to identify the venture's market niche and define its business strategy; how to determine the best time to launch a venture; how much and what type of financing should be raised; and how to evaluate the viability of the venture. Entrepreneurial operations within the legal and social environment are described. Discussion of the value choices faced by the entrepreneur is included. Prerequisite: SBNM 5110 or 5350; SBNM 5610 or 5680.

5560 Managing International Business I (2 sh)

This course is concerned with the international business environment, the strategy of international diversification, and the management of multinational enterprises. It examines the firm's motivation for international expansion, and the choices for entering foreign markets. It deals with exporting, licensing, acquisitions, and joint ventures. The course covers special functional, cultural, political, legal, and organizational issues raised by the operation of an international business. The codes of conduct for multinational corporations and international managers are stressed. Prerequisite: SBNM 5211.

5561 Managing International Business II (2 sh)

Students will have the opportunity to more closely analyze the activities of multinational companies on an individual level. The issues encountered will not only be of a business nature per se, but will also have a multicultural focus and relate to economics, culture, and politics. The case study method will be implemented, and students will be expected to explore key issues through a team-based approach. Team analysis and reports will be open to the review and critique in order to refine analysis and to promote decision making. Prerequisite: SBNM 5560.

5570 International Business Experience (2 sh)

This is a study/travel course designed to expose the student to an in-depth study of foreign culture, economy and specific businesses within that economy. Students are presented with comparative analyses of the economy and culture to be visited, and international business relationships pertaining to that economy. Students attend class sessions preparing them for the travel experience; maintain a journal during the approximately one week of travel and visits to

various institutions. The experience culminates in an analytical paper about some aspect of the experience.

5580 Business Law for Managers (2 sh)

Businesspersons have a duty to act ethically in the conduct of their business affairs, and businesses have a responsibility not to harm society. It is incumbent upon all who pursue careers in business and nonprofit management to be familiar with fundamental legal concepts, how the law operates, and why. This course is an introduction to the foundational concepts in business law. It examines the fundamental legal principles under our federal and state legal system, including constitutional rights, the different sources of laws and regulations, the litigation process, and the legal principles relating to the formation of contracts. Emphasis is placed on contract concepts, since they are fundamental to the way business is transacted. By the completion of this course, students will have a grasp of the legal framework within which they will live and work. Prerequisite: SBNM 5010.

5590 Organizational Communication (2 sh)

This course emphasizes the importance of communication for all management functions. Based on a foundation of the traditional model of communications, a variety of modes will be explored: written, oral, non-verbal, as well as other visual modes. The process of organizing, imparting, and receiving information will be explored. Students will apply the concepts studied by preparing a variety of written and spoken communications during the course of the class and having each critiqued by colleagues and the instructor.

5610 Marketing Analysis and Consumer Behavior (2 sh)

This course introduces the substantive and procedural aspects of marketing, sharpens skills for critical analytical thinking, and promotes effective communication. Basic concepts examined include marketing in a changing world; creating customer value and satisfaction; strategic planning and the marketing process; the marketing environment; marketing research and information systems; consumer markets and consumer buyer behavior; business markets and business buyer behavior; measuring and forecasting demand; market segmentation, targeting, and positioning for competitive advantage. Ethical concerns for the use and potential abuse of market research data are woven into the course.

5611 Advanced Marketing Management (2 sh)

This course builds upon the foundations established in the introductory course. The course introduces a rigorous analytical process for marketing decision making including designing products, brands, packaging, and services; designing new products and product life-cycle strategies; pricing considerations, approaches, and strategies; distribution channels and logistics management; retailing and wholesaling; marketing communication strategy; advertising, sales promotion, and public relations; creating competitive advantage through competitor analysis and competitive marketing strategies; the global marketplace; social responsibility and marketing ethics. Throughout, there is an emphasis on the formulation and implementation of effective, efficient, and ethical marketing programs for businesses and the nonprofit sector. Prerequisite: SBNM 5610.

5630 Integrated Marketing Communications (2 sh)

Marketing Communications will focus upon the ever-expanding communications function within the traditional packaged goods arena, the business-to-business sector, and the nonprofit organization. Advertising, sales promotions, direct marketing, and electronic commerce will be assessed. The backdrop of these communication functions, namely the notion of the consumer culture, will be integrated into the course. Social, ethical, and economic perspectives will be incorporated as well.

5650 Digital Marketing (2 sh)

This course examines how interactive technologies impact industries, redefine organizational structure and culture, and influence supply and demand. The course addresses popular e-business models and their impact on consumer behavior. The majority of the course explores how organizations can leverage e-enabled strategies across the marketing mix to achieve competitive advantage. Also addressed will be the impact of these new business models on organizational culture, emerging opportunities that may shape the future of business and marketing, and ethical issues in e-marketing.

5680 Nonprofit Marketing Analysis and Consumer Behavior (2 sh)

This course focuses on developing a working knowledge of marketing as it applies to nonprofit organizations. Emphasis will be placed on developing a customer orientation, marketing planning and organization, and developing and organizing resources.

5681 Advanced Nonprofit Marketing Management (2 sh)

This course emphasizes the implementation of the strategic marketing mix in nonprofit organizations. Subjects stressed include: developing products and services; pricing and perceived costs; placing and locating services; and communicating and promoting activities. Other topics examined are planning, budgeting, evaluating, and controlling various marketing elements. Prerequisite: SBNM 5680.

5700 Principles of Church Administration (2 sh)

This course provides an overview of the fundamentals of church administration including aspects of church management such as: servant leadership, volunteer management, finances, fundraising, strategic planning, risk management, government regulations, legal issues, and pastoral/staff compensation and benefits.

5710 Principles of Nonprofit Management (2 sh)

A foundation course examining the origins and societal role of private nonprofit organizations including their social, political, economic, cultural, and ideological importance in American society. Major types of nonprofit organizations are studied, as well as distinguishing organizational characteristics of third-sector institutions as contrasted with business and government organizations. The course will also provide an introduction to some of the special management issues of nonprofit organizations. Current trends in the independent sector and projections for the future are analyzed.

5720 Nonprofit Board Governance and Volunteer Management (2 sh)

This course is designed to improve understanding of the elements, processes, and dynamics of board governance and volunteer management in nonprofit organizations. Course includes analysis of the respective roles of the board, executive director, staff and volunteers in nonprofit organizations. Focus on means and methods to enable boards and volunteers to maximize organizational effectiveness. Students will learn how to assess and improve the effectiveness of a board, the senior leadership, volunteers, and the overall governance of the organization. Prerequisite: SBNM 5700 or SBNM 5710.

5730 Nonprofit Law, Policy, and Government Relations (2 sh)

This course analyzes major aspects of federal and state law affecting nonprofit organizations and explores the dynamics of interdependence between nonprofit organizations, government, and the public policy process. Prerequisite: SBNM 5710.

5740 Principles of Higher Education Administration (2 sh)

Provides a basic introduction to the administration of colleges and universities in modern-day America, including the role and purpose of various functions and departments and major organizational

participants (e.g. faculty, students, administration/staff, board). Current topics affecting college and university operation are reviewed and the impact of state and federal policy on institutions is explored.

5741 Higher Education Organization and Governance (2 sh)

Provides an overview of the organizational characteristics and processes of colleges and universities with an emphasis upon the governance structure, i.e., the process for making major policy decisions. Additionally, students will be introduced to the sources of power and influence typically found in academic organizations, along with the primary issues related to organization and governance of higher education.

5742 The Contemporary College Student (2 sh)

Provides an overview of the diverse groups (traditional and otherwise) who currently comprise the student population of colleges and universities, campus environments and their varied impact on student learning and identity formation, and the various cultural contexts which shape and influence student life and identity. Specific attention will be given to the implications for various areas of administrative practice within colleges and universities, e.g. student affairs, development and alumni relations, enrollment management, academic affairs, and marketing.

5745 Higher Education Curriculum Development (2 sh)

Provides a comprehensive understanding of curricula found in higher education. The course will briefly examine the historical and philosophical foundations from which current curricular models developed. Also included will be coverage of current practices in curriculum development in colleges and universities. Specific attention will be given to the role and impact of assessment and accreditation as related to curriculum development.

5746 Law of Higher Education (2 sh)

This course is designed to assist students in becoming knowledgeable about the fundamentals of American law that directly and indirectly impinge on the teaching, learning, and administrative environments of higher education institutions in the both the public as well as the private sectors. There are diverse sources of law that impact American higher education in numerous ways and this course is designed to enhance student understanding and appreciation for this complexity as well as for the ethical issues which surround the application of law in the university or college setting. This course will consider legal issues within the historical context of higher education and the forces which shaped it. Specific attention will be given to the broader political, social, cultural, and economic context within which higher education was established and continues to develop today.

5770 Fundraising Principles for Nonprofit Organizations (2 sh)

This course will cover the fundamentals of effective resource development as they pertain to nonprofit organizations generally and to nonprofit management positions specifically. Principles and best practices of fundraising are studied, including the fundraising process (i.e., organizational readiness, strategic planning and research). The principles that undergird effective fundraising practices will also be reviewed, including the historical, organizational, legal, ethical, and theoretical contexts of fundraising.

5771 Annual and Major Gift Fundraising for Nonprofit Organizations (2 sh)

This course takes an in-depth look at the techniques and processes by which financial resources are secured by nonprofit managers and fundraisers. Specific attention is given to fundraising programs (i.e., annual giving, planned giving, capital campaigns) and donor publics (individuals, corporations, and foundations).

5772 Capital Campaigns for Nonprofit Organizations (2 sh)

Capital campaign fundraising will be explored within the context of a broad fundraising program for nonprofit organizations. Generally, the course will include preparing, planning, managing, and implementing a capital campaign. Special topics will include financing the campaign, case statement, campaign structure, and volunteer networks.

5773 Grant Writing for Foundations and Corporations (2 sh)

Grant writing will be explored within the context of philanthropic and marketing programs at charitable foundations and corporations. The course will build skills in written communication with multiple opportunities to write case statements, grant proposals, cover letters, and stewardship pieces. Topics will include theory and practical application.

5774 Planned Giving for Nonprofit Organizations (2 sh)

Planned and major gifts fundraising will be explored within the context of the estate planning and philanthropic major giving options for individuals. The course will include not only the more technical description of giving vehicles (e.g., charitable gift annuities, charitable remainder unitrusts, and charitable lead trusts) but will concentrate on the marketing aspects of a planned and major gift program (e.g., donor motivation, targeting prospects, volunteer roles, and program planning).

5780 Measuring Outcomes and Assessment (2 sh)

This course examines the assessment of effectiveness against service delivery objectives. The course uses the logic model and other theoretical models to better understand the outcomes and assessment process. Case studies will highlight evaluation issues for improved organizational performance. Prerequisite: Any SBNM course. This may not be the first course in the SBNM academic program.

5790 Nonprofit Strategic Management (2 sh)

This course deals with the overall general management of nonprofit organizations. The primary objective of the course is the development of a perspective of the executive leader's job and responsibilities from a conceptual as well as operating standpoint. Within this context, elements to be studied include: governance structure and issues, establishing and reinforcing the nonprofit organization's mission and values, delineating an effective strategy, developing and using information flows to provide management control and performance and effectiveness evaluation, structuring the organization, and allocating human and financial resources. Ethical issues will be discussed throughout the course as pertaining to the nonprofit environment. Prerequisite: SBNM 5010, 5011, 5350, 5351, 5680, 5770, 5780. MNPA Prerequisite: SBNM 5030, 5710, 5720, 5730, 5771. MHEA Prerequisite: SBNM 5740, 5741, 5742, 5745, 5746.

5910 Topics in Management (2 sh)

An intensive investigation of a selected topic in business, economics or nonprofit management. Extensive reading and research expected. Seminar format.

5970 Internship (1-4 sh)

This course grants credit for practical training. Employment positions are directly related to the coursework. The internship work experience is instrumental to achieving the academic objectives of the graduate business programs and is designed to augment the classroom experience with hands-on experiences. The course may be repeated. Students will submit a term paper at the close of the course that will satisfy the academic component of the course. In the term paper, students are required to link their internship experience to their current coursework. Regular consultation with the

faculty internship advisor is required during the internship period. The course is an augmentation to the graduate business programs and may not be substituted for other courses in the programs. These credits may not be used to satisfy graduation requirements. At least one semester hour of credit is required per quad or at least two semester hours of credit per semester.

5990 Change Management (2 sh)

The single constant in today's world is change. This course addresses the application of leadership and management skills to handle change. The nature of change affecting the modern organization will be explored, as well as individual and social responses to change. The course will explore forces that act as stimulants to change and identify sources of individual and organizational resistance to change. Techniques for overcoming the resistance to change and the characteristics of learning organizations will be examined, as will organizational development techniques for bringing about change.

5991 Ethical Strategic Management (2 sh)

This course will emphasize application of leadership skills to strategic management. Emphasis will be placed on providing leadership to develop strategies that will maintain the organization's congruence with its environment; economic, socio/cultural, political/legal, and technological. The course systematically focuses on the general manager's task in the context of an overall set of elements that include establishing the mission and strategy; delineating targets, rewards, and reviews; fostering the working environment's culture, values, and norms; developing people and skills; structuring the organization; allocating human and financial resources; and negotiating with important stakeholders. Prerequisite: SBNM 5010, 5011, 5110, 5210, 5310, 5311, 5610 or 5680, 5611 or 5681. Additional MBA Prerequisite: SBNM 5111, 5211, 5212, 5411. Additional MM Prerequisite: SBNM 5030, 5040, 5041, 5990.

Master of Arts in Counseling Psychology

The master's degree in Counseling Psychology is a 48 credit hour program that is designed to meet the educational requirements established by the Illinois Administrative code in order to be to be licensed as a Professional Counselor in Illinois. There are 16 three-credit classes, culminating in a 600-hour internship. All courses follow an accelerated format with classes meeting once a week for 8-week sessions, with the exception of the two semester-long internship courses. The program is designed to be completed during a 2-year sequence. This master's degree in Counseling Psychology builds upon the broader North Park identity of embracing cultural diversity and the active integration of an inclusively defined Christian perspective. Students will learn the skills and knowledge bases that are required to function as a professional counselor.

The program follows a generalist model of counselor training, in which students are broadly trained to function as competent, autonomous counselors in a broad range of settings. Within this generalist model, students have the opportunity to define specific areas of specialization, based on course selection and internship site selection. Some of these potential areas of specialization include: culturally responsive counseling; pastoral counseling; and addictions prevention and treatment. In order to complete the program, students complete a capstone project related to a clinical issue within the context of the Internship II course. Alternatively, students who are considering pursuing a doctorate have the option of completing a research thesis within the context of an additional, elective course (Individual Research Project).

Learning Outcomes

Learning outcomes for graduates from this Master's degree in Counseling Psychology include:

- Students will master the counseling skills necessary to function as a Licensed Professional Counselor.
- Students will demonstrate an understanding of the intricate ways in which culture influence mental health functioning.
- Students will demonstrate an ability to modify counseling skills in a culturally-responsive manner.
- Students will display the ability to use the research literature to solve clinical issues.
- Students will demonstrate the ability to psychological instruments to assess client functioning.
- Students will demonstrate the skills necessary to function as a group therapy facilitator.
- Students will be able to articulate the assessment and treatment process for addictions.
- Students will be able to use the DSM V to accurately diagnose clients.
- Students will demonstrate the ability to conceptualize and implement therapeutic interventions appropriate to clients' presenting issues
- Students will be able to articulate the impact that larger systems may have on client functioning, as well implement interventions using a systems approach.
- Students will be able to articulate the major counseling theories, as well as explain which theories personally guide their clinical thinking.
- Students will demonstrate the ability to conceptualize the career development process for clients, using major career development theories.
- Students will demonstrate the ability to use an ethical decision making process, using the ACA ethics code as a major tool in this process.
- Students will demonstrate an ability to conceptualize clients' faith, spirituality and religious experience in an affirming manner through the use of faith development theorists.
- Students will function in an ethical and professional manner while providing counseling to clients in their internships.

Degree Requirements for M.A. in Counseling Psychology

Required semester hours

48

Core Courses

CPSY 5010	Counseling Theory
CPSY 5020	Counseling Techniques
CPSY 5110	Psychopathology & Maladaptive Behavior
CPSY 5120	Group Dynamics, Processing and Counseling
CPSY 5210	Social and Cultural Foundations of Counseling Psychology
CPSY 5220	Professional, Legal and Ethical Responsibilities relating to Professional Counseling
CPSY 5310	Research and Evaluation
CPSY 5320	Human Growth and Development
CPSY 5410	Integrating Spiritual and Religious Issues in Counseling
CPSY 5420	Appraisal of Individuals
CPSY 5510	Advanced Culturally Competent Counseling Techniques
CPSY 5520	Substance Abuse and Addiction
CPSY 5610	Lifestyle and Career Development
CPSY 5620	Family Dynamics
CPSY 5970	Internship I
CPSY 5971	Internship II

5010 Counseling Theory (3 sh)

This course examines the major philosophical bases for counseling theory, ethical and professional issues, and various theories that contribute to the practice of professional counseling, including: object relations, humanistic/existential, cognitive/behavioral, and systemic approaches.

