

## Introducing Our New Trustees

Dear North Park Community,

I am delighted to announce that nine new members are joining the North Park Board of Trustees — bringing dedication, expertise, and increasing diversity to the top governance of our University.

Four are serving in an advisory capacity this year before being slated on the ballot at next year's ECC annual meeting. Eight have at least one degree from North Park. Two have previously served on our Board. And one led the Vikings to three consecutive Men's Basketball NCAA Division III National Championships and is now an insurance executive and the founder and leader of a major non-profit (Grassharper Foundation) in Portland, OR.

ALL are outstanding in their professional fields — business and finance, marketing and communications, non-profit leadership, pastoral ministry — and ALL are absolutely devoted to serving North Park University.

We are very proud to have these stalwart North Parkers joining our governing Board of Trustees. [Please read their biographies!](#)

I know you will be as impressed, as delighted, and as proud as I am, for their commitment to North Park University — and for the way in which they will lead with humility, integrity, and accountability — on behalf of our students, our mission.

Sincerely,

Mary K. Surridge

President
