Impartiality Avoiding Prejudgment and Bias

“The Department’s interest in ensuring impartial Title IX proceedings that avoid prejudgment of the facts at issue necessitates a broad prohibition on sex stereotypes so that decisions are made on the basis of individualized facts and not on stereotypical notions of what “men” or “women” do or do not do.” 85 Fed. Reg. 30254 (May 19, 2020).
Impartiality

Avoiding Prejudgment and Bias

Do not rely on cultural “rape myths”

Do not rely on cultural stereotypes about how men or women purportedly behave

Do not rely on gender-specific research data or theories to decide or make inferences of relevance or credibility in particular cases

Recognize that anyone, regardless of sex, gender, gender identity or sexual orientation, can be a victim or perpetrator of sexual assault or other violence

Avoid any perception of bias in favor of or against complainants or respondents generally

Employ interview and investigation approaches that demonstrate a commitment to impartiality
Impartiality

Avoiding Prejudgment and Bias

Department rejected commenters’ arguments that individuals should be disqualified from serving as investigators because of past personal or professional experience.

“Department encourages [schools] to apply an objective (whether a reasonable person would believe bias exists), common sense approach to evaluating whether a particular person serving in a Title IX role is biased” WHILE

“exercising caution not to apply generalizations that might unreasonably conclude that bias exists (for example, assuming that all self-professed feminists, or self-described survivors, are biased against men, or that a male is incapable of being sensitive to women, or that prior work as a victim advocate, or as a defense attorney, renders the person biased for or against complainants or respondents)”
Impartiality

Avoiding Prejudgment and Bias

Commenters argued that investigators and hearing officers employed by schools have an “inherent conflict of interest” because of their affiliation with the school, so Department should require investigations and hearings to be conducted by external contractors.

Department noted that some of those commenters argued that this resulted in bias against complainants, and some argued that this resulted in bias against respondents.

Department’s response: Department’s authority is over schools, not individual investigators and other personnel, so Department will focus on holding schools responsible for impartial end result of process, without labeling certain administrative relationships as per se involving conflicts of interest.
Impartiality
Avoiding Prejudgment and Bias

Bottom Line:

✓ Follow facts of every individual case
✓ Investigate in manner that will not allow even a perception of prejudgment or bias for or against any party