5020 Counseling Techniques (3 sh)

This course examines the major philosophical bases for counseling theory, ethical and professional issues, and various theories that contribute to the practice of professional counseling, including: object relations, humanistic/existential, cognitive/behavioral, and systemic approaches.

5110 Psychopathology and Maladaptive Behavior (3 sh)

This course covers general principles of etiology, diagnosis, treatment, prevention, controversies, and cultural factors of mental and emotional disorders. Emphasis is placed on mental status assessment and diagnostic categories as organized in the DSM-V.

5120 Group Dynamics (3 sh)

In this course, students explore the dynamics related to group counseling process. Topics include: various counseling theories applied in group work; phases of group development; therapeutic factors in group work; group work with ethnic/racial minority individuals; and skills related to group therapy documentation and casenotes. Students will have the opportunity to develop group facilitation skills in a mock group experience.

5210 Social and Cultural Foundations Of Counseling Psychology (3 sh)

This course examines the myriad ways in which culture and identity impact mental health and the clinical counseling process. In this course, diversity will be defined not only in the traditional manner of addressing the four major racial/ethnic groups, but will also explore dynamics related to gender, disability, religious belief, immigration status and sexual orientation. There will be a special emphasis on how these identity issues are manifested in the professional clinical counseling relationship. An important aspect of this course will be for the student to explore sensitive issues of oppression and privilege, and how the student has been impacted personally by these larger systemic patterns.

5220 Professional, Legal and Ethical Responsibilities Related to Professional Counseling (3 sh)

This course covers topics including: professionalism in counseling, federal and State laws relevant to counselors, the ethical decision making process, and ethics with an emphasis on the Code of Ethics of the American Counseling Association.

5310 Research and Evaluation (3 sh)

This course covers statistical principles, research designs, methods, techniques and tools used in performing and interpreting research in counseling. Topics include: developing the ability to evaluate relative strengths and weaknesses inherent to any research paradigm; quasi-experimental research design; qualitative research methodologies, meta-analysis, threats to internal validity; threats to statistical conclusion; and the process of replication to verify scientific findings.

5320 Human Growth and Development (3 sh)

This course will provide an overview of the various stages of the human growth cycle and include information about multiple theories of development; such as physical, personality, social, cognitive, moral and faith development. An emphasis will be made on how these developmental processes interact with presenting issues in the clinical context.

5410 Integrating Spiritual & Religious Issues In Counseling (3 sh)

This course will explore the vital role that faith plays in an individual's life. Topics that are addressed include: faith development theories; exploring the historical pathologization of healthy faith by the psychology profession, assessing the spiritual worldview of the client, the implicit and explicit integration of spirituality into the counseling process, ethical issues of addressing spirituality in counseling, collaboration with clergy during the counseling process, and the potential role of religious beliefs in psychopathology.

5420 Appraisal of Individuals (3 sh)

This course covers assessment of the various attributes of a person through standardized tests. The course also includes an overview of statistical procedures relevant to test standardization and interpretation. Topics included in this course are: item development, validity, reliability, standardization of tests, and using professional benchmarks to evaluate the psychometric soundness of an instrument. Students will critique a commonly used psychological instrument as well as develop and validate their own scale.

5510 Advanced Culturally Competent Counseling Techniques (3 sh)

This course provides in-depth opportunities for students to deepen and expand their multicultural competencies and counseling skills for working with diverse belief systems and populations. Exploration of diverse spiritual, religious, ethnic, and systemic belief systems will allow students to develop cross-cultural competencies and understanding of the impact of the cultural context on the therapeutic process. Topics included will be pedagogy of the oppressed, the development of culturally responsive role induction skills, the assessment of racial/cultural identity, and an overview of psychological instruments used to measure multicultural issues in counseling.

5520 Substance Abuse and Addiction (3 sh)

This course covers chemical, psychological, social and spiritual aspects of drug use, abuse and dependency, and effects on the family. Counseling skills are acquired in the areas of assessment, diagnosis, and treatment intervention.

5610 Lifestyle and Career Development (3 sh)

This course covers the lifelong processes and the influences that lead to work values, occupational choices, career path/patterns, decision-making style, and integration of self- and career-identity with patterns of work adjustment. The course is designed around the concepts of career development and includes an overview of the major career development theories.

5620 Family Dynamics (3 sh)

This course covers family systems theory and its applications, prevention approaches for working with families, and specific problems that impede family function. Students will learn how to construct a multigenerational genogram. The major systems theories will be covered as well, including: Satir, Whitaker, Bowen and Minuchin.

5900 Individual Research Project (1 sh)

This course will provide individual supervision for students who wish to complete a thesis as part of their graduate degree.

5910 Current Topics in Counseling Psychology (1-3 sh)

This course will offer an in depth exploration of specific topics in the field of Counseling Psychology. The course can be taken as an elective for current students or by graduates to fulfill CEU requirements related to maintenance of licensure.

5970 Internship I (3 sh)

This course provides practical experience in counseling for the purpose of developing both individual and group counseling skills. This course should include a minimum of 100 clock hours on-site, with a minimum of 40 hours of direct client contact. These experiences allow students to perform some of the counseling activities that an employed Licensed Clinical Professional Counselor would be expected to perform. Prerequisites include: Counseling Theory; Counseling Techniques; Group Dynamics, Processing and Counseling; Professional, Legal, and Ethical Responsibilities relating to Professional Counseling; Social and Cultural Foundations

of Counseling Psychology; and Psychopathology and Maladaptive Behavior. Must Complete CPSY 5010, CPSY 5020, CPSY 5110, CPSY 5120, CPSY 5210, and CPSY 5220.

5971 Internship II (3 sh)

This course provides direct client experiences in assessment, individual counseling and group counseling, as well as opportunities to become familiar with a variety of professional activities other than direct service (e.g., referral sources, case histories and progress notes, data management, etc.). The internship provides an opportunity for a student to perform a variety of activities that a Licensed Clinical Professional Counselor would be expected to perform. A minimum of 600 clock hours with a minimum of 1 hour per week of onsite supervision is required during the internship. Prerequisite is Internship I. Must Complete CPSY 5970.

5975 Supervision (1 or 2 sh)

This course will provide clinical supervision to students who are engaging in clinical counseling, but have already taken Internship I and II. This supervision course is designed to offer continued supervision for students who have not completed the 600 required hours, or students who wish to amass more than the minimum 600 hours. There is also the possibility that this course can be offered to individuals who have completed their Master's degree and need ongoing supervision to obtain licensure. Prerequisite is Internship II. Must Complete CPSY 5971.

School of Education (Graduate Studies)

Nelson (dean), Balodimas-Bartolomei, Johnson, Laukaitis, Levandowski, Maduram, Majerczyk, Pryor, Zervas

The North Park University School of Education prepares competent, respectful, and reflective professionals who are dedicated to serving diverse learning communities. Consistent with this mission and the University mission, graduate programs offered include a Master of Arts in Teaching (M.A.T.), Master of Arts in Educational Leadership (M.A.E.L.), and Master of Arts in Education (M.A.Ed.), and Master of Arts in Literacy, Language, and Culture (M.A.L.L.C.).

The Master of Arts in Teaching (M.A.T.) leads to State of Illinois licensure in the following areas:

- Early Childhood Education
- Elementary Education
- Secondary Education
- K-12 (Art, Music, Physical Education, Spanish)

In addition, endorsements and approvals are offered in the following areas:

- Middle School
- English as a Second Language (E.S.L.)
- Bilingual Endorsement
- Combined Bilingual/ESL
- Learning Behavior Specialist I

The Master of Arts in Educational Leadership (M.A.E.L.) leads to State of Illinois licensure as a principal or teacher leader. The M.A.E.L. is designed to develop leadership skills in already licensed teachers who wish to be prepared for leadership roles in today's schools. The Master of Arts in Literacy, Language, and Culture (M.A.L.L.C.) is for licensed educators who wish to add the E.S.L. and bilingual endorsements to their existing license. The M.A.L.L.C. is designed to provide professional development for teachers who work with linguistically and culturally diverse students in multiple educational settings. The Master of Arts in Education (M.A.Ed.) is for professionals already licensed as teachers who wish to enhance and develop their knowledge and skills in the field of education.

The School of Education offers courses on the North Park campus in Chicago, Arlington Heights, and McHenry County with flexible schedules (including evenings and Saturdays). Cohort classes are taught by experienced faculty with a wide range of expertise.

Programs leading to licensure are continually reviewed to insure compliance with the requirements of the Illinois State Board of Education. In addition to the programs listed above, the School of Education offers a licensure only program which leads to a State of Illinois license but not toward a degree.

Admissions

North Park University encourages the application of all qualified candidates interested in becoming teachers and school leaders, as well as those who want to further their understanding of the field of education. The School of Education places a high value on a candidate's professional and academic work, past experiences and the candidate's commitment to service. The Admissions Committee looks carefully at each applicant's potential for success through a careful review of a candidate's academic background, professional experience, personal achievement, test scores, and recommendations.

Master of Arts in Teaching (M.A.T.)

The M.A.T. program is designed for candidates who already hold a baccalaureate undergraduate degree from an accredited institution and who wish to earn a master's degree while completing the requirements for an Illinois teaching licensure. The Professional Educator License (PEL) is recognized as a professional credential and often allows candidates to be licensed to teach in other states.

Coursework is designed to provide a solid practical and theoretical foundation in education while preparing candidates to teach in traditional school settings. North Park attracts candidates from diverse social, cultural and economic backgrounds; all share a common passion for teaching and learning.

Admission Requirements

In addition to the admission requirements listed earlier in the Graduate Catalog, M.A.T. candidates must fulfill the following requirements:

- Passing scores on a test of basic skills
- Completion of personal essay
- Interview with Graduate Admissions Committee
- Three professional letters of recommendation
- For secondary and K-12 candidates, a content major that meets the learning outcomes of the Illinois Professional Teaching Standards (IPTS)
- For Elementary and Early Childhood candidates, a specialty area concentration that meets the learning outcomes of the Illinois Professional Teaching Standards (IPTS)
- For candidates who have an undergraduate GPA below 3.0, completion of the Graduate Record Examination (G.R.E.) or Miller's Analogies Test

Program Requirements

- Coursework of 34 semester hours is required for this degree
- A bachelor's degree recognized by the State of Illinois
- An overall grade point average of 3.0, including a 3.0 in the major content area and 3.0 in education coursework
- Passing scores on a test of basic skills. For secondary and K-12 candidates, passing scores on the Content Area Test are required before beginning student teaching. For early childhood and elementary candidates, passing scores on the Specialty Area Test are required before student teaching.
- An Assessment of Professional Teaching (A.P.T.) and edTPA. Candidates must pass the A.P.T. before an application for licensure can be filed with ISBE. After September 1, 2015, candidates must also pass the edTPA before licensure can be filed with ISBE.

Clinical Experiences

One of the keys to the success of North Park's development of teaching professionals is our unique blend of clinical experiences. Candidates participate in three clinical experiences: teacher aiding, mini-teaching, and student teaching. School placements include a blend of public, private, urban, and suburban. Supervision by North Park faculty provides feedback throughout all three clinical experiences to maximize the teaching skills learned and demonstrated by each candidate.

Early Childhood Education

- A minimum of 57 semester hours of graduate and licensure coursework.

- 18 semester hours in specialty area concentration as stated in the Illinois Professional Teaching Standards.

Master of Arts Degree in Literacy, Language and Culture (M.A.L.L.C.)

The purpose of this program is to prepare current elementary and secondary teachers who are working with linguistically and culturally diverse learners in multiple educational contexts. Students will have an opportunity to obtain the E.S.L. and bilingual endorsement (if fluent in a language recognized by the ISBE).

Admission Requirements

In addition to the admission requirements listed earlier in the Graduate Catalog, M.A.L.L.C. candidates must fulfill the following requirements:

- Bachelor's degree from an accredited, state-recognized institution
- Completed application
- Official transcripts from all colleges and universities previously attended, with a cumulative GPA of above 3.0 on a 4.0 scale
- Three professional letters of recommendation
- Personal interview
- Proof of valid teaching certificate

Program Requirements

The M.A.L.L.C. program consists of eleven core courses and a capstone course for a total 34 semester hours. Six graduate credit hours may be transferred into the program from another accredited college or university.

Master of Arts in Educational Leadership (M.A.E.L.)

The MAEL program is designed for certified/licensed teachers who wish to earn either the Principal Endorsement or Teacher Leader Endorsement on the new Professional Educator License. Candidates admitted to

the M.A.E.L. Program may choose either the Principal Preparation Endorsement Track or the Teacher Leader Endorsement Track.

Principal Preparation Endorsement Track:

Admission Requirements

Candidates for the M.A.E.L. Program must meet all the admission requirements listed earlier in the Graduate Catalog. Admissions to the M.A.E.L. Program is a two phased process. Candidates must meet the following requirements:

Phase I: Admission to NPU/EDUC 6030: Educational Leadership

- A four-year undergraduate degree (BA/BS)
- Hold a valid and current Illinois teaching certificate/license (e.g., early childhood, elementary, secondary, special K-12, or special preschool-age 21 certificates/licenses)
- Earn a passing score on a test of basic skills if the candidate has not been required to take the test for receipt of his/her Illinois teaching certificate/license
- Document four years of teaching experience on an Illinois teaching certificate/license (or comparable license from another state with comparable certification requirements)

Phase II: Admission to the Master of Arts in Educational Leadership (M.A.E.L.) Principal Preparation Endorsement Track :

- Successful completion of EDUC 6030: Educational Leadership as a pre-admissions requirement
- Discussion and review of the contents of the candidate's completed Admissions Portfolio
- In-person interview with the program's faculty members and representatives of partnerships schools
- Three letters of recommendation regarding the candidate's capacity to master principal leadership standards, skills, and strategies, including one letter from the candidate's current principal or comparable administrator
- Successful completion of an on-site written response to a scenario presented by the interviewers

Program Requirements

- The M.A.E.L. program consists of twelve core courses including two internship courses, totaling 34 semester hours. All hours must be taken through North Park University.

Field Experience

Field experiences are embedded in each course, totaling approximately 200 hours. In addition, candidates participate in a required two semester internship program which includes a two week summer residency and an additional 200 hours of experience. Candidates must complete specific projects and required experiences as required by the State of Illinois. The internship must be completed in PK-12 school sites under the supervision of a licensed school principal working in conjunction with a university supervisor. Candidates must have experience working with students and teachers in general education, special education, bilingual, and gifted education settings.

Core Courses

EDUC 6020	Instructional Leadership
EDUC 6030	Educational Leadership
EDUC 6040	The Principalship

EDUC 6310	Assessment in the Schools
EDUC 6330	Leading Professional Learning Communities
EDUC 6410	School Supervision
EDUC 6440	School Law
EDUC 6450	School Finance
EDUC 6903	School and Community Relations
EDUC 6920	Internship I
EDUC 6921	Internship II

Teacher Leader Endorsement Track:

Admissions Requirements

Candidates for the Teacher Leader Endorsement Track must meet all the admission requirements listed earlier in the Graduate Catalog. Admission to the Teacher Leader Endorsement Track of the M.A.E.L. Program is a two phase process. Candidates must meet the following requirements:

Phase I: Admission to NPU/EDUC 6030: Educational Leadership

- A four-year undergraduate degree (B.A./B.S.)
- Hold a valid and current Illinois teaching certificate/license (e.g., early childhood, elementary, secondary, special K-12, or special preschool-age 21 certificates/licenses)
- Earn a passing score on a test of basic skills if the candidate has not been required to take the test for receipt of his/her Illinois teaching certificate/license
- Document two years of teaching experience on an Illinois teaching certificate/license (or comparable license from another state with comparable certification requirements)

Phase II: Admission to the Master of Arts in Educational Leadership (M.A.E.L.) Teacher Leader Endorsement Track:

- Successful completion of EDUC 6030: Educational Leadership as a pre-admissions requirement
- Discussion and review of the contents of the candidate's completed Admissions Portfolio
- In-person interview with the program's faculty members and representatives of partnership schools
- Three letters of recommendation regarding the candidate's capacity to master teacher leader standards, skills, and strategies, including one letter from the candidate's current principal or comparable administrator
- Successful completion of an on-site written response to a scenario presented by the interviewers

Program Requirements

The M.A.E.L. Program Teacher Leader Endorsement Track consists of eight core courses, two practicum courses, and eight semester hours of electives, totaling 34 semester hours.

