

Campus Update

Thanks to all who attended the Campus Update session during Fika on Wednesday afternoon in the Helwig Boardroom of the Johnson Center, marking our new practice of in-person informational updates for the campus community after the three meetings of the North Park Board of Trustees each year.

Campus update sessions will include information presented to the Board and any significant outcomes from their meetings and deliberations.

The November 2 session included information on the structure and membership of our Board of Trustees, along with their broad representation, professionally and geographically.

Additionally, Provost Carr, the Vice Presidents, and other senior administrators joined me in presenting information during our session together, and you will find the slide deck available [here](#).

Session highlights:

- Full Board session presentation, including notable North Park events since the May 2022 Board meeting.
- Threshold and Welcome Convocation, 2022.
- Academic Convocation, installations, faculty tenure, promotion, publication, and presentation.
- Initiatives and comprehensive investment in Diversity, Equity, and Inclusion, including an update on DEI Council and Campus Climate study.
- Updates on Institutional Strategic Planning and next steps.
- Enrollment results for Fall 2022, and next efforts.
- Retention results for Fall 2022, and next efforts.
- Budget update for FY22, along with projections and forecast for FY23.
- Save-the-Dates for next opportunities in community building.

Thank you for all you do to serve and support our students, and for your dedication to our mission.

Mary K. Surridge
President