Core Courses (26 semester hours)

EDUC 6020	Instructional Leadership
EDUC 6030	Educational Leadership
EDUC 6050	Teacher Leadership and School Success
EDUC 6060	Coaching for Transformation

EDUC 6310	Assessment in the Schools
EDUC 6330	Leading Professional Learning Communities
EDUC 6903	School and Community Relations
EDUC 6925	Practicum I
EDUC 6926	Practicum II
Elective Course Options (8 semester hours)	
EDUC 5140	Comparative and International Education
EDUC 5210	Understanding Research Design and Program Evaluation
EDUC 5430	Survey of Teaching the Exceptional Learners
EDUC 5431	Characteristics of Special Needs Students
EDUC 5436	Psychological and Educational Assessment for Special Populations
EDUC 5437	Methods of Teaching Students with Special Needs
EDUC 5601	Introduction to Linguistics
EDUC 5602	Sociolinguistics and Cross-Cultural Differences
EDUC 5603	Theoretical Foundations of Teaching ESL and Foreign Languages
EDUC 5604	Assessment of ESL and Foreign Language Students
EDUC 5605	Methods and Materials for Teaching ESL and Foreign Languages
EDUC 5606	Foundations of Bilingual Education
EDUC 5607	Methods for Teaching Bilingual Students
EDUC 5610	Culture and Literacy for ELL and Bilingual Students
EDUC 5615	Methods for ELL and Bilingual Students
EDUC 6450	School Finance

Master of Arts in Education (M.A.E.)

The Master of Arts in Education program (M.A.E.) is designed primarily for certified teachers who wish to extend their knowledge in the field of education and refine their pedagogical skills in an advanced studies program. The following themes appear throughout the required coursework and field experiences:

- Theory as a basis for understanding educational environments
- Diversity in student populations, programs, resources, and instructional strategies
- Creativity in developing and implementing new ideas
- Collaboration in school decision-making and leadership roles
- Service to school and the community as a basis for personal and professional development

Program Requirements

- The M.A.E. program is an individually designed program that helps meet the needs of teacher practitioners. Students may choose to take the thesis or non-thesis track option. Six graduate credit hours may be transferred into the program from another accredited college or university. The M.A.Ed. program consists of 34 total graduate semester hours. Graduate students will be assigned a faculty advisor with whom they will initially plan their program and monitor it throughout their coursework at the university. It is important that students regularly stay in contact with their advisor during program completion.

Education Courses

5010 Educational Psychology (2 sh)

An advanced study of the psychological aspects of human behavior and development applied to the teaching and learning process. Topics include an understanding and function of brain development as it affects behavior and learning, neuropsychological aspects of school-related problems, learning styles, attention span, information processing, short-term and long-term memory, encoding and retrieval mechanisms, categorization, and problem-solving. Teacher certification candidates will develop a positive classroom discipline model as part of this course.

5011 Middle School and Adolescent Development (3 sh)

A study of the physical, intellectual, emotional, and social development of the young adolescents. Examination of developmental issues that impact the middle school, its philosophy, and its practices responsive to the adolescent, both cognitively and affectively. Prerequisite: EDUC 5010, 5310, 5320, 5500.

5020 Learning and Social Management Strategies in the Classroom (2 sh)

The course begins with an introduction to basic counseling skills as an essential component of effective communication with all students. The course will examine interactional, group process, and conflict resolution strategies for school and community settings. The course will examine multiculturally responsive and restorative justice strategies for classroom management. The course will also examine institutional policies and procedures relative to the impact on all students. Not required for students who begin their students in the fall of 2013 or later.

5120 Multicultural Education (2 sh)

An examination of the issue of diversity with emphasis on the social, political, and cultural dimensions of school settings. Students will apply findings on this issue to their own classrooms and community contexts. Consideration will be given to the needs of ESL, bilingual, and bicultural students and the ways in which teachers respond to their needs. Legal requirements and funding issues will be addressed. Teacher certification candidates will develop a philosophy of diversity statement as a component of this course.

5140 Comparative International Education (2 sh)

This course examines the application of historiographic and social scientific theories and methods to international issues of education. This course emphasizes comparative analysis of policies and practices that constitute the organization, content, processes of educational systems and institutions found around the world. Selected topics include national, global, political, economic, social and cultural impact of education. Historical and contemporary examples are also used to emphasize the contributions and challenges of those involved in the field.

5160 Instruction in Secondary Schools (2 sh)

Basic principles of instruction for middle and high schools including analysis of teaching and learning experiences, organization for instruction, and assessment of students work. Students are videotaped for self-assessment. EDUC 5110, 5160 and 5510 comprise Professional Term B. Prerequisite: EDUC 5010, 5310, 5320, 5500.

5170 Instruction in Special K-12 Programs (2 sh)

Basic principle of instruction. Preparing for teaching experiences, organizing for instruction, and working in a teacher aiding situation. Students are videotaped for self-assessment. EDUC 5110, 5170

and 5510 comprise Professional Term B. Prerequisite: EDUC 5010, 5310, 5320, 5500.

5180 Language Development in Early Childhood (2 sh)

Methods of dealing with the development of language in the young child, speaking and listening skills, and preparation for reading and writing skills. Relationship to cognitive development. (M.A.T.C. only) Prerequisite: EDUC 5500, 5510.

5210 Understanding Research Design and Program Evaluation (2 or 4 sh)

An introduction to the process of research which includes conceptual frameworks, methodologies, and assessment strategies for both quantitative and qualitative studies. Emphasis will be on reading, interpreting and designing research studies.

5215 Educational Research Methods (4 sh)

This course is an introduction to the processes of research. The purpose of this course is intended to help students develop skills, insights, and an understanding of basic to performing research. This course also emphasizes the application of educational research methods and results into an educational setting. Both qualitative and quantitative methods research methods are examined in this course.

5220 Assessment and Evaluation (2 sh)

An analysis of both traditional and alternative forms of assessment and evaluation, i.e., portfolio assessment, video performances, and student presentations. Philosophical foundations that form the basis for selected evaluation practices will be considered. Examination of literature on tests and measurements as well as alternative assessment and evaluation procedures will enable students to develop strategies that best meet the needs of their own educational objectives. Attention to grading procedures and other means for reporting student progress will enable teachers to evaluate a variety of strategies for reporting student progress.

5230 Methods and Techniques of Teaching Science in Grades 5-9 (1 sh)

Methods of teaching science at the elementary and middle school levels. The emphasis of the course is on relating the knowledge and skills of science to initiating inquiry into the learning activities.

5240 Methods and Techniques of Teaching Social Studies in Grades 5-9 (1 sh)

Methods and techniques of teaching social studies at the elementary and middle school levels. The emphasis of the course is on relating the knowledge, skills, values, attitudes, and social participation to the social science discipline.

5260 Methods in Art for Elementary Teachers (1 sh)

This course will consist of methods of teaching art in the elementary school. Emphasis will be placed on both the theoretical and the practical information and skills essential for the teaching of art.

5270 Method in Music Education for Elementary Teachers (1 sh)

Methods and techniques of teaching music by the classroom teacher at all levels in the elementary school. Special emphasis will be placed on current music educational trends.

5280 Methods of Teaching Physical Education and Health for K-8 Teachers (1 sh)

A presentation of the current trends in elementary physical education and health; human body systems and promotion of social, emotional, physical, mental and environmental health; theories and principles of health promotion and disease prevention; methodology, class organization, basic movement principles, and identifying teaching resources for physical education.

5300 Infant, Child and Adolescent Psychology (2 sh)

Exploration of major theories dealing with stages and changes relating to physical, cognitive, social, personality, and emotional development in childhood and adolescence. Student must have completed an introductory course in Psychology.

5310 Curriculum Theory and Instructional Strategies (2 sh)

An examination of numerous philosophies, conceptual frameworks and perspectives related to curriculum design and instructional strategies. Students will evaluate a variety of responses to curricular problems as they develop their own perspectives. Students will also explore instructional strategies and materials which complement or evolve from various curriculum designs.

5311 Middle School Methods and Materials In Grades 5-9 (3 or 4 sh)

Emphasis on the middle school classroom and its structure (curriculum and instruction) of the young adolescent. Examination of curriculum development, teaching and instructional strategies, support of students as changing young people, parent and community development, service learning, advisor-advisee programs, block scheduling, learning communities, homework and assessment, exploratories, teaming, reading and writing across the curriculum, and other current middle school issues that impact curriculum and instruction for the 10 to 15 year old. Pedagogy is based on middle school philosophy, curriculum, instruction, and instructional models for designing and teaching developmentally appropriate programs including content area reading instruction. Prerequisite: EDUC 5010, 5310, 5320, 5500.

5312 Methods and Materials for Instruction in Grades K-4 (2 sh)

Emphasis on emergent literacy and primary methods in the areas of reading, language arts, mathematics, social studies and science as they are integrated with art, music, health and physical education in the schools. Materials suitable for these ages and stages of development are reviewed. Assessment of students is discussed. Prerequisite: EDUC 5010, 5310, 5320, 5500.

5315 Methods of Teaching Content Reading and Writing for Grades 5-9 (2 sh)

The purpose of this course is to extend your knowledge of young adolescent literature, instructional strategies, methodology, and assessment procedures used in grades 5-9. We will explore the following content areas: evaluation of instructional materials, comprehension instruction, learning vocabulary, reading and writing across the curriculum, assessment of student progress, diversity in the classroom, and current approaches to content reading.

5316 Content Read & Writg Sec Ed (3 sh)

As a content literacy course in the graduate program, this course enables students to critically examine the current research, theories, and best-practices instructional literacy strategies for all content literacy for pre-service secondary teachers. It integrates a fundamental knowledge on reading, writing, and oral communication within all content to student learning. The major emphasis of the course is to provide knowledge of pedagogical approaches to evaluation of instructional materials, comprehension instruction, vocabulary, fluency, reading and writing across the curriculum, assessment of student progress, diversity in the classroom, and current approaches to content reading and writing.

5320 Technology in Education (2 sh)

An introduction to the range of communication and computer technologies now available to teachers for classroom use. Participants will receive instruction in the use of computers, interactive video, CD-ROM, Livetext, and other advanced technologies. Applications of software packages such as spreadsheets, HyperCard,

and simulation and visualization software will be offered. Students will investigate pedagogical implications of these technologies and programs. Not for students who begin the program in the fall of 2013 or later.

5330 Principles and Practices of Play and Language in Early Childhood Education (2 sh)

Methods and techniques of teaching socialization, art, music, and physical education to the young child along with the materials available and appropriate for the infant and young child. Prerequisite: EDUC 5010, 5310, 5320, 5500.

5340 Methods in Science K-4 (1 sh)

Methods and techniques of teaching science in grades K-4. Emphasis is on concept development and discovery approach.

5350 Reading and Writing Across the Curriculum (2 sh)

This course is intended for candidates working towards an elementary certification. Candidates will explore instructional strategies in order to guide their students in acquiring writing and reading skills in content areas. Emphasis is on the functional teaching of writing and reading including designing and preparing materials to use with curriculum materials in all school subjects.

5360 Instruction in Early Childhood (2 sh)

Methods and techniques of teaching mathematical, social, and scientific concepts to young children. The relation of learning theories to the selection process. Diagnostic and evaluation techniques and procedures. Prerequisite: EDUC 5010, 5110, 5310, 5312, 5320, 5500, 5510. Co-requisite: EDUC-5520.

5370 Methods in Mathematics K-4 (2 sh)

Methods and techniques of teaching mathematics in grades K-4. Emphasis is on NCTM Teaching Standards for concept development, problem-solving, critical thinking ability, and use of manipulatives. Student must have successful score on the mathematics area test.

5380 Methods in Mathematics Grades 5-9 (2 or 3 sh)

Methods and techniques of teaching mathematics in the intermediate and middle school grades. Emphasis is on NCTM Teaching Standards for algorithms for the basic operations as well as developing problem solving and critical thinking abilities.

5390 Methods and Materials for Teaching Art K-8 (2 sh)

Lesson planning, methods, and material selection for teaching art in the elementary school. Integration with the program of regular classroom teacher as well as planning for an entire art curriculum for elementary students.

5407 Methods of Teaching in the Middle and Secondary School (2 sh)

Specific methods and materials for teaching middle and secondary school subjects: topics and problems of general concern to 6-12 teachers; selection and use of instructional media. Mini-teaching assignment in a local school. Basic principles of instruction, preparing for teaching experiences and organizing for instruction. Regular and special populations are included. Music education majors must register for MUS 3408 and 3409 in place of this course.

5410 Teacher Leadership (2 sh)

A focus on opportunities and strategies for teacher leadership in developing ideas, programs, and policies within school settings. Shared decision-making, school restructuring, school based management, and peer coaching are among several issues explored from both administrative and classroom teachers' perspectives. Research studies in areas of teacher organizational culture will be utilized to develop strategies for teacher leadership and followership.

5430 Survey of Teaching Exceptional Learners (3 sh)

Survey of characteristics of learners with physical, mental, emotional or learning disabilities. Implications for the school situation; observation in special education classes for five clinical observation hours. Not required for students who begin the program in the fall of 2013 or later. Prerequisite: EDUC 5010, 5310, 5320, 5500.

5431 Characteristics of Special Needs Students (3 sh)

An introduction to the characteristics of students with specific learning disabilities, emotional disturbance, intellectual disability, autism, traumatic brain injury, and orthopedic or other health impairments and implications of these characteristics in the educational setting and throughout the lifespan. The provisions of the Individuals with Disabilities Education Act (IDEA) for these learners are explored as well as the definitions of the disabilities, etiologies, preventions, and interventions. Issues related to the identification, screening, labeling, and placement of students, particularly culturally and linguistically diverse students in Special Education will also be presented. IFSP and IEP development is explored well as past, present, and future issues and trends in the field. Early childhood through high school student populations are included. Leads to cross-categorical approval for early childhood, elementary, and 6-12 certificates when combined with EDUC 5430 and 5436. Student must have completed an introductory course in Educational Psychology and in Curriculum. Prerequisite: EDUC 5430.

5436 Psychological and Educational Assessment for Special Populations (3 sh)

An examination of assessment and evaluation instruments appropriate for use with special populations. Standardized, aptitude, achievement, personality, diagnostic, and criterion reference tests will be analyzed. Validity, reliability, norming, and standard scores will be examined. Student must have completed an introductory course in Statistics. Prerequisite: EDUC 5010, 5310, 5430.

5437 Methods of Teaching Students with Special Needs (3 sh)

An introduction to the philosophies and theories underlying the variations in educational programming for students with specific learning disabilities, emotional disturbance, intellectual disability, autism, traumatic brain injury, and orthopedic or other health impairments. Educational approaches and best practices used by teachers to design curriculum, and instruct and assess students with disabilities will be presented. Applied behavioral analysis techniques and behavior change plan will be explored. Issues of identification, screening, placement, and family involvement of culturally and linguistically diverse students will also be explored. Student must have completed an introductory course in Educational Psychology and in Curriculum. To be taken as part of Professional Term C. Prerequisite: EDUC 5430.

5500 Introduction to Teaching for the Teaching Profession (2 sh)

Introduction to the school setting as a professional: Students are required to pass the Illinois Certification Testing System Basic Skills Exam/North Park University Teacher Entry Test and College Base Academic Subjects Examination. Students are required to design and present their website and multimedia projects. The North Park University School of Education Teacher Education Handbook and Portfolio Guidelines for Students in the Teacher Pre-Service Program are explained. Students are also required to complete the application for the Teacher Education Program, prepare the Introduction section of the Portfolio, and submit a Health Service Form for the education sequence in order to receive a passing grade and become eligible for the teacher education program. (M.A.T.C. only)

5510 Practicum B: Teacher Aiding (0 sh)

Observation and teacher aiding to total a minimum of 40 hours; to be taken as a part of Professional Term B. Early childhood candidates will participate in an infant toddler program for 20 hours and will complete the remainder of time in grades K-3 in a practicum in reading. Elementary candidates may select 1-3, 4-6, or 6-8 for this experience, with the remaining levels taken in 5520 or 5810. Secondary candidates may select 6-8 or 9-12 for this experience. A variety of urban, suburban, public, and private schools need to be selected across practicum settings. In addition to the 40 hour requirement in a regular education setting, a 10 hour experience in a special education setting is required. (M.A.T.C. only)

5520 Practicum C: Mini-Teaching and Seminar (1 sh)

Minimum of 35 hours of mini-teaching in a local school in connection with methods courses. To be taken as part of Professional Term C. Early Childhood candidates take this practicum twice, once at the preschool level and once at the grade levels 1-3. Elementary and secondary candidates must take this practicum at a level and in a setting different from the one chosen for practicum B. K-12 candidates should choose a 6-8 level. (M.A.T.C. only) Prerequisite: (Early Childhood and Elementary) EDUC 5110, 5312, 5510. Prerequisite: (Secondary) EDUC 5110, 5160, 5510. Prerequisite: (Special K-12) EDUC 5110, 5170, 5510.

5540 ESL Practicum (0 or 1 sh)

The purpose of this course is to observe and assist a teacher in an ESL school setting for a minimum total of 100 clock hours. The requirements for this course may also be met through verification of three months of teaching experience with ESL students. Only those who have verification by a principal or other administrators of three months of teaching ESL students prior to entering the program may take this for no credit. To be taken at the end of the five-course ESL sequence.

5601 Introduction to Linguistics (3 sh)

Introduction to the basic principles of linguistics, the study of human language. Origins of language, what it means to know a language, comparisons of the difficulty levels of different languages, how children acquire language, and common threads that may connect languages will be explored.

5602 Sociolinguistics and Cross-Cultural Differences (4 sh)

Exploration of various aspects of the relationship between language and society. Culture, sex differences, communities, dialects, and speech will be examined.

5603 Theoretical Foundations of Teaching ESL and Foreign Languages (3 sh)

Philosophical and theoretical considerations for teaching a second language. An explanation of theories as well as comparisons among the different theories of teaching a second language will be explored. The student will build a personal framework for teaching a second language. Kindergarten through high school student populations will be the focus of attention, including design and sequencing of ESL courses.

5604 Assessment of ESL and Foreign Language Students (4 sh)

Assessment techniques of ESL students. Different types of assessment instruments, the theoretical viewpoints of these instruments and testing procedures in general will be discussed. Assessment of all levels of proficiency and grade levels will be considered.

5605 Methods and Materials for Teaching ESL and Foreign Languages (4 sh)

Introduction to the various methods of teaching a second language in K-12 based on the philosophies and theories presented in 5603. Strategies used when working with ESL or second language

students and exposure to the issues of multicultural diversity and socioeconomic diversity.

5606 Foundations of Bilingual Education (3 sh)

This course provides the current research and theories forming the foundation of bilingual education. It examines and reviews the historical, legal, philosophical, theoretical, pedagogical, and political issues concerning bilingual education programs in the United States. It also analyzes the linguistic, psychological, social, and cultural underpinnings of current practices in the field and cultivates multicultural perspectives.

5607 Meths & Mts for Teaching Bilingual Stds (3 sh)

This course introduces various models, philosophies, and theoretical underpinnings of bilingual education for language minority students. It provides and prepares the participants with the theoretical basis, methods and techniques needed for effective teaching in bilingual/bicultural classrooms.

5610 Culture and Literacy for ELL and Bilingual Students (3 sh)

This course explores reading and writing as a dynamic, strategic and goal-directed process of language and tools that utilizes native language (L1) and second language (English as L2) for learning in academic and social contexts. The course examines research-based best practices and pedagogy for literacy and language arts to help Bilingual and ELL students transition into English language fluency. Multimedia literacy and multimodal tools, such as computer graphics, video clips, blogs, wikis, and electronic resources are also examined. Theories of learning, assessment of Bilingual and ELL students, Rt1, the role of classroom environment, and parent/community partnerships are included. Academic and social competencies in multicultural and global citizenship are explored through the extensive use of multicultural literature for middle school and young adolescents.

5615 Literacy Methods for ELL and Bilingual Students (3 sh)

This course examines the current research, theories, and best-practices instructional strategies for disciplinary literacy and content literacy in Social Studies, Science, Math, Art, and Music for Bilingual and ELL students. The course applies national and discipline-specific standards to the instructional program and learning strategies that are most effective for Bilingual and ELL students. The course also examines the new technologies and multimodal literacies that enhance student learning and require 21st century literacy.

5800 Student Teaching - Early Childhood (4 sh)

Supervised observation and teaching in an appropriate educational facility. Early Childhood teacher candidates must complete five weeks each in 5800 and 5810. Prerequisite: passage of the State Content Area Exam; acceptance into student teaching by the Teacher Education Committee. Co-requisite: EDUC 5520. Prerequisite: EDUC 5520.

5810 Student Teaching - Elementary Education (4, 6 or 8 sh)

Supervised observation and teaching in the elementary school. Early childhood teacher candidates must complete five weeks in grades 1-3 (4sh). Elementary Education teacher candidates must complete ten weeks in grades 2-4 (8 sh). K-12 majors must complete eight weeks in grades 1-8 (6 sh) and eight weeks in EDUC 4120, grades 6-12 (6 sh). Prerequisite (Early Childhood): EDUC 5010, 5110, 5180, 5220, 5310, 5312, 5320, 5330, 5360, 5500, 5510, 5520; passage of the State Content Area Exam; acceptance into student teaching by the Teacher Education Committee. Prerequisite (Elementary): EDUC 5010, 5110, 5220, 5310, 5311, 5312, 5320, 5500, 5510, 5520; passage of the State Content Area

Exam; acceptance into student teaching by the Teacher Education Committee. Co-requisite: EDUC 5853 Prerequisite: (Early Childhood) EDUC 5010, 5110, 5180, 5220, 5310, 5312, 5320, 5330, 5360, 5500, 5510, 5520. Prerequisite: (Elementary) EDUC 5010, 5110, 5220, 5310, 5311, 5312, 5320, 5500, 5510, 5520.

5820 Student Teaching - Secondary (6 or 8 sh)

Supervised observation and teaching in the secondary school. Secondary Education teacher candidates must complete this experience as follows: 6-12 majors must complete ten weeks (8 sh) in grades 6-12. K-12 majors must complete eight weeks in 5810, grades 1-8 (6 sh) and eight weeks in 5820, grades 6-12 (6 sh). Students must pass the State Content Area Exam, the Assessment of Professional Teaching (APT) test, and show proof of acceptance by the Committee on Educational Screening. (M.A.T.C. only). Prerequisite: (Secondary) EDUC 5010, 5110, 5160, 5310, 5311, 5320, 5500, 5510. Prerequisite: (Special K-12) EDUC 5010, 5110, 5160, 5170, 5310, 5311, 5320, 5500, 5510.

5853 Practicum D: School Beginnings and Seminar (1 sh)

As the capstone course in the teacher education program, this course enables students to create personal syntheses of the educational experiences as graduate students and as prospective educators. Students will examine selected philosophies of education in order to develop their own. Minimum of 15 hours of opening day school experience in assigned school, alternating weekly teaching seminar, preparation of student profile, and work with instructional media. Students will assemble professional portfolios, prepare for teacher certification, and outline future areas of inquiry for further professional development. Prerequisite: (Early Childhood) EDUC 5010, 5110, 5180, 5220, 5310, 5312, 5320, 5330, 5360, 5500, 5510, 5520. Co-requisite: EDUC 5810. Prerequisite: (Elementary) EDUC 5010, 5110, 5220, 5310, 5311, 5312, 5320, 5500, 5510, 5520. Co-requisite: EDUC 5810. Prerequisite: (Secondary) EDUC 5010, 5110, 5160, 5310, 5311, 5320, 5500, 5510. Co-requisite: EDUC 5820. Prerequisite: (Special K-12) EDUC 5010, 5110, 5160, 5170, 5310, 5311, 5320, 5500, 5510. Co-requisite: EDUC 5810, 5820.

5901 Topics in Education (1-4 sh)

Intensive investigation of a selected topic. Topics include Creativity and Problem Solving. Consent of graduate advisor.

5902 Independent Study in Education (1-4 sh)

Advanced work in a field of special interest. Consent of graduate advisor and the Teacher Education Committee.

5903 Proposal Writing - Masters Project (2 or 4 sh)

Development of a written proposal outlining a research project that includes a well defined research topic, literature review, conceptual framework, and appropriate methodology. Presentation of the completed proposal to the student's Review Committee is required at the completion of the course. This proposal will be constructed according to guidelines printed in the Research Manual for Writing a Master's Project in Education. Student must have completed a minimum of 12 sh in core requirements. Prerequisite: EDUC 5210.

5915 Academic Odyssey to Greece: Applying Classical Ideals to the Arts and Education (1-4 sh)

The Academic Odyssey to Greece is a three week short term study abroad program offered through the School of Education to all students at North Park University. It focuses on comparing classical Greek ideals to current day themes and enables students to learn how the birthplace of democracy shaped the way we see and experience the world and ourselves. By incorporating both scholarly/didactic approaches to learning with experiential approaches (excursions, field trips), this program investigates a wide spectrum

of disciplines in the arts and sciences and provides students with the opportunity to develop an appreciation and understanding of the Greek people and country within a lived experience.

5920 Master's Project (2 or 4 sh)

Students will be required to design, implement, and assess their own research project. This project is a culmination of work in the master's program. Students will integrate knowledge, skills, and experiences emanating from previous course work. They will present their work to two members of the School of Education Faculty. Candidates may choose to design a classroom-based project, case study, or original research study. Prerequisite: EDUC 5210, 5310, 5903.

5930 Parent-Child Community Relationships (2 sh)

Exploration of the role families and community services play in the education of young children. Teacher candidates will identify social, economic, and cultural trends that impact families of young children and will develop strategies to communicate with families to disseminate information regarding school and community services. (M.A.T.C. only)

5991 Transfer Elective (1-4 sh)

6020 Instructional Leadership Implementation (4 sh)

This course will introduce the principles of PK-12 curriculum and instruction with an emphasis on curriculum development and design, implementation and delivery (integration), and organization. Candidates will examine the role of the principal in curriculum design and implementation. Candidates will be asked to examine their own personal beliefs and those of their school system regarding curriculum issues. Candidates will become familiar with current theories on curriculum development and best practices in curriculum development and apply that knowledge to their own experiences as school professionals. Candidates will use this understanding of curriculum and instruction to focus on the role of the principal as instructional leader. Candidates will develop skills to support and guide faculty to improve literacy instruction, math instruction and student achievement through improving classroom lesson planning and delivery, classroom assessments, and classroom instruction. Candidates will develop knowledge and skills in assisting staff to provide quality instruction for all student populations in a safe and bully free climate and culture for learning.

6030 Educational Leadership (2 sh)

This introductory course will explore the important role of leadership in organizations. Candidates will examine what it means to be a leader, what traits leaders display and begin to develop their own style of leadership. An emphasis on ethical decision-making and the challenges that educational leaders face will be addressed. The course is designed to help candidates develop the competencies they will need as future educational leaders in any PK-12 school and to understand how their work will affect students, teachers and the school community. Candidates will begin to study the Interstate School Leader Licensure Consortium (ISLLC) standards and the Southern Regional Education Board (SREB) Competencies and Critical Success Factors that effective leaders practice. At the conclusion of this course, students will determine if they wish to seek the principal's license through the Master of Arts in Educational Leadership Program. This is a required, pre-admission course to the Master of Arts in Educational Leadership at North Park University.

6040 The Principalship (4 sh)

This course describes the role of the principal, in PK - 12 schools as one who creates a vision of an educationally effective culture

for learning and teaching and then plans and organizes time, resources, and technology to communicate the vision to teachers, students, parents and community members. This course will examine the challenges and responsibilities faced by principals and will incorporate team-building and collaboration skills. The course will focus on the significant leadership role the principal plays in meeting the needs of all students which special attention given to students with disabilities, English language learners, gifted students and students in early childhood programs. The course will also include discussion of the importance of teaching, promoting and rewarding a peaceful and productive school climate where bullying is not tolerated.

6050 Teacher Leadership and School Success (4 sh)

This course is designed to examine the Teacher Leader's role in collaboration with the building principal in fostering a collaborative culture to support educator development and student learning. Candidates will examine teacher evaluation models including all aspects of the Legal Requirements Related to Supervision and Evaluation: Performance Evaluation Act of 2010 (PERA). Candidates will develop the skills and strategies necessary to complete evidenced-based classroom observations by utilizing The Framework for Teaching by Charlotte Danielson. The Teacher Leader will develop competencies to facilitate colleague's individual and collective reflection and professional growth by serving in roles such as mentor, coach, and content facilitator. The unique and specific needs for new teacher induction and mentoring are included. Although not required for endorsement, Teacher Leader candidates may want to complete State of Illinois online requirements for teacher evaluation and supervision.

6060 Coaching for Transformation (4 sh)

This course is designed to provide Teacher Leader candidates an introduction to the role of instructional coaches as agents of change for teaching and learning. Candidates will examine various coaching models and the role of the teacher leader in collaboration with the building principal in establishing a school culture that focuses on student learning. Coaching strategies and competencies will allow the teacher leader candidate to develop the necessary skills to provide professional development to meet teaching and learning needs of the school.

6310 Assessment in the Schools (2 sh)

This course is designed to develop skills in selecting, developing and interpreting assessment methods and developing a plan for assessment. This course will provide the educational leader with opportunities to examine valid, reliable and fair measurements to determine achievement in teaching and learning and decision making for school improvement. The educational leader will develop skills in using meaningful data to drive, guide and support school improvement decisions. The principal as assessment leader will develop skills to assist teachers in utilizing assessment data to identify needs and align instruction. Educational leaders must promote the success of all students by advocating, nurturing and sustaining a school culture and instructional program conducive to student learning. School improvement initiatives are frequently centered on student assessment and achievement results and data. Educational leaders must be able to review, analyze, interpret, implement and disseminate assessment results for school improvement. Students are expected to demonstrate that they have learned the skills needed to select, develop, and interpret assessment methods that will provide valid, reliable and fair measures of valued educational achievement targets and to develop assessment strategies for effective integration and implementation of assessment plans.

6330 Leading Professional Learning Communities (2 sh)

This course provides a foundation and an applied practice approach for understanding and using concepts of leading professional learning communities (PLC) in PK - 12 schools. The emphasis of this course is on the school as a learning community. Candidates will examine what school leaders do to support professional development as a process to enhance classroom practice and improve students' learning and school success. PLC's are becoming more commonplace in schools as school principals work for sustained school improvement.

6340 Teacher Leadership and School Success (4 sh)

This course is designed to examine the Teacher Leader's role in collaboration with the building principal in fostering a collaborative culture to support educator development and student learning. Candidates will examine teacher evaluation models including all aspects of the Legal Requirements Related to Supervision and Evaluation: Performance Evaluation Act of 2010 (PERA). Candidates will develop the skills and strategies necessary to complete evidenced-based classroom observations by utilizing The Framework for Teaching by Charlotte Danielson. The Teacher Leader will develop competencies to facilitate colleague's individual and collective reflection and professional growth by serving in roles such as mentor, coach, and content facilitator. The unique and specific needs for new teacher induction and mentoring are included. Although not required for endorsement, Teacher Leader candidates may want to complete State of Illinois online requirements for teacher evaluation and supervision.

6410 School Supervision (4 sh)

This course is designed to provide PK-12 Principal candidates an introduction to school supervision of certified and non-certified staff. Supervision strategies will be developed and practiced with a focus on school improvement through the improvement of teaching and learning. Supervision of certified staff is based on Charlotte Danielson's Framework for Teaching and reflects the state adopted teacher evaluation model as stated in the Performance Evaluation Reform Act (PERA). The PK-12 Principal candidates will learn various theories on supervision, apply them to the instructional setting, and develop skills in observational techniques for data and evidence gathering. All PK-12 candidates will be required to pass online evaluation training as required by the state.

6440 School Law (2 sh)

This course provides students with a comprehensive examination of the interaction between the school and law. The legal basis for American public education and its direct impact on school operations will be explored. Principals deal directly with issues regarding special education law which will be directly addressed in this class.

6450 School Finance (2 sh)

This course examines the history of school finance with emphasis on the significant role of funding public education. The role of local, state and national school funding issues will be examined. Emphasis will be given to the role of the school administrator and school finance issues. Issues relating to special education and technology impact school finances and will be specifically incorporated.

6903 School Community Relations (2 sh)

This course provides an overview of the importance of community involvement in developing effective schools and effective change. Students will examine ways to involve parents and the members of the wider learning community in the schools. Techniques will be developed for developing better parent-teacher-administrator communication and fostering better school-community relations.

6920 Internship I (4 sh)

A quality internship program creates the opportunity for aspiring principals to demonstrate, under the guidance of an experienced and trained school leader and a university supervisor, that they have mastered the necessary knowledge and skills to change schools and classrooms and can apply these skills effectively in a school setting where they must work with real teachers to accelerate student achievement. This course is designed to provide opportunities for the candidate to observe, participate in, and lead real school-change activities in diverse school settings and to receive frequent and meaningful feedback from experienced and successful principals and university supervisors. This is the first of two internship courses. Candidates will complete their internships in public or nonpublic schools for a sustained, continuous, structured and supervised experience, with leadership experiences at all levels, PK - 12. Candidates must participate in activities that are directly related to the provision of instruction and lead instructional activities for general education, special education, bilingual education and gifted education teachers.

6921 Internship II (4 sh)

A quality internship program creates the opportunity for aspiring principals to demonstrate, under the guidance of an experienced and trained school leader and a university supervisor, that they have mastered the necessary knowledge and skills to change schools and classrooms and can apply these skills effectively in a school setting where they must work with real teachers to accelerate student achievement. This course is designed to provide opportunities for the candidate to observe, participate in, and lead real school change activities in diverse school settings and to receive frequent and meaningful feedback from experienced and successful principals and university supervisors. This is the second internship course. Candidates must have prior approval from the Program Coordinator to register for Internship II. Candidates will complete their internship in public or nonpublic schools for a sustained, continuous, structured and supervised experience, with leadership experiences at all levels, PK - 12. Candidates must participate in activities that are directly related to the provision of instruction and lead instructional activities for general education, special education, bilingual education and gifted education teachers. Prerequisite EDUC 6920.

6925 Practicum I (2 sh)

This practicum experience will focus on the development of a plan for the actual practicum experience. Candidates will work with a University faculty member and supervisor in a PK-12 setting to develop a plan that will allow them the opportunity to demonstrate skills in data analysis; developing school improvement plans; instructional leadership; providing effective professional development through coaching, mentoring, induction; building school culture that focuses on student learning or other topics approved by the North Park supervisor. The course will help candidates to examine, review, analyze, synthesize and develop the activities of the teacher leader to: Apply knowledge and understanding of effective communication with all stakeholders. Apply knowledge and understanding of the importance of staff professional development. Recognize the value and strength of diversity in the school and school community. Demonstrate an understanding of the importance of ethical behavior by school leaders. Understand the political, social, economic, legal and cultural contexts of educational leadership.

6926 Practicum II (2 sh)

The continuation of the practicum experience will involve the completion of the candidate working under the direction of a mentor in a PK-12 school setting on an approved project involving data analysis; developing school improvement plans; instructional leadership; providing effective professional development through coaching, mentoring, induction; building school culture that focuses on student learning or other topics approved by the North Park supervisor. The final project will be presented to class members, the on-site supervisor and School of Education faculty. The course will help candidates to examine, review, analyze, synthesize and develop the activities of the teacher leader to: Apply knowledge and understanding of effective communication with all stakeholders. Apply knowledge and understanding of the importance of staff professional development. Recognize the value and strength of diversity in the school and school community. Demonstrate an understanding of the importance of ethical behavior by school leaders. Understand the political, social, economic, legal and cultural contexts of educational leadership.

6930 The Capstone Experience (2 sh)

This course is designed as the capstone experience in the Master of Arts in Educational Leadership Program. Candidates will be required to analyze, synthesize and apply all of the learning from coursework, field experience, and the internship, as well as their own professional experience. Candidates will be expected to finalize a personal statement of leadership skills, reflect on their own professional dispositions as an educational leader, and finalize a professional portfolio as evidence of their work in leading schools.

School of Music (Graduate Studies)

Johnson (dean), Bauer (mmvp director), Davids, Hudgens, Lill, Shofner-Emrich (mmcp director), Zelle

There are two graduate programs in music: The Master of Music in Vocal Performance, and the Master of Music in Collaborative Piano (Vocal Coaching). The mission of the School of Music graduate program is to prepare students for lives of significance and service through professions in music including performing and teaching.

Entrance Requirements

The graduate programs in music require the completion of a bachelor's degree with an accumulation of at least 120 sh of credits and an audition appropriate to a graduate performance degree. An undergraduate cumulative grade point average should be at least a 3.0 on a 4.0 scale. However, if the talent portion of the audition warrants it, a student with less than a 3.0 may be accepted provisionally. Provisional acceptance limits the first year enrollment to no more than 8 sh per semester, during which success must be demonstrated before full acceptance is granted. Full acceptance will be determined by the director of the specific program at the end of the first year.

The degrees are designed to serve students with music degrees, although other degrees may be accepted. Students without a bachelor's degree in music but who pass the audition will be required to take specific undergraduate music courses as prerequisites to the graduate coursework. The particular courses to be taken will be determined by advisement, taking into consideration previous training and music entrance test results.

Prerequisites and Exams

Any course listed below which has not been completed or in which the student has not passed the entrance test is considered a deficiency and must be made up as early in the program as possible. The completion of some deficiencies may be required for enrollment in certain graduate classes.

- **Theory:** Two years of undergraduate theory with demonstrated competency. A competency test in Musical Analysis may be required if a previously taken analysis course is proposed to substitute for the required Applications in Musical Analysis, MUS 5300. If a student has taken an analysis course and proposes to substitute the course for the required Applications in Musical Analysis, MUS 5300, the student must take a competency test in analysis.
- **Aural Skills:** Two years of undergraduate study with demonstrated competency; All students must take entrance tests in Aural Skills. Proficiency comparable to North Park's Level III, fluency in sight singing of diatonic melodies with small and large skips and including complex rhythmic elements, must be demonstrated in a comprehensive test. Proficiency must be attained before the degree can be completed. Efforts to pass the proficiency may mean continued registrations in an Aural Skills class or AMUS 5005 (Applied Theory/Sight Singing Tutorial) by advisement, depending on test results. The test can be taken no more than once a semester.
- **Music History:** One year minimum including the Baroque, Classical and Romantic periods.

A minimum of one year of German, French, or Italian language study is required. Students who have studied Lyric Diction in one or more languages, and who feel they are proficient at a master's level (including the IPA), may take a placement test to determine if they can pass out of one or more sections of the Lyric Diction requirement.

All students must write an essay on site during orientation week. Students who do not demonstrate writing skill commensurate with graduate study will be required to take WRIT 5000, a 1 sh course offered by the Writing Center. The course must be done in the first or second semester of the graduate program.

In addition, entrance tests in may be required if previous coursework in a particular area cited above was completed more than five years before or if grades received for this work were not at the B level or higher.

ESL

Students should attain a score of 600 on the TOEFL. Some courses may be undertaken with a TOEFL score of 550, depending on the academic and performance background of the student. A writing assessment, for students with English as a second language, may be made early in the first semester. Students who are not proficient in English writing skills should enroll, by advisement, in either WRIT 5000 (a writing course for graduate students), in individual tutoring sessions arranged through the Writing Center, or in some other appropriate mode. This should be done at the beginning of the graduate program and continue until competency is reached.

Admission, Financial Aid, and Registration

Admission Requirements

- Completed application with application fee of \$30
- Three recommendations
- Official transcripts from all previously attended institutions
- Audition/Interview/On site short essay
- Optional FAFSA form for financial aid apart from that offered by the School of Music

Financial Aid

Tuition reductions on a percentage basis may be granted on the basis of previous academic work, vocal audition/interview and recommendations. Some awards may be offered in the form of Assistantships and require several hours of work per week within the School of Music. Awards are only granted for officially accepted students with full-time enrollment in at least the first year, the residency year. However, the reduction (percentage based) may continue for up to five years beyond the residency year with either full or part-time enrollments. Assistantship requirements continue for two years, with completion of at least 26 semester hours of courses required for the degree; or for three years if fewer than 26 semester hours were completed.

Registration

Registration can be accomplished in person or online after the following have been processed:

- All the admission requirements are met (see above)
- An NPU letter of acceptance has been sent to the student along with a contract
- The student must return a signed contract and a \$200 tuition deposit by the due date given in order to confirm the student's acceptance and to hold a place for him/her in the program. This deposit is non-refundable within 12 weeks of the beginning of the first semester of study.

After accepting and making the tuition deposit, the student should do the following:

- Contact the director of the specific program for consultation and registration approval.
- Create a North Park computer account. Using your student identification number provided to you by the School of Music Recruiter/Director of Operations, go to <https://www.northpark.edu/Account-Management.aspx> and follow the prompts.
- Once your account is set up, and you have been cleared by the director of the specific program, you may log into WebAdvisor and register for classes. Visit <http://www.northpark.edu>, click on “My North Park” and then “WebAdvisor”.

Student at Large Registrations

Students may register for graduate classes in the School of Music without officially applying. However, an informal audition will be required to assess readiness for the master's level. The standard tuition rates will apply. At a later point in time, the student may initiate a formal application/audition process to determine official candidacy.

To initiate a Student at Large registration, an application and fee (\$30) and transcripts must be submitted. Registration must then be completed by advisement with the director of the specific program. Recommendations are not required at the time of registration, but will be required if and when a formal application/audition is initiated. The application fee for this formal application will be waived.

Applied study for credit requires concurrent registration of academic coursework with a total registration of no more than five semester hours of credit. Student at Large students must plan carefully so that there are enough remaining requirements to constitute a year of residency, two consecutive semesters, minimum of 8 semester hours each.

Student at large credits are potentially transferable as they are documented on official transcripts. If official entrance into the North Park program commences within five years of all Student at Large registrations, all Student at Large coursework with a minimum of 3.0 grade will apply to the graduate program pending official acceptance into the program. Applied registrations may also apply, but must meet a level of attainment consistent with advanced placement in the program, to be determined at the official audition.

Being accepted as a student at large does not guarantee acceptance as an official candidate for the graduate program.

Continuing Requirements

Residency

One year (two consecutive semesters) of fulltime enrollment (a minimum of 8 credits per semester) is required to establish residency and to be eligible for aid/assistantships in the first year. Beyond that, the student may choose to make part-time enrollments of their choice and number. The program must be finished within six (6) years.

Employment
During full-time enrollments of 8 credits or more, students must limit work outside of school.

The student must submit a work schedule to the director of the specific program if such work is to consume more than 15 hours per week for assistantship holders or 20 hours per week for students without an assistantship. Work schedules must be flexible enough not to interfere with commitments required of the graduate program or the quality of time put into study and practice.

Academics

All students must maintain a B average in order to continue in the program. No grades of D or below are accepted.

Students need to gain faculty approval from the director of the specific program to register for more than 10 credits in a single semester.

A 3.9 GPA is required to graduate with distinction.

Reviews

Ongoing assessments of the progress of graduate students are made through juries, exams, papers, and performances as detailed in the Graduate Handbook, and monitored by the director of the specific program. Issues addressed in the ongoing assessments will include progress in all aspects of the program, including work ethic, preparedness, dependability, attitude, and performance history at North Park.

Master of Music in Vocal Performance (M.M.V.P.)

Program Requirements

Students in the M.M.V.P. program must complete 36 semester hours. This curriculum represents a two-year program assuming that all requirements have been met before beginning it. Deficiencies which need to be made up might require extra time.

Program Description

In a student centered learning environment led by a professional faculty and enhanced by our location in a major metropolitan area, we nurture a high degree of competence in order to prepare our students for the rigorous and multi-faceted career demands of a professional singer.

The design of the curriculum provides an advanced educational experience in both the theory and practice of vocal performance and pedagogy. The course of study includes intensive studies in vocal technique, music history, analysis, performance practice, pedagogy, and ensemble performance including choral and opera. The curriculum also provides coursework and experiences to bridge the gap between the school environment and the professional world.

Objectives

To elicit significant and positive outcomes that are required for success in professional singing careers, the curriculum offers a two-fold approach that merges academics and performance. In breadth and depth it is designed to elicit the knowledge and skills that are relevant to the specific demands of singing careers, including work in solo, opera, choral and teaching settings. Ongoing assessment of student development and programmatic impact will ensure successful outcomes. Through this program, the student will be equipped to develop the following:

- Demonstrated understanding of the history, styles, and performance practices of vocal literature, enlightened by lecture, research, and score analysis, and modeled with guided listening and in-class coaching of the genre under study
- Skillful vocal techniques enhanced with supportive academic studies resulting in authoritative and artistic interpretation and performance of vocal music from varying periods and styles

- Demonstrated understanding of the anatomy and physiology of singing leading to pedagogical methods that can successfully address the wide variety of vocal problems encountered in the teaching studio
- Applied competence in ensemble work including part-song, opera and oratorio

Major Area:

12 sh

Applied Music:

AMUS 5200: Applied Voice (2 sh) Must be taken for 3 semesters

AMUS 6200: Applied Voice: Recital (2 sh)

Attendance at a minimum of three voice classes per semester is required and performance is required in at least one of these classes. Performance on the General Recital is required at least once per semester. Applied work during the course of opera role preparation will be focused on that work, along with Survey repertoire.

Opera Requirement: One year minimum requirement (2 sh + 2 sh), more per scholarship requirements

MUS 5450: Opera Workshop (2 sh)

MUS 5455: Opera Production (2 sh)

Choral Requirement: One year minimum requirement (0sh), more per scholarship requirements

MUS 5800: University Choir (0 sh)

MUS 5890: Chamber Singers (0 sh)

1. Additional Opera/Choral Requirement:

- Either MUS 5450 Opera Workshop and/or MUS 5455 Opera Production (MUS 5455) (0sh), one year (2 semesters) beyond the 4 sh requirement. With instructor's consent; see course descriptions.
- OR MUS 5800 University Choir (0 sh) or MUS 5890 Chamber Singers (0 sh), one year (2 semesters) beyond the requirement. See course description.

2. The above opera and choral requirements are minimums. Tuition reduction and assistant agreements may require more for opera and choral registrations.

Other Studies in Music: 22 sh

Performer's Survey: The history of vocal repertoire and performance styles:

One-semester lecture courses, meeting 150 minutes per week on the historical development of a particular genre. Assigned readings, theoretical analysis, score analysis, and listening, in two 50 minute lecture classes, form the basis for establishing the position of each genre's development in the history of Western classical music. The causative influences on that development will be explored as well as the resultant effects on other musical forms.

Through the study of the history, literature and theory that distinguish various periods and forms, appropriate performance practices and styles for each genre will be delineated. The lab, one 50 minute session per week, will offer individual coaching in a master class setting on works which are concurrently under study in the classroom. The objective is to integrate historical scholarship with the creation of informed and artistic realizations of the genres under study.

MUS 5001: Performer's Survey I: Art Song (3 sh)

MUS 5002: Performer's Survey II: Opera (3 sh)

MUS 5003: Performer's Survey III: Oratorio/Cantata/Mass (3 sh)

Music Analysis:

MUS 5300: Applications in Musical Analysis (2 sh)

Vocal Pedagogy:

MUS 5401: Vocal Pedagogy I (1 sh)

MUS 5402: Vocal Pedagogy II (1 sh)

MUS 5500: Vocal Pedagogy Clinical (1 sh)

MUS 5510: Vocal Pedagogy Clinical (1 sh)

Diction

MUS 5423: Lyric Diction: Italian (1 sh)

MUS 5424: Lyric Diction: German (1 sh)

MUS 5425: Lyric Diction: French (1 sh)

Other Required Classes:

MUS 5000: Bibliography (1 sh)

MUS 5100: Performance Practica (4 semesters required) (0 sh)

MUS 5650: Master Classes in Vocal Performance (1 sh)

AMUS 5600: Interpretive Performance Studies (2 sh) (taken the semester prior to the semester of the final recital)

Electives: 2 sh

Electives complement the core courses in the major area and in other studies. They provide the individual student with options to customize his or her master's program

AMUS 5190: Applied Conducting (1 or 2 sh)

AMUS 5600: Interpretive Performance Studies (2 sh) (in addition to the requirement)

MUS 5421: Lyric Diction: Latin and English (1 sh)

MUS 5422: Lyric Diction: Spanish (1 sh)

MUS 5700: Career Seminar (1 sh)

MUS/AMUS: Any course excluding those fulfilling entrance and program requirements.

Comprehensive Projects:

In addition to the M.M.V.P. coursework requirements, all M.M.V.P. students are required to complete five comprehensive projects before a diploma is awarded. Comprehensive projects are representative of the work done in the following courses: MUS 5401/02 Vocal Pedagogy, MUS 5001 Art Song Survey, MUS 5002 Opera Survey, MUS 5003 Cantata/Oratorio/Mass Survey, and MUS 5300 Applications in Analysis. Project guidelines vary and are determined by the instructor of each course. Students are responsible for obtaining these guidelines. Projects can be completed at any time during the course of the degree program. See the Graduate Handbook for complete details including deadlines. All projects must receive a grade of B or higher.

Master of Music in Collaborative Piano (Vocal Coaching) [M.M.C.P.]

Program Requirements

Students in the M.M.C.P. program must complete 36 semester hours. This curriculum represents a two-year program assuming that all requirements have been met before beginning it. Deficiencies which need to be made up might require extra time.

Program Description

In a student centered learning environment led by a professional faculty and enhanced by our location in a major metropolitan area, we nurture a high degree of competence in order to prepare our students for the rigorous and multi-faceted career demands of a professional collaborative pianist. The design of the curriculum provides an advanced educational experience in both the theory and practice of collaborative piano. The curriculum also provides coursework and experiences to bridge the gap between the academic environment and the professional world.

Objectives

To elicit significant and positive outcomes that are required for success in professional singing careers, the curriculum offers a two-fold approach that merges academics and performance. In breadth and depth it is designed to elicit the knowledge and skills that are relevant to the specific demands of careers in collaborative piano (vocal coaching). Ongoing assessment of student development and programmatic impact will ensure successful outcomes.

MUS 5700: Career Seminar (1 sh)

MUS 3770: Chamber Music (by placement) (0 sh)

MUS/AMUS: Any course excluding those fulfilling entrance and program requirements.

5000 Music Bibliography (1 sh)

An introduction to the basic canon of library resources in music research. Study will include general library resources, bibliographies of composers, music, music literature, and music sources. It will give a broad view of dictionaries, encyclopedias, discographies, dissertations, and Festschriften as well as histories, library catalogs, periodicals, periodical indexes, thematic catalogs and monuments. A key project in the class will be providing an appropriate bibliography for a selected research topic.

5001 Performer's Survey I: Art Song (3 sh)

After a brief summary of the origins of music for the solo voice beginning in the Middle Ages and the Renaissance, this class will focus on art song repertoire in the Baroque, Classical, Romantic, and Contemporary periods. As appropriate for each period, it will foster a system of analysis for performance preparation that involves melody, harmony, rhythm, and poetic synthesis. Assignments will include readings and research papers, as well as out-of-class listening. The course offers an opportunity for the application of relevant elements through coached student performances in a master class setting.

5002 Performer's Survey II: Opera (3 sh)

The origins of opera, beginning in the late 16th century. Opera of the 17th century will be explored using recorded examples to illustrate the development of early opera and the relationship between music, libretto, and forms. These relationships will continue to be a focus in Classical, Romantic, and contemporary opera as will the major operatic composers of each period. The objective of the course is to foster a broad knowledge of many operatic works and detailed knowledge of selected operas. Assignments will include readings and research papers, as well as out-of-class listening. The course offers an opportunity for the application of relevant elements through coached student performances in a master class setting.

5003 Performer's Survey III: Oratorio/ Cantata/Mass (3 sh)

Detailing the rise of the cantata out of the 16th century monadic style and the madrigal, this course follows the development of the cantata beginning with the 17th century cantata da camera and cantata de chiesa, the latter fully developed by J.S. Bach and others in the Baroque period. Cantatas and other extended works under

different nomenclatures and in different styles, as developed in various countries, will be explored. Early oratorios, with dramatic elements not found in cantatas, will be studied as precursors to the larger oratorios of the late Baroque and on, when large choirs took positions of importance and drama resembled opera. The objective of the course is to foster a broad knowledge of many works in this genre and detailed knowledge of selected works from the Baroque through the Contemporary periods. Assignments will include readings and research papers, as well as out-of-class listening. The course offers an opportunity for the application of relevant elements through coached student performances in a master class setting.

5100 Performance Practica (0 sh)

Students registered for this course are required to attend and participate in various performance-related assemblies including, but not limited to, recitals and/or studio classes, specified in each semester's syllabus.

5300 Applications in Musical Analysis (2 sh)

A practical application of music theory and analysis skills aimed at exploring the factors that give unity and coherence to musical masterpieces. The course will survey important analytic methods and techniques and apply them to a designated repertoire, to be determined in part by the performance repertoire of the class, and in part by representation of important works in various musical genres.

5310 Chamber/Duo Instrumental Repertoire (3 sh)

Lecture/Performance class emphasizing collaborative techniques, knowledge of performance practice, and analytical skills needed to perform standard keyboard repertory in combination with other instruments from all historical periods. The course offers an opportunity for the application of relevant elements through coached student performances in a master class setting.

5401 Vocal Pedagogy I (1 sh)

Physiology of the voice and pedagogical methods for teaching singing. Mentored clinical teaching with in-class observation and critique. Tests cover text and lectures. Expectations and requirements for MMVP students are higher than for undergraduates who may be enrolled in the class, in teaching, and on tests.

5402 Vocal Pedagogy II (1 sh)

A continuation of the work of MUS 5401 Vocal Pedagogy I as follows: Physiological workings of the voice and pedagogical methods for teaching singing, with clinical, critiqued student teaching experience. Emphasis will be placed on internship in applied teaching with critiqued demonstrations in class. Prerequisite: MUS 5401.

5421 Lyric Diction: IPA and Latin (1 sh)

An overview of the sounds of Latin and basic rules for pronunciation using the International Phonetic Alphabet. Previous language study is desirable but not necessary. A supplement to traditional language study for the unique needs of singers and choral conductors, and the repertoire most commonly confronted in solo and choral works. Includes lecture, written tests, and assignments. This course is a prerequisite for all other diction courses.

5422 Lyric Diction: Spanish and English (1 sh)

An overview of the sounds of Spanish and English. Previous language study is desirable but not necessary. A supplement to traditional language study for the unique needs of singers and choral conductors, and the repertoire most commonly confronted in solo and choral works. Includes lecture, written tests, and assignments. Prerequisite MUS 5421.

5423 Lyric Diction: Italian (1 sh)

An overview of the sounds of Italian. Previous language study is desirable but not necessary. A supplement to traditional language study for the unique needs of singers and choral conductors, and the repertoire most commonly confronted in solo and choral works. Includes lecture, written tests, and assignments. Prerequisite MUS 5421.

5424 Lyric Diction: German (1 sh)

An overview of the sounds of German. Previous language study is desirable but not necessary. A supplement to traditional language study for the unique needs of singers and choral conductors, and the repertoire most commonly confronted in solo and choral works. Includes lecture, written tests, and assignments. Prerequisite MUS 5421.

5425 Lyric Diction: French (1 sh)

An overview of the sounds of French. Previous language study is desirable but not necessary. A supplement to traditional language study for the unique needs of singers and choral conductors, and the repertoire most commonly confronted in solo and choral works. Includes lecture, written tests, and assignments. Prerequisite MUS 5421.

5450 Opera Workshop (0-2 sh)

For a select group of experienced singers determined by the consent of the instructor. Emphasis is on the development of singing-acting skills through lecture, discussion, and exercises in character interaction using appropriate staging techniques. A scene recital is presented at the conclusion of the course. Performances may be in a foreign language or English.

5455 Opera Production (0-2 sh)

For a select group of experienced singers determined by the consent of the instructor. The skills developed in scene recital work will be called upon in this intensive preparation for a complete opera production. Chamber and full-length operas will be performed in yearly alternation, and may be in a foreign language or English as appropriate. Chamber operas will be accompanied by piano or an instrumental ensemble, and full-length operas will be with orchestra.

5500 Vocal Pedagogy Clinical (1 sh)

Each student will teach 3 students per week (thirty minute lessons) or one voice class (fifty minute class) for two semesters. Supervisors will observe at least twice in each semester and critique the teaching in private consultation with master's candidate. Prerequisite: MUS 5401, 5402.

5510 Vocal Pedagogy Clinical (1 sh)

Each student will teach 3 students per week (thirty minute lessons) or one voice class (fifty minute class) for two semesters. Supervisors will observe at least twice in each semester and critique the teaching in private consultation with master's candidate. Prerequisite: MUS 5401, 5402.

5550 Master Classes in Vocal Performance (1 sh)

The master class format will be used to work on style and presentation of solo vocal works in art song, opera or oratorio through the externalization of an informed interpretation, synchronized with an equally informed accompaniment. Individual preparatory research will include form, melody, harmony, text setting, and/or historical placement, as needed for an informed performance. Performances will be followed by in-class coaching, the goal being to achieve a stylistically correct and convincing approach to the work under study. Face, eye, body work and gesturing will be included at

least once, and meet all research requirements as put forth by the clinician. The class schedule will be posted before registration and may involve evening or weekend hours. Auditors are welcome but may not perform in class.

5700 Career Seminar (1 sh)

This seminar will focus on the professional packaging needed in a singing career, including topics such as the audition process, setting up a teaching studio, writing resumes, management of business aspects and assessment of professional opportunities.

5800 University Choir (0 sh)

Graduate choral work advances the undergraduate choral work (see MUS 0800) by offering leadership roles in the ensemble, either as a supplementary chorister (with concurrent registration in Chambers Singers), section leader or soloist. Grading will be P/F basis, with a minimal expectation of A work being the basis for a pass.

5890 Chamber Singers (0 sh)

As a graduate small ensemble experience (approximately 15 in number), the goals of the undergraduate experience must be advanced to a higher degree of mastery. The goal for this ensemble is to function as a group of soloists in the true chamber style, performing music that profits from more intimate renderings. The expectation for tone, accuracy, and phrasing is inspired by professional standards of performance. The auditions are competitive. One year requirement, or two years concurrent with one year supplementary registration in University Choir.

5910 Independent Study in Graduate Music (1-4 sh)

studied should expand to fill in areas that are lacking and include new and more challenging repertoire. (See the Student Handbook for jury/recital requirements.) At least one complete operatic role and one oratorio role should be studied during the master's program.

5210 Practicum: Studio/Choral/Opera Accompanying (1 sh)

Supervised practical experience in choral and opera accompanying, and studio accompanying and coaching. Students will work the choral and opera programs, voice studenets, and other large and small ensembles. Minimum of 30 - 60 hours per semester (varying with the kinds of accompanying tasks), and the course must be taken for two semesters. There may be some basic exposure to the collaborative process involving the organ and/or harpsichord.

5600 Interpretive Performance Studies (2 sh)

Private coaching sessions dealing with musical and interpretive considerations in various styles of music. Aimed at artistic renderings of both music and text. MMVP students must take the course in the semester prior to the semester of the final recital; may be taken for elective credit in other semesters as well. Prerequisite: MUS 5000.

6001 Applied Piano: Recital (2 sh)

A capstone experience in the form of a public recital. All vocal repertoires with the exception of piano solo(s).

6002 Applied Piano: Recital (2 sh)

A second capstone experience in the form of a public recital. All instrumental repertoire with the exception of piano solo(s).

6200 Applied Voice: Recital (2 sh)

Continuation of technical and interpretive preparation through study in the applied voice studio, but directed toward the Master's Recital. Prerequisite: AMUS 5600, taken in the semester prior to the semester of the final recital. Take AMUS-5600;

Applied Music (Graduate)

5005 Applied Theory/Sight Singing Tutorial (1 or 2 sh)

This applied class is required for MMVP students who are deficient in music theory and/or sight singing as determined by a placement test during orientation. The class provides tailored instruction to prepare students to pass the competency exam.

5110 Applied Piano (2 sh)

The study of vocal literature (primarily song and opera/oratorio transcriptions) and piano literature (a minimum of one substantial solo piece must be programmed in each required recital). Includes one hour private lesson and one sixty minute studio master class every week.

5190 Applied Conducting (1 or 2 sh)

Students will be able to express musical ideas through effective and expressive conducting gestures. Students will learn and/or review the standard conducting patterns, baton technique, score study, rehearsal organization, and programming. They will learn a variety of repertoire with the goal of practicing and refining their choral conducting rehearsal and performance techniques. Students will also exhibit the applied understanding of vocal technique in a choral setting while rehearsing and conducting a North Park ensemble. No previous conducting study is required.

5200 Applied Voice (2 sh)

Continuation of principles of breath control, tone placement and correct diction aiming toward technical mastery of standard vocal literature. Graduate study assumes a higher level of development in these areas upon entry and sets higher standards for continued improvement than undergraduate study. The standard repertoire

School of Nursing (Graduate Studies)

L. Duncan (dean), Chase-Ziolek, Cullen, DeWaters, H. Duncan, Gaynor, Gierloff, Loukissa, McCreedy, Smith, Wang, Zeller (director)

With a solid grounding in the three North Park core values of Christian perspective, urban commitment, and multicultural recognition, the Master of Science in Nursing (M.S.N.) programs are designed to fully prepare nurses to meet healthcare needs of the future. Students may choose to pursue a masters degree with a focus in leadership and management or choose from adult-gerontology primary care or family nurse practitioner options.

Admissions

Applications for the M.S.N. degree program are processed on a continuous basis throughout the academic year, including the summer term. Application deadlines are Fall - August 1, Spring - December 1, and Summer - April 20. Mandatory onsite orientations are scheduled. To ensure confidentiality, admission decisions are released solely by written documentation. Admission Requirements

Requirements	MS in Nursing L and M Track	MS in Nursing NP Track	Post-Master's NP Track	Dual Degree ***
Application	X	X	X	X
BSN/BS with a major in nursing from an accredited program or its equivalent *	X	X	X	X
Minimum of 2 years (FTE) clinical experience as a nurse *	X	X	X	X
MSN/MS with a major in nursing from an accredited program or its equivalent			X	
Transcripts from all colleges and universities attended**	X	X	X	X
Cumulative GPA of 3.0/4.0 for all undergraduate courses	X	X	X	X
Cumulative GPA of 3.0 for all MS program courses	X	X	X	X
Essay	X	X	X	X
Resume	X	X	X	X
Two letters of recommendation from supervisors	X	X	X	X
Current Illinois RN license	X	X	X	X
Satisfactory completion of the following courses at the BS level or higher level:				
Statistics	X	X	X	X
Nursing Research	X	X	X	X
Health Assessment	X	X	X	X

* Evaluated on a case-by-case basis (e.g. RN's with non-nursing baccalaureate degrees are considered for admission to L and M track)

** Graduates of foreign nursing schools are required to submit their transcripts for evaluation to either World /Educational Services (WES) or Educational Credential Evaluators (ECE) for a course by course analysis and determination of a GPA.

*** Applicants to the dual degree programs need only apply to the School of Nursing; if admitted, they are concomitantly accepted into the School of Business.

Admission Requirements: International Students

International students may need to take the TOEFL examination. They may also need to meet some or all of the admissions requirements for international applicants as described in the Admission section for traditional undergraduates.

Admission Requirements: Transfer Students

Graduate nursing students may transfer a maximum of 9 semester hours of equivalent coursework from an NLN or CCNE accredited Master of Science in Nursing program to North Park. Transferred courses must have a grade of B or higher and be no longer than five years old. The credentials examiner, in consultation with the academic standing committee of the graduate nursing faculty, will ascertain the transferability of a course.

Student's Rights, Responsibility and Regulations

Academic Dishonesty

Please refer to the entry on academic dishonesty in the catalog section titled Additional Rights, Responsibilities and Regulations.

Academic Load

Enrollment status at the graduate level is determined by following categories:

- Full-Time Enrollment: 8 semester hours of credit or more per semester
- Half-Time Enrollment: 4 < 8 semester hours of credit per semester
- Part-Time Enrollment: < 4 semester hours of credit per semester

Drops and Withdrawals

Students must complete a drop form to withdraw from a course. Withdrawal from a course or from the school will count from the date that formal written notice has been filed with the registrar. Mere absence from class or notice to the instructor does not constitute withdrawal. A grade of DW (dropped without permission) will be assigned to unauthorized withdrawals and a grade point of zero applied.

Students may withdraw from a course without an assigned grade through the fourth week of the fall and spring semesters (and the second week of the summer semester). That course will not appear on the student's permanent record.

At the beginning of the fifth week of the fall and spring semesters (and the third week of the summer semester), a dropped course is assigned a grade of W (Withdraw) and is listed on the student's permanent record but is not used in the calculation of the student's GPA.

The last day to withdraw from a course with a grade of W depends on the length of the term:

TERM LENGTH	Last Date to Drop a Course With a Grade of W
16 week Fall/Spring semester	The end of the 12th week
7 1/2 week Fall/Spring quad	The end of the 6th week
9 week Summer semester	The end of the 7th week
4 1/2 week Summer quad	The end of the 3rd week
3 week mini-term (May)	The end of the 2nd week

After these dates, students will be assigned grades that are used in the calculation of their GPA.

Students may be involuntarily withdrawn from the institution if they are determined by University officials to be a danger to themselves or others, or if their behavior or actions are incongruent with the values and mission of the institution. Students may be responsible for tuition, fees, and charges up to the point of withdrawal.

Expenses

All graduate students are assessed a fee for graduation. Nurse Practitioner students are assessed a fee for each nurse practitioner core and specialty course to cover electronic logs, simulation experiences and other program related expenses. Other students enrolled in courses involving the simulation center are also assessed a fee. Proof of liability insurance will be required for each practicum experience. Additional costs may include outlays for student health insurance, background checks, drug screening tests, etc.

Grading System

At the end of each semester, a graduate student's work in each course is recorded with one of the following grades:

Percentage	Grade	Grade Point
94-100	A	4.00
91-93	A -	3.67
88-90	B+	3.34
84-87	B	3.00
81-83	B-	2.67
78-80	C+	2.34
74-77	C	2.00

71-73	C -	1.67
68-70	D+	1.34
64-67	D	1.00
61-63	D-	0.67
60 and under	F	0.00
AU (Audit)	0.00	
DR (Administrative Drop)	0.00	
DW (Dropped without permission)	0.00	
I (Incomplete)	0.00	
NG (No grade)	0.00	
NS (Not submitted)	0.00	
P (Pass)	0.00	
W (Withdrawal)	0.00	

Grade Definition

- Administrative Drop (DR): Student withdrew from course with permission of university administration. Credits are not calculated in GPA.
- Audit (AU): See Audit entry in this section.
- Dropped without permission (DW): Student was registered for the course but failed to attend. Course calculated in GPA as a failure of credits.
- Incomplete (I): See Incomplete Grades entry in this section.
- No Grade (NG): See Incomplete Grades entry in this section.
- Not Submitted (NS): Instructor has not provided a grade.
- Pass (P): See Pass/Fail entry in this section.
- Withdrawal (W): Student dropped after the 4th week of class.

Each student is expected to maintain a cumulative grade point average (GPA) of 3.0 on a 4.0 scale. Any student whose cumulative GPA falls below 3.0 will be placed on academic probation.

The student on academic probation has the opportunity to complete six more semester hours of graduate study in order to raise the student's cumulative GPA to 3.0. The student will be dismissed from the program if the cumulative GPA is not raised to 3.0 upon the completion of these six graduate semester hours.

No more than one C+ or lower course grade may be earned in the graduate nursing program. Should a C+ or lower be earned in any graduate level course, the student must repeat that course. The repeated course must be taken in the next semester in which it is offered. The student may not register for any additional graduate courses until the course of concern is remediated with a minimum grade of "B". If this student then earns a Grade of C+ or lower in another course, the student will be dismissed from the program.

If a student receives an I (incomplete) grade, the work must be made up within one semester (excluding the summer term for a spring semester incomplete). If a student fails to make up an I grade after one semester, the grade will become an F unless the student receives a written extension with a specific date of completion from the professor.

The Graduate Selection and Progression Committee will review each student's record of academic deficiency and may make exceptions to the above rules for medical or other extraordinary circumstances. Any

student whose academic standing has been subject to action may submit a written appeal to the Committee.

Graduation With Distinction

Students whose final cumulative grade point average is 3.9 or higher receive an M.S. degree with Distinction. Dual-degree students' grade-point averages are considered on a program specific basis.

Grievance

If a student wishes to file a grievance or present an appeal, he or she is to follow the procedures outlined in the Graduate Student Handbook for the School of Nursing.

Leave of Absence

A student may be granted a leave of absence for academic or personal reasons with approval from the Director of the M.S.N. program. Although individual circumstances determine justification and duration, the typical leave of absence is one to two semesters in length. Each graduate student in good standing has a maximum of five years to complete degree requirements.

Master of Science in Nursing (M.S.N.) and Post-Master's Nurse Practitioner Certificates Program Requirements

Requirements for graduation from the Master of Science in Nursing (M.S.N.) program include completion of four core courses, and specialty courses for each option. All students are required to register for WRIT 5000 - Writing for the Professions during the first semester of the study unless they test out during the onsite orientation. Each candidate for the M.S.N. degree must complete a minimum of 25 semester hours of graduate credit at North Park University. Each candidate for completion of the post-Master's NP certificate must complete a minimum of 23 semester hours of graduate credit at North Park University. Students may complete any of the programs on a part-time or full-time basis. A cumulative grade point average of 3.0 or above is required for graduation or certificate completion.

Master of Science in Nursing and Master of Business Administration (M.S.N./M.B.A): 61 sh

The Master of Science in Nursing and the Master of Business Administration (M.S./M.B.A.) dual degree sequence is offered in the graduate program. It combines the strengths of the two disciplines within North Park University. The dual degree program is designed to meet the needs of baccalaureate-prepared registered nurses who serve in middle or senior level management positions within varied health care settings.

Elective Courses

M.S.N./M.B.A. students must choose 8 semester hours from the dual degree (SON/SBNM) list of electives.

Master of Science in Nursing and Master of Management (M.S.N./M.M.): 61 sh

The Master of Science in Nursing and the Master of Management (M.S.N./M.M) dual degree sequence is offered in the graduate program. The dual degree program is based upon the needs of the healthcare industry for nurses with advanced education in the science of nursing and in management. In addition, students may wish to further specialize by seeking a Master of Science in Nursing and Master of Management in Human Resources or a Master of Science in Nursing and Master of Management in Nonprofit Administration.

Elective Courses

M.S.N. /M.H.R.M. students must choose 8 sh from the dual degree (SON/SBNM) list of electives.

Master of Science in Nursing and Master of Nonprofit Administration (M.S.N./M.N.A.): 61 sh

The Master of Science in Nursing and the Master of Nonprofit Administration (M.S./M.N.A.) dual degree sequence is offered in the graduate program. The dual degree program is based upon the

needs of the healthcare industry for nurses with advanced education in the science of nursing and management. The M.N.A. degree provides comprehensive preparation in leadership and management practices within the nonprofit sector. The curriculum focuses on practical application of core competencies that leading nonprofit executives have stated are critical for effective leadership.

Elective Courses

M.S.N./M.H.E.A. students must choose 8 sh from the dual degree (SON/SBNM) list of electives.

5010 Scientific Inquiry and Knowledge Development (4 sh)

This course focuses on the relationship of theory, research and practice in the development of nursing knowledge. Emphasis is on ethical and scientific knowledge. Selected theories and conceptual models are analyzed and evaluated, focusing on application to advanced nursing practice and development of nursing knowledge. The research process is discussed, with emphasis on evaluation and utilization of new knowledge in order to provide high quality health care, initiate change and improve nursing practice. This course provides the foundation for the synthesis of knowledge development in advanced clinical nursing practicum projects. Students must have completed an undergraduate statistics or equivalent course and also performed undergraduate nursing research.

5015 Health Care Systems: Organization and Resources (4 sh)

This course provides a comprehensive overview of the U.S. health system with a global viewpoint of its comparison to international healthcare systems. The healthcare environment is examined including healthcare service providers, suppliers, consumers, regulators, and payers. Organizational development, structure,

and administration, along with planning and managing in Health Service Organizations are analyzed. Healthcare economics addresses key issues and fundamental concepts of applied economics. Healthcare marketing focuses on the essentials of marketing management and understanding the needs of the customer. The role of financial management healthcare service organizations is explored. The impact of federal, state and other sources of policy and law are analyzed as they impact HSO. Related concepts theories, and current issues to HSO, economics, and professional nursing are examined in light of their implications for nursing administration, practice and the profession.

5020 Population Based Health Care (4 sh)

This course focuses on health promotion and disease prevention for diverse populations. Students will use principles of epidemiology and public health to critically analyze needs and plan care for selected diverse individuals, families, target population, and communities. Students will explore global elements of health and health care provision, with emphasis on culturally sensitive care. Practice in collaboration with multicultural staff will be key.

5030 Professional Communication & Collaboration (2 sh)

This course focuses on the identification, analysis, and implementation of communication strategies to facilitate formation of successful teams and partnerships. Students will develop a comprehensive knowledge of principles of adult learning and will examine clinical reasoning, judgment, and decision making in addressing the needs of diverse patients and populations across the life span. Emphasis will be placed on developing group leadership skills, building teams through communication and partnership, and conflict management in the light of change.

5430 Strategic Nursing Management (3 sh)

Serves as a foundation for the healthcare manager shaping change across the continuum of care. Builds upon the knowledge base, tools, and abilities essential to function as an effective nurse administrator in a variety of healthcare systems. Students will synthesize management skills related to systems analysis, human resource/outcomes management, financial management/cost analysis/micro and macroeconomics, organizational development/business planning, conflict resolution and change management.

5432 Strategic Nursing Management Practicum (3 sh)

The clinical practicum is focused upon the application of nursing research, theory and the essential principles of management to a practice setting. The student has the opportunity to advance knowledge and skills as it relates to developing a business plan, analyzing a financial plan or managing a human resource issue in an organization setting tailored to meet individual student objectives and learning needs. Organization setting may include acute care agencies, community settings, not-for-profit corporations, congregations, government agencies or education facilities jointly approved and planned between the student, faculty, and preceptor. The student will develop objectives specific to advancing knowledge and skills related to management as well as begin work on a capstone practicum project. Practicum hours totals 135. Prerequisite: NURS 5005, 5010, 5015, 5020, 5025. Co-requisite: NURS 5430.

5434 Health Care Economics and Nursing Systems (3 sh)

This survey course provides an in-depth analysis of the economic, social, political, and ethical forces that are affecting the American healthcare environment in this decade. Major focal areas of the course include: public and private healthcare delivery systems, reimbursement systems, select issues in the healthcare market,

quality control, healthcare services, manpower, utilization and recruitment of healthcare personnel, and private and government insurance programs. Future issues in health economics will also be evaluated.

5436 Resource Management in Nursing (3 sh)

Provides an in-depth analysis of the utilization of strategic resources within nursing systems that impact the healthcare environment and the profession of nursing. Major focal areas of the course include: financial management, budgeting, capital improvement, human resources, staffing and personnel, professional development, technology, grants and philanthropy. Issues will be explored in the context of a rapidly changing healthcare system and optimization of resource management.

5440 Transformational Nursing Leadership (3 sh)

Focuses upon the student as a transformational leader in the healthcare environment. The student analyzes and evaluates community based care, integrated systems, and community networks. Concentration on the continuum of care as it moves from simple to more complex systems of partnerships, mergers, networks, and interdisciplinary teams will be emphasized. The role of the leader advances to that of strategic change agent that is knowledgeable in the transformation of organizations to enhance capabilities and adaptability of resources at all levels.

5442 Transformational Nursing Leadership Practicum (4 sh)

This clinical practicum provides an opportunity for students to cultivate and synthesize transformational leadership principles and capabilities. Building upon the management practicum this experience focuses upon complex leadership issues and challenges across the health care delivery system. The practicum experience provides opportunity to develop advanced leadership competency in the areas of interdisciplinary team building, evaluation of quality improvement initiatives, change management across health care systems and strategic decision-making. The student develops objectives that are consistent with advanced leadership knowledge and skills as well as continues to expand expertise related to the integration of research, theory, and practice as the final phase of the practicum capstone project is completed. Practicum hours total 180. Prerequisite: NURS 5430, 5432. Co-requisite: NURS 5440.

5503 Advanced Practice Nursing: Role Concepts and Transition (2 sh)

This course is designed to facilitate student transition into the role of advanced practice nurse. It builds on concepts of role socialization and organizational structure. Professional issues such as credentialing and reimbursement for APN's are explored. Health care policy and its impact on advanced nursing practice and primary care are examined. Prerequisite: NURS 5534 or NURS 5535.

5505 Advanced Pathophysiology (3 sh)

This course expands on foundational concepts of pathophysiology, focusing on altered cell, organ, and system function. Recognition, evaluation, and management of common health deviations of individuals across the lifespan are also addressed.

5510 Advanced Pharmacology (3 sh)

This course expands on foundational concepts of pharmacology and provides a framework for understanding pharmacotherapeutics. The overall purpose of the course is to prepare advanced practice nurses for safe therapeutic drug selection and prescription for individuals across the lifespan.

5515 Advanced Health Assessment (4 sh)

This course examines the process of health history taking, physical assessment, diagnostic data interpretation, and health assessment recording for individuals across the lifespan. It consists of a 3-hr didactic portion and a 1-hr laboratory component. Students must have completed an undergraduate health assessment course or equivalent prior to registering for this course.

5520 Health and Wellness Promotion (3 sh)

This course addresses theories of adult growth and development and principles of health promotion and disease prevention and introduces related national practice guidelines. Students acquire skills in conducting risk assessments, developing health promotion and risk reduction strategies, and evaluating health promotion activities.

5530 Adult Health Management I (3 sh)

The course examines the health care needs of adults across the lifespan as addressed by the advanced practice nurse in primary care settings. It builds on the concepts of health promotion and disease prevention and emphasizes assessment, diagnosis, and treatment of common acute episodic illnesses, chronic stable illnesses, and medical emergencies. Prerequisite: NURS 5505, 5510, 5515, 5520, 5610.

5534 Adult Health Management Practicum I (4 sh)

Clinical experiences focusing on assessment, diagnosis, and management strategies of common health alterations experienced by adults. Within this course, student begins a clinical nursing project which will be completed in Practicum II. Practicum totals 180 hours. Prerequisite: NURS 5515, 5520. Co-requisite (required): NURS 5530.

5535 Adult Health Management Practicum (5 sh)

Students engage in primary care clinical experiences to develop skills in the assessment, diagnosis, and management of common health alterations experienced by adults across the lifespan. Practicum totals 225 clock hours. Prerequisite: NURS 5505, 5510, 5515, 5520. Co-requisite: NURS 5530.

5540 Adult Health Management II (3 sh)

The course, a continuation of NURS 5530, examines the health care needs of adults across the lifespan as addressed by the advanced practice nurse in primary care settings. It builds on the concepts of health promotion and disease prevention and emphasizes assessment, diagnosis, and treatment of common acute episodic illnesses, chronic stable illnesses, and medical emergencies. Prerequisite: NURS 5530, NURS 5534 or NURS 5535. Co-requisite: NURS 5565, 5575, 5625.

5546 Family-Centered Care (2 sh)

The course, a continuation of NURS 5530, examines the health care needs of adults across the lifespan as addressed by the advanced practice nurse in primary care settings. It builds on the concepts of health promotion and disease prevention and emphasizes assessment, diagnosis, and treatment of common acute episodic illnesses, chronic stable illnesses, and medical emergencies. Prerequisite: NURS 5535.

5560 Pediatric Health Management (3 sh)

This course examines growth and development of the healthy newborn, infant, child, and adolescent and addresses stage appropriate anticipatory health management strategies. It emphasizes diagnosis and management of common acute and chronic diseases/conditions of children of all ages. Prerequisite: NURS 5530 and NURS 5535.

5565 Pediatric Health Management Practicum (2 sh)

Students engage in primary care clinical experiences to develop skills in the assessment, diagnosis, and management of common acute and chronic health alterations experienced by individuals from newborn through adolescence. Students apply health promotion and disease prevention strategies to care. Family-centered care is emphasized. Co-requisites: NURS 5560. Prerequisite: NURS 5530 and NURS 5535.

5570 Women's Health Management (3 sh)

This course addresses diagnosis and management of acute and chronic health alterations of women across the life span. Female health promotion, common gynecologic issues, preconception education, family planning, pregnancy, and post-partum care are examined. Co-requisite: NURS 5575. Prerequisite: NURS 5530 and NURS 5535.

5575 Women's Health Management Practicum (2 sh)

Students engage in primary care clinical experiences to develop skills in the assessment, diagnosis, and management of common acute and chronic health alterations experienced by women from adolescence through older adulthood. Students apply health promotion and disease prevention strategies to care. Practicum totals 90 clock hours. Co-requisite: NURS 5570. Prerequisite: NURS 5530 and NURS 5535.

5610 Advanced Practice in Gerontologic Nursing I (2 sh)

This course addresses the principles of health and aging and strategies for advanced assessment of older adults across cultural groups. Common geriatric issues and syndromes are discussed, with emphasis on wellness, prevention, maintenance, and early health care interventions in primary and long-term care settings.

5620 Advanced Practice Gerontologic Nursing II (2 sh)

This course focuses on the diagnosis and treatment of common acute and chronic geriatric illnesses and complex health problems of older adults of diverse cultures, including frail and demented older adults in primary and long-term care settings. The role of the primary care NP with palliative/end-of-life care management is addressed. Prerequisite: NURS 5530.

5625 Advanced Practice in Gerontologic Nursing II: Practicum (2 sh)

Students engage in clinical experiences in primary and long-term care settings to develop skills in the assessment, diagnosis, and management of complex health problems experienced by older adults. Students apply health promotion and disease prevention strategies to care. Take NURS-5530 NURS-5610;

5780 Adult/Gerontology Health Management Residency & Capstone (6 sh)

This is the culminating course for the nurse practitioner students in the adult/gerontology track. It is a residency. Students engage in clinical experiences to synthesize knowledge and skills gained in previous practicum courses. They assume responsibility for management of individual adult clients from adolescence through old age. Students will complete and report on a clinical project. Residency totals 270 clock hours. Prerequisite: NURS 5540, 5620, 5625.

5790 Family Practice Residency (6 sh)

This is the culminating course for the nurse practitioner students in the family practice track. It is a residency. Students engage in clinical experiences to synthesize knowledge and skills gained in previous practicum courses. They assume responsibility for management of individual clients across the lifespan in the context of the family. Students will complete and report on a clinical project. Residency totals 270 clock hours. Prerequisite: NURS 5540, 5620, 5565, 5575.

5910 Independent Study in Graduate Nursing (1-4 sh)

Upon selection of an advisor/s, students enroll in one semester of credit for each term thereafter to complete their research projects or thesis. Students meet with their research advisor on an individual basis. Course offered pending advisor availability. Prerequisite: NURS 5301.

5920 Topics in Graduate Nursing (1-4 sh)**5930 Thesis (1-4 sh)**

Design and implement a program of independent research that will contribute to nursing's knowledge base. Standards and conventions of a master's thesis will be followed.

5990 Capstone Project (2 sh)

This course provides students with the opportunity to develop an evidence-based practice project with potential dissemination. The project will be presented in both written and oral formats. Prerequisite: NURS 5515.

DIRECTORY OF PERSONNEL AND FACULTY

Board of Trustees

Term Expires 2019

Kanyere Eaton	<i>Senior Pastor, Fellowship Covenant Church, Mount Vernon, NY</i>
Beth Fredrickson	<i>Senior PR Counselor, Bottom Line Marketing & Public Relations, Wauwatosa, WI</i>
Karen Meyer	<i>VP, Sales & Partnerships, Welltok, Inc., Denver, CO</i>
Christine Rosell	<i>Community Volunteer, Lincolnwood, IL</i>
Greg Yee	<i>Supt., Pacific NW Conference for the ECC, Renton, WA</i>
Owen Youngman	<i>Professor and Knight Chair in Digital Media Strategy, Northwestern University, Deerfield, IL</i>

Term Expires 2018

Loirie Dupont	<i>Managing Director, RBC Capital Markets, LLC, Chicago, IL</i>
D. Darrell Griffin	<i>Pastor, Oakdale Covenant Church, Chicago, IL</i>
Mark Lindberg	<i>President, Young Corporation, Bellevue, WA</i>
John Murphy	<i>Vice President and General Manager, North American Systems, Latin America, Johnson Controls Foundation, Hartland, WA</i>
LoAnn Peterson	<i>Physician and Director of Hematopathology, Northwestern Memorial Hospital, Winnetka, IL</i>
Kristine Strand	<i>Professor, Boston University and Senior Speech Language Pathologist, Children's Hospital, Boston, MA</i>
William Werner	<i>Physician and Vice President of Clinical Transformation, Advocate Illinois Masonic Medical Center, Skokie, IL</i>

Term Expires 2017

Thomas S. Bagley	<i>Founder and Senior Managing Director, Pfingsten Partners, Chicago, IL</i>
Grant Clay	<i>Lead Pastor, Evangelical Covenant Church, Clay Center, KS</i>
Gail Dahlstrom	<i>Vice President for Facilities Management, Dartmouth-Hitchcock Medical Center, Etna, N.H..</i>
Dawn Helwig	<i>Actuary, Milliman, Inc. Chicago, IL</i>
Stephen Johnson	<i>Vice President, Americas Sales IIG, EMC, Warrenville, IL</i>

Term Expires 2016

Lars Anderson	<i>Senior Vice President, National Sales Manager, US Bancorp Trust Services, Farmington, MI</i>
---------------	---

Bruce Bickner	<i>Retired Chairman and CEO, DeKalb Genetics Corp, Sycamore, IL</i>
Jay Carstenbrock	<i>Retired Vice President of Operations Support for BP, Wheaton, IL</i>
Kathryn Edin	<i>Bloomberg Distinguished Professor, Johns Hopkins University, Baltimore, MD</i>
Calla Holmgren	<i>Physician, Gardner Women & Newborn Center, Salt Lake City, UT</i>
Gregory Wittrock	<i>Vice President, General Counsel and Secretary, Masco Corp., Plymouth, MI</i>

Term Expires 2015

Renee Borkowski	<i>Regional Vice President, Marketing Strategy, Razorfish, Lake Forest, IL</i>
Randy Furushima	<i>Dean and Executive Officer, New Hope Christian College, Honolulu, HA</i>
Donna Harris	<i>President, Minnehaha Academy, Minneapolis, MN</i>

Albert Tizon	<i>Professor, Palmer Theological Seminary, Upper Darby, PA</i>
--------------	--

Ex-Officio:

John Martz	<i>Pastor, Arvada Covenant Church, Arvada, Colo.; ECC Liaison to Executive Board</i>
Efrem Smith	<i>Superintendent, Pacific Southwest Conference, Brentwood, Calif.; ECC Liaison to Council of Superintendents</i>
Gary Walter	<i>President, Evangelical Covenant Church, Palatine, Ill.</i>

Office of the President

David L. Parkyn, Ph.D.	<i>President</i>
Karen Mears	<i>Administrative Assistant</i>

Office of the Provost

Craig Johnson, Ph.D.	<i>Interim Provost</i>
Neale Murray	<i>Interim Associate Provost</i>
Charles Peterson, Ph.D.	<i>Dean of the College</i>
Hannah Anthony	<i>Administrative Assistant</i>

Academic Affairs, Professional Education and Continuing Studies

Liza Ann Acosta	<i>Associate Dean, Division of Humanities</i>
Anna-Kajsa Anderson	<i>Director of Archives and Special Collections</i>
Hannah Anthony	<i>Administrative Assistant, Office of the Provost</i>

Judson Curry	<i>Associate Director, School of Adult Learning</i>
Linda Duncan, Ph.D.	<i>Dean of School of Nursing</i>
Ida Eriksson	<i>Operations Coordinator, School of Business and Nonprofit Management</i>
Karlton Gilton	<i>Assistant Certification Officer/ Program Advisor for Education</i>
Daniel White Hodge	<i>Director of the Center for Youth Ministry Studies</i>
Craig Johnson	<i>Dean, School of Music</i>
Mari Lamp	<i>Office Assistant, School of Business and Nonprofit Management</i>
Joseph W. Lill	<i>Director of Music Education, Director of Wind Activities, Director of Summer School</i>
Wes Lindahl, Ph.D.	<i>Dean, School of Business and Nonprofit Management</i>

University Faculty (full and proportionate time)

North Park is justly proud of the preparation and professional activities of its faculty. A list of annual faculty professional activities is available upon request.

The Undergraduate College

Acosta, Liza Ann	<i>Professor of English</i>
B.A., Converse College; M.A., North Carolina State University; Ph.D., Penn State University. At North Park since 2000.	
Anderson, Alyssa	<i>Visiting Assistant Professor of Exercise Science</i>
B. S., North Park University; M.S., Ohio University; North Park since 2014.	
Ahn, Ilsup	<i>Associate Professor of Philosophy, Carl I. Lindberg Endowed Chair in Applied Ethics</i>
B.A., Yonsei University, Korea; M.Div., Th.M., Emory University; Ph.D. Candidate, University of Chicago. At North Park since 2004.	
Alulis, Joseph	<i>Professor of Politics and Government</i>
B.A., M.A., Ph.D., University of Chicago. At North Park since 1996.	
Andreasson-Hogg, Anne-Marie	<i>Professor of Swedish</i>
Licence, Maitrise, Diplome, Sorbonne (Paris); M.A., Ph.D., University of Illinois. At North Park since 1998.	

Ankney, Rachelle	<i>Professor of Mathematics</i>
B.A., Belmont University; Ph.D., Washington University. At North Park since 2006.	
Arnesen, Nancy E.	<i>Professor of English</i>
B.A., Wheaton College; M.A., Northern Illinois University; Ph.D., Northwestern University. At North Park since 1986.	
Ayot, Theodora O.	<i>Professor of History</i>
B.A., Hiram College; Pgde, M.A., University of Nairobi, Africa; Ph.D., Kenyatta University, Africa. At North Park since 1996.	
Bennett, David	<i>Professor of Psychology</i>
A.A.S., Prairie State College, B.S., Loyola University; M.A., Ph.D., University of South Florida. At North Park since 2002.	
Bergman, Chad Eric	<i>Professor of Communication Arts</i>
B.A., Wheaton College; M.A., Northern Illinois University; Ph.D., University of Illinois. At North Park since 2004.	
Bjorkman, Alan W.	<i>Professor of Biology</i>
B.A., North Park College; M.S., Michigan State University; Ph.D., University of Wisconsin-Madison. At North Park since 1995.	
Bricault, Dennis	<i>Professor of Spanish, Director of the English as a Second Language Program</i>
B.A., Wartburg College; M.Ed., Cemsem Business School, Barcelona, Spain; M.A., Northeastern Illinois University; Ph.D., Loyola University Chicago. At North Park since 1992.	
Cammarata, Martha	<i>Assistant Professor of Biology</i>
B.S., University of Pittsburgh; M.S., Ph.D., Northwestern University; At North Park since 2012.	
Choi, Yoojin	<i>Associate Professor, Biology and Coordinator of Summer Science Initiatives</i>
B.S., University of California, Irvine; Ph.D., Harvard University; At North Park since 2014.	
Clark, Gregory A.	<i>Professor of Philosophy</i>
B.A., Wheaton College; M.A., Wheaton College Graduate School; M.A., Loyola University of Chicago; Ph.D., Loyola University Chicago. At North Park since 1994.	
Clifton-Soderstrom, Karl	<i>Associate Professor of Philosophy and Director of General Education</i>
B.S. North Park University; M.A., Ph.D., Loyola University. At North Park since 2008.	
Craft, Linda J.	<i>Professor of Spanish</i>
B.A., College of Wooster; M.A., University of Akron; Ph.D., Northwestern University. At North Park since 1997.	
Dooley, Reinhold J.	<i>Director, Dialogue Program, Professor of English</i>
B.A., LaGrange College; M.A., University of Arkansas; Ph.D., University of Tennessee. At North Park since 1989.	
Florian, Lorenzo	<i>Professor of Spanish</i>
B.A., University of St. Thomas; M.A., Ph.D., University of Minnesota. At North Park since 1998.	

- Gorguis, Alice *Associate Professor of Mathematics*
M.S., Northeastern Illinois University; Ph.D., University of Illinois At Chicago. At North Park since 2004.
- Gray, Elizabeth *Associate Dean/Director, Division of the Sciences, Professor of Psychology*
B.A., University of California, Santa Barbara; M.A., Ph.D., University of Iowa. At North Park since 2002.
- Haefner, Margaret *Professor of Communications Arts*
B.S., Northern Illinois University; M.S., Ph.D., University of Illinois. At North Park since 2001.
- Hjelm, John R., Jr. *Professor of Exercise and Sport*
B.A., North Park College; M.A., Northwestern University; M.S., Northeastern Illinois University; Ph.D., Ohio State University. At North Park since 1977.
- Hodge, Daniel White *Professional Faculty, Assistant Professor of Youth Ministry Studies*
A.A., Monterey Peninsula College; B.A., California State University, M.A. Fuller Graduate Schools. At North Park since 2012.
- Hostetter, Robert D. *Professor of Communication Arts*
B.A., Eastern Mennonite College; M.A., Christian Theological Seminary; Ph.D., Northwestern University. At North Park since 1989.
- Illiff, Alan J. *Professor of Computer Science*
B.A., Shimer College; M.S., D.A., University of Illinois-Chicago. At North Park since 1982.
- Johnson, Rajkumar Boaz *Professor of Biblical and Theological Studies*
B.A., Hans Raj College, University of Delhi; M.Div., Union Biblical Seminary, Serampore Universe; Th.M., Ph.D., Trinity Evangelical Divinity School, At North Park since 2003.
- Kaestner, Aaron *Assistant Professor of Mathematics*
B.A., Indiana University; M.A., St. Louis University; Ph.D., University of Chicago at Illinois, At North Park since 2011.
- Koeller, David W. *Professor of History*
B.A., Syracuse University; M.A., Ph.D., University of California-Berkeley. At North Park since 1993.
- Larraza, Isabel *Professor of Chemistry*
B.S., M.S., Ph.D., National University of Mexico. At North Park since 2011.
- Lin, Ter-Yun *Assistant Professor of Biology*
B.A., Tunghai University, Taiwan; M.S., Louisiana State University; Ph.D., University of Iowa. At North Park since 2008.
- Lowly, Tim *Professional Faculty, Assistant Professor of Art*
B.F.A., Calvin College. At North Park since 1994.
- Lundgren, Andrew *Director, Athletic Training Education Program, Associate Professor of Athletic Training*
B.S., Springfield College; M.A., North Park University. At North Park since 1996.
- McDonald, Linda L. *Assistant Professor of Physics*
B.S., M.A., University of Oklahoma; Ph.D. Candidate, University of Chicago. At North Park since 1984.
- McNeal, Marielle *Instructor of Bibliography, Head Instructional Librarian*
M. S., Library Information Science, University of Illinois, Urbana-Champaign, IL; B.A., English and Professional Writing, Eastern Illinois University, Charleston, IL. At North Park since 2014.
- Mirza, Leona L. *Professor of Mathematics Education*
B.A., North Park College; M.A., Ed.D., Western Michigan University. At North Park since 1969.
- Nassif, Bradley *Professor of Biblical and Theological Studies*
B.A., Friends University; M.A., Denver Seminary; M.A., Wichita State University; M.Div., St. Vladimir's Orthodox Seminary; Ph.D., Fordham University. At North Park since 2004.
- Nedilsky, Lida *Professor of Sociology*
B.A., Miami University of Ohio; Prc, Fudan University; Roc, Taipei Language Institute; M.A., University of California, Berkeley; M.A., University of California, San Diego; Sar, Chinese University; Ph.D., University of California, San Diego. At North Park since 2002.
- Nelson, Jeffrey A. *Professor of Biology*
B.S., North Park College; M.D., University of Illinois College of Medicine. At North Park since 1998.
- Odelius, Kristy *Professor of English*
B.A., Towson University; M.A., Wheaton College; Ph.D. Candidate, University of Illinois. At North Park since 2004.
- Okore, Nnenna *Associate Professor of Art*
B.A., University of Nigeria; M.A., Ph.D., University of Iowa. At North Park since 2005.
- Parkyn, Linda *Professor of Spanish*
B.A., Gordon College; M.A., University of Massachusetts; Ed.D., Temple University. At North Park since 2006.
- Peterson, Charles I. *Dean of The College, Professor of Communication Arts, Director, Center for Scandinavian Studies*
B.A., North Park College; M.A., University of Illinois-Chicago; Ph.D., Northwestern University. At North Park since 1993.
- Peterson, Jonathan *Assistant Professor of Politics and Government*
B.A., Wheaton College; M.A., Ph.D., University of Minnesota. At North Park since 2009.
- Potteiger, Kelly *Clinical Coordinator, Associate Professor of Athletic Training*
B.S., Mississippi State University; M.S., University of North Texas. At North Park since 2007.
- Quinn, Anthony *Associate Professor of Exercise and Sport*
B.A., DePauw University, M.A., DePauw University. At North Park since 1978.
- Rabe, Susan *Professor of History*
B.A., North Park College; M.A., Ph.D., Loyola University. At North Park since 2000.
- Rholl, Drew *Assistant Professor of Biology*
B.S., North Park University; Ph.D. Colorado State University. At North Park since 2011.

Rienstra-Kiracofe, Jonathan

Professor of Chemistry

B.S., Calvin College; Ph.D., University of Georgia. At North Park since 2007.

Schau, Matthew

Professor of Biology

B.A., Carthage College; Ph.D., University of Illinois-Chicago. At North Park since 2004.

Schmale, Rachel

Associate Professor of Psychology

B.A., University of California, Berkeley; M.A., Ph.D., Purdue University. At North Park since 2008.

Shirkey, Kezia

Assistant Professor of Psychology

A.B., University of Michigan, M.S., Vanderbilt University, Ph.D. Vanderbilt University. At North Park since 2012.

Simms, Rupe

Professor of Africana Studies

B.A., Boston University; B.A., Moody Bible Institute; Th.M., Ph.D., Dallas Theological Seminary; Ph.D., Loyola University. At North Park since 1997.

Steinhart, Frank A.

Professor of Sociology

B.A., University of Illinois; M.S., Ph.D., Loyola University. At North Park since 1973.

Trujillo, Mary

Professor of Communication Arts

B.A., University of Illinois; M.A., University of New Mexico; Ph.D., Northwestern University. At North Park since 2002.

Vanderbrug, Kelly

Professor of Art

B.A., B.F.A., Calvin College; M.F.A., Washington University. At North Park since 2001.

Vazquez, Anne

Assistant Professor of Chemistry

B.S., Muhlenberg College; M.S., Ph.D. University of Michigan. At North Park since 2011.

Veeneman, Mary

Associate Professor of Biblical and Theological Studies

B.A., Wheaton College; M.Phil., Ph.D., Fordham University. At North Park since 2008.

Vick, Linda H.

Professor of Biology

B.S., Tufts University; M.A., University of Illinois; Ph.D., University of Illinois. At North Park since 1976.

Willits, Joel

Professor of Biblical and Theological Studies

B.S., Liberty University; Th.M., Dallas Theological Seminary; M.Phil., Ph.D. Cambridge University, England. At North Park since 2006.

School of Business and Nonprofit Management

Bonie, John

Professional Faculty, Associate Professor of Management

B.A., Aurora University; M.B.A., Doctoral Studies, Northern Illinois University. At North Park since 2000.

Born, John

Assistant Professor, Sports Management

B.S., Concordia University, Wisconsin; M.S., University of Richmond. At North Park since 1998.

Farruggia, Gianfranco

Professor of Management

B.A., University of Illinois; M.S., DePaul University; Ph.D., The Union Institute. At North Park since 2003.

Fitzgerald, Crendalyn

Professional Faculty, Associate Professor of Management

B.S., M.B.A., University of Illinois-Chicago. At North Park since 2002.

Gavoor, Mark

Professional Faculty, Associate Professor of Operations Management

B.S., University of Michigan, Dearborn; M.S., University of Michigan, Ann Arbor; M.A., M.S. Wayne State University. At North Park since 2012.

Hicks, Ann

Professor of Accounting

B.S., University of Kansas; M.S., University of Houston At Clear Lake City; Ph.D., University of Wisconsin. At North Park since 2002.

Hubbard, Christopher

Assistant Professor of Management

B.S., Bowling Green State University; M.A., M.B.A., North Park University. At North Park since 2012.

Kamienski, Alvin

Professor of Finance

B.A., University of Illinois; M.B.A., Northwestern University, Ph.D., Loyola University. At North Park since 2002.

Lindahl, Wesley

Dean, School of Business and Nonprofit Management, Nils Axelson Chair of Nonprofit Management

B.A., North Park College; M.S., University of Minnesota; Ph.D. Northwestern University. At North Park since 2002.

Marsh, Catherine

Professor of Management

B.A., History, University of California-Santa Barbara; M.B.A., North Park University. At North Park since 2001.

Rogers, Pier

Professor of Nonprofit Management, Director, Axelson Center For Nonprofit Management

B.A., Wellesley College; M.A., Boston University; Ph.D., New York University. At North Park since 2006.

Schilling, Pamela

Professional Faculty, Assistant Professor

MBA, University of Chicago; BSB, University of Kansas, At North Park since 2010.

Sundholm, Lee F.

Professor of Economics
